## A Word From Our President, Dr. Bill Brown

Thank you for your interest in Cedarville University!

This catalog is designed to answer many of the questions you may have about us. Please read it carefully. I also invite you to visit our campus to see for yourself why Cedarville is such a popular university among committed Christian young people today. We would love to have you join us and prepare for your life's career and ministry in this dynamic learning environment.

Christians have countless opportunities to serve Christ through business, medicine, law, engineering, education, the pastorate, missions, public office, counseling, and many other professions. At Cedarville, we strive to challenge you in pursuing a heart for God, forming a mind for truth, making friends for life, and committing to service for eternity. We want you to be both a committed Christian and a competent professional so that you can make a difference in this world for Jesus Christ.

I believe that you will be particularly impressed with the people who make up Cedarville University. Our faculty, staff, and administrators are here to teach you and to serve you in many different roles and also to encourage you to grow in Christ. They will demonstrate a sincere concern for your growth—intellectually, physically, emotionally, socially, and spiritually. You will find we really are family.

A Cedarville education combines the personal attention of godly faculty with a high-tech environment that commands national attention. For 116 years Cedarville University has offered Christian higher education consistent with biblical truth. We stand ready to help prepare you to serve our unchanging Christ in this millennium.

## History

Cedarville College was established on January 26, 1887, through the vision of five godly men who dreamed of a college that would provide Christian young people with an education that was offered within a spiritual framework. Affiliated with the Reformed Presbyterian Church, the College attracted many area students and built its first building, "Old Main," now called "Founders Hall," in 1895. Year after year, Cedarville attracted a record number of students and soon gained a reputation not only for its Bible teaching but also for its liberal arts program.

The turbulence of the first 50 years of the 20th century led to hard times for the College. Following WW II and one final attempt at revitalization, the trustees realized that the enrollment could not support expenses. The College would either have to find another church group to assume its operation or close its doors.

At that time the trustees of the Baptist Bible Institute of Cleveland, Ohio, were seeking a campus on which to expand. Hearing of Cedarville College, they visited the campus and were convinced that Cedarville was the site that God had chosen for their school. Upon mutual agreement by both trustee boards, ownership of the College was transferred on April 4, 1953. Cedarville College became a Baptist college of arts and sciences. James T. Jeremiah, the pastor who first suggested the Baptist Bible Institute-Cedarville College connection, was called to be the College's president.

Soon the College was alive and flourishing. By 1959, the enrollment had grown to 255. Faculty, staff, and facilities were added. Six years later the student body had nearly tripled to 763. By the end of Dr. Jeremiah's 25-year tenure as president in 1978, the College's enrollment had grown to over 1,200 students.

Paul Dixon was then called to lead Cedarville College. Through his leadership, the College has continued to flourish in every area, with nearly 3,000 students, more than 100 programs of study, and many new facilities.

In April of 2000 the Board of Trustees voted to change the designation of the institution from college to university effective September 1, 2000. The future looks bright for Cedarville University as it seeks God's continued blessing and enters its 116th year of service.

## Profile

Cedarville University is a Baptist university of arts and sciences. Since its founding, Cedarville has coupled a balanced liberal arts program with a conservative theological position in regard to doctrine and patterns of conduct. All classes are taught by dedicated Christian professors who integrate the knowledge of their respective fields with biblical perspectives.

In keeping with the liberal arts concept, the undergraduate curriculum centers on a basic program of general studies including biblical education, communications, global studies, humanities, physical education, science and mathematics, and the social sciences. Following this program, students choose a major field of concentrated study related to their abilities, interests, and career goals. Upon completion, students receive the baccalaureate degree. The University also offers graduate course work.

## Purpose

The purpose of the University has remained unchanged: to offer an education consistent with biblical truth. To achieve this purpose the University seeks to accomplish the following objectives:

1. To undergird the student in the fundamentals of the Christian faith and to stimulate each student to evaluate knowledge in the light of scriptural truth.
2. To encourage growth in Christian character in each student and to help the student accept responsibility in faithful Christian service.
3. To increase each student's awareness of the world of ideas and events which are influencing our contemporary culture and to prepare each student to participate knowledgeably in our society.
4. To enable each student to develop sound critical and analytical reasoning.
5. To provide sufficient opportunities for each student to practice the skills of communication.
6. To offer opportunities for academic specialization and preparation for graduate study and to assist each student in selecting and preparing for a vocation.
7. To foster each student's appreciation of and participation in wholesome avocational and cultural activities.

## Recognition, Accreditation and Licensure

Cedarville University is a four-year and graduate degree-granting institution chartered by the state of Ohio and certified by the Ohio Board of Regents. The University is approved by the State Department of Education for the education and licensure of teachers. The Bachelor of Science in Nursing degree is accredited by the Commission on Collegiate Nursing Education (CCNE). The Bachelor of Science in Mechanical Engineering degree and the Bachelor of Science in Electrical Engineering degree are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET). The Bachelor of Science in Social Work program is accredited by the Council of Social Work Education (CSWE).

The University holds membership in the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, Illinois, 60602-2502, 312-263-0456. This recognition signifies that the University is accredited.

The University also holds membership in the Council for Christian Colleges and Universities, the Ohio College Association, the Association of Independent Colleges and Universities of Ohio, the National Association of Independent Colleges and Universities, the Association of Christian Schools International, and the Ohio Foundation of Independent Colleges.

Information concerning accrediting agencies and respective accreditation requirements is available in the Office of the Academic Vice President.

# Introduction

## University Profile

---

### The Setting

Cedarville University is located on 400 acres at the north edge of the village of Cedarville, Ohio, a quiet town with a population of approximately 3,000. Founded in 1816 at the junction of two state routes, the village and its surrounding area have long provided a wholesome environment for learning.

This pleasant setting continues today. "Downtown Cedarville" features the historic Cedarville Opera House, two banks, haircutting establishments, a few restaurants, the ever-helpful Cedarville Hardware, and a coffee shop where many students like to relax and socialize with friends. Massies Creek and an adjacent park offer hours of recreation, adventure, and reflection within a mile of the University.

Rolling hills and prospering farms border the village and University. This beautiful area, which extends westward to John Bryan State Park, has been recognized as one of the most scenic in the Midwest and serves as a popular spot for students to relax.

Cedarville University is conveniently situated within easy access to shopping areas in the small cities of Xenia and Springfield. The University lies in the center of a triangle formed by three interstate highways, I-70, I-75, and I-71, and thus enjoys quick access to Columbus, Dayton, and Cincinnati. These metropolitan areas offer fine dining, professional sports teams, concerts, and employment opportunities.

### Facilities

#### Alford Hall

Initially built as a church in 1853 and renovated by the University in 1903, Alford Auditorium has served the University in several capacities, such as a gymnasium, chapel, and theatre. The building with its new annex now functions as classrooms and faculty offices.

#### Apple Technology Resource Center

The Apple Technology Resource Center was renovated in 1998 to further strengthen Cedarville's position as a national leader in instructional technology. The 24,000 square-foot facility features computer technology and general classrooms, computer laboratories, a video conferencing center, a computerized testing center, student lounges, and 17 offices.

#### Callan Athletic Center

Constructed in 1981, the Callan Athletic Center provides year-round recreation and training. This sports center features three full-length basketball courts, five volleyball courts, eleven badminton courts, a batting cage, and a training room. It seats nearly 3,000 fans for basketball games. The floor was completely renovated during the summer of 1999. The newly renovated second floor, opened in January 2003, includes the varsity room, six new classrooms, an exercise physiology lab, and office space for faculty and coaches in Exercise and Sport Science, and Sports Information.

#### Centennial Library

The 66,000 square-foot, two-story library served as the cornerstone of the university's 1987 centennial celebration. This structure brings together the latest technologies for higher learning and provides general study and specialized seating for over 800 students. Designed to house a collection of up to 250,000 volumes, the library also contains the media resource center, the instructional technology assistance service, the curriculum materials center, computer and media-supported classrooms, a variety of individual and group study facilities,

and the university archives.

The library presently houses over 175,000 volumes and provides almost 1,000 periodical subscriptions in print form and over 4,700 subscriptions in full-text computer format. As a member of OhioLINK, a cooperative of 79 institutional libraries, students and faculty have access to more than 8,000,000 unique titles in a centralized computer catalog. In addition, through an online computer network, OCLC, the library has access to approximately 46,000,000 books and other library materials in over 38,000 libraries in all 50 states, Canada, and many foreign countries.

#### Collins Hall

Renovated in 1987, Collins Hall houses the academic departments of communication arts and social sciences and history.

#### Communications Building

The Communications Building houses the CDR Radio Network, the University's radio ministry. Listeners worldwide "tune in" to CDR through a Real Audio Internet broadcast from the university website. A listener-supported ministry, the network offers a quality mix of praise and inspirational Christian music, Bible-centered programming, and up-to-date news and information.

#### Dixon Ministry Center

The 120,000 square foot Dixon Ministry Center, completed in 1996, includes the Jeremiah Chapel, the Christian Ministries Division, the Department of Music, and several classrooms.

The 3,400 seat chapel is the site of daily chapel services that bring the university family together daily for worship and instruction from God's Word. This auditorium features a 9-foot Steinway grand piano and a Rodgers 960 organ.

The music department facilities include 14 instructional studios, 20 practice rooms, 4 rehearsal halls, a piano pedagogy suite, a piano laboratory, a computer laboratory, 3 specialized classrooms, a large conference room, and a beautiful 250-seat recital hall.

*The Dixon Ministry Center—the heart of the campus.*

#### Engineering, Nursing, Science Center

This facility demonstrates the University's firm commitment to providing a quality Christian education in the sciences. This 95,000 square-foot, three-story academic center contains 11 classrooms, including a 200-seat auditorium; 10 independent study laboratories; 5 conference rooms; 36 discipline-specific laboratories; 50 offices; and several lounges. The building also contains a 39-station computer laboratory and features video and data connectivity in all offices, classrooms, and laboratories.

Special features include a 25-station computer-aided design laboratory, a reflecting telescope with a 16-inch mirror, an audio visual learning laboratory, a simulated hospital ward, and an engine test cell.

### **Fine Arts Building**

Located two blocks south of the main campus, this stately structure, donated by Andrew Carnegie, supports Cedarville's art program with a classroom, general art studio, photography darkroom, ceramics studio and kiln, and faculty offices.

### **Fitness-Health-Recreation Center**

Added to campus in 2003, the new Fitness-Health-Recreation Center provides space for intramural sports, academic programs in the Department of Exercise and Sport Science, recreational activities, and, for the first time on our campus, a modern and well-equipped fitness center.

#### *Fitness Center*

The fitness portion of the building is an open, inviting area. A climbing wall, reaching 40 feet in height, captures the attention of all who enter. This fitness area provides a significant number of cardiovascular machines, free weights, and other exercise equipment. Students can also enjoy a room for aerobic classes and workouts, three racquetball courts, and a vending and lounge area. Several staff offices and a storage area for outdoor recreation equipment are also located in the Fitness Center.

#### *Health Center*

The Health Center houses **University Medical Services**, which provides ambulatory health care with a staff that consists of physicians and College Health Certified registered nurses. University Medical Services offers many health care services such as preventative care, illness care, wellness education, over-the-counter medications, allergy injection management, laboratory services, prescription medications, rehabilitation treatment, and an insurance claim service.

#### *Recreation Center*

The largest section of the Fitness-Recreation-Health Center is the Recreation Center. This 60,000 square-foot area houses four courts that can be used for indoor soccer, basketball, volleyball, and other sports. It also includes a 200-meter track, with bleachers to hold 1,000 spectators. This track is used for individual walking and jogging as well as full indoor track meets.

### **Founders Hall**

"Old Main" has served as the focal point of campus activity for over one hundred years. This historic facility was renamed Founders Hall on Centennial Charter Day, January 26, 1987. Today this stately structure serves as Cedarville's administrative and academic headquarters with offices for the president and academic vice president.

### **Human Resource and Safety Center**

Following its renovation in 2001, the Human Resource and Safety Center houses the administrative offices of Human Resources, Public Safety, and the copy center.

### **Milner Business Administration Building**

Opened in 1987 and featuring the latest in instructional technology, the George Milner Business Administration Building contains general classrooms, a computer classroom, plus offices for the Department of Business Administration.

### **Patterson Hall**

Formerly the home of the University's Clinic, Patterson Hall now provides office space for the Department of Communication Arts.

### **Stevens Student Center**

This student-friendly facility houses the dining hall, snack shop, bookstore, post office, game room, student radio station, Career Services Office, theater, and student government. The 150,000 square-foot building is also the home of the Admissions, Financial Aid, Academic Services, Counseling, Student Services, and Campus Activities Offices.

The main cafeteria serves 21 "all-you-can-eat" meals a week. Students have the option of choosing either the full 21-meal plan or the 14-meal plan. The President's Dining Room features formal dining in an elegant setting. Used by the University's president, it may also be reserved by students who wish to enjoy a formal dining occasion.

The bookstore endeavors to provide students with the materials necessary to enjoy a successful college experience. It offers everything from sweatshirts to textbooks and greeting cards to Christian music.

The theatre complex includes a 400-seat theater, movement studio, makeup suite, offices and dressing rooms. The theatre has a 36' by 18' proscenium arch, 38 lines with full fly space, and a Gala electronic lift system for the orchestra pit.

*The Stevens Student Center, opened in the fall of 2000, is the central focus of campus life.*

### **Tyler Digital Communication Center**

This newly renovated facility includes a graphic design lab, writing center, multimedia lab, classrooms and offices. Offices for Alumni, Public Relations, Development, and Computer Services are also located in this building.

### **Williams Hall**

Providing classrooms and offices, Williams Hall serves as the home of the academic departments of education, language and literature, and psychology.

# Introduction

## Computer Network

### Computer Network

Cedarville University is known nationally as a leader in campus computer networking and instructional technology, providing networked computers in each of the residence hall rooms, laboratories, and offices.

CedarNet is a winner of the CAUSE Award for Excellence in Campus Networking. This prestigious national award recognizes colleges and universities which exemplify best practices in campus networking in higher education.

#### Equipment

The network features Pentium or AMD computers with 256MB-512MB RAM, hard disk drive, floppy disk drive, CD-ROM (many with DVD/CD-RW drive), sound card, and monitor. In addition, each networked residence hall room contains an inkjet printer. All laboratories offer high-quality laser printers and flatbed scanners. The library computer laboratory also features color printers, digital cameras, and other specialized equipment. Internet access is supported through the use of a DS-3 line.

#### Access

All students living in a residence hall benefit from 24-hour access to the network. Residence hall computers are replaced on a three-year cycle so that students always have current technology available. To enable students to take further advantage of the network, public laboratories, with a total of 120 stations, are conveniently open to on- and off-campus students.

#### Benefits

Students using the network can:

- Communicate electronically on campus with professors, friends, and classmates, or with friends and family around the world.
- Manage, display, and analyze data using spreadsheet, statistical, and database software.
- Search library holdings for personal and class research projects, papers, or presentations, even when the library is closed.
- Access their course schedule, college transcript, or business office account.
- Learn to use the network through online tutorials and training seminars for commonly used software applications.

Computers in every residence hall room provide 24-hour access to CedarNet, the award-winning campus computer network.

#### Technology Advisory Board

The Technology Advisory Board consists of corporate leaders and professionals representing a variety of technology-oriented businesses. Annually, these experts advise the University and evaluate its plans for further strengthening Cedarville's position as a leader in instructional technology.

Technology is incorporated into many class assignments and projects, providing accuracy and organization of information.

## University Services

The University recognizes the importance of providing our students with a high level of support and provides a full range of student services including career services, counseling, and a strong orientation program for new students.

### Career Services

The Career Services Office seeks to assist students in determining their God-given skills and interests. Assessment tools are available to help students translate abilities, values, and aspirations into a plan of action for sound career/ministry decisions.

Career Services provides materials for job-search techniques, resumé writing, interviewing, and gaining admission to graduate school. Interest inventory tests and a computer-assisted career development program are available to help students in determining majors and occupations. In addition to a career library, the career services home page ([www.cedarville.edu/career](http://www.cedarville.edu/career)) links to the very latest in network-based job search programs, guides to major employers, and directories for graduate schools.

Career Link Days are held each year to provide an opportunity for prospective employers to meet with students. Potential employers also visit the University for individual on-campus recruiting days. Video conferencing is available for employer/student interviews.

Students who register with the office are placed in a job-match database that enables Career Services to provide resúmes to employers and publish them on the Internet. The office maintains credential files for all education majors and provides registered seniors and alumni with a reference/credential service.

### Career Services Advisory Board

The Career Services Advisory Board consists of professionals from nonprofit and for-profit sectors, other college career offices, and graduate school programs. Annually the board meets to advise and evaluate Cedarville's plans for further strengthening the career and ministry placement services.

*Jeffrey A. Carter, The University of Dayton, MBA Programs*

*Timothy Houghton, The Horace Mann Companies*

*Carol Rivetti, Comstor, Inc.*

*Marcella Sampson, Central State University, Emeritus*

*Jennifer Sheehan, Rocking Horse Center*

*Ronald Walker, Cedarville University*

*Thad Winston, The State Farm Insurance Companies*

*Myron L. Youngman, The Kaifa Group, Incorporated*

### Counseling Service

The Counseling Service provides a place where students can find understanding, encouragement, and counsel as they deal with personal, interpersonal, and spiritual concerns.

Support groups are formed as needed. This service, for which students pay no additional charge, is offered by appointment. In the case of a crisis, the service is provided as needed.

In addition, the vice president for Christian ministries, faculty members, and staff members provide counsel and guidance to students. Faculty advisors are particularly prepared to assist students in program and course selection.

### Healthcare and Medical Services

The nurses and physicians at Cedarville University Medical Services work closely with area hospitals and specialists to provide comprehensive health care for students.

The services of University Medical Services also include Cedarville University Emergency Medical Services, a volunteer EMS ambulance service manned with students who are nationally certified EMT's and/or paramedics. CUEMS is available 24 hours a day when classes are in session to respond to campus emergencies.

All students taking six or more credit hours per semester are enrolled in a Student Health Insurance Plan as a benefit of tuition. Students taking less than six credit hours may purchase the Student Health Insurance Plan. Married students may also purchase the Student Health Insurance Plan for their spouse and dependants. Refer to the Student Health Insurance Plan brochure for details of the coverage.

*CUEMS volunteers are prepared to respond to a campus emergency 24 hours a day.*

### Housing

Residence hall living is an integral part of the educational process at Cedarville. All single students under 25 years of age, except those commuting from the home of their parents or legal guardian, are required to live in university residence halls. Students 25 and older must secure off-campus housing.

Approximately 80% of the student body lives on campus in university housing. Men and women are housed in separate residence halls. All offer convenient laundry and lounge areas and house just two students per room. Each room is fully furnished and equipped with a phone, permitting students to dial and receive calls directly. Every residence hall room is equipped with a networked computer and printer.

Housing assignments are made by the Student Services Office. Upperclassmen who have paid reservation fees are given priority for reserving rooms. New students are assigned rooms after they have been admitted and have submitted their reservation deposits. Complete information concerning residence hall staffing, furnishings, and policies is found in the student handbook at [www.cedarville.edu/studenthandbook](http://www.cedarville.edu/studenthandbook). An abbreviated format is mailed to new students prior to their arrival on campus.

Married students find housing at Cedar Park, a university-owned apartment complex, or in one of many area apartments.

## University Services/Chapel

---

### New Student Orientation

At the start of each semester, new students are provided with opportunities designed to facilitate adjustments to their new surroundings. The program includes orientation for parents. Special interest sessions, question and answer times, small group meetings, and social activities provide opportunities to adjust to a new environment. Placement testing may be required during orientation.

### Vehicles

Freshmen with grade point averages of 2.5 or higher may bring motor vehicles to the University after their first semester. Sophomores, juniors, and seniors must maintain a 2.0 cumulative grade point average to retain the privilege of having a motor vehicle at the University. All motor vehicles must be registered with the Campus Public Safety Office.

### Chapel

Dr. Dixon, our chancellor, has said many times, "The heartbeat of every Christian college/university is chapel."

Five days a week the Cedarville family and guests meet in our 3,400-seat James T. Jeremiah Chapel. At 10:00 a.m., the auditorium comes alive as the university family laughs, cries, sings, prays, and worships together. It is a place where we connect as a strong family does.

Speakers from far and near grace our chapel platform to inspire and challenge our hearts. People like Dr. David Jeremiah, Dr. Joe Stowell, Alistair Begg, Knute Larsen, Jim Cymbala, and Dr. Warren Wiersbe, just to name a few, bring God's Word to us.

Alumni often speak of chapel being one of the things they miss most after graduation. Many return to be able to sit in on one more chapel experience.

### Student Life

At Cedarville we seek to maintain a culture which reflects the values of the kingdom of heaven and the spirit of Jesus Christ. Cedarville's student life program is designed to support this kind of environment and to contribute to each student's growth intellectually, spiritually, socially, and physically. In each of these areas we recognize the relevancy and authority of the Bible and accept it as our final authority for faith and practice. Core values which shape our culture include love for God, love for neighbors, excellence in effort, and integrity in conduct.

### Spiritual Emphasis

The University desires that each student grow in his or her relationship with Christ. Consequently, students are urged to set aside a definite period of time each day for private devotions. Daily chapel services provide spiritual encouragement and enrichment. Additionally, all students are required to attend church services regularly.

Opportunities for worship include the Cedarville University Fellowship, which meets in the university chapel, as well as numerous churches within easy driving distance of Cedarville.

Spiritual growth is further encouraged through student prayer groups which meet regularly to pray for special needs. One day each semester is set aside as a "Day of Prayer," a time when the entire university family gathers to pray together.

### Lifestyle Commitment

At Cedarville we recognize and value the Bible as an authoritative guide for how we should live. We believe that our behavior should manifest qualities which honor Christ, and which demonstrate obedience to the Bible. Consequently, all members of the university family agree to live according to the University's lifestyle commitment. Faculty, staff, and administrators reaffirm this commitment annually when they sign their contracts. Students affirm their agreement to live by this commitment as a part of the application process and upon registering for classes. Some aspects of this agreement reflect our biblical convictions; others reflect what we call "institutional preferences."

Specifically, we agree to avoid acts of sexual immorality, and we agree not to use alcoholic beverages, tobacco products, or nonmedical drugs. In all things we seek to serve Christ and to avoid personal attitudes of dishonesty, selfishness, disrespect, racism, unethical conduct, and irreverence.

A discipline system exists to correct those who violate the lifestyle agreement. Discipline can range from a small fine to immediate dismissal based on the severity of the offense. In all cases, our desire is to restore the individual to a correct relationship with Christ. Immediate dismissal often occurs in situations involving sexual immorality, theft, or a violation of the University's alcohol or drug standards. The University's standards of conduct are listed in the Cedarville University Student Handbook ([www.cedarville.edu/studenthandbook](http://www.cedarville.edu/studenthandbook)), along with information about how students can request a hearing involving a disciplinary incident, or what steps they can take to seek readmittance to the University following a dismissal.

**Theta Rho Epsilon** is a men's organization that seeks to develop character and friendships through social and service opportunities.

### Music Groups

Students with musical abilities may utilize their talents in any one of a number of musical groups. Membership in any of these musical groups is typically determined through auditions, which occur during "Getting Started" weekend.

Instrumentalists may participate in the Symphonic Band, Brass Choir, University Orchestra, Jazz Band, Flute Choir, Yellow Jacket Pep Band, or various chamber ensembles.

Vocalists may sing with the Concert Chorale, Men's Glee Club, Women's Choir, University Jazz Singers, Jubilate ministry choir, Gospel Choir or one of the many small ensembles directed by the Division of Christian Ministries.

### Intercollegiate Athletics

Cedarville University maintains intercollegiate competition for men in baseball, basketball, cross-country, golf, indoor and outdoor track, tennis, and soccer. Intercollegiate sports for women include basketball, cross-country, indoor and outdoor

track, softball, tennis, volleyball, and soccer. Cedarville is a member of the American Midwest Conference, the National Association of Intercollegiate Athletics, and the National Christian College Athletic Association.

Students interested in participating on an intercollegiate athletic team should contact the Admissions Office or the respective coaches. A limited amount of athletic financial aid is available for outstanding athletes.

### Campus Activities

The Campus Activities Office provides a program of cultural, social, educational, and recreational activities. Programs include Christian concerts, cultural programs, musical specialists, banquets, talent nights, all-school parties, special interest trips, retreats, topical discussions, and guest speakers. A full range of recreational and intramural sports for both men and women completes the integrative approach of Campus Activities.

Involvement in campus organizations provides additional opportunities for learning and social interaction. To learn more about student organizations, visit [www.cedarville.edu/dept/cao](http://www.cedarville.edu/dept/cao).

### Leadership Opportunities

The Campus Activities Office provides opportunities for leadership development. The Leadership Institute at Cedarville University is designed to enhance the character traits, knowledge base, and skills of developing student leaders. The philosophy of The Leadership Institute assumes that inherent leadership potential varies in individuals based on personality strengths, intellect, and spiritual giftedness, but that all students can increase their leadership ability over time. Opportunities include, but are not limited to, the following:

- **The Excel Initiative** – Workshops for all students who desire to enhance leadership skills
- **The Character Forum** – Panel discussions, chapel series, and awards to develop and recognize strong character
- **The Operation Timothy Mentoring Program** – Connects students with proven leaders for personal reflection and accountability

### Recreational Activities

The Recreational Activities Program provides a variety of intramural sports (20 sports), outdoor pursuits (skiing, rock climbing, caving, whitewater rafting, etc.), fitness and special events to help meet the fitness and recreational needs and interests of our university family. For a list of activities and additional information, visit the following website:

[www.cedarville.edu/dept/cao/ra/ra-home.htm](http://www.cedarville.edu/dept/cao/ra/ra-home.htm).

### Student Government Association

Student Government exists to provide a means by which the student body can express their thoughts and desires to the administration. SGA also orchestrates activities, chapels, organizations and leadership opportunities for the benefit of the student body.

## Christian Ministries

The Division of Christian Ministries coordinates all university-sponsored student ministries. Cedarville views individual ministry involvement to be a vital and necessary part of each student's education and personal growth. Students are taught that biblical Christianity demonstrates a servant's heart in all areas of life. All are challenged to consider how their academic disciplines, interests, and abilities can be used to demonstrate their faith. Cedarville endeavors to stretch students' vision of ministry and develop a constant awareness of God's call upon their lives.

Directed by the vice president for Christian ministries and coordinated through full-time and part-time staff members, the Division of Christian Ministries provides training and assistance to the hundreds of students who volunteer each year.

### Community Ministries

Cedarville University is located in a region known as the Miami Valley, encompassing the cities of Columbus, Dayton, and Cincinnati as well as hundreds of smaller communities. Approximately 80 teams serve the local communities and churches each week. Ministry teams seek to serve individuals and churches of this area by providing assistance in specialized areas including: Crisis Pregnancy/Abstinence and Counseling Ministries, Evangelism/Urban Outreach Ministries, Public School Tutoring/Teaching English Ministries, Youth & Children's Ministries, Jail/Detention Center Ministries, Hospital Ministries, Nursing Home/Elderly Visitation Ministries, Special Needs Ministries, and Local Church Ministries.

### Cross-Cultural Ministries

The University's own Missions Involvement Services (MIS) provides unique opportunities for students to experience missions firsthand. Each year during breaks and in the summer more than 250 students minister around the globe. This involvement in missions aids missionaries in their work and helps students discern God's direction in their own lives. Participants raise their own financial and prayer support prior to leaving and report on their ministries upon returning.

Nearly 70 countries have been served by MIS participants since it started in 1970. For specific information concerning potential ministries and selection procedures, students should contact the MIS director.

Students considering international careers in education often take advantage of the MIS program to gain cross-cultural experience while completing the student teaching segment of their education requirements. Students interested in this option should contact the education department for information and approval.

The majority of students who participate in the MIS program do so as members of teams. Created to perform a particular service such as singing, drama, puppets, medical assistance, technical assistance, orphan care, teaching English as a second language, or physical labor, teams are typically selected each fall. Students interested in team ministries should contact the MIS director for details.

### Discipleship Ministries

While many ministries concentrate on "outreach" from campus, the focus of discipleship ministries is "in-reach" on campus. Opportunities include approximately 50 student-led small group Bible studies, men's and women's prayer groups, and a Scripture memory group. Discipleship ministries are excellent avenues for growing in your walk with God and finding opportunities to minister to fellow Cedarville University students.

### Touring Team Ministries

Touring teams offer an exciting opportunity to minister and represent Cedarville University. Selected on an audition basis, all team members receive a salary. Teams rehearse approximately six hours a week and travel five weekends each semester and nine weeks during the summer. Auditions are held each year during the first week of school.

- **Lifeline Players** use drama to encourage and challenge youth and adults in their faith (team selection is held in the spring).
- **Master's Puppets** use puppetry and a variety of other teaching methods to minister to children.
- **Music Teams** are nine-member ensembles with vocalists, keyboard players, a guitarist, percussionists, and a sound technician.

### Spring Break Ministries

A number of teams are available to give students the opportunity to minister over the school's spring break. Ministries include, but are not limited to the following: Child Evangelism Fellowship, Children's Bible Fellowship, Inner City Impact, Joy Ranch, The Master's Mission Team, and Shepherd's Home.

### Selecting a Ministry

All students participate in Christian ministries voluntarily. As a result of the large number of ministries available, deciding which way to serve can seem overwhelming.

In selecting a ministry, students should apply the following:

1. Consider your interests. Select a ministry that allows you to do something you enjoy.
2. Consider your vocational goals. There are many ministries that are directly related to the majors offered at Cedarville University. A Christian ministry related to your chosen field can help you decide if you have made the right choice, and in some cases may lead to an internship, reference, or employment.
3. Talk with upperclassmen. Find someone who has experience in the ministry you are considering.
4. Talk with the Christian ministries staff in the Dixon Ministry Center. The staff is available to answer questions you might have.
5. Attend organizational meetings, many of which occur during the first two weeks of Fall Semester.

### Requirements

1. All students are encouraged to participate in the university's volunteer Christian Ministries program.
2. Students are asked to record their current area of ministry involvement each semester.
3. University-owned transportation or mileage reimbursement is provided for those ministries approved through the Division of Christian Ministries.

# Academic Information

## Admissions

---

### Admission Criteria

Cedarville University invites applications from secondary school students who are able to present strong academic records and a clear testimony of faith in Jesus Christ. In selecting students, the Admissions Committee admits students who are most likely to contribute positively to the university community and to graduate. They carefully consider all factors that demonstrate the applicant's ability to succeed at Cedarville University. Students who wish to attend the University on a part-time basis should also follow these admission procedures.

Criteria for selection include:

1. Evidence of a personal relationship with Jesus Christ and a consistent Christian lifestyle.
2. Academic record, recommendations, and rank in class.
3. Scores from the ACT or SAT I tests.

ACT scores are preferred. Because test scores are used for placement purposes, transfer students may be requested to submit them.

Applicants with the best prospects for admission have academic credentials that include a college-preparatory secondary school curriculum, a "B" grade average, a rank in the upper half of the class, and an ACT or SAT I test score above the national average.

The University does not discriminate on the basis of race, color, sex, or national origin. The University admits students with various disabilities.

### Secondary School Requirements

Although the University does not prescribe actual secondary school course requirements, it recommends that students follow a college preparatory curriculum that includes:

- 4 units of English (grammar, composition, and literature)
- 3-4 units of mathematics (algebra I, II, geometry, and trigonometry)
- 3 units of natural science (physical science, biology, and chemistry)
- 3 units of social studies (history and government)
- 3 units of a single foreign language

Students planning to study engineering, science, mathematics, or nursing should take as many mathematics and science courses as possible in their secondary school curricula.

High school electives should be chosen to develop interests and skills in related practical fields. Skill in keyboarding is of real value in completing many course assignments and is of particular importance to students who plan to enroll in college computer courses. Keyboarding skill enables students to take full advantage of the extensive computer resources at the University.

### Home-schooled Students

The University welcomes applications from students with non-traditional secondary school experiences. Typically, scores from standardized tests such as the ACT or SAT I are used to help assess readiness for college-level academic work. To assist students unable to take the ACT locally, the University offers the ACT on campus on a monthly basis to prospective students.

Except for those admitted under the early admission program, students must give evidence of high school completion by the time they begin taking courses at the University.

### Family Rights and Privacy Act

Cedarville University complies with the Family Educational Rights and Privacy Act (the Buckley Amendment), which is

designed to protect the privacy of educational records, to establish the right of students to inspect and review their records, and to provide guidelines for the correction of inaccurate or misleading data through informal and formal hearings. The University has adopted a policy that explains in detail the procedures followed for compliance with provisions of the Act. Copies of the policy are available in the Academic Services and Student Services Offices.

### Early Admission

Students who have completed their junior year of high school may apply for early admission. This is especially helpful for students who anticipate a lengthy graduate program after graduation from college. In addition to following normal application procedures, early-admission applicants should submit superior academic records, strong recommendations from high school teachers, and a statement of approval from parents or guardians. An interview is also suggested.

### Admission Procedure

Students are encouraged to apply on-line at [www.cedarville.edu/myapplication](http://www.cedarville.edu/myapplication). Paper applications are available from the Admissions Office.

To be considered for admission to Cedarville University, a student must:

1. Complete and return an application for admission with a \$30 application fee.
2. Send ACT or SAT I score reports to Cedarville University. (Use the ACT code of 3245 or SAT code of 1151 when you register for the tests to have your scores sent directly to Cedarville.) The application for admission may be submitted before taking these tests.
3. Request that high school transcripts through the junior year be sent to Cedarville University, along with a recommendation from the high school counselor. Class rank at the end of the junior year should be included.
4. Request a recommendation from the pastor or a church leader of the church the applicant attends.
5. Transfer students should request that official copies of transcripts for work completed at other colleges be sent to Cedarville University.
6. Students transferring from a Christian college must submit a recommendation from the dean of students.

Students who have been offered admission for a particular semester may request to defer their enrollment to a subsequent semester by notifying the Admissions Office in writing at least one month before the semester begins.

### Readmission

A student whose academic work has been interrupted for one semester or more must apply for readmission two months before the beginning of the semester in which the student desires to matriculate. Readmission forms are available online or from the Admissions Office. An updated recommendation from the pastor or church leader of the church attending is needed. If college-level work has been completed elsewhere, official transcripts should accompany the application for readmission.

A student who has been readmitted after one year away from Cedarville University must complete the graduation requirements as outlined in the catalog in use at the time of re-enrollment.

## Transfer Students

Students who wish to transfer to Cedarville should submit, along with their application for admission, official transcripts of credit from all colleges attended. College-level credits earned at accredited colleges are usually transferable. Applicants with the best prospect of admission have academic credentials that include a “B” grade average (3.0/4.0 scale) in a full-time college-level class schedule. Courses in which less than a “C-” is earned are not granted transfer credit.

Grades for courses taken at other colleges and transferred to Cedarville are not included in the Cedarville cumulative grade point average. Only the work completed at Cedarville is included.

To help in the transition to Cedarville University and to meet other new transfer students, all transfer students are required to attend a new student orientation.

Information concerning the transfer of credits is available from the Academic Services Office. Specific course equivalencies can be determined upon receipt of official transcripts.

## Deadlines and Notifications

In most cases, Cedarville University follows a rolling admissions procedure. An application is processed as soon as the file is complete. A completed file includes an application for admission, a \$30 application fee, ACT or SAT I scores, a high school transcript, a college transcript (if applicable), a high school counselor’s recommendation, and a pastor’s recommendation. Applicants are typically notified by letter within two weeks after the Admissions Committee acts upon the completed file.

Due to the record number of applications the University has been receiving in past years and the challenge presented by our commitment to moderate enrollment growth, there may be times when the admissions committee recommends that an applicant’s file be held for later review. This process is known as deferred decision. Deferred decisions occur in March and involve a thorough review of the applicant’s academic credentials as well as a variety of personal factors. Applicants who are held for deferred decision will be notified by letter.

## Reservation Deposit

A reservation deposit must be submitted by new students as an indication of their intention to enroll. The amount of the deposit is \$250. This money is credited to the student’s account and used to cover first semester expenses. A student must submit a reservation deposit to register for courses.

The reservation deposit is fully refundable if the request for refund is received before the reservation deposit deadline. Requests for refunds received after the reservation deposit deadline are partially refundable (\$150 of the \$250 deposit) until the refund date. No refunds are available after the refund dates. All refund requests must be made in writing by the student.

Reservation deposit submission deadlines and refund dates are as follows:

Term	Deadline	Refund dates
Fall Semester	May 1	July 1
Spring Semester	Nov. 1	Dec. 1
Summer Session I	April 15	May 1
Summer Session II	May 15	June 1
Summer Session III	June 15	July 1

Students admitted after the reservation deposit deadlines must submit their reservation deposits as soon as possible or within two weeks of notification of admission.

## Individuals with Disabilities

Through specific counseling, adjustments are made to enable students with disabilities to achieve their educational objectives. Additional information concerning specific services is available from the Student Services Office or the Academic Assistance Center. Individuals with disabilities are advised to contact the director of academic assistance, Dr. Pamela Johnson, at (937) 766-2211, ext. 7765, for appropriate academic accommodations. The Campus Safety and Physical Plant departments handle ADA compliance issues.

## International Students

Cedarville University welcomes applications for admission from students of all nations. The University was approved for attendance by non-immigrants by the Immigration and Naturalization Service in 1959. International students should follow the university admissions procedure carefully, submitting their applications well in advance of deadlines so that sufficient time is available for processing and communication. Those coming from countries in which English is not the native language may need to demonstrate their proficiency in English by taking the Test of English as a Foreign Language Examination (TOEFL) and earning a paper-based score of 550 or better, or a computer-based score of 213 or better. All international applicants are required to submit either TOEFL or SAT I scores.

To satisfy United States Immigration and Naturalization requirements, upon acceptance international students must deposit \$21,674 (includes \$1,720 for personal expenses) at the University in United States currency or submit a certified affidavit of support that demonstrates the ability to cover university-related expenses. Full admission to the University is granted upon receipt of these funds or an affidavit. Questions concerning this procedure should be directed to the international student advisor.

International students can qualify for some academic institutional scholarships. Campus employment is also available during the school year and summer.

*The beautiful 400-acre campus of Cedarville University offers many quiet places to find study time.*

# Academic Information

## Academic Information

The Cedarville University academic program is designed to meet the educational, moral, physical, social, and spiritual needs of young people who desire to honor God with their lives. The total program represents a balance between the knowledge gained through the courses studied, the co-curricular activities, and worship in the regular chapel and church services. In such a setting, truth from Scripture is integrated with the knowledge taught in each course to provide effective learning and enduring life values. The knowledge and skills learned from the courses give students an excellent background for professional competence in their chosen fields.

### Admission to Academic Programs

Some academic programs have unique requirements. For example, music students must audition for entry to that department; engineering candidates must meet a minimum test score requirement; students in education, social work, and nursing apply for admission to their respective programs during their sophomore year after the program prerequisites have been satisfied. Therefore, students should review the specific entrance requirements outlined in the respective departmental sections of the catalog. Admission to the University does not guarantee admission to an academic program.

### Academic Enrichment Program

The University offers a supplemental academic assistance program to serve students whose academic backgrounds do not reflect their collegiate academic potential. Components of this program include an orientation course entitled COLL-1000 Transitions, special advising, tutoring when necessary, and in some cases, diagnostic testing. Admission to the academic enrichment program is determined by the Admissions Committee. Students selected for this program usually take a typical freshman course of study comprised of General Education Requirements.

Students who complete the program find that this assistance during the first year of college helps them establish an excellent foundation for academic success in the future. A complete description of this program is available from the Admissions Office.

*Cedarville students look for ways to share their faith with people while building relationships for eternity.*

## Advanced Placement

High school students may receive advanced collegiate standing by participating in the advanced placement program. Up to 40 semester credits may be earned through this program or by other test-out procedures. Hours earned through the advanced placement program do not count as hours in residence toward graduation with honors.

To earn credit through advanced placement, students must enroll in specific advanced placement courses offered by their respective high schools. Upon completing these courses, students take individual advanced placement examinations in each advanced placement course. Students may earn college credit for advanced placement scores of three, four, or five.

Students should request that scores from these examinations be sent directly to Cedarville University by entering code number 1151 on their registration forms. Upon receiving these scores, the University awards the appropriate amount and type of credit for each examination as determined by each academic department. No fees, other than the fees accompanying the examinations, must be paid in order to receive the university credit. In some cases, sophomore standing in particular subject areas may be earned through these examinations. Students should contact their local high schools to obtain advanced placement course and registration information.

## College Level Examination Program (CLEP)

Students earn credit through CLEP by taking nationally standardized examinations in a variety of subject areas. These tests may be taken at local colleges before enrolling at Cedarville or at Cedarville after enrolling. To have CLEP scores sent directly to Cedarville University, students should enter code number 1151 on their CLEP registration forms. By earning scores above specified levels, students receive college credit in specific course areas. Up to 40 semester credits may be earned through this program or by other test-out procedures. A complete list of the appropriate tests and respective Cedarville courses, as well as registration information, is available from the Admissions Office, the Academic Services Office, or the University website. No fee, other than those accompanying the examinations, must be paid in order to receive college credit through CLEP.

Students who wish to use CLEP examinations to satisfy General Education Requirements in foreign language, literature, humanities, mathematics, natural sciences, and social sciences must earn credit-satisfying scores on the respective CLEP examinations by the time they earn 61 semester credits. Students may not pursue CLEP credit for courses in which they were enrolled previously, nor may they pursue CLEP credit for a course if they have taken a more advanced-level course in that discipline.

Transfer students transferring more than 61 credits must earn credit-satisfying scores on respective CLEP examinations by the end of their first semester of full-time attendance at Cedarville. Hours earned through CLEP do not count as hours in residence toward graduation with honors.

## International Baccalaureate

The International Baccalaureate (IB) is an internationally recognized program that enables students to follow a special curriculum and take specific examinations to fulfill secondary school graduation requirements. Students can earn up to 18 semester hours for IB Higher Level examinations on which they earn scores of five, six, or seven. A maximum of six credits is permitted in any one group. To receive credit, students should submit IB transcripts to the Admissions Office.

## Degree Requirements

Cedarville University grants two master's degrees and eight baccalaureate degrees: Master of Education (M.Ed.), Master of Science in Administration (M.S.A.), Bachelor of Arts (B.A.), Bachelor of Computer Engineering (B.S.Cp.E.), Bachelor of Music (B.M.), Bachelor of Music Education (B.M.E.), Bachelor of Science (B.S.), Bachelor of Science in Electrical Engineering (B.S.E.E.), Bachelor of Science in Mechanical Engineering (B.S.M.E.), and Bachelor of Science in Nursing (B.S.N.).

A degree candidate should carefully study the requirements for that degree as well as the special requirements for graduation found in this catalog. Careful attention to these requirements will enable the student to avoid doing unnecessary work. **Students are responsible to see that graduation requirements are met.** Bachelor's degree requirements are listed below.

1. Meet all admission and proficiency requirements.
2. Complete at least 128 semester hours (not including proficiency), 32 hours of which must be of upper-division work (3000-4000 level courses).
3. Maintain an overall cumulative grade point average of not less than 2.0.
4. Maintain a grade point average in the major of not less than 2.0.
5. Establish minimum residency of one year (32 semester hours, normally the senior year).
6. Complete the General Education Requirements.
7. Complete the specific course and professional requirements for the desired major. At least one-third of the course requirements within a major must be taken from Cedarville University.
8. Demonstrate proficiency in the use of the English language on a standardized examination or complete ENG-1400 Composition with at least a 2.0 grade point average, on a four-point scale.
9. Satisfy the appropriate global awareness requirement.
10. Participate in the university testing and assessment program when asked.
11. Complete an application for commencement.

Specific curricular requirements are outlined in each departmental section of the catalog.

## Requirements for a Second Degree

If a student has a baccalaureate degree from Cedarville University and desires to earn a second degree, the student must:

1. Meet all the admission requirements.
2. Have fulfilled each of the General Education courses in biblical education.
3. Earn a minimum of 160 credits (32 credits beyond the 128 minimum required for a first baccalaureate degree). At least 22 of the credits earned after 128 must be taken at Cedarville University.
4. Earn at least 43 credits in upper division courses (3000-4000 level courses).
5. Fulfill the requirements of a designated major of the second baccalaureate degree. Any appropriate coursework from the first degree may be applied toward the second degree.
6. Earn at least a 2.0 grade point average in the major.
7. Participate in the university testing and assessment program when asked.
8. Complete an application for commencement.

If a student has a baccalaureate degree from another institution and desires to earn a second degree, the student must:

1. Have earned the first baccalaureate degree from a regionally accredited institution of higher education or from an institution specifically approved by Cedarville University.
2. Meet all the admission and proficiency requirements.
3. Earn at least 32 credits from Cedarville University, including at least 22 credits of upper division courses (3000-4000 level courses).
4. Fulfill the equivalent of the Cedarville University General Education Requirements.
5. Fulfill the requirements of a designated major for the second baccalaureate degree.
6. Earn at least a 2.0 grade point average in the major.
7. Participate in the university testing and assessment program when asked.
8. Complete an application for commencement.

## Selecting a Major

Many students have not chosen a major field of study by the time they enroll at Cedarville. Others change their major at some time during their collegiate studies. The University offers special advising and other services to help students make these important decisions.

Students uncertain of a major begin as "undeclared" majors. They work with academic advisors who specialize in helping students who have not yet chosen a field of study. Until they choose a particular major, "undeclared" students typically take courses specified as meeting the General Education Requirements. They are also encouraged to utilize the resources of the Career Services Office. This office offers career profiles, interest inventories, and counselors so that students in the midst of making career decisions have good information.

Most "undeclared" students select a major by the middle of the sophomore year. In many instances, delaying the choice of major does not extend the time needed to graduate from Cedarville. However, in programs of study with extensive specific course requirements, delaying the choice of that major even one semester can cause students to take longer to complete degree requirements. The suggested four-year curricula listed with each major in the catalog outlines the recommended course sequences.

## Requirements of a Major

The amount of work for a typical major field approximates 36 semester hours and must include the requirements of the department. Comprehensive majors are typically from 48 to 60 hours. Specific requirements are listed at the beginning of department course offerings.

In order to graduate, a student must satisfy the requirements for at least one major field of study. With proper scheduling, he or she may concurrently complete the requirements for more than one major. Majors involving fewer than 42 semester hours of course work lend themselves to this approach.

Major courses in which "D" grades are received may count as meeting the requirements of the major field if permitted by departmental policy. If "D" grades are not permitted, the department chairperson may approve a course substitution as an alternative to repeating a course.

To qualify for graduation, students must maintain at least a 2.0 grade point average for their major.

## Graduate Study at Cedarville

The Cedarville University graduate academic program is designed to meet the professional, personal, and spiritual needs of adults who desire to honor God with their careers and lives. Truth from Scripture is integrated with the knowledge taught in each course to provide effective learning and enduring life values. The knowledge and skills learned from the curricular experiences provide adults with an excellent background for professional competence in education in their chosen fields.

### Current Program

The Teacher/Leader Program is an accredited 32 semester hour Master of Education degree (M.Ed.). This program serves educators interested in enhancing their classroom effectiveness and becoming instructional leaders in their schools. Electives permit students to develop specific areas of emphasis that correspond to their particular interests.

Three benchmarks make the Cedarville University graduate program worth consideration:

- **Christian philosophy – integration of biblical truth into all course content.**
- **Cost – tuition is comparably priced in comparison to other graduate programs.**
- **Convenience – program design works well with active professionals.**

For information about available graduate opportunities at Cedarville, an application, or a graduate catalog, contact the Graduate Admissions Office at 1-888-CEDARVILLE (233-2784), e-mail [gradprog@cedarville.edu](mailto:gradprog@cedarville.edu), or visit the graduate program website at [www.cedarville.edu/dept/graduate](http://www.cedarville.edu/dept/graduate).

*The Cedarville graduate program builds upon the University's reputation for preparing excellent classroom teachers by enhancing the effectiveness of practicing educators.*

## Major Fields of Undergraduate Study

The University offers 61 major fields of undergraduate study. Some of the majors represent combinations of two or more areas of study; these are denoted with an asterisk (\*). Course requirements for each of the majors are outlined in the respective departmental sections of the catalog. Major fields of study include:

- Accounting
- American Studies\*
- Applied Psychology
- Athletic Training
- Biology
- Broadcasting
- Chemistry
- Christian Education
- Church Music Ministry
- Communication Arts
- Comprehensive Bible
- Computer Engineering
- Computer Science
- Criminal Justice

## Minor Fields of Undergraduate Study

Fifteen credits in a particular field of study usually constitute a minor. Cedarville graduates complete a minor in Bible as part of the General Education Requirements. Other minor fields are optional. One-third of the minor must be completed at Cedarville. Available minors include:

- Art
- Bible
- Biology
- Broadcasting
- Business Administration
- Chemistry
- Christian Education
- Christian Ministries Management
- Church Music Ministry
- Coaching
- Communication Arts
- Computer Science
- Creative Writing
- Criminal Justice

- Political Science
- Preseminary Bible
- Psychology
- Public Administration
- Sociology
- Spanish
- Spanish for Professionals
- Teaching English to Speakers of Other Languages (TESOL)
- Theatre
- Women's Ministry
- Youth Ministry

## Electives

The provision of elective choice is based upon the premise that students should have an opportunity to strengthen their major field or minor field or broaden their background by selecting courses in areas of inadequacy or interest. Elective choice also provides students with some flexibility should they decide to change major fields.

## Special Academic Programs

Cedarville offers several special programs designed to enhance the collegiate experience and/or to help prepare for a particular career:

- Computer/Technology Teaching Endorsement
- Emergency Medical Technician Training
- Environmental Biology
- Honors
- Medical Technology
- One-Year Bible Certificate
- Preagriculture
- Premedical
- Prepharmacy
- Prephysical Therapy
- ROTC—Army and Air Force
- Study Abroad Programs
- TESOL—Teaching Endorsement (Teaching English to Speakers of Other Languages)

Descriptions of these programs are located in this section of the catalog or in the academic departments sponsoring the programs.

### Emergency Medical Services

Cedarville University Emergency Medical Services (CUEMS) originated in 1965 when a men's service organization, Alpha Chi, formed the Cedarville College Fire Department. In 1969 the fire department was converted into a rescue squad. Today, CUEMS is comprised of students who are state and nationally-certified EMTs and/or paramedics and who volunteer their time to act as the Emergency Medical Services division of Cedarville University Medical Services.

The squad responds primarily to emergencies on campus, but CUEMS offers its services to the community as well. The department has a mutual aid agreement with the Cedarville Township EMS, serving as a backup squad when the need arises.

CUEMS has several goals for the operation of its pre-hospital and transport services. As a Christian organization, its primary goal is to be an outstanding testimony for the Word of God and the testimony of Jesus Christ to all publics of this organization. The desire of CUEMS is to comfort and show compassion for those for whom they care. Squad members strive not only to address physical needs but to reassure their patients emotionally. Another goal is to provide opportunities for practical application of classroom knowledge. Involvement in this service provides those pursuing careers in the medical field with practical experience and offers all members, regardless of major, opportunities to cultivate skills in teamwork, to operate efficiently in stressful situations, and to make sound decisions quickly.

Since state certification is *required* and national certification is *recommended* for membership on the squad, the University grants credit to those matriculated Cedarville students who complete the National Registry's approved programs in EMT training. Upon receipt of bona fide copies of National Registry certificates of completion, the University will grant 3 semester hours of elective credit for EMT-Basic training, 2 additional semester hours for EMT-Intermediate training, and 5 semester hours for paramedic training.

### One-Year Bible Program

The University offers a concentrated program for the student who desires a formal education in Bible before pursuing a vocation at home or engaging in a field of technical study not available in a Christian school. It is designed so that a student can function as a more-knowledgeable layman at church. This curriculum is outlined in the biblical education section of this catalog.

### Preprofessional Programs

Many students seek specialized training in professions after attending Cedarville University. A number of preprofessional programs are available. The preseminary curriculum, which prepares students for seminary studies and the gospel ministry, is outlined in the biblical education section of this catalog. The prelaw curriculum prepares students for law school and is explained in the social sciences and history section of this catalog. Preprofessional curricula in dentistry, medical technology, medicine, optometry, osteopathy, pharmacy, physical therapy, and veterinary medicine are described in the science and mathematics section of this catalog.

## General Education Requirements

The University requires a pattern of proficiencies and courses to help achieve institutional objectives. These objectives are designed to provide an educational experience that broadens the student's outlook and knowledge.

The General Education pattern is:

### I. English and Mathematics Proficiency ..... 0-5 hrs

Each student upon initial enrollment at the University must demonstrate proficiency in English and mathematics. Proficiency examinations should be taken before the end of the first semester of matriculation.

#### A. English (0-3)

Students may satisfy the English proficiency requirement through any one of the following methods:

1. Score 21\* or higher on the English section of the ACT; or
2. Score 500\* or higher on the verbal section of the recentered SAT; or
3. Score 500 or higher on the CLEP English Composition Examination; or
4. Score 25 or higher on the Cedarville University English Proficiency Examination; or
5. Complete a course equivalent to the Cedarville University ENG-1000 Basic English with a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning prior to matriculation at Cedarville. The credits will not be transferred, but proficiency will be established and enrollment in ENG-1400 Composition will be permitted; or
6. Complete a college-level composition course with a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning. Proficiency will be satisfied and transfer credit will be awarded; or
7. If proficiency is not verified by any of the means listed above, the required proficiency must be achieved through a successful completion of the course ENG-1000 Basic English (3 semester hours), **which is to be taken during the first semester of matriculation. These 3 credits do not apply toward the 128 credits needed for graduation.**

#### B. Mathematics (0-2)

Students may satisfy the mathematics proficiency requirement through any one of the following methods:

1. Score 19\* or higher on the mathematics section of the ACT; or
2. Score 500\* or higher on the quantitative section of the recentered SAT; or
3. Score 48 or higher on the CLEP College Algebra exam; or
4. Score 10 or higher on the Cedarville University Algebra Proficiency Examination; or
5. Complete a course equivalent to DEV-0900 Intermediate Algebra with at least a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning. The credits will not be transferred, but proficiency will be established and enrollment in college-level quantitative courses will be permitted; or
6. Complete a course equivalent to the Cedarville University GMTH-1020 College Algebra with a grade of "C-" or higher (A = 4.0 system) at another approved institution of higher learning. Proficiency will be satisfied and transfer credit will be awarded; or
7. If proficiency is not verified by any of the means listed above, the required proficiency must be achieved through successful completion of the course DEV-0900 Intermediate Algebra (2 semester hours credit), which should be

completed during the first semester of matriculation at Cedarville University and **must be completed no later than the last term of the sophomore year. These 2 credits do not apply toward the 128 credits needed for graduation.**

\*Standardized test scores (ACT, SAT) earned more than three years before matriculation will not be accepted to meet the proficiency requirement.

### II. Biblical Education ..... 16 hrs

- A. BEGE-1710 Christian Life and Thought ..... 3
- B. BEGE-1720 Spiritual Formation ..... 3
- C. BEGE-2730 Old Testament Literature ..... 3
- D. BEGE-2740 New Testament Literature ..... 3
- E. BEGE-3750 Christian Worldview Development ..... 2
- F. BEGE-3760 Christian Worldview Integration ..... 2

### III. Communication ..... 6 hrs

- A. ENG-1400 Composition ..... 3
- B. COM-1100 Fundamentals of Speech ..... 3

### IV. Humanities ..... 9 hrs

- A. HUM-1400 Introduction to the Humanities ..... 3
- B. Any 2000-level literature course ..... 3
- C. At least 3 semester hours from the following: ..... \*\*3
  - ANTH-1800 Cultural Anthropology ..... 3
  - ART-1100 Introduction to Art ..... 3
  - BEPH-2200 Introduction to Philosophy ..... 3
  - BEPH-2250 Ethics ..... 3
  - BEPH-2260 Religion and Culture ..... 3
  - COM-2300 Voices of Diversity ..... 3
  - COM-3140 Intercultural Communication ..... 3
  - COM-4110 History of Public Address ..... 3
  - EDUC-2400 Children's Literature ..... 2
  - EDUC-4500 Philosophy of Education ..... 2
  - EGGN-3110 Professional Ethics ..... 3
  - HLMU-2310 Introduction to Music Literature ..... 3
  - HUM-2430 Enjoyment of Music ..... 3
  - NSG-3050, 3060 Nursing in Relationships I and II ..... 4
  - PYCH-3720 Psychology of Personality ..... 3
  - THTR-1410 Introduction to Theatre ..... 3
  - Any second year foreign language course ..... 4
  - Any other 3 hour literature course ..... 3

\*\*In satisfying requirements B and C, students may not take more than one course from their major field of study. Education majors, however, may take EDUC-2400 Children's Literature and EDUC-4500 Philosophy of Education to fulfill criterion C; otherwise, EDUC-4500 Philosophy of Education does not count toward meeting this requirement.

### V. Global Awareness

Students pursuing a **Bachelor of Arts (B.A.), Bachelor of Music (B.M.), or Bachelor of Music Education (B.M.E.)** degree must complete *one* of the following:

- A. Pass three years of the same foreign language in high school or one term of an intermediate college-level foreign language; or
- B. Live in a non-U.S. cultural immersion experience for at least one school year after the age of 12; or
- C. Pass two years of the same high school foreign language

or pass the second semester of a college-level foreign language, *and* one of the following:

1. A global awareness course selected from the list in number four below.
2. An approved intercultural experience of at least four weeks.

Students pursuing a **Bachelor of Science (B.S., B.S.Cp.E., B.S.N., B.S.E.E., and B.S.M.E.)** degree must complete *one* of the following:

- A. Pass two years of the same foreign language in high school; or
- B. Pass the second semester of a college-level foreign language; or
- C. Live in a non-U.S. cultural immersion experience for at least one school year after the age of 12; or
- D. A global awareness course from the following:
  - ANTH-1800 Cultural Anthropology
  - BEPH-2260 Religion and Culture
  - BUS-2910 International Business
  - COM-2300 Voices of Diversity
  - COM-3140 Intercultural Communication
  - ECON-3380 Economic Development and Political Economy
  - GEO-3520 World Regional Geography-East
  - GEO-3540 History and Politics of Africa
  - HIST-3200 History and Politics of Latin America
  - HIST-3210 History and Politics of East Asia
  - HIST-3220 History and Politics of the Middle East
  - HIST-3750 Social Movements
  - MGMT-3570 International Management
  - MRKT-4620 International Marketing
  - NSG-3090 Public Health Nursing
  - NSG-4200 Culture and Health
  - PYCH-1800 Cross-Cultural Psychology
  - SPAN-3680 Understanding Hispanic Cultures; or
- E. Complete an approved intercultural experience of at least four weeks.

## VI. Physical Education ..... 2 hrs

- A. PEF-1990 Physical Activity and the Christian Life ..... 1
- B. One general physical education activity course chosen from PEA-1000 through PEA-2120 ..... 1

## VII. Science and Mathematics ..... 10-16 hrs

- A. One laboratory course from the biological sciences ..... 3.5
- B. One laboratory course from the physical sciences ..... 3.5
- C. At least 3 semester hours selected from the following quantitative courses:
  - BUS-2150 Statistics ..... 3
  - EDUC-2800 Principles of Mathematics II ..... 3
  - GMTH-1010 Introduction to Mathematics ..... 3
  - GMTH-1020 College Algebra ..... 3
  - GMTH-1030 Precalculus ..... 4
  - GMTH-1040 Calculus for Business ..... 4
  - GSS-3680 Data Analysis ..... 3
  - (or SWK-3680 Data Analysis ..... 3)
  - PYCH-2610 Statistics ..... 3
  - Any 3 credit MATH course ..... 3
- D. Students pursuing Bachelor of Science degrees (B.S., B.S.N.,

B.S.Cp.E., B.S.E.E., and B.S.M.E.) must complete an additional six semester hours. These hours must be selected from courses with BIO, CHEM, ESCI, GSCI, GMTH, MATH, and PHYS designators; decision sciences; statistics; or computer application courses selected from the following:

EGCP-1010 Digital Logic Design .....	3
EGCP-1310 Algorithmic Programming .....	2
MIS-2000 Structured Programming .....	3
MIS-3510 COBOL Programming .....	3

## VIII. Social Sciences and History ..... 9 hrs

- A. GSS-1000 Foundations of Social Science ..... 3
- B. One course in history ..... 3
- C. One course selected from the following: ..... 3
  - A second HIST course
  - Any course with a designator of ANTH, CRJU, GEO, POLS, PUAD, SOC, and SWK
  - PYCH-1600 General Psychology

## Total General Education Requirements ..... 52-63

Many of these courses also satisfy the requirements for major fields of study.

Students show their support and demonstrate school spirit by attending the lively Cedarville basketball games.

# Academic Information

The Student Government Association offers student-to-student tutoring in several courses each semester.

## General Education Course Sequence

Many of the General Education Requirements provide important background for advanced courses that are required as a part of a major field of study. Consequently, in most programs many of these requirements are taken in the first two years of the four-year curriculum. The sample four-year curricula found by each major field of study in the catalog outlines this sequence.

Because of the importance of several of the requirements to all students, **the following six courses must be completed before the beginning of the junior year or before a student earns 64 semester hours:**

- BEGE-1710 Christian Life and Thought
- BEGE-1720 Spiritual Formation
- COM-1100 Fundamentals of Speech
- ENG-1400 Composition
- PEF-1990 Physical Activity and the Christian Life
- The VII, C. Quantitative Course Requirement, page 19

## Graduation

All students must realize that it is their own responsibility to check on their progress toward meeting all requirements for graduation. They are urged to plan the class schedule for both semesters of the senior year at early registration time at the end of the junior year. This plan should be approved by the faculty advisor and checked to see that when it is completed all degree requirements will have been met. **To participate in the May commencement ceremony, students must submit applications for graduation by April 1st of the year they plan to graduate.** This includes May, August, and December graduates.

*The catalog in use when a student first enrolls governs that student's graduation requirements, unless that catalog is over 10 years old or that student has left and then re-enrolled more than one year later.* Consequently, that catalog should be retained and used as a guide in case changes are made in the course or graduation requirements during the time the student is enrolled. A student may select a subsequent catalog if the student wishes; however, all requirements from that catalog must be completed.

## Early Commencement

Students who cannot complete their graduation requirements before the end of the spring semester of their senior year, but who can complete them during the following summer or fall terms, must apply to participate in commencement before degree requirements are met. Students who have more than 18 semester hours to complete after the spring term must obtain approval from the academic vice president to participate in commencement. Information concerning eligibility for August or December graduation and early commencement is available in the Academic Services Office.

## Sessions and Credits

The regular college year consists of two semesters of 15 weeks each plus final exam days, extending from August to May. Credits are earned in terms of semester hours; a semester hour equals one 50-minute period each week for one term. As an illustration, a student completing a course that meets 50 minutes a day, 3 days a week, for 15 weeks, receives 3 semester hours credit. Laboratory sessions, applied music courses, physical education courses, compressed courses, and internships are exceptions to this pattern.

## Academic Course Load

Assuming that proficiency requirements have been satisfied, a minimum of 128 semester hours is required for graduation. A student should average at least 16 credit hours each semester to graduate upon completion of the 8th semester. A normal course load is 15-18 hours each semester. Students working more than 20 hours per week are advised not to carry a full course of studies.

A student's academic load is subject to reduction or limitation by a school dean or academic vice president for poor scholarship or excessive work outside of school hours. Students who wish to take more than 18.5 credit hours must obtain permission through the following procedure:

### To request 19-21.5 credit hours

The following students require advisor approval:

- SENIORS with at least a 2.3 cumulative GPA
- SOPHOMORES and JUNIORS with at least a 2.5 cumulative GPA
- FRESHMEN with at least a 2.7 cumulative GPA
- All students without a Cedarville University GPA who scored at least a 25 or equivalent on the ACT

The following students require department chair approval:

- Any student not meeting the criteria above
- Any student whose advisor is not available

The following students require dean approval:

- Any student whose department chair is not available

### To request 22 or more credit hours

- All students require approval of advisor, department chair, and dean

The following situation requires academic vice president approval:

- When dean is not available

## Classification of Students

**Regular students** are those who have met the requirements for admission, are enrolled in a degree program, and are carrying at least 12 semester hours of credit from Cedarville University in that academic semester. **Special students** are those who are not enrolled in degree programs. **Part-time students** are those who have met all admission requirements, are seeking a degree, and are taking fewer than 12 semester hours. **Transfer students** are those who have studied full time for at least one term at another accredited college or university. **High school students** are those who have not completed high school graduation requirements.

## Assignment to Classes

Official class membership is determined according to the following schedule:

Class	Hours Completed
Freshman	1-30
Sophomore	31-60
Junior	61-90
Senior	91+
Special	Assigned

## Class Attendance

In general, regular attendance is necessary for the student to receive full benefit from the college experience. Since there are several different ways in which ideal class attendance may be achieved, official faculty policy allows each faculty member to determine and develop attendance standards which will meet the particular needs of the course.

## Out-of-Class Courses

In order for students with irreconcilable conflicts to be able to complete graduation requirements on schedule, it sometimes is necessary to allow instruction in an out-of-class setting. To take a course out of class:

1. The course must be 2000, 3000, or 4000-level.
2. Students must obtain approval from the department chairperson, the faculty member teaching the class, and the advisor.

Out-of-class course approval forms are available in the Academic Services Office. Exceptions to the course level requirement listed above must be approved by the respective faculty member, department chairperson, and advisor.

## Correspondence Study / Distance Education

Cedarville University does not offer correspondence credits, and it does not accept correspondence credits from institutions that do not have accreditation from a recognized United States regional accrediting agency. In some unusual circumstances, the University may accept correspondence credits from regionally-accredited institutions of higher learning, but a student may not utilize more than 10 semester hours of correspondence credits toward fulfilling degree requirements.

Cedarville University does offer several mediated/online learning courses, and it does accept this type of courses from institutions which are accredited by a U.S. regional accrediting agency. Distance learning courses are subject to the same policies and restrictions as normal transfer courses.

The University reviews and processes credits received for distance learning and correspondence study in the same manner as transfer credits. For additional information, contact the Academic Services Office.

## Internships

Many of the major fields of study include opportunities to receive credit for supervised, on-the-job activities. Interested students should contact the respective department chairperson for details.

## Independent Study

Independent study allows students to develop a high degree of independence in their ability to choose and investigate problems. The objectives of the program include providing opportunities to explore areas not covered in normal course structure, recognizing foreign travel experiences, rewarding self-motivated students, and encouraging joint study by faculty and students on specialized projects.

Individual students and faculty members develop the specific criteria that must be met for the successful completion of specific independent study projects. However, the following guidelines govern the independent study program:

1. Only one independent study project may be undertaken in an academic term, unless permission is granted from the department chairperson and dean of the student's primary major.
2. The maximum credit that may be earned for an independent study project is 3 semester hours.
3. The faculty member supervising the independent study, the student's advisor, and the department chair must sign the student's independent study form. Registration for the independent study must occur at the beginning of the semester in which the work is to be completed.
4. No more than 6 semester hours in independent study may be counted toward the major field; no more than 3 semester hours toward a minor field; and no more than 12 semester hours may be counted toward graduation. Independent study taken outside major and/or minor fields must be approved by the department chairperson and the dean of the supervising faculty member.
5. Supervising an independent study is a privilege a faculty member may extend to a student. It is not a right that a student has.
6. Supervising faculty members determine the grade (letter grade or credit/no credit) for the independent study.

Over 350 corporate recruiters come to the Cedarville University campus each year to participate in Career Link days.

## Testing Out Procedure

Qualified students may earn credit toward graduation by passing the appropriate examinations with a grade of B or better. A student interested in testing out should obtain a course test-out form from the Academic Services Office, obtain the approval of the chairperson of the department in which the course is offered, and contact the instructor of the course to schedule the test.

A student may not test out of a course previously audited. Tests must be taken during registration week or during the first two full calendar weeks of the semester.

Upon testing out of a course, a student must pay one-half tuition for the course credit. Credit for the course and a designation of test-out will appear on the student's transcript with a grade of CE (credit by examination). This grade is not computed into the cumulative grade point average. Credits earned by test-out during a semester do not count toward the 12 semester hours required for full-time status. No student may earn more than 40 semester hours of test-out credit through tests administered at the University, CLEP, AP, IB, or any other recognized testing agency. Hours earned by test-out do not count as hours in residence toward graduation with honors.

## Academic Assistance

Each student is assigned to an academic advisor who offers counsel concerning course scheduling. A student who has not declared a major will be assigned to a special advisor equipped to offer assistance in selecting a field of study. Students are encouraged to consult their academic advisor prior to registration, whenever an academic problem is encountered, or when considering any changes in their educational program. A student with low grades in a major or minor field may be advised to select another field of study.

## Tutoring

Tutoring is available to students desiring supplemental learning opportunities. The Student Government Association, in conjunction with the Academic Assistance Office, offers student-to-student tutoring in several courses each semester including GMTH-1040 Calculus for Business, CHEM-1000 Principles of Chemistry, BIO-1000 Principles of Biology, GSS-1000 Foundations of Social Science, and others. Additionally, private tutoring may be arranged with individuals recommended by the professor of the course or through the Academic Assistance Office. Faculty assistance is available for all courses during posted office hours.

## Transient Study

Course work to be completed at other institutions by a student enrolled at Cedarville University must be approved before the course is taken by securing the signatures of the transfer coordinator, the student's academic advisor, and the chairperson of the academic department governing the course requirement that the transferred course is to satisfy. Transient Study Applications are available in the Academic Services Office. An official transcript must be received before transfer credit will be evaluated and recorded.

## Travel Study Opportunities

Students are encouraged to take advantage of a semester at one of Cedarville's satellite campuses. Participants remain enrolled at Cedarville, continue to receive financial aid, and take classes for Cedarville credits. Programs are mainly open to Juniors and Seniors. Advanced planning is highly recommended. For additional information and planning help, contact Cedarville University's Travel Study Director, Dr. Kevin Sims.

## ARRIBA

ARRIBA, Academic Residency and Research Internship for Baptists Abroad, is a work/study program sponsored by Faith Baptist Bible College, in Ankeny, IA, in cooperation with Baptist Mid-Missions. Cedarville students in any major may earn up to 30 semester hours of credit in Spanish, sociology, biology, religion, missions, cross-cultural studies, and general electives. Students involved in the program spend 11 months in Peru, South America, where classroom theory is integrated with practical application and experience in cultural studies, church planting, and alpine and rainforest studies, under the direction of experienced missionaries and college professors. Students interested in the program should contact Dr. John Silvius for additional information.

## Au Sable Institute of Environmental Studies

Students enrolled in the environmental biology curriculum may take advantage of courses offered by the Au Sable Institute, including field botany, land resources, limnology, marine biology, animal ecology, and restoration ecology. Students may choose to attend any of five Au Sable Institute locations: Au Sable Great Lakes (Mancelona, Michigan), Au Sable Pacific Rim (Whidbey Island, Washington), Au Sable East (Chesapeake Bay, Virginia), Au Sable Africa (Nairobi, Kenya), and Au Sable India (Tamil Nadu, South India). Au Sable courses provide academic content, field experience, and practical tools for stewardship of creational resources. The Institute grants vocational certificates for environmental analysts, land resource analysts, water resource analysts, and naturalists. Qualified students are awarded the Au Sable Fellowship of up to \$1,200. One or more Institute Grants-in-Aid of at least \$400 are also available each year. Honors scholarships of \$500 and Au Sable stewardship awards equal to the cost of room and board are granted to returning students. Interested students should contact Dr. John Silvius, Cedarville University's Au Sable Institute Representative.

## CCTECC Student Teaching Abroad Program

CCTECC is the Christian Coalition Teacher Education Coordinating Council, which is made up of Christian Colleges from around the US. Since the late 1980's, this organization has been helping its member institutions place quality student teachers in quality schools on every continent, except Antarctica. Cedarville students have taught in over 20 different countries. Literally speaking, the sun never sets on Cedarville student teachers.

Students apply for this program early in the junior year. Only those with a good academic record, strong character, and spiritual and professional performance references are allowed to go overseas. Only schools and cooperating teachers who meet Cedarville's standards and the requirements of the Ohio Department of Education participate with us. CCTECC helps ensure that students are placed in environments which are safe and nurturing both personally and spiritually.

## **CIEE (Council on International Educational Exchange)**

CIEE offers study abroad opportunities at its 60 CIEE Study Center programs in 29 countries around the world. The CIEE Study Centers provide curricula specifically designed with the U.S. undergraduate in mind and offer superior student services and activities that help students derive maximum benefit from the experience. Students interested in the program should contact Dr. Kevin F. Sims or the Travel Study Office for more information.

## **The Council for Christian Colleges and Universities Study Programs**

Cedarville University cooperates with the Council for Christian Colleges and Universities in offering programs for students in the places listed below.

### *American Studies Program (Washington, D.C.)*

Students study public policy issues and serve internships in Washington, D.C., for an academic term.

### *China Studies Program*

Students live for an academic term on the campus of a Chinese university and study language, history, culture, and current affairs and travel throughout the country.

### *Contemporary Music Program (Martha's Vineyard)*

Students learn to integrate music, faith, and business. The program offers two tracks of study: the Artist Track and the Executive Track.

### *Latin American Studies Program*

Students live for an academic term in San Jose, Costa Rica, and study Latin American politics, economics, religion, language, and culture.

### *Los Angeles Film Studies Center*

Students take advantage of the rich film environment of Los Angeles, exploring the film industry within a Christian context and from a liberal arts perspective.

### *Middle East Studies Program (Egypt)*

Students live in Cairo, Egypt, and study the history, culture, religions, and struggles of this dynamic area as well as learn to speak Arabic. Students also travel in Israel, Palestine, Jordan, and Turkey.

### *Oceania Studies Program (Australia)*

### *Oxford Honors Program and Oxford Summer Program*

Students study in England under the tutelage of Oxford dons in association with Keble College.

### *Russian Studies Program*

Students live on campus at the University of Nizhni Novgorod for six weeks and then live with a Russian family for the remaining six weeks. The academic program includes a general education elective in history or a Bible elective.

### *Summer Institute of Journalism (Washington D.C.)*

Students live in Washington, D.C., and are trained in gathering and writing news, editing copy, and designing layout.

### *Uganda Studies Program*

## **Additional Travel Studies Programs**

In addition to the CCCU programs, Cedarville has cooperating agreements with the following institutions:

*Focus on the Family Institute*

*IBEX (The Master's College)*

*Jerusalem University College*

*OSAP (Oxford Study Abroad Program)*

*Seville, Spain*

## **Summer School**

The University offers a three-week summer term in May. In addition, two four-week summer terms are offered, the first beginning in June and the second beginning in July. Other special sessions are occasionally offered. A student typically may earn 3 credits in May and up to 8 credits in each of the other terms.

The summer sessions appeal to a variety of students. Some wish to accelerate their college program. Students from other institutions may desire Bible courses that are not available at their institutions. Teachers find the summer terms a convenient means by which to update themselves in their disciplines. Others enjoy the advantages of smaller summer classes. Incoming international students recognize summer attendance as an excellent opportunity to become acclimated to academic pursuits before campus activities begin in the fall.

High school students who have completed their junior year and who display sufficient academic strength may enroll in the **summer studies program**. Eligible children of graduates of the University may qualify for the popular alumni children scholarship program which provides tuition-free credit.

Continuing students interested in attending summer school should contact the Summer School Office. New students should contact the Admissions Office. Visit [www.cedarville.edu](http://www.cedarville.edu) for a list of summer school courses being offered.

*Daily chapel provides students with an opportunity to worship and to focus on nurturing their relationship with God.*

# Academic Information

## Registration for Classes

Registration dates for each session are listed in the annual academic calendar. Early registration periods may be designated for currently enrolled students. During early registration, the University allows students to register for courses for the upcoming academic term. Students register for courses by academic classification and are strongly encouraged to take advantage of this early registration opportunity, rather than registering after the start of an academic term. Students who register early for a term but do not return the following semester must notify the Academic Services Office of their change in status.

Registration information, including printed registration instructions and course schedules for the semester, is distributed by the Academic Services Office prior to the respective registration periods. Additionally, registration information, including available course offerings and sections, is available on the University website.

Prior to processing a registration, each student meets with an academic advisor to discuss career direction, course options, and class schedules. While selecting courses, students and advisors should discuss alternative courses as a contingency for course closings and cancellations. Although each student has an academic advisor to help with scheduling, the student is ultimately responsible for the chosen class schedule and course of study. Students should become very familiar with the course requirements for their chosen major.

Class schedules are selected using the online registration process on the university website. The online registration process may be completed from the academic advisor's computer or from any other computer through which the student has internet access. Instructions for using the online registration program are available on the Academic Services webpage or from the Academic Services Office.

Faculty advisors play an important role in guiding students toward their educational goals.

A registration access code is required to complete the online registration process. This code is assigned by the Computer Services Office prior to each registration period and is given to the student's academic advisor. The registration access code may be utilized by the academic advisor to complete the student's registration during the advising process, or the advisor may give the code to the student to enable the student to complete the registration process from another computer. After the online registration process has been completed, the student's confirmed schedule becomes an active registration in the administrative computer system.

To finalize their registration, students must make financial arrangements for payment of the amount due listed on their billing invoice (see the financial section of the catalog for information concerning costs and payment plans).

## Adding and Withdrawing from a Course

It is the student's responsibility to verify the accuracy of his/her course registration at the beginning of each semester. All registrations must be finalized by the end of the second week of the semester. No classes may be added after this time unless approval is granted from the course instructor, chair of the department that offers the course, and the dean of the respective school. In the absence of the dean, the academic vice president may approve a late registration. A late registration fee of \$50.00 will be charged to process a registration or add a class after the deadline.

Changes in a student's course schedule must be made through the drop/add process. This may be completed online through seven calendar days after classes begin. After this time, a drop/add form is required to complete a schedule change. Forms for course changes are available in the Academic Services Office and must be signed by both the course instructor and the student's academic advisor. The student is required to make up any work missed due to late entrance. Changes in a schedule caused by cancellation of courses will not result in financial penalty.

When a course is dropped, the action is recorded as follows:

<b>Week Course Is Dropped</b>	<b>Action</b>
Before the end of the 1st full calendar week	No record on transcript
During 2nd full calendar week through 9th calendar week	W – Withdrawn
10th and 11th calendar weeks	WP – Withdrawn Passing or WF – Withdrawn Failing
Week 12 through the end of the semester	Drops not Permitted

Course changes are complete when the Academic Services Office receives the completed drop/add form. The effective date of the course change is the date the Academic Services Office receives the completed form. Failure to properly drop a class will result in a grade of Z which counts the same as an F.

Refund information is listed in the financial information section of the catalog. This information is also available on the Academic Services webpage.

## Auditing

Auditing involves attending and participating in a course without earning credit. A course may be changed from credit to audit before the end of the first week of the semester. Courses may be changed from audit to credit, with permission of the instructor, before the end of the first week of the semester. A student may not test out of a course already audited. Registration to audit a class will not be processed until the first day of the semester to accommodate students requiring regular registration status.

## Withdrawing from the University

Proper withdrawal from the University begins in the Academic Services Office, where the student completes an official withdrawal form. Refund requests should be submitted to the Business Office at least three days prior to withdrawal. A student's ID card and dorm key must be returned to the Academic Services Office on the last day the student is on campus. No student should leave Cedarville University without completing proper withdrawal through the Academic Services Office.

Student transcripts will be marked with the appropriate grade once withdrawal is complete in accordance with the established university policy. (See Adding and Withdrawing from a Course.)

## Continuing at the University

The University assumes that a student will continue taking courses from semester to semester unless the student graduates, is asked to leave for academic or disciplinary reasons, or withdraws voluntarily. To assist in planning each academic term, the University asks each student to register for the upcoming academic term during early registration. This secures courses for the student and enables the University to make enrollment decisions for that term. A student who owes money to the University may not register for future academic terms.

Enrolled students register for fall semester courses at the end of each spring semester. To retain these course selections and confirm the intention to enroll in the fall semester, each student must submit a reservation deposit of \$250 by May 1. This deposit also reserves a place in college housing for single students under 25 years of age. The deposit is credited to the student's account and may be used to help cover Fall Semester expenses. Should the student decide to withdraw from the University before July 1, \$150 of this deposit is refundable. After July 1, the \$250 deposit is nonrefundable.

A student who does not register and submit the continuing student reservation deposit by June 1 or make other special arrangements with the Student Services Office will be considered withdrawn. Any student who withdraws voluntarily or is involuntarily withdrawn must apply and be approved for readmission to return as a student to the University. Readmission forms and information are available from the Admissions Office.

*A "Mind for Truth" is developed with careful direction from qualified and committed professors.*

## Course Numbers and Designations

The course numbers are designed to help students select courses at the appropriate level. The University uses the following system:

1. The first number indicates the year in which the course usually is taken. Freshmen normally take 1000-level courses; sophomores, 1000-level or 2000-level courses; juniors, 2000-level or 3000-level courses; and seniors, 3000-level or 4000-level courses. Courses beyond the student's classification should be taken with the consent of the instructor and academic advisor.
2. The alphabetical prefixes in the course designations indicate content divisions within academic departments. For example, the prefix "BETH" indicates that the course is a theology course in the Department of Biblical Education.

The semester that the course is offered is shown following the course title as follows: Fa–Fall; Sp–Spring; and Su–Summer. The number to the right of the course title indicates credit given in semester hours. The University reserves the right to offer or withhold any of the courses listed.

## Alternate Year Courses

Some departments offer courses on alternate years. These are designated as "even years" or "odd years" based on the first school year number. Example: 2003-04 is an odd year.

## Grading System

- A** Recognizes excellent achievement. It is indicative of superior-quality work and reveals a thorough mastery of the subject matter. The student receiving this grade should demonstrate enough interest to do some independent investigation beyond the actual course requirements.
- B** Indicates work and achievement that are well above average. The student receiving this grade should be capable of doing advanced work in this field. The quality of the work should be considered better than that achieved by the average student.
- C** Indicates average achievement and a satisfactory meeting of requirements.
- D** Reveals inferior accomplishment and is generally unsatisfactory from the standpoint of course requirements. This is the lowest grade for which credit can be earned.
- F** Failing grade. It indicates very unsatisfactory work. No course credit is earned.
- AU** Given when a course is audited. To receive this notation, the student must attend and participate in the course. No credit is earned.
- CR** Credit has been granted; it also applies to the credit/no credit program in which credit is received for satisfactory (“C” average or above) performance in the course. A course in which a CR has been earned counts toward the total graduation requirements but is not used in the computation of grade point averages.
- CE** Credit for the course has been earned by an examination administered by the University or another recognized testing agency or program.
- I** Signifies an incomplete and is a temporary grade given when a student is unable to complete the coursework on time because of extraordinary circumstances, such as illness, emergency, or other reasonable cause. This temporary grade does not influence the student’s grade point average. To be considered for an incomplete, the student must be passing the course and have completed the majority of the coursework. The instructor giving the incomplete will establish an appropriate completion date with the student. This date may extend to the end of the semester following the one in which the course was taken. If the work is not completed by the designated date, the “I” will be changed to an “F” and will be calculated as such in the student’s grade point average.
- INC** Indicates a permanent incomplete, a grade assigned in special situations by the faculty member with the approval of the academic vice president. This permanent grade does not influence the student’s grade point average. To receive a permanent incomplete, the faculty member should submit the appropriate form to the academic vice president identifying the circumstances warranting this special grade. If a permanent incomplete is awarded, the grade may not be changed at a future date. To receive credit for the course, the student must again register for the course and complete the course requirements.

Dr. Dixon joins a group of Cedarville students to “make some noise” at a men’s home soccer game.

- K** Signifies credit and accompanies courses transferred from other colleges or universities. It has no effect upon cumulative grade point average.
- NC** No credit has been earned. Credit hours for which an “NC” has been earned are not used in the computation of grade point averages.
- NP** Indicates that the student did not pass a course where the credits do not count toward the graduation requirements. Basic English and Intermediate Algebra are examples of such courses.
- NR** Indicates that the faculty member did not submit the grade in time for it to appear on the grade card.
- P** Indicates that the student performed satisfactory work (“C” average or better) in a course where the credits do not count toward graduation, such as Basic English or Intermediate Algebra.
- W** Indicates that the student withdrew from the course between the second and ninth weeks of the semester.
- WP** Indicates that the student is passing when a course is dropped during the tenth and eleventh weeks of the semester.
- WF** Used during the tenth and eleventh weeks of the semester if the student is failing at the time of withdrawal.
- Z** Indicates that the student did not complete the course but did not officially withdraw. A “Z” is treated in the same manner as an “F” grade when figuring the grade point average.

## Grade Points and Point Averages

Cedarville University uses the “four-point system” to determine academic averages. Grade points are awarded as follows:

Grade	Grade Points
A	4.0
A-	3.7
B+	3.3
B	3.0
B-	2.7
C+	2.3
C	2.0
C-	1.7
D+	1.3
D	1.0
D-	.7
F	0.0

The grade point average is computed by dividing the total grade points earned by the total hours attempted. Grades are issued at the end of each semester. The student is responsible for discussing his or her academic achievement with his or her instructor.

## Academic Progress, Warning, and Suspension

To satisfy the minimum graduation requirements, a student must earn a cumulative grade point average of 2.0. The minimum cumulative grade point average needed to maintain good academic standing is also 2.0.

The University recognizes that some students may have difficulty earning and/or maintaining the minimum cumulative grade point average required for good standing and for graduation. To assist them, the following academic progress chart outlines the minimum cumulative grade point averages needed according to the credit hours earned.

## Academic Progress Chart

Credits Attempted	Minimum Cumulative GPA for Academic Probation	Minimum Cumulative GPA for Academic Warning
0-18	1.00	1.45
19-36	1.25	1.60
37-64	1.50	1.75
65-96	1.75	1.90
97-112	1.90	–
113-128	1.95	–

Some academic programs have stricter academic progress requirements than those listed above. Students should check academic department sections of the catalog for the specific grade point requirements of their majors.

Students who are not in good academic standing will be notified by the dean of their school. First-semester freshmen who do not meet the 1.0 average usually will not be academically suspended in order to provide some additional time for them to make the adjustment to college life.

Any student who does not meet the minimum cumulative grade point average required for academic probation will be suspended for at least one semester. Any student on academic probation for two successive semesters and who is not making satisfactory academic progress is subject to academic suspension. Any student whose term grade point average is not above 1.0 for two successive semesters and who is not making satisfactory academic progress is subject to suspension. The dean of a school may make exceptions to the academic progress guidelines when appropriate.

A student receiving veterans benefits who is on academic probation for two successive semesters without making satisfactory progress will be reported to the Veterans Administration. The veterans benefits for such a student will be terminated unless the student is making progress toward meeting the minimum academic requirements for graduation.

Faculty members and other counselors are available to discuss student progress. The student experiencing academic difficulty should utilize these personnel, as well as resources available in the Academic Assistance Office, to help find solutions to academic problems.

Students on academic warning or probation may be required to take a special study skills course as a condition for continuing at the University. Academic warning may preclude involvement in certain university activities. Students facing academic warning or probation should consult with the coaches, advisors, or directors of their activities to learn of academic requirements or restrictions that may apply to those activities.

A student must maintain satisfactory academic progress to receive financial aid. Students receiving aid should check the financial aid section of the catalog to obtain the academic progress requirements that pertain to a particular aid programs.

A student suspended for academic reasons may apply for readmission during any semester in the regular academic year following the semester of suspension. A student who is subject to suspension for a second time may be permanently dismissed.

# Academic Information

## Repeating Courses

While adjusting to academic life at Cedarville, some new students earn grades they consider to be unsatisfactory. Consequently, any student who earns an unsatisfactory grade as a freshman (student with fewer than 31 credits) may repeat the course at Cedarville University before the end of their sophomore year (student with 31 to 60 credits). Under this freshman repeat policy, the cumulative grade point average will be recalculated using the second grade instead of the first.

A similar policy applies to a transfer student. Under the transfer repeat policy, courses taken during the **first semester** of attendance may be repeated within the succeeding **two regular semesters**. The cumulative grade point average will be recalculated using the second grade instead of the first.

Under these repeat policies, any course may be repeated. Although the first grade is no longer calculated into the cumulative grade point average, the course and grade information does remain on the student's transcript. In all other cases when a student repeats a course, both grades are calculated into the cumulative grade point average. However, credit hours for a repeated course may count only once toward the credits needed for graduation.

## Credit/No Credit Program

The grade designation "credit/no credit" may be assigned by faculty members in courses such as student teaching, laboratories, independent studies, electives, and one-hour courses in physical education and music. The opportunity to take elective courses on a credit/no credit (CR/NC) basis offers students the opportunity to develop background in new areas of study without threatening cumulative grade point averages.

The following guidelines govern involvement in the program:

1. A student of any classification may choose to earn credit/no credit or a letter grade in one semester hour, non-major physical education courses. This choice may be made at the end of the semester.
2. To earn credit, a student must maintain an average of "C" or better in the course.
3. A student must be at least a junior in classification (have earned at least 61 semester hours) to take an elective course on a credit/no credit basis. An elective is a course which will not count toward the student's general education, major, minor, or cognate requirements.
4. A student may take just one elective course per term under the credit/no credit designation.
5. The total number of courses (other than one-hour physical education courses) that may be taken under the credit/no credit designation is determined by the student's cumulative grade point average:

2.0 - 2.49	one course
2.5 - 2.99	two courses
3.0 - 3.49	four courses
3.5 and above	six courses
6. A student taking an elective course who wishes to change from the credit/no credit designation to the regular grading designation must do so before the end of the 4th week of the semester.
7. A student who wishes to change an elective course to the credit/no credit designation must do so before the end of the first full calendar week of the semester.

## Academic Honors

### The Dean's Honor List

Until final awards are announced at commencement, the highest academic honor possible to attain at Cedarville University is to be included on the Dean's Honor List. This list of high-ranking students is published at the end of each regular semester. Lists are not published following the summer sessions.

The requirements for the Dean's Honor List are as follows:

1. A student must have a 3.75 grade point average or higher for the semester.
2. A student must have no grade for the semester lower than a "B."
3. A student must carry a minimum of 12 semester hours, excluding CR hours. Exceptions are made for those enrolled in field experiences or internships granting credit/no credit, provided they take at least 2 regularly graded courses.
4. A student must complete every course being taken by the end of the semester when grades are turned in by the faculty.

### The Dean's List

Published at the end of each regular semester, the Dean's List is issued with the following requirements:

1. A student must maintain a 3.50 average for the semester.
2. A student must be carrying at least 12 semester hours, excluding CR hours. Exceptions are made for those enrolled in field experiences or internships granting credit/no credit, provided they take at least two regularly graded courses.
3. A student must complete every course being taken by the end of the semester when grades are turned in by the faculty.

### Graduation with Honors

Upon recommendation of the faculty, a student who earns a grade point average of at least 3.5 will be graduated "with honor"; one who earns a grade point average of at least 3.75 will be graduated "with high honor"; and one who earns a grade point average of at least 3.9 will be graduated "with highest honor." A student must be in residence at least two full years (61 semester hours) to qualify for graduation with honors. Hours earned by examination (test-out) do not count as hours in residence toward graduation with honors.

See the financial aid section of this catalog for a list of additional academic awards.

# Biblical Education

## School of Humanities, Fine Arts, and Bible

### Purpose Statement

Our Lord Jesus Christ commissioned His followers to “go and make disciples of all nations, baptizing them...and teaching them to observe all that I commanded you...” (Matt. 28:19). The Apostle Paul is an example of how the early believers embraced this mission and carried it forward. “We proclaim him (Christ),” Paul declared, “admonishing every man and teaching every man with all wisdom, so that we may present every man complete in Christ” (Col. 1:28). Indeed, over the centuries there is an unbroken chain of men and women who have found life doing the same. So it is the mission of the Department of Biblical Education at Cedarville University to stand firmly in that line of those who have faithfully carried forward Christ’s commission. With Peter we are convinced that it is Christ alone who has “the words of eternal life” (John 6:68).

As a department, we are privileged to carry out this commission on two levels. First, we are engaged in training men and women professionally and academically. Professionally, we want to equip graduates for full-time ministry in the church by preparing men and women with a theologically informed philosophy of ministry accompanied by the skills and experience needed to actualize it in the church. Majors that particularly facilitate this are Christian education, youth ministries, pastoral studies, world missions, and international studies-missiology. Academically, we want to inspire men and women to use their minds for the glory of God. We want to raise up a generation of scholars whose desire is to bring every thought into submission to Christ for the glory of God. Majors geared toward this purpose are comprehensive Bible, preseminary Bible, and philosophy.

Second, we have the institution-wide opportunity of influencing each student through the required Bible minor. On this level we endeavor to aid students from all disciplines in developing a distinctively God-centered world and life view. We believe it to be crucially important that all those who will be appointing the pastors and missionaries of the future, doing the work of the ministry, and serving God through their vocations know how to handle the word of truth accurately.

To this end, we commit ourselves to facilitating the development in every student of a biblically-based, theologically-sound, philosophically-defensible, and life-transforming view of life under God.

### Personal Requirements

Students planning to pursue careers in vocational ministries should possess a commitment to intense study of the Scriptures, a heart for ministering to the needs of others, and a reputation for Christlike character, which would provide a platform for authentic spiritual leadership. In addition to classroom expectations, students should seek to gain as much practical experience in ministries as possible. Biblical education majors find the opportunities provided by the Christian ministries program to be excellent avenues for applying truths learned in the classroom and developing necessary skills for effective ministry.

### Department Requirements

To graduate with a major from the Department of Biblical Education, students must earn a cumulative average of 2.0 or above and a “C-” or above in all courses included in the major with the exception of Greek.

### Programs of Study

The Department of Biblical Education offers the following programs:

#### Majors

- Comprehensive Bible
- Christian Education
- International Studies-Missiology
- Pastoral Studies
- Philosophy
- Preseminary Bible
- World Missions
- Youth Ministries

#### Minors

- Bible
- Christian Education
- Greek
- Missions
- Philosophy and Religion
- Preseminary
- Women’s Ministry
- Youth Ministries

#### Special Program

- One-Year Bible Certificate

### Technical Resources

- Concordance and Bible study software (Logos Series-X Scholar’s Edition)
- Greek and Hebrew tutorial software
- 3-D interactive satellite atlas software of the land of Israel
- Textbook-specific software
- Course-specific software

### Co-Curricular Opportunities

Several organizations exist campus-wide, which assist in the development of character and ministry skills. Many Bible faculty serve as advisors for these organizations and our majors are encouraged to take full advantage of them. For example:

- **Chi Delta Nu** encourages students going into youth ministry through prayer, fellowship, and service
- **Timilathians** is an organization devoted to promoting critical thinking through philosophical and theological inquiry into issues central to the Christian worldview and our contemporary culture.

### Career Opportunities

Graduate schools, professional schools, and seminaries welcome Cedarville University graduates. Careers pursued by graduates include:

- Bible teacher
- Camp director
- Christian education director
- Missionary
- Pastor
- Philosopher
- Writer
- Youth pastor

## Purpose Statement

The purpose of the Department of Business Administration is to facilitate the development of business leaders who are personally discerning, professionally competent, and who will influence their organizations, professions, and culture from a biblical worldview. Given our vision as a department, our broader mission is to provide students with an education in business theory and practice from a distinctly Christian paradigm. To effectively foster academic achievement and personal character, we purpose to create an environment characterized by excellence in teaching, service, intellectual contribution, and collegiality.

Essential to our mission is the creation of a learning environment that encourages, stimulates, and challenges students and faculty to maximize their personal potential in their chosen field of academic endeavor. To facilitate this learning environment, we will use a value-centered curriculum enhanced by an extensive information technology system and a series of personal and professional development seminars. In addition, across the curriculum, we have integrated ethical considerations, global awareness, and an emphasis on oral and written communication skills. *The distinctive competency of our program is the integration of biblical truth within each of the business disciplines.*

In light of our mission, the department has established the following goals:

1. We will create a learning environment that encourages, stimulates, and challenges students to maximize their personal potential in the chosen field of academic endeavor.
2. We will create a value-centered curriculum enhanced by an emphasis on topics critical to the student's competency in the world of work.
3. We will provide faculty with professional and academic opportunities to enhance both teaching competencies and intellectual contributions.
4. We will encourage the relationship between the department and significant constituencies that impact our mission and its implementation.

## Personal Requirements

A college preparatory curriculum in high school provides the best preparation for the bachelor degree programs in the Department of Business Administration. Three or four years of high school mathematics, including calculus, are recommended for students anticipating graduate study in business. No previous coursework in business is necessary. Because of extensive computer utilization in the business curriculum, electives in computer programming or software packages may prove to be helpful.

## Department Requirements

Although students in the Department of Business Administration are not required to apply for admission to the department, continuation is based upon performance in the core business requirements and satisfactory completion of course prerequisites. Students entering their junior year will be reviewed for continuation by the department chairman.

Students majoring in business must earn at least a 2.0 grade point average in all sophomore level business courses required for their major in order to graduate with a degree in a business major.

Students majoring in business must earn a "C-" in any prerequisite business course before being allowed to enter the subsequent course for which that course is a prerequisite. Waivers to this requirement are made only in exceptional circumstances, and

such waivers require the approval of the chairman of the department in consultation with the teacher responsible for the subsequent course.

In general, business majors should complete all 2000-level business core courses before beginning a 3000-level business course. Before taking a 4000-level Department of Business Administration course, students must have satisfactorily completed all 2000-level Department of Business Administration core courses required for their major. Waivers to this requirement are made only in exceptional circumstances, and such waivers require the approval of the department chairman.

To graduate with a major from the Department of Business Administration, students must earn at least a 2.0 cumulative average in all courses required for their major and at least a "C-" in all courses taken to meet a specific requirement in their major (cognate courses not included).

Every major and minor offered by the Department of Business Administration requires that a minimum of 50% of the business courses in the business administration core and 50% of the specific business courses required for each major or minor be earned at Cedarville University. Any CLEP or advanced placement credits earned are not considered to be earned at Cedarville University.

## Programs of Study

The Department of Business Administration offers the following programs:

### Majors

- Accounting
- Finance
- International Studies: Global Economics and International Business
- Management
- Management Information Systems
- Marketing

### Minors

- Business Administration
- Christian Ministries Management
- Economics
- International Business
- Management Information Systems

## Co-Curricular Opportunities

The Department of Business Administration provides several co-curricular opportunities for students to enhance their classroom experience as they prepare for their professional careers.

**Sigma Beta Delta**, an international honor society in business, management, and administration, recognizes junior and senior business majors who maintain excellent scholastic achievement.

Cedarville participates in the **Students in Free Enterprise (SIFE)** program with a number of other universities across the country. Students plan community events and enter a regional competition, developing leadership and teamwork skills.

The **Association of Information Technology Professionals (AITP)** provides management information systems and computer science majors with opportunities to network with business professionals while attending meetings, seminars, and activities.

Students interested in human resources and labor relations attend the **Society for Human Resources Management (SHRM)** chapter meetings and interact with working professionals.

## School of Social Sciences and Professional Studies

### **BUS-3990 Professional Development 0 hours**

A program of activities that prepares students to investigate career alternatives and initiate a job search strategy. Junior business majors are required to maintain enrollment in this program for both semesters of their junior year. (Fee: \$20)

### **BUS-4420 Business Ethics and Social Responsibility 2 hours**

Ethics asks questions about what goals one should pursue and what actions are appropriate in attempts to achieve these goals. The class examines alternative frameworks for analyzing difficult situations. Social responsibility refers to business decision-making linked to ethical values, compliance with legal requirements, and respect for people, communities, and the environment. Ultimately, the class will deal with how our biblical worldview defines and drives the choices we face in the business world. Open only to seniors in business administration.

### **BUS-4990 Executive Development 0 hours**

A program of professional development activities that prepares students to move into a corporate environment. Senior business majors are required to maintain enrollment in this program during both semesters of their senior year. (Fee: \$20)

### **Economics**

#### **ECON-2330 Microeconomics 3 hours**

That area of economic inquiry that is concerned with the effect of human behavior on the conduct of affairs within rather narrowly defined units. It is the study of decision making regarding consumption, production, and exchange that is carried on by individual households and by business firms.

#### **ECON-2340 Macroeconomics 3 hours**

That area of economic study that focuses on how human behavior affects outcomes in highly aggregated markets, such as the market for labor or for consumer products. It is a study of the behavior of the economy as a whole, including the study of economic phenomena such as interest rates, the price level and national income, and output and employment. *Prerequisite or corequisite: ECON-2330 Microeconomics; or permission of instructor.*

#### **ECON-3130 Government and Business 3 hours**

A study of the governmental agencies and their effect on American business. Case studies and current events are developed to show the trends and status of various laws and regulations. The economic impact and difficulties which arise in managing a business are reviewed. *Prerequisite: ECON-2330 Microeconomics. (odd years)*

#### **ECON-3310 International Money and Capital Markets 3 hours**

A study of money, banking, and monetary theory, with particular emphasis on international financial markets. *Prerequisite: ECON-2340 Macroeconomics; or permission of instructor.*

#### **ECON-3340 History of Economic Thought 3 hours**

Principal figures in the development of economic ideas, and the contribution of each period of economic thought from the mercantilist to the present. *Prerequisite: ECON-2330 Microeconomics. (even years)*

#### **ECON-3350 Comparative Economic Systems 3 hours**

Analysis of different types of economic systems. Special emphasis is placed on centralized planning from both a theoretical and empirical perspective. Centralized economic planning is compared and contrasted with a free-market distribution of resources. Individual country case studies are included. *Prerequisite: ECON-2340 Macroeconomics; or permission of instructor. (odd years)*

#### **ECON-3360 International Trade and Economics 3 hours**

A study of international economic theory and international trade policy. The economic basis of trade and factor mobility, the benefits of international trade, and the barriers to international trade flows will be examined. *Prerequisite: ECON-2330 Microeconomics; or permission of instructor.*

#### **ECON-3370 Labor Economics 3 hours**

An examination of the role of unions and the labor market in a free enterprise system. Emphasis is given to the impact of unions as a social institution in the collective bargaining process. Labor legislation and the labor movement are studied from both a historical and current perspective. *Prerequisite: ECON-2330 Microeconomics. (even years)*

#### **ECON-3380 3 hours**

#### **Economic Development and Political Economy**

A study of the interaction of political and economic systems to produce economic development and growth of nation states. A framework for analysis of development is explored and applied to specific case studies of both industrial and developing economics that have recently undergone significant change. *Prerequisite: ECON-2340 Macroeconomics; or permission of instructor.*

#### **ECON-3390 Public Finance 3 hours**

A consideration of the financing of local, state, and federal governments. Much attention is given to three functions of government: stabilization, distribution, and allocation. All major taxes that are present in the United States are studied as to structure, revenue gained, and present status. *Prerequisite: ECON-2340 Macroeconomics. (odd years)*

### **End-User Information Systems**

#### **EUIS-1000 3 hours**

#### **Word Processing Concepts and Applications**

Designed to develop a working knowledge of word processing software and hardware components and to apply these concepts to various software applications. The student will create, format, edit, store, retrieve, and print different types of documents as well as apply advanced features of the software to expand basic documents. Also an overview of the current operating system.

#### **EUIS-1010 3 hours**

#### **Presentation Graphics Concepts and Applications**

Designed to explain basic concepts of graphics software, give detailed information about the types of graphics that are available and when to use each type, demonstrate how to create each of the major types of graphics, and learn basic design concepts.

#### **EUIS-2010 3 hours**

#### **Spreadsheet and Database Concepts and Applications**

Designed to identify concepts and terminology used with electronic spreadsheets and to identify tasks that can be accomplished with spreadsheet software. The students will be able to use the computer to create, format, edit, store, retrieve, and print worksheets, graphs, and charts. The course will also introduce the student to database management systems. Fundamentals of database management concepts will be covered using a micro-computer database application package. Topics will include table design, query, maintenance, and reports. *Prerequisite: MIS-1510 Software Tools for Business.*

#### **EUIS-2100 Business Communication 3 hours**

Instruction for writing business letters, memos, and business reports. Oral business presentations, small group communication, and the communication process in general are also discussed. *Prerequisite: ENG-1400 Composition.*

#### **EUIS-2200 Desktop Publishing 2 hours**

Writing, assembling, and designing publications commonly found in businesses, such as newsletters, brochures, reports, and promotional materials using PageMaker software.

#### **EUIS-3000 3 hours**

#### **End-User Information Systems and Technologies**

Highlights emerging technologies for office systems and end-user computers stressing the social and technical approach to explaining office information systems. The behavioral aspects—the human factors that intertwine with the technical factors—are as important as the technology. Both are considered in the light of the business processes of the organizations they support.

		<b>MRKT-4620 International Marketing</b>	<b>3 hours</b>
		An intensive investigation of the problems, regulations, and challenges facing U.S. manufacturers seeking to expand their markets to countries abroad. <i>Prerequisite: MRKT-3600 Principles of Marketing.</i>	

# Communication Arts

## School of Humanities, Fine Arts, and Bible

---

### Purpose Statement

The Department of Communication Arts seeks to offer an education in communication consistent with biblical truth. Communication is an essential part of the world as God made it. The Department of Communication Arts recognizes the importance of understanding the theory as well as the practice of effective and edifying conversation. Contemporary issues and theories are presented and discussed in the perspective of Scripture. The department has developed these global objectives to achieve its purpose:

- To develop skills in critical thinking, academic research, and scholarly writing.
- To encourage a biblical understanding of ethics in communication.
- To identify implications of communication theory.
- To provide opportunities for students to practice skills of communication.
- To foster an understanding of the central role of electronic media communication in contemporary culture.
- To encourage an appreciation for theatre as a source of personal expression, societal analysis, aesthetic enjoyment, and career preparation.
- To equip the student with skills vital for communication success in vocational and/or avocational endeavors.
- To prepare students for graduate school.

### Personal Requirements

Communication arts students tend to be “people” persons with a willingness to work in public forums. Typically, communication students have a wide range of abilities and interests with a willingness to explore multiple career options.

### Department Requirements

Majors are required to complete a senior capstone project of research, production, or performance to graduate. The nature of the project is determined by the emphasis area of the student.

### Technical Resources

The department provides state of the art audio and video equipment with which students learn the skills of the electronic media.

A new, modern theatre and accompanying equipment and facilities are available to theatre majors.

The computer network provides tools and resources for public speaking, debate, and forensics.

### Programs of Study

The Department of Communication Arts offers the following programs of study:

#### Majors

- Communication Arts
- Electronic Media
- Theatre

#### Minors

- Comprehensive Communication
- Electronic Media
- Organizational Communication
- Theatre

### Co-Curricular Opportunities

**Alpha Beta Phi** is the Cedarville University chapter of the national honorary theatre organization, Alpha Psi Omega. The organization stimulates interest in theatre activities at the University and provides a forum for social interaction among students.

The Cedarville University **Debate Team** successfully competes with colleges and universities in the eastern United States. Cedarville’s debaters are competitively ranked within the National Education Debate Association debate league. Students with a competitive edge who plan to pursue leadership careers such as ministry, law, education, business, or politics are encouraged to contact the debate coach, Professor Rebecca Sietman.

**Drama** Each semester the Communication Arts Department presents a major theatrical production. In recent years the department has produced *Inherit the Wind*, *The Pirates of Penzance*, *Lost in Yonkers*, *Wait Until Dark*, and *A Midsummer Night’s Dream*. Performances are often sold out and always greatly appreciated by the university family as well as many community guests.

**Forensics** is intercollegiate speech competition, including events in public speaking, oral interpretation, limited preparation events, and Lincoln-Douglas debate. For the past 15 years, Cedarville has earned top rankings on both the state and national level. Cedarville is the current state champion of Ohio and the national champion among Christian colleges and universities. Contact Professor Matthew Moore for audition information. Limited scholarships are available.

**Lamda Pi Eta** is the National Communication Honor Society for undergraduate students. It recognizes, fosters, and rewards outstanding scholastic achievement. In addition, Lamda Pi Eta promotes and encourages professional development among majors, while providing an opportunity to discuss and exchange ideas in the field of communication.

The **Miriam Maddox Forum** is an honorary alumni society of the Department of Communication Arts for alumni and graduating seniors with a continuing interest in communication within the public sphere.

Communication arts majors interested in organizational communications and human resources are encouraged to join the Cedarville University chapter of the **Society for Human Resource Management (SHRM)**. SHRM members investigate the field of human resources by developing their own human resource management programming and activities and by attending other professional human resource meetings and conferences.

Students of all majors interested in applying and developing their skills in electronic media are encouraged to join the staff of **U99.5**, the university’s student radio station. Students are involved in planning, programming, and managing the station. Students enjoy a fun working environment and a large, responsive audience, just as a professional radio station. Popular programs, music, and personalities have made this station a favorite part of campus life at Cedarville.

### Career Opportunities

Careers in communications are varied and vast. Cedarville’s graduates with a communication arts major have excelled in careers such as public relations, personnel management, communication consulting, media communications, and corporate executive training. Students are well-equipped to pursue graduate studies in fields such as law, theology, and business.

# Communication Arts

### Communication Studies

The **communication arts major** prepares students for careers in public relations, personnel management, consultancy programs, media communications, and corporate executive training. Because excellent communication skills are important in many professions, this major has also been chosen by those pursuing careers in sales or politics. It also serves as excellent undergraduate preparation for those planning additional graduate professional training such as law, theology, and business.

Graduating seniors in communication arts culminate their programs with an individualized senior project under the direction of a faculty mentor. This project involves either a senior recital or a senior thesis. The senior recital emphasizes the performance training in areas of acting, oral interpretation, and public speaking and results in a public performance. The senior thesis emphasizes research and writing and results in a public presentation.

Course requirements involve 44 semester hours, including 20 semester hours in core requirements and 24 semester hours in an area of concentration chosen with the advice of the student's academic advisor. An additional 17 hours in specific courses are required if the student performs a recital.

### Electronic Media

The **electronic media major** prepares students for careers in a wide range of media—radio, television, non-broadcast audio/video production, and online and computer-based media. Because of the paraprofessional nature of this program and the balance of practical and theoretical aspects of media work, Cedarville graduates have excelled in careers across all of these media.

Through specifically designed courses, students have the opportunity to work in environments in which radio stations are streaming alternate music formats on the Web, television is digital and interactive, and the Internet's broadband capacity provides video on demand. Students receive a broad perspective to prepare them to work in a rapidly changing media environment and will also select a concentration for specialization.

Course requirements involve 49 semester hours—28 semester hours of core courses that provide the student with an overview of these media and develop skills in common with all of them and a 21-hour concentration. The concentrations provide specialized courses in audio production (radio and non-broadcast audio), video production (television and non-broadcast video), management/sales (covering the business side of the field), and interactive media (online and computer-based media).

Internships are strongly recommended but are dependent upon availability and placement.

### Theatre

The **theatre major** is a comprehensive major providing training in acting, directing, theatre design/technology, and theatre history/dramaturgy. The program places special emphasis upon the use of drama in worship and Christian ministry.

In addition to studio and classroom instruction, students gain practical experience through working on department productions and serving on production teams. To assist the student in the training and mastering of theatre skills and to help them put into practice classroom education, many theatre courses require practical work on university productions. Required hours for stage work are to be considered as course schedules are planned. Theatre students receive training in theatre procedures and safety before working on the university stage. This practical experience work is supervised by the theatre technical staff and may include set construction, scenic painting, lighting, properties, costumes, and other projects.

While many theatre majors anticipate a career in theatre, other students may want to combine the theatre major with a specific minor to help prepare them for the side diversity of theatre-related professions including Christian education, youth ministry, arts management, arts law, and arts education. With the assistance of a faculty advisor, theatre majors are encouraged to consider taking a minor in such fields of study as art, English, management, Christian education or psychology. The program culminates in a Senior Theatre Project designed to feature the student's level of expertise and assist the student in preparation for graduate school or the selected area for employment or ministry. Course requirements involve 55 semester hours.

### Course Descriptions

#### Communication Arts Courses

##### COM-1000 Introduction to Communication Studies–Fa 2 hours

A foundational course designed to introduce the student to the broad discipline of communication including such areas as history, theory, ethics, programs of study, professional organizations, co-curricular and career opportunities.

##### COM-1100 Fundamentals of Speech–Fa,Sp 3 hours

Usually a prerequisite for other courses in speech, the fundamental course offers theory and practice in basic speech skills for extemporaneous speaking and the use of voice and delivery in oral interpretation of prose and poetry. Students gain extensive training in public speaking as an art. (Fee: \$10)

##### COM-1120 Honors Speech–Fa,Sp 3 hours

Course will expose the student to and prepare the student for competition in the three general areas of intercollegiate forensic competition: oral interpretation (prose, poetry, dramatic-duo), public speaking (persuasion, informative, communication analysis), and limited preparation events (impromptu and extemporaneous speaking). *Prerequisites: Audition; permission of instructor.*

##### COM-1230 Voice and Diction–Sp 2 hours

See course description for THTR-1230 Voice and Diction.

##### COM-1500 Introduction to Debate–Su 3 hours

A foundational course designed to allow high school students to develop their public speaking and debating skills in a concentrated, activity-intensive learning environment. Theories concerning public speaking and argumentation will be presented. Daily speaking assignments are an important aspect of the course. (Fee: \$25)

##### COM-2000 Persuasive Theory–Fa 3 hours

### **THTR-3630 Production of Religious Drama–Sp 2 hours**

Course explores and provides training in the use of drama as a tool for religious education and corporate worship. A broad menu of dramatic venues is addressed: e.g. traditional costumed plays, the use of reader's theatre, choric speaking, the combining of drama and music, and group and solo performances. Stage work required.

### **THTR-3850 Seminar in Arts Administration and Arts Law–Sp 2 hours**

A seminar course providing background in arts administration and arts law, with significant research and presentation responsibilities for students. An overview of issues involved in the operation of arts organizations.

### **THTR-4400 Professional Preparation Seminar–Fa 2 hours**

A course to prepare the senior theatre arts student for entry into the professional arts community and/or graduate study. Topics would include: audition/portfolio preparation and presentation, resume writing, interviewing techniques, graduate study/assistantship options, professional union affiliation, etc. Stage work required. (Fee: \$45)

### **THTR-4640 Special Topics–Fa,Sp 3 hours**

Topics of specialized theatrical interest are examined on an as-needed basis. Repeatable up to six credit hours.

### **THTR-4750 Independent Study: Theatre–Fa,Sp 1-2 hours**

Independent study in a selected field for students with special interests and demonstrated ability. Repeatable up to eight credit hours.

### **THTR-4810 Internship: Theatre–Fa,Sp 3-12 hours**

Students are placed with professional organizations to gain experience in actual career situations. Internships depend upon availability. Repeatable up to fifteen hours.

### **THTR-4840 Senior Theatre Project–Fa,Sp 3 hours**

The Senior Theatre Project (STP) has two goals: To culminate the student's work at Cedarville with a project presenting the student's highest caliber of work, and to prepare the student to achieve personal and professional goals. The theatre major is given a variety of choices through which to fulfill the STP requirement: solo performance, directed production, theatre design or dramaturgical study. Before determining the nature of the STP, the student must determine personal and professional goals. The theatre major begins shaping the STP immediately upon enrollment in the major. All theatre majors work with a theatre advisor. Capstone course. (Fee: \$50)

### Purpose Statement

The Department of Education seeks to prepare professional Christian educators who demonstrate a biblical worldview, excellent academic preparation, and the ability to teach effectively and serve compassionately in a diversity of settings.

### Department Distinctives

- **Accreditation:** Cedarville University is accredited by the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, IL 60602-2502, phone 312-263-0456. The University's teacher preparation programs are approved by the Ohio Department of Education.
- Each year approximately 10% of the senior education students pursue intercultural student teaching experiences. Teaching under the supervision of experienced, certified teachers, they teach in approved, accredited overseas institutions that use an American curriculum.
- The University's award-winning technology resources enable upper-level students to develop lessons and curriculum resource materials for K-12 partner technology schools. Because of training in the use of educational technology, graduates are sought by schools to help integrate technology into their curricula.
- Intensive clinical experiences accompany methods classes. As a result, many schools comment that Cedarville graduates possess experience and confidence uncommon in most first-year teachers.
- Cedarville's reputation for producing exceptional teachers generates significant demand from school systems. Each year more than 120 Christian and public schools visit the campus to recruit teacher education graduates.

#### Licensure - Public Schools

All programs leading to licensure at Cedarville University are approved by the State of Ohio Department of Education. Ohio bases its requirements and approval processes on standards set by the National Council for Accreditation of Teacher Education (NCATE). Cedarville is not a member of NCATE and thus programs are not approved directly by NCATE. Ohio is a participant in the *Interstate Agreement on Qualifications of Educational Personnel* and has an implementation agreement (reciprocity) with 42 states. This agreement provides for recognition of Ohio Department of Education-approved programs by member states.

Although reciprocal licensure contracts exist with 42 states, in many cases, students must meet additional requirements to obtain extended or permanent licensure for those states. Also, because of the nature of Ohio's teacher licensing standards, graduates with an Ohio license will normally be granted a license of "best fit" with the state in which the graduate wishes to teach. State licensure requirements are changing in many states; therefore, students who wish to teach outside of Ohio should obtain a current description of certification requirements from the Department of Education for each state in which they would like to teach. Many states have their certification requirements posted electronically and they can be accessed through the Cedarville University Education Department home page on CedarNet.

#### Licensure - Christian Schools

Program completers receive certification from the Association of Christian Schools International (ACSI). Christian schools around the world recognize this certification.

### Demographic Profile

The number of teacher education program completers for the 2001-2002 reporting period was 87. The demographic profile of program completers for the 2001-2002 reporting period is:

	Number	Percent
White	87	100
African American	0	0.0
Hispanic	0	0.0
Asian	0	0.0
Other	0	0.0
Male	19	21.8
Female	68	78.2

### Personal Requirements

Students interested in the teacher education program should enjoy the teaching and learning process and enjoy working with people. The best teachers are those who are life-long learners and enjoy serving others; they are people who are motivated more by making a difference in others' lives than in making a lot of money. Cedarville University desires to work with students who are becoming a professional in their treatment of others, in their dress and demeanor, and in punctuality and responsibility for tasks. Because of the increasingly stringent standards for teachers nationwide, teacher candidates must be able to demonstrate their preparedness to teach by achieving good grades and passing state-mandated tests for teachers.

### Co-Curricular Activities

Numerous opportunities exist for tutoring in public schools, mentoring K-12 students and becoming involved in local church ministries to children and adolescents.

### Teacher Education Program Admission Requirements

Students admitted to Cedarville University must make application for formal admission to the Teacher Education Program (TEP). To be admitted, students must meet the following requirements at least one semester before enrolling in the first methods of teaching course for their particular program. These requirements apply to all students seeking a degree and/or license in either early childhood education, middle childhood education, special education, multi-age, or adolescent/young adult education (i.e. secondary education). Students seeking a degree/licensure in a program offered by another department should review the requirements of that department as well.

1. Minimum cumulative GPA of 2.7 in all courses and 2.7 GPA in all TEP core curriculum courses. All TEP core courses must be completed with a grade of "C-" or above.
2. Overall GPA of 2.7 and a grade of "C" or above in both general education communications courses: COM-1100 Fundamentals of Speech, ENG-1400 English Composition.
3. Minimum GPA of 2.5 in the teaching field content area(s).
4. No grade of less than "C-" in teaching field or concentration area courses.
5. Minimum passing scores on the Praxis I (Pre-Professional Skills Test): Reading, 175; Writing, 174; Mathematics, 175. Waivers may be granted to all or part of the Praxis I, based on ACT/SAT scores, and performance in selected course work at Cedarville University.

- Satisfactory completion of all introductory field experiences: EDUC-1050 Contemporary Christian Schools, EDUC-2200 Multicultural Field Experience, and EDSP-2050 Special Education Field Experience.
- Recommendation of the Education Department's admission interview committee based on application, resumé, interview, and letters of recommendation.

### Teacher Education Program Retention and Completion Requirements

To maintain regular standing in the Teacher Education Program, and/or to receive an education degree, students must maintain and/or complete the following requirements:

- Maintain a GPA of 2.7 or above in all courses.
- Obtain a "C" or above in all methods courses.
- Satisfactorily complete field and clinical experiences.
- Earn a passing score on state required Praxis II exams before enrolling in student teaching (licensure only).
- Satisfactorily complete the student teaching experience.

### Programs of Study

The Department of Education offers instruction with the purpose of providing excellent Christian teachers for Christian, public, international, and missionary schools. The University is approved by the Ohio Department of Education for programs leading to a teaching license or endorsement in several areas.

## Adolescent/Young Adult and Multi-Age Licensure Programs

The **adolescent/young adult licensure** programs prepare teachers to work with students in grades 7 to12. The Ohio Department of Education has approved Cedarville University to issue Adolescent/Young Adult licenses for teachers in the areas of integrated science (comprehensive), integrated life science, integrated physical science, integrated physics, integrated chemistry, integrated mathematics, integrated language arts, and integrated social studies.

The **multi-age licensure** education programs prepare students to work with students in grades pre-K to 12. The Ohio Department of Education has approved Cedarville University to issue multi-age licenses in the areas of music education, Spanish education, physical education, and health education.

The course requirements for each licensure field are outlined in the catalog under the department which offers the major. However the following courses are common to all adolescent/young adult and multi-age education majors and are prerequisites for admission to the Teacher Education Program and upper-level classes.

<b>Teacher Education Core .....</b>	<b>12</b>
EDSP-2000 Teaching Children with Exceptionalities ...	2

EDUC-2000 Introduction to Teaching .....	2
EDUC-2100 Technology in the Classroom .....	2
EDUC-2200 Multicultural Field Experience .....	1
EDUC-2500 Educational Psychology .....	3

Upon completion of the Teacher Education Core and before enrolling in the Principles of Teaching block, students must make formal application to the Teacher Education Program (TEP). The requirements for admission to the TEP are outlined earlier in this section of the catalog. Multi-age physical education majors take upper-level methods classes from the Department of Exercise and Sport Science during the fall of the senior year and should apply for admission to the TEP in the spring of the junior year. Multi-age music education majors take upper-level methods classes from the Department of Music during the junior and senior year and should apply for admission to the TEP at the beginning of the semester prior to the semester they will take the first methods class.

<sup>2</sup>AYA integrated language arts does not take this course. AYA math majors may take this course out-of-class in the summer.

<sup>3</sup>Must have been admitted to the TEP or achieved junior status. Normally taken concurrently with student teaching.

## Course Descriptions

**EDUC-1000 The Education Profession**—Fa,Sp **1 hour**

An introduction to the rewards and requirements of the teaching profession including social issues and historical context of the profession. Focus is on the five domains of good teaching, teacher licensure, professional issues, and an overview of the mission statement, conceptual framework, and requirements of the teacher education program at Cedarville University.

**EDUC-1050 Contemporary Christian Schools**—Fa,Sp **0 hours**

Teacher candidates arrange a field experience for five consecutive full days in a Christian school setting where they observe and participate in classroom activities. A follow-up report is required. *Prerequisite: EDUC-1000 The Education Profession; or permission of instructor.*

**EDUC-1800 Principles of Mathematics I**—Fa,Sp **3 hours**

A framework for the content of this course is Ohio's Competency Based Comprehensive Programs for Mathematics (NCTM Standards). The course utilizes a problem-solving approach and makes connections to real-world situations and other disciplines. *Prerequisite: EDUC-1000 The Education Profession.*

**EDUC-2000 Introduction to Teaching**—Fa,Sp,Su **2 hours**

An introduction to the structure, culture, governance, and philosophies of public schools in the United States. A history of American public education is presented focusing on multicultural issues that affect American schooling. A general introduction to techniques of instruction and class management is presented. *Prerequisites: EDUC-1000 The Education Profession; ENG-1400 Composition; COM-1100 Fundamentals of Speech. Co-requisites: other courses in the Introduction to Teaching block. (Fee:\$30)*

**EDUC-2100 Technology in the Classroom**—Fa,Sp,Su **2 hours**

Teacher candidates learn to use a wide range of technology for developing and enhancing classroom instruction. The class focuses on the technology required for projects to be done in EDUC-2000 Introduction to Teaching and in the upper-level methods courses. *Prerequisite: EDUC-1000 The Education Profession. Co-requisites: other courses in the Introduction to Teaching block.*

**EDUC-2200 Multicultural Field Experience**—Fa,Sp,Su **1 hour**

An introduction to the professional side of schooling through a four-week field experience in a multicultural school setting. Some field-based assignments focus on issues of multicultural education. *Prerequisites: EDUC-1000 The Education Profession; ENG-1400 Composition; COM-1100 Fundamentals of Speech. Co-requisites: other courses in the Introduction to Teaching block. (Fee: \$60)*

**EDUC-2300** **2 hours**

**Introduction to the Reading Process**—Fa,Sp

An overview of philosophies of reading and approaches to reading instruction including current issues. The class focuses on literacy, how it develops for young learners, and the experiences that influence literacy development. *Prerequisite: EDUC-1000 The Education Profession.*

**EDUC-2400 Children's Literature**—Fa,Sp **2 hours**

A survey of the early history, major types, and modern trends of literature for children in preschool through grade 5. The social and personal value of literature is studied along with methods for using trade books for reading instruction. *Prerequisite: EDUC-1000 The Education Profession.*

**EDUC-2500 Educational Psychology**—Fa,Sp,Su **3 hours**

An introduction to the principles of child and adolescent development, learning theories, and the principles and processes that affect teaching and learning. The class focuses on learning theory and the skills necessary to create and maintain

an optimal learning environment in a diversity of settings.

*Prerequisite: EDUC-1000 The Education Profession.*

**EDUC-2600 Topics in Children's Literature**—Su **3 hours**

An overview of current topics and trends in children's literature. May be credited toward the reading/language arts middle school concentration. Offered during Summer School Session III and intermittently by arrangement with instructor. *Prerequisite: EDUC-2400 Children's Literature; or permission of dept. chairman.*

**EDUC-2800 Principles of Mathematics II**—Fa,Sp **3 hours**

A course building on the NCTM standards-based framework begun in Principles of Math I and including a development of new mathematical topics which are connected to real world situations and other disciplines. *Pre-requisite: EDUC-1800 Principles of Mathematics I.*

**EDUC-3030 Computers in Education**—Su **3 hours**

This course prepares the teacher candidate to use computers and related technology to support instruction in the K-12 setting. Productivity tools, assistive technologies, and instructional strategies prepare the student for the practicum experience. *Prerequisite: EDUC-2100 Technology in the Classroom. Offered in Fall or Spring on an as-needed basis only.*

**EDUC-3560** **3 hours**

**Practicum in Educational Technology**—Fa,Sp,Su

A placement in a K-12 setting under the supervision of a qualified technology director during which the teacher education teacher candidate assists in operation of the technology program. *Prerequisite: completion of 75% of the computer/technology endorsement; or permission of instructor.*

**EDUC-3570 Supervised Field Experience** **1-3 hours**

A 30-90 clock hour supervised placement in an early, middle, or adolescent/young adult classroom. Designed to give a transfer teacher candidate or a teacher candidate repeating other field experiences an analogous experience to those in the university's teacher education program.

**EDUC-3610 Practicum**—Fa,Sp,Su **2 hours**

Independent teaching of ESL students under the general supervision of a master teacher. In a K-12 placement under the supervision of a qualified ESL teacher, the student will practice teaching in a formal classroom situation. During this experience, the student will be provided opportunities to establish goals and objectives and design curricula that reflect Ohio's grade-level learning outcomes in content areas. The student will also be given opportunities to select, adapt, create, and use varied resources appropriate to age, cultural groups, and different learning styles. Activities should include integrating technology in planning and delivering instruction and strategies for creating and maintaining communication with families. Practicum will also provide the student with knowledge and skills in assessment. Ongoing during this experience, the student will analyze, evaluate, reflect on and describe his/her field experience. *Prerequisite: LING-3700 Methods of Teaching Foreign Language. (Fee: \$45)*

**EDUC-3990 Independent Study in Education** **1-3 hours**

An investigation of contemporary topics in education through reading, writing, or creative projects. *Prerequisite: 15 semester hours in education.*

**EDUC-4000 Reading in the Content Area: Multi-Age** **3 hours**  
Su (*Out-of-Class*)

An introduction to the range of strategies and programs for learning and teaching the reading process, including the nature of the reading process, assessment techniques, and instructional strategies to provide increased comprehension of the textual material of the disciplines represented by students in the class. This course is for AYA Mathematics and MA Music and Physical Education teacher education program majors.

# Education

## School of Social Sciences and Professional Studies

*Prerequisite: admission to the teacher education program; or senior status and permission of department chair.*

### **EDUC-4500 Philosophy of Education—Fa,Sp 2 hours**

Corequisite: other courses in the E.C. Methods I block.*

#### **EDEC-3700 Teaching Reading: Phonics—Fa,Sp 3 hours**

An introduction to the rationale, skills, instructional and

assessment strategies, teaching aids, resource materials, and appropriate technologies for the teaching of phonics. Emphasis given to the place of phonics in the overall reading program for young children. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.*

#### **EDEC-3800 4 hours**

##### **Teaching Reading and Language Arts: Early Childhood—Fa,Sp**

An introduction to the objectives, skills, instructional strategies, teaching aids, resource materials, and assessment techniques for teaching reading and the language arts to the early childhood student. An associated clinical experience provides theory-driven application. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block.*

#### **EDEC-3900 1 hour**

##### **Field Experience in Early Childhood Education—Fa,Sp**

An observation and participation experience in which teacher candidates spend 12-15 full consecutive days focusing on classroom routines and instruction in a kindergarten or other preschool classroom. Designed to give a practical field-based aspect to all of the courses in the Early Childhood Methods I block. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block. (Fee: \$35)*

#### **EDEC-3950 Early Childhood Clinical I—Fa,Sp 3 hours**

Teacher candidates spend 14-17 full consecutive days in an early childhood classroom including 12-15 days of teaching. The implementation of reading and language arts objectives, skills, strategies of instruction, teaching aids, and resource materials is practiced in a university-supervised setting. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the E.C. Methods I block. (Fee: \$105)*

#### **EDEC-4000 2 hours**

##### **Reading in the Content Areas: Early Childhood—Fa,Sp**

An introduction to the dimensions, strategies, and programs for learning and teaching the reading process including the nature of the reading process, assessment techniques, and instructional strategies to increase comprehension of the textual material of the various disciplines taught in the elementary grades. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the Early Childhood Methods II block.*

#### **EDEC-4100 4 hours**

##### **Teaching Mathematics: Early Childhood—Fa,Sp**

An introduction to the objectives, skills, instructional strategies, teaching aids, and resource materials for teaching mathematics to the young child, based on the Ohio Model and NCTM Standards. An associated clinical experience provides theory-driven application. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.*

#### **EDEC-4200 3 hours**

##### **Teaching Science: Early Childhood—Fa,Sp**

An examination of science curricula for the young child with particular emphasis on the Ohio Model and the National Science Standards. Instructional methodologies which emphasize an inquiry approach will be modeled and practiced with attention given to a hands-on approach to instruction. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.*

#### **EDEC-4300 3 hours**

##### **Teaching Social Studies: Early Childhood—Fa,Sp**

An examination of social studies curricula for the young child with particular emphasis on the Ohio Model, the NASS Standards, and the integration of social studies with other

disciplines. Instructional methodologies which emphasize the teaching of thinking, student interaction, and the use of instructional technologies will be modeled and practiced. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block.*

**EDEC-4450 Early Childhood Clinical II—Fa,Sp 3 hours**

Teacher candidates spend 20-25 days in an early childhood classroom including 17-22 days teaching mathematics, social studies, and science. This field experience provides theory-driven application to instruction with an emphasis on reflective teaching and collegial teamwork. Teacher candidates are formally supervised and evaluated by university supervisors using Praxis/Pathwise criteria. *Prerequisite: successful completion of the E.C. Methods I block. Corequisite: other courses in the E.C. Methods II block. (Fee: \$105)*

An introduction to the objectives, skills, and instructional strategies for teaching middle school mathematics, based on the Ohio Model and NCTM Standards. An associated clinical experience provides opportunity for theory-driven application of knowledge and skills. *Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.*

**EDMC-4200 Teaching Science: Middle Childhood—Fa 3 hours**

An introduction to the objectives, skills, and instructional strategies for teaching middle school science, based on the Ohio Model and NSTA Standards. The course provides a particular emphasis on hands-on science instruction, the scientific method, and the integration of science with other disciplines. *Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.*

**EDMC-4300 3 hours**

**Teaching Social Studies: Middle Childhood—Fa**

An introduction to the objectives, skills, and instructional strategies for teaching middle school social studies, based on

the NSSA Standards. The course provides a particular emphasis on the Ohio Model and the integration of social studies with other disciplines. *Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block.*

### **EDMC-4440 Middle Childhood Clinical II—Fa 3 hours**

This clinical experience allows the teacher candidate to apply the theories, principles, and techniques provided in the associated methods courses. *Prerequisite: successful completion of the M.C. Methods I block. Corequisite: other courses in the M.C. Methods II block. (Fee: \$105)*

### **EDMC-4900 10-12 hours**

#### **Student Teaching and Seminar: Middle Childhood—Fa,Sp**

A teaching experience in a middle childhood setting under the supervision of the cooperating teacher and the university supervisor. Required seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. *Prerequisite: successful completion of the M.C. Methods II block. (Fee: \$100)*

#### **Adolescent / Young Adult (EDSE)**

### **EDSE-3100 3 hours**

#### **Contemporary Young Adult Literature—Sp**

A study of contemporary young adult literature, addressing issues of interpretation, analysis, and personal response with an emphasis on literature which reflects a diversity of gender, race, and ethnicity. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the AYA Principles of Teaching block; or permission of department chair.*

### **EDSE-3300 Developmental Reading—Sp 3 hours**

This course focuses on the reading goals and processes used in teaching English, language arts, and literature by language arts teachers at the secondary level. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the AYA Principles of Teaching block; or permission of department chair. (Fee: \$60)*

### **EDSE-3800 2 hours**

#### **Teaching Social Studies: Adolescent and Young Adult—Fa**

An emphasis on the identification, examination, and implementation of the methods and materials which are appropriate for each teacher candidate's discipline area. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the AYA Principles of Teaching block; or permission of department chair.*

### **EDSE-4000 3 hours**

#### **Reading in the Content Areas: Adolescent and Young Adult—Fa**

An introduction to the range of strategies and programs for learning and teaching the reading process, including the nature of the reading process, assessment techniques, and instructional strategies to provide increased comprehension of the textual material of the disciplines represented by teacher candidates in the class. This class is for MA Spanish and AYA teacher education program majors. *Prerequisite: admission to the teacher education program. Corequisites: other courses in the AYA Principles of Teaching block; or permission of department chair. (Fee: \$60)*

### **EDSE-4100 5 hours**

#### **Principles of Teaching: Adolescent and Young Adult—Fa,Sp**

An introduction to the objectives, skills, and instructional strategies needed for the teaching of adolescent and young adult students. An associated field experience gives opportunity to apply the knowledge and skills learned in the course. *Prerequisite: admission to the teacher education program. Corequisites: other courses in the AYA Principles of Teaching block.*

### **EDSE-4450 3 hours**

#### **Adolescent / Young Adult Clinical Experience—Fa,Sp**

An opportunity for the implementation of the objectives, skills, and instructional strategies in a setting appropriate for each discipline area. Teacher candidates teach two-three periods a day for five weeks. *Prerequisite: admission to the teacher education program. Corequisites: other courses in the AYA Principles of Teaching block. (Fee: \$75)*

### **EDSE-4900 10-12 hours**

#### **Student Teaching and Seminar: Adolescent / Young Adult—Fa,Sp**

A teaching experience in an adolescent/young adult setting under the supervision of the cooperating teacher and the university supervisor. Required seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. (Fee: \$100).

#### **Special Education (EDSP)**

### **EDSP-2000 2 hours**

#### **Teaching Children with Exceptionalities—Fa,Sp**

An exploration of the implications of federal laws with an emphasis on the definitions, characteristics, and strategies for intervention in inclusive settings. The course includes an introduction to the use of assistive technology. *Prerequisite: EDUC-1000 The Education Profession. Corequisites: other courses in the Introduction to Teaching block.*

### **EDSP-2050 1 hour**

#### **Special Education Field Experience—Fa,Sp,Su**

A field-based experience in special education in which the teacher candidate observes and participates with the teacher in assisting exceptional learners. *Prerequisites: COM-1100 Fundamentals of Speech; ENG-1400 Composition; EDUC-1000 The Education Profession. Corequisites: other courses in the Introduction to Teaching block.*

### **EDSP-2300 Survey of Learning Disabilities—Fa 2 hours**

An overview of the theories, research, and practices related to the education of individuals with learning disabilities. Emphasis is given to characteristics, assessment, and effective instruction. *Prerequisite: admission to the teacher education program. Corequisites: other courses in the Special Education block.*

### **EDSP-2500 1 hour**

#### **Survey of Mental Retardation and Developmental Disabilities: Early Childhood—Su**

Survey of the multidisciplinary perspectives, identification, early influences, causation, levels of support and practices

The education program allows students to gain multiple experiences working in classrooms of local schools.

related to the education of individuals with mental retardation and developmental disabilities in early childhood. *Offered summers only in a mediated (out-of-class) format. Taken in a special 2-week block during the sophomore summer.*

**EDSP-2510** **1 hour**

**Survey of Mental Retardation and Developmental Disabilities—Su (Out-of-Class)**

An extended overview of the theories, research, and practices related to the education of individuals with mental retardation and/or developmental disabilities. For early childhood and special education double majors who have already taken EDSP-2500 Survey of Mental Retardation and Developmental Disabilities: Early Childhood and need to complete the requirements for EDSP-2520 Survey of Mental Retardation and Developmental Disabilities: Special Education. Emphasis on causal factors, assessment, and management. *Prerequisites: successful completion of the Introduction to Teaching block; or permission of department chair; and EDSP-2500.*

**EDSP-2520** **2 hours**

**Survey of Mental Retardation and Developmental Disabilities: Special Education—Su**

An overview of the theories, research, and practices related to the education of individuals with mental retardation and developmental disabilities. Emphasis on causal factors, assessment, and educational implications. *Prerequisite: successful completion of the Introduction to Teaching block; or permission of department chair.*

**EDSP-2600 Survey of Behavior Disorders—Su** **2 hours**

An overview of the theories, research, and practices related to the education of individuals with emotional and/or behavioral disorders. Emphasis on causal factors, assessment, and management. Taken in a special two-week block during the sophomore summer. *Prerequisite: successful completion of Introduction to Teaching Block; or permission of instructor.* (Fee: \$150)

**EDSP-3100** **3 hours**

**Diagnostic and Remedial Reading—Fa,Sp**

An introduction to the use of formal and informal assessment techniques for identification of reading difficulties. Teacher candidates learn practical instructional strategies for teaching students with reading problems and apply the techniques by working with elementary students in a school setting.

*Prerequisite: EDUC-2300 Introduction to the Reading Process.* (Fee: \$30)

**EDSP-3150** **3 hours**

**Intervention and Diagnosis in Reading for Special Educators—Sp**

Study and implementation of individual testing and teaching strategies for skill development in reading; analysis of programs and materials; and development of individualized plans for remediation of specific skill deficits. *Prerequisites: the Introduction to Teaching block; and EDUC-2300 Introduction to the Reading Process.* (Fee: \$60)

**EDSP-3950** **3 hours**

**Special Education Clinical: Early Childhood—Fa,Sp**

An introduction to the objectives, skills, instructional strategies, teaching aids, and resource materials for teaching reading and the language arts to students with and without mild-moderate needs at the early childhood level.

*Prerequisites: admission to the teacher education program; and major in special education. Corequisite: other courses in the Early Childhood Methods I block.* (Fee: \$105)

**EDSP-4000 Principles of Inclusion—Fa,Sp** **1 hour**

An examination of the theories, research, and practices of adapting and modifying curriculum, instruction, and the learning environment for students with special educational needs. An accompanying clinical experience allows teacher candidates to implement what they have learned. *Prerequisite: admission to*

*the teacher education program. Corequisite: enrollment in the appropriate upper-level methods block.*

**EDSP-4100 Adaptive Curriculum and Instruction—Fa** **2 hours**

An introduction to the curriculum, intervention strategies, instructional materials, and educational technology used with students with mild-moderate special educational needs.

*Prerequisite: admission to the teacher education program.*

*Corequisite: other courses in the Special Education block.*

**EDSP-4150 Career and Occupational Training—Fa** **2 hours**

A look at the role of occupational training in the special education curriculum including the techniques used in developing occupational interests and abilities at various age levels. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the Special Education block.*

**EDSP-4250** **2 hours**

**Communication, Collaboration, and Inclusion Skills—Fa,Sp**

A presentation of the techniques of collaboration and consultation needed to enhance communication of the teacher candidate with exceptional individuals, parents, educational team members, and other professionals. Also includes strategies for adapting and modifying instruction for special needs students. *Prerequisite: admission to the teacher education program. Corequisite: Early Childhood Clinical II.*

**EDSP-4300** **2 hours**

**Behavioral and Instructional Management—Fa**

A presentation of the learning theory, motivation, and behavioral approaches to management of the social and academic environment of learners with mild-moderate special educational needs. Emphasis is on functional assessment and the behavioral intervention process. *Prerequisite: admission to the teacher education program. Corequisites: other courses in the Special Education block.*

**EDSP-4400 Assessment in Special Education—Fa** **4 hours**

Study in the administration and interpretation of formal and informal educational assessment instruments used for the placement of students with mild-moderate needs and the development of appropriate education goals and objectives. *Prerequisite: admission to the teacher education program.*

*Corequisites: other courses in the Special Education block.*

**EDSP-4450** **3 hours**

**Special Education Clinical: Middle Childhood—Fa,Sp**

An opportunity to implement the objectives, skills, and instructional strategies for teaching mathematics, science, and social studies to students with mild-moderate needs at the middle childhood level. *Prerequisite: successful completion of the E.C. Methods I block. Corequisites: other courses in the E.C. Methods II block.* (Fee: \$105)

**EDSP-4550** **3 hours**

**Special Education Clinical: Adolescent and Young Adult**

An opportunity to use the skills learned developing and implementing individualized educational plans and behavior intervention strategies for adolescent and young adult students with mild to moderate special educational needs. *Prerequisite: admission to the teacher education program. Corequisite: other courses in the Special Education block.* (Fee: \$105)

**EDSP-4900** **10-12 hours**

**Student Teaching and Seminar: Special Education**

A teaching experience for special education only majors with students who have mild to moderate special educational needs under the supervision of the cooperating teacher and the university supervisor. Seminars encourage reflection on the teaching experience as well as discussion of issues of importance to educators. *Prerequisite: successful completion of the Early Childhood Methods II and Special Education blocks.* (Fee: \$100)

# Engineering

## School of Engineering, Nursing, and Science

### Purpose Statement

The engineering program at Cedarville University blends the academic subjects required of all accredited engineering programs with “hands-on” experience through extensive laboratory work and design projects. Our curriculum introduces freshmen to 3-D Solid Modeling in the Computer-Aided Engineering Graphics course and digital electronics in the Digital Logic Design course. This provides students with practical experience and early insight into subsequent theory.

Our program enjoys the rich technical environment in the surrounding community by providing frequent opportunities for interaction with engineers working on the latest aerospace, automotive, and electronics technology.

The department faculty have the following vision: “We, the Elmer W. Engstrom Department of Engineering, seek to honor the Lord Jesus Christ in every endeavor and earnestly desire to cultivate engineers who are committed to moral excellence and who are exemplary in character, conduct, and skill. Therefore, we strive to provide an excellent educational environment that will nurture our students to honor the Lord in all things and help them to grow in spiritual maturity, wisdom, knowledge, and expertise for purposeful lives of service.”

### Personal Requirements

Students interested in studying engineering but uncertain of the specific engineering major have until the spring semester of the freshman year to choose computer, electrical, or mechanical engineering as a major. Faculty advisors, the Career Services Office, and engineering field trips represent some of the resources available to students contemplating which engineering major to choose.

### Department Requirements

#### New students

Students who enjoy and excel in science and mathematics, and who want to help people, have the highest potential for careers as engineers. Entering students are required to have an ACT composite score of at least 22 (or an SAT of at least 1010) in order to declare an engineering major. Students who do not meet this standard or do not demonstrate equivalent competency may request admission to the department on a provisional status.

To prepare for engineering, high school students should take a college preparatory curriculum that includes:

- 4 units of English
- 4 units of mathematics (algebra, geometry, trigonometry, and advanced mathematics or precalculus)
- 4 units of science (physical science, biology, chemistry, and physics)
- 3 units of social science
- 2 units of a single foreign language

It is also helpful for students to have some computer programming experience using a language such as BASIC, VisualBasic, PASCAL, C, C++, or FORTRAN. Experience with spreadsheets and word processors is also helpful.

#### Retention Requirement

Engineering majors must demonstrate proficiency in certain lower-level courses to advance into upper-level, 3000-level courses. Hence, all engineering majors must earn an overall GPA of 2.0 or higher by the end of their sophomore year. Furthermore, to advance into the junior year, all engineering majors must earn a combined GPA of 2.0 or higher in all of their

engineering courses and a combined GPA of 2.0 or higher in the following courses: MATH-1710, 1720, and 2710 - Calculus I,II, and III, MATH-2740 - Differential Equations, and PHYS-2110 and 2120 - General Physics I and II.

#### Graduation Requirements

1. Earn a cumulative grade point average of 2.0 or above in all engineering and cognate courses.
2. Take an assessment exam similar to the Fundamentals of Engineering Examination.

### Programs of Study

The Department of Engineering offers three programs of study:

- Computer Engineering (B.S.Cp.E.)
- Electrical Engineering (B.S.E.E.)
- Mechanical Engineering (B.S.M.E.)

#### Accreditation

The B.S.E.E., and B.S.M.E. programs are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

#### State Approval

The B.S.Cp.E, B.S.E.E. and B.S.M.E. programs have full approval by the Ohio Board of Regents.

#### Registration as a Professional Engineer

Seniors and graduates are eligible to take the NCEES Fundamentals of Engineering (FE) Examination offered by the Ohio Society of Professional Engineers. This exam is the first of two required to become a registered professional engineer and is offered each spring at Cedarville University. Cedarville University seniors have consistently had a passing rate above the state and national average.

### Technical Resources

Our modern labs include the following: senior design labs, fluids lab with an 18-inch cross-section wind tunnel, heat transfer, refrigeration, mechanics, materials testing, internal combustion engine dynamometers, CNC manufacturing, electrical machines, feedback controls, circuits, electronics, communications, digital logic, microprocessors, vibrations, and dynamics of machines. We also have computer-based circuit design tools, 3-D solid-modeling, FEA, CFD, and CNC software.

### Co-Curricular Opportunities

Engineering freshmen participate in the annual Cardboard Canoe Challenge at Homecoming. Other events include the sophomore Statics and Dynamics design competitions and the Advanced Digital Logic Design competition.

The department provides engineering students an opportunity to participate in some of the national and international engineering design competitions organized by professional engineering societies. Student chapters of national organizations (ASME, IEEE, SAE, ASEE, and SWE) encourage their members to participate in Aerodesign, Formula SAE, Micro-Baja, Mini-Baja, Robotics, Solar Splash, and Supermileage competitions.

### Career Opportunities

Engineering is the art of applying scientific and mathematical principles, experience, judgment, and common sense to make things that help people. Engineers are problem solvers; they make things work better, more efficiently, quicker, and less

expensively. Engineers design EKG and ultra-sound machines to help doctors diagnose medical problems, spacecraft to explore planets, machines to generate electricity to power cities, and technology to combat terrorism. They are designing faster and more powerful computers, advanced communication systems, and safer and more fuel-efficient cars and airplanes. Engineers are on the cutting edge of technology.

Engineers spend a lot of time interacting and communicating with others, often working on a team with others. With a strong science, mathematics, and technology background, the engineer often rises to leadership positions in a variety of settings, working at all stages—research, development, design, construction, production, operations, marketing, sales, and management—to develop new ideas into products.

In this era of rapid technological change, an engineering education serves our society well. In the decades ahead, society's needs and problems will call for engineering contributions on a scale not previously experienced.

## Faculty

**Lawrence Zavodney**, Chairman: Professor of Mechanical Engineering. *Education*: B.S.M.E., The University of Akron, 1974; M.S.M.E., The University of Akron, 1977; Ph.D., Virginia Polytechnic Institute and State University, 1987; registered professional engineer. At Cedarville since 1992.

**Robert Chasnov**, Assistant to the Chair: Professor of Engineering. *Education*: B.S., Rensselaer Polytechnic Institute, 1978; M.S., University of Illinois, 1980; Ph.D., University of Illinois, 1983; registered professional engineer. At Cedarville since 1991.

**Charles Allport**, Assistant to the Academic Vice President; Associate Professor of Mechanical Engineering. *Education*: B.S., United States Air Force Academy, 1962; M.A., George Washington University, 1963; M.S.E., Arizona State University, 1965; registered professional engineer. At Cedarville since 1990.

**Peter Burban**, Associate Professor of Mechanical Engineering. *Education*: B.S.Ch.E., University of Illinois, 1980; Ph.D., University of Delaware, 1984. At Cedarville since 2001.

**Heping Chen**, Assistant Professor of Electrical Engineering. *Education*: B.E., Harbin Institute of Technology, China, 1989; M.E., Nanyang Technological University, Singapore, 1999; Ph.D., Michigan State University, 2003. At Cedarville since 2003.

**Timothy Dewhurst**, Professor of Mechanical Engineering. *Education*: B.S.M.E., Cornell University, 1980; M.Eng.M., Cornell University, 1981; Ph.D., Cornell University, 1985; registered professional engineer. At Cedarville since 1996.

**Harwood Hegna**, Professor of Mechanical Engineering. *Education*: B.S.A.E., University of Minnesota, 1969; M.S.A.E., University of Minnesota, 1971; M.S.M.E., University of Minnesota, 1973; Ph.D., Air Force Institute of Technology, 1981; registered professional engineer. At Cedarville since 1992.

**Jay H. Kinsinger**, Assistant Professor of Mechanical Engineering. *Education*: B.S., Mechanical Engineering and Manufacturing Engineering Technologies, University of Dayton, 1993; M.S., Rehabilitation Engineering, Wright State University, 2000. At Cedarville since 1999.

**Clint Kohl**, Associate Professor of Electrical Engineering. *Education*: B.S.E.E., South Dakota State University, 1988; M.S.E.E., University of North Dakota, 1990; Ph.D., Iowa State University, 1992. At Cedarville since 1994.

**Robert Laramore**, Professor of Electrical Engineering. *Education*: B.S.E.E., University of Missouri at Rolla, 1973; M.S.E.E., University of Missouri at Rolla, 1975; registered professional engineer. At Cedarville since 1992.

**Timothy Norman**, Professor of Mechanical Engineering. *Education*: B.S.A.A.E., Purdue University, 1982; M.S.A.A.E., Purdue University, 1986; Ph.D. Purdue University, 1989. At Cedarville since 2003.

**Timothy Tuinstra**, Assistant Professor of Electrical Engineering. *Education*: B.S.E.E., Cedarville University, 1996; M.S.E.E., University of Dayton, 1998; Ph.D. in progress, University of Dayton. At Cedarville since 2002.

## Technical Support Staff

**David Denlinger**, Mechanical Engineering Technician. At Cedarville since 1993.

**Jonathan Gain**, Electrical Engineering Technician. *Education*: B.S.E.T., LeTourneau University, 1968. At Cedarville since 1992.

## Engineering Advisory Council

The Engineering Advisory Council consists of professional engineers, researchers, and business leaders representing a variety of engineering-related businesses. Through annual meetings, these experts advise the University and evaluate its plans for building upon Cedarville's reputation for excellence in undergraduate engineering education.

Council members include:

*Eugene Apple, General Electric Corporation, retired*

*Ronald Baker, Hi-Tech Aero Spares*

*Carl Bertsche, Jr., Production Engineering Company*

*James Brandeberry, Wright State University*

*Robert Bremer, Jr.*

*Gary Clasby, Duriron Company, Incorporated*

## Engineering Honors Program

The **engineering honors program** is designed to challenge exceptional students and encourage them to reach their highest possible potential. Because the program is integrated with the University's honors program, students who wish to participate must first be admitted into the University's honors program; the details are listed in the Interdisciplinary Studies section of the catalog. Admission can occur in either the freshman or sophomore year. Admission to the engineering honors program occurs after the student completes the sophomore year. A cumulative GPA of 3.5 or above is required for participation.

Engineering coursework involves taking the honors version of three courses and one additional engineering elective course. These engineering honors courses are scheduled and taken with other students, but they have enrichment opportunities and exposure to advanced topics through special assignments and sessions with the professor.

Course requirements for the **engineering honors program** include:

- HON-1010 and 1020 Making of the Modern Mind (substitutes for HUM-1400 and HIST elective) ..... 10
- EGGN-3110 Professional Ethics-Honors ..... 3
- EGXX-4XXX Engineering Elective ..... 3
- Honors version of the following courses:

*Requirements for computer engineering majors include:*

- EGEE-3210 Electronics I ..... 3
- EGCP-3210 Computer Architecture ..... 3
- EGCP-3010 Advanced Digital Logic Design ..... 3

*Requirements for electrical engineering majors include:*

- EGEE-3210 Electronics I ..... 3
- EGEE-3330 Communications Theory ..... 4
- EGEE-4410 Feedback Controls ..... 4

*Requirements for mechanical engineering majors include:*

- EGME-3110 Thermodynamics ..... 5
- EGME-3850 Mechanical Design ..... 3
- EGME-4660 Automatic Controls ..... 3

Students who earn a "B" or above in HON-1010 and 1020, earn a "B" or above in all engineering honors courses, and graduate with a cumulative GPA of 3.5 or higher will earn the "engineering honors graduate" designation.

Engineering students have many opportunities for hands-on experience in the laboratory.

## Course Descriptions

### General Engineering Courses

**EGGN-1110 The Engineering Profession—Fa** **1 hour**

Introduction to the basic concepts and skills necessary to function effectively as a Christian engineer, participation in group activities and design projects, introduction to ethical and moral issues in engineering practice, and introduction to engineering computer applications. Term project introduces Christian heritage in science and engineering. (Fee: \$50)

**EGGN-3110 Professional Ethics—Sp** **3 hours**

Introduction to the philosophical issues of determining what is true, what is good, and theories of morality. Applications are made to professional conduct, engineer-client relations, and product liability. Legal problems and the engineering code of ethics are discussed from a biblical perspective.

**EGGN-4010 Senior Seminar—Fa** **0 hours**

Required weekly meeting of senior engineering majors to discuss the transition into the professional work environment.

*Prerequisite: senior status in engineering.* (Fee: \$35)

### Engineering Competition Courses

**EGGN-1960 Competition Project—Sp** **0 hours**

Engineering freshmen on a Department of Engineering Intercollegiate Design Competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

**EGGN-2960 Competition Project—Sp** **0 hours**

Engineering sophomores on a Department of Engineering Intercollegiate Design Competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

**EGGN-3960 Competition Project—Sp** **0 hours**

Engineering juniors on a Department of Engineering Intercollegiate Design Competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

**EGGN-4960 Competition Project—Sp** **0 hours**

Engineering seniors on a Department of Engineering Intercollegiate Design Competition may use this course to provide on their transcript a record of their participation throughout the year. The name of the competition will be designated.

### Computer Engineering Courses

**EGCP-1010 Digital Logic Design—Fa,Sp** **3 hours**

Introduction to the fundamentals of digital logic design, number systems, Boolean Algebra, Karnaugh maps, computer simulation tools, combinational network design, flip flops, counters, state machines, and sequential networks. Circuits are designed in class and are built and evaluated in the laboratory. Two lecture hours and one two-hour laboratory per week. (Fee: \$100)

**EGCP-1310 Algorithmic Programming—Sp** **2 hours**

Introduction to algorithmic computer programming for engineering and scientific problem solving, fundamentals of coding, and debugging programs. A language such as C, C++, or Java is used. Algorithms and data structures are applied to scientific and engineering problems.

**EGCP-2110 Microprocessors—Fa** **3 hours**

Introduction to the fundamentals of microprocessors, including assembly language programming, memory hierarchies, peripheral device interfacing, interrupts, and microcomputer

## School of Engineering, Nursing, and Science

design. Two lecture hours and one two-hour laboratory per week; design project required. *Prerequisite:* EGCP-1010 *Digital Logic Design.* (Fee: \$100)

### **EGCP-3010 Advanced Digital Logic Design–Fa 3 hours**

Advanced treatment of digital logical design techniques and practices with emphasis on rapid electronic prototyping and effective use of advanced computer-aided design tools; schematic, textual, and VHDL design entry; arithmetic circuits, advanced finite-state machines, and advanced controller implementations. Three lecture hours and one two-hour laboratory per week; multiple projects and laboratory experiences including a class design contest usually involving a robot. *Prerequisites:* EGCP-1010 *Digital Logic Design;* EGCP-1310 *Algorithmic Programming or equivalent;* *junior status;* or *permission of instructor.* (Fee: \$100)

### **EGCP-3210 Computer Architecture–Sp 3 hours**

Introduction to computer architecture with an emphasis on hardware, RISC vs. CISC, pipeline and vector processing, I/O, and memory hierarchy including caches. Students design and construct a small microprocessor using a logic simulator and then write an assembler for their processor. *Prerequisites:* EGCP-2110 *Microprocessors;* EGCP-1310 *Algorithmic Programming or equivalent.*

### **EGCP-3510 Software Engineering–Fa 3 hours**

Discussion of the engineering process as it applies to software development, life-cycle analysis and modeling, software metrics and management tools, project cost and size estimation, system requirement analysis, software design paradigms, and software testing and verification. *Prerequisites:* CS-3410 *Algorithms;* CS-3310 *Operating Systems.*

### **EGCP-3920 Computer Engineering Internship 1-3 hours**

An opportunity for a computer engineering student to work closely with an industrial advisor. Specific attention is given to solving a particular problem(s) in that industry or firm. A faculty advisor assists in supervising and approving the internship, including assessing the number of credit hours. A final report (approximately seven pages per credit hour) describing the experience, including the problem and solution, is required. Must be arranged with a faculty sponsor and work supervisor before starting, and cannot be used to satisfy elective credit requirements. *Prerequisites:* *junior or senior engineering major status and faculty advisor's permission.*

### **EGCP-3950 Topics in Computer Engineering 1-3 hours**

Selected topics in computer engineering at the 3000-level that will complement or extend existing 2000- and 3000-level courses or expose students to topics not taught in other courses; may be proposed by the engineering faculty or students. *Prerequisite:* *instructor's permission.*

### **EGCP-3980 1-3 hours**

#### **Independent Study in Computer Engineering**

Opportunity to perform independent study or research in computer engineering and allied fields of application. A formal proposal for study must be approved by the faculty advisor before registering for this course. Up to three credit hours of engineering electives can be satisfied by an equivalent number of independent-study hours. *Prerequisites:* *junior or senior engineering major status and faculty advisor's permission.*

### **EGCP-3990 1-3 hours**

#### **Project Design in Computer Engineering**

An elective course for students to get academic credit for extracurricular design work in computer engineering; project may be related to a design competition, ministry, industry, or personal interest. Cannot be used to satisfy engineering elective requirements. *Prerequisite:* *instructor's permission.*

### **EGCP-4210 Advanced Computer Architecture–Fa 3 hours**

Advanced study of computer architecture with an emphasis on performance, performance metrics, benchmarks, integer and floating point concepts, data-path and control, super-scalar processing and pipelining, memory hierarchy, I/O and peripherals, vector, array and parallel processors, and multiprocessors. *Prerequisites:* EGCP-3010 *Advanced Digital Logic Design;* EGCP-3210 *Computer Architecture.*

### **EGCP-4810 4 hours**

#### **Computer Engineering Senior Design I–Fa**

Design and development of electronic products to meet specific requirements. Introduction to computer system design, power supply design, hardware-software co-design, software engineering, system performance trade-offs, electronic design tools, prototype methods, estimating and managing time and cost constraints, and project management. Student teams prepare a project proposal, design and prototype a microprocessor-based system or sub-system, use computerized design tools, submit weekly progress reports, and conduct design reviews. Three lecture hours and one two-hour laboratory per week. *Prerequisite:* *senior status in computer engineering.* *Corequisite:* EGCP-4210 *Advanced Computer Architecture.* (Fee: \$100)

### **EGCP-4820 4 hours**

#### **Computer Engineering Senior Design II–Sp**

Continuation of EGCP-4810 *Computer Engineering Senior Design I.* Student teams will complete their capstone project, submit weekly progress reports, prepare a formal final report, and give to faculty and students a formal design review presentation. *Prerequisite:* EGCP-4810 *Computer Engineering Senior Design I.* (Fee: \$100)

### **EGCP-4950 1-3 hours**

#### **Advanced Topics in Computer Engineering**

Selected topics in computer engineering at the 4000-level that expand the depth of existing 3000- and 4000-level courses or expose the students to advanced concepts not taught in other courses. Topics may be proposed by the engineering faculty or students. *Prerequisite:* *instructor's permission.*

#### **Electrical Engineering Courses**

### **EGEE-2010 Circuits–Sp 5 hours**

Introduction to basic circuit analysis using Ohm's law, Kirchoff's laws, independent and dependent sources, Thévenin and Norton equivalency and source transformations, transient responses in RC, RL, and RLC circuits, phasor analysis of RLC circuits, power in AC circuits, introduction to 3-phase circuits, mutual inductance, frequency response, Transforms, Laplace circuit analysis, Fourier Series, and introduction to transfer functions. Computer simulations and bread-board circuits are constructed and evaluated in the laboratory. Four lecture hours and one two-hour laboratory per week. Design project required. *Prerequisites:* PHYS-2120 *General Physics II;* MATH-2740 *Differential Equations.* (Fee: \$100)

### **EGEE-2050 Circuits and Instrumentation–Sp 4 hours**

Introduction to basic circuit analysis using Ohm's law, Kirchoff's laws, independent and dependent sources, Thévenin and Norton equivalency and source transformations, transient responses in RC, RL, and RLC circuits, operational amplifiers, and introduction to polyphase AC circuits. Circuit applications for transducers such as resistance strain gages, piezoelectric load cells, piezoelectric accelerometers, and thermocouples are emphasized along with measurement uncertainty analysis and statistical methods. Circuits are designed, simulated,

constructed and tested in the laboratory. Three lecture hours and one two-hour laboratory per week. *Prerequisites: PHYS-2120 General Physics II; MATH-2740 Differential Equations.* (Fee: \$100)

**EGEE-3110 Linear Systems–Fa 3 hours**

Introduction to linear time-invariant analysis of continuous and discrete-time systems using both time and frequency domain methods that include convolution, Fourier Series, Fourier, Laplace, and Z transforms; classical and computer solution methods are utilized. *Prerequisite: EGEE-2010 Circuits.*

**EGEE-3150 Analog Filters 3 hours**

Introduction to theory, design, and how to implement passive and active analog filters; basic filter structures, passive network synthesis, operational amplifier limitations, multiple-amplifier filters, and filter realization methods. *Prerequisite: EGEE-3110 Linear Systems.* (odd years)

**EGEE-3210 Electronics I–Fa 3 hours**

Introduction to the analysis of semiconductor electronic device theory and application, diodes, bipolar-junction transistors (BJTs), field-effect transistors (FETs), and the non-ideal characteristics of operational amplifiers. Two lecture hours and one two-hour lab or recitation period per week. *Prerequisite: EGEE-2010 Circuits.* (Fee: \$100)

**EGEE-3220 Electronics II–Sp 5 hours**

Continuation of EGEE-3210 Electronics I to include differential amplifiers, frequency response of amplifier circuits, multi-stage amplifiers, power amplifiers, feedback circuits, power supplies, filters, digital logic families, and oscillators. Four lecture hours and one two-hour lab per week. *Prerequisite: EGEE-3210 Electronics I.* (Fee: \$100)

**EGEE-3310 Electromagnetics–Fa 3 hours**

Engineering applications of vector calculus, phasors and Maxwell's equations to electrostatic, magnetostatic and time varying fields, transmission lines, Smith Chart, propagation of

uniform plane waves, and single-stub matching. Laboratory exercises introduce field-plotting, transmission line concepts using wave guides, single stub-tuning, introduction to the network analyzer, polarization, and radiation fields. Two lecture hours and one two-hour laboratory or recitation period per week. *Prerequisites: MATH-2710 Calculus III; EGEE-2010 Circuits.* (Fee: \$100)

**EGEE-3330 Communications Theory–Sp 4 hours**

Introduction to analog and digital communications theory. Probability and random processes are developed to facilitate noise analysis in modulation techniques. Three lecture hours and one two-hour laboratory per week; design project required. *Prerequisite: EGEE-3110 Linear Systems.* (Fee: \$100)

**EGEE-3370 3 hours**

**Probability and Random Processes for Engineers–Fa**

Introduction to sample points, sample spaces, probability, random variables, random vectors, statistical averages, linear transformations, random processes, linear system response to stochastic input, spectral analysis with application of the central-limit theorem and Gaussian processes to engineering problems. May be used to satisfy the mathematics elective requirement for electrical engineers. *Prerequisite: EGEE-3330 Communications Theory.*

**EGEE-3510 Power Electronics–Sp 3 hours**

Introduction to the fundamentals of power electronics, characteristics and application of semiconductor switches, motor control, device applications, and power processing design. Design project required. *Prerequisite: EGEE-3210 Electronics I.* (Fee: \$50)

**EGEE-3530 Electrical Machines–Fa 3 hours**

Introduction to the fundamentals of power circuits and the principles of analysis and characteristics of transformers and AC and DC rotating machines. Two lecture hours and one two-hour laboratory per week. *Prerequisite: EGEE-2010 Circuits; or EGEE-2050 Circuits and Instrumentation.* (Fee: \$100)

A recent addition to the annual Cardboard Canoe Challenge for freshmen engineering majors is the “King of The Lake Demolition Dunking Derby.” Teams that are successful in crossing the lake for the timed race are eligible to compete. The goal for the demolition is to sink an opposing canoe by ramming into it. Each student in the last floating canoe receives a trophy, declaring him/her “King (or Queen) of the Lake.”

#### **Project Design in Electrical Engineering**

An elective course for students to get academic credit for extracurricular design work in computer engineering; project may be related to a design competition, ministry, industry, or personal interest. Cannot be used to satisfy engineering elective requirements. *Prerequisite: instructor's permission.*

### **EGEE-4110 Digital Signal Processing-Fa** 2 hours

Introduction to digital signal processing with emphasis on FIR and IIR filter design, application of Z-transforms and Fourier Transforms, spectral analysis, realization and frequency response of discrete-time systems, and properties and design of FIR and IIR filters with infinite and finite word-length

processors. Filter designs are implemented in Matlab. Design project required. *Prerequisites: EGEE-3110 Linear Systems; EGCP-1310 Algorithmic Programming or equivalent.*

### **EGEE-4250 CMOS VLSI Design-Sp** 3 hours

Introduction to CMOS VLSI design with emphasis on circuit analysis, modeling, mask layout, simulation, and design verification; both theoretical concepts and CAD tools are used together for circuit design and verification. Three lecture hours per week with integrated laboratory. *Prerequisite: EGEE-3210 Electronics I.* (Fee: \$50)

### **EGEE-4330** 3 hours

#### **Advanced Communications and Networks-Sp**

Analysis of the performance of analog and digital communication systems and networks in the presence of noise, M-ary signals, signal space concepts, orthogonal signals, and introduction to communication networks. *Prerequisite: EGEE-3330 Communications Theory. Corequisite: EGEE-3370 Probability and Random Processes for Engineers or instructor's permission.*

### **EGEE-4410 Feedback Control Systems-Fa** 4 hours

Introduction to the analysis and design of analog feedback control systems with emphasis on modeling, transfer functions, root locus, frequency response, Bode plots, Nyquist Criterion, stability, compensator design for performance and robustness, PID, phase-lead, phase-lag, lead-lag, and performance indices. Three lecture hours and one two-hour laboratory or recitation per week. Design project required. *Prerequisite: EGEE-3110 Linear Systems.* (Fee: \$100)

### **EGEE-4450 Digital Control Systems-Sp** 3 hours

Introduction to analysis and design of discrete-time sampled-data control systems, signal sampling, A/D and D/A conversion, quantization, application of Z-domain transfer function techniques, transient response, frequency response, stability and performance of computer controlled systems, digital compensation, and controller design. Design project required. *Prerequisite: EGEE-4410 Feedback Control Systems.* (Fee: \$50)

### **EGEE-4510 Power Systems-Sp** 3 hours

Principles of electrical power generation, transmission, and distribution, three-phase power circuits, power system analysis, load flow, symmetrical components, fault currents, system protection, and stability. *Prerequisite: EGEE-3310 Electromagnetics.* (Fee: \$50)

### **EGEE-4810** 4 hours

#### **Electrical Engineering Senior Design I-Fa**

Design and development of electronic products to meet specific requirements using the top-down design method. Introduction to serial communication design, design for reliability, product cost and safety, environmental issues, project management, electronic design tools, prototype methods, noise analysis in data conversion, and circuit-board layout. Student teams prepare a project proposal, design and prototype electronic subsystems using analog and digital integrated circuits and microcontrollers, use computerized design tools, and conduct design reviews. Three lecture hours and one two-hour lab per week. *Prerequisites: EGEE-3220 Electronics II; EGCP-2110 Microprocessors; EGEE-3110 Linear Systems; senior status in electrical engineering.* (Fee: \$100)

### **EGEE-4820** 4 hours

#### **Electrical Engineering Senior Design II-Sp**

Continuation of EGEE-4810 implementing the top-down design method. Students design, build, and test a working electronic product to meet specific requirements within budget. Engineering time, team management costs and component

Electrical engineering students simulate, construct, and test circuits using state-of-the-art tools and equipment.

costs are incorporated into the total cost and grade for the final product. Formal design reports and presentations required. Two three-hour laboratories per week. *Prerequisite: EGEE-4810 Electrical Engineering Senior Design I.* (Fee: \$100)

**EGEE-4950** **1-3 hours**  
**Advanced Topics in Electrical Engineering**

Selected topics in electrical engineering at the 4000-level that expand the depth of existing 3000- and 4000-level courses or expose the students to advanced concepts not taught in other courses; topics may be proposed by the engineering faculty or students. *Prerequisite: instructor's permission.*

**Mechanical Engineering Courses**

**EGME-1810 Engineering Graphics–Fa** **1 hour**

Introduction to basic techniques of sketching, drawing, dimensioning, multiple views, sectioning, multi-view projections, and pictorial views. Introduction to commercial software for three-dimensional solid modeling and preparing engineering drawings. (Fee: \$25)

**EGME-1820 Solid Modeling–Sp** **1 hour**

Advanced techniques using a PC and commercial solid-modeling software to create three-dimensional solid models; techniques of solid modeling including extrusions, cuts, lofting, sweeps, drawing generation and assemblies. Includes bill of material management, sheet metal, and mold design.

*Prerequisite: EGME-1810 Engineering Graphics.* (Fee: \$25)

**EGME 2050 Computational Methods–Sp** **4 hours**

Introduction to computer programming and the numerical methods for solving roots of equations, simultaneous linear algebraic equations, ordinary differential equations, integration, introduction to finite-difference approximations, and least-squares curve fits. *Pre- or Corequisites: MATH-2710 Calculus III; MATH-2740 Differential Equations.*

**EGME-2310 Manufacturing and Finance–Fa** **3 hours**

Introduction to the fundamentals of manufacturing and contemporary materials processing, molding, casting, forming, machining, inspection techniques, and quality assurance. Applications to the time value of money, break-even and payback analysis, and economic analysis of engineering alternatives. *Prerequisite: EGME-2410 Properties of Engineering Materials.*

**EGME-2410 Properties of Engineering Materials–Sp** **4 hours**

Introduction to the properties of metallic, ceramic, polymeric, and composite materials; plastic deformation, strengthening, fracture, fatigue, corrosion, diffusion, equilibrium and nonequilibrium processes, phase diagrams, electrical and magnetic properties, and application to materials selection. Three lecture hours and one two-hour laboratory per week.

*Prerequisite: EGME-2530 Statics and Mechanics of Materials.* (Fee: \$100)

**EGME-2510 Statics–Fa** **3 hours**

Introduction to the analysis of forces in isolated and connected rigid-body systems; vector analysis, forces, moments, resultants, two- and three-dimensional equilibrium, centroids, moment of inertia, friction, trusses, frames, and machines. Design project required. *Prerequisites: EGME-1810 Engineering Graphics; PHYS-2110 General Physics I; MATH-1720 Analytical Geometry and Calculus II.* (Fee: \$10)

**EGME-2530 Statics and Mechanics of Materials–Fa** **5 hours**

Introduction to the analysis of forces in isolated and connected rigid-body systems; vector analysis, forces, moments, resultants, two- and three-dimensional equilibrium, centroids, distributed loading, moment of inertia, friction, trusses, frames, and machines. Introduction to the theoretical and experimental

analysis of deformable bodies subject to applied loads; normal and shear stress and strain, strain energy, torsion, stresses in beams, deflection of beams, combined stress, stress transformation, failure theories, and buckling of columns.

Design project required. *Prerequisites: EGME-1810 Engineering Graphics; PHYS-2110 General Physics I; MATH-1710 Calculus I.* (Fee: \$25)

**EGME-2630 Dynamics–Sp** **3 hours**

Introduction to the kinematic and kinetic analysis of particles, systems of particles, and rigid bodies; position, velocity, acceleration, non-rotating and rotating frames of reference, Newton's laws, work, energy, impulse, momentum, conservative and non-conservative systems, and vibration of single-degree-of-freedom systems. Design project required. *Prerequisite: EGME-2510 Statics or EGME-2530 Statics and Mechanics of Materials. Pre- or Corequisite: MATH-2740 Differential Equations.* (Fee: \$10)

**EGME-3010** **2 hours**

**Mechanical Engineering Laboratory I–Fa**

Experiments using the wind tunnel, engine test cell, mechanics laboratory, vibrations laboratory, fluids laboratory, refrigeration laboratory, and heat transfer laboratory are conducted. Students measure mechanical phenomena such as acceleration, force, pressure, temperature, strain, fluid flow, viscosity, and heat transfer using transducers, instrumentation, and PC-based data acquisition. Students design some of the experiments. Two two-hour laboratories per week. *Prerequisites: EGME-2050 Computational Methods; EGEE-2050 Circuits and Instrumentation. Corequisites: EGME-3000 Introduction to Mechanical Engineering Labs; EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics.* (Fee: \$100)

2003 mechanical engineering graduate, Jonathan Mattson, was offered a graduate research assistantship to earn his Ph.D. in aeronautical engineering at Georgia Tech. Every year, Cedarville University engineering graduates are accepted into graduate school and receive graduate assistantships that pay for their tuition, room, and board.

## School of Engineering, Nursing, and Science

<b>EGME-3020</b> <b>Mechanical Engineering Laboratory II–Sp</b> Continuation of EGME-3010. Two two-hour laboratories per week. <i>Prerequisite:</i> EGME-3010 <i>Mechanical Engineering Laboratory I.</i> <i>Corequisite:</i> EGME-3150 <i>Heat Transfer.</i> (Fee: \$100)	<b>2 hours</b>	<i>applicability. Prerequisite:</i> EGME-2410 <i>Properties of Engineering Materials.</i>
<b>EGME-3050</b> <b>Introduction to Finite Element Analysis–Sp</b> Introduction to the basic components of the finite element method including element selection, shape functions, strain-displacement and stress-strain relations, formulation of the stiffness matrix for 1-D, 2-D, and 3-D elements, linear strain and isoparametric formulations, application of boundary conditions, and interpretation of results; application to 2-D and 3-D problems and experience using a commercial code. <i>Prerequisites:</i> EGME-2050 <i>Computational Methods;</i> EGME-2530 <i>Statics and Mechanics of Materials.</i> (Fee: \$25)	<b>3 hours</b>	<b>EGME-3610</b> <b>Kinematics and Design of Machines–Sp</b> Introduction to analysis and synthesis of motion in planar mechanisms and linkages; velocity and acceleration analysis, cam design, gears, simple and compound gear trains, computer solution and simulation. Design project required. <i>Prerequisite:</i> EGME-2630 <i>Dynamics.</i> (Fee: \$40)
<b>EGME-3110 Thermodynamics–Fa</b> Introduction to engineering thermodynamics, properties of pure substances, work, heat, first and second laws of thermodynamics, energy, enthalpy, and entropy. Specific application to power, refrigeration cycles, and combustion processes. <i>Prerequisites:</i> CHEM-1050 <i>Chemistry for Engineers;</i> PHYS-2120 <i>General Physics II;</i> MATH-2710 <i>Calculus III.</i>	<b>5 hours</b>	<b>EGME-3850 Mechanical Design–Sp</b> Further development of load determination, stress, strain, deflection and failure theories; integration of an iterative problem solver in the design process and analysis of fatigue failure. Introduction to the design of mechanical components including shafts, keys, couplings, bearings, gears, springs, and fasteners. <i>Prerequisite:</i> EGME-2410 <i>Properties of Engineering Materials.</i> <i>Corequisites:</i> EGME-3020 <i>Mechanical Engineering Laboratory II;</i> EGME-3610 <i>Kinematics and Design of Machines.</i> (Fee: \$25)
<b>EGME-3130 Internal Combustion Engines–Sp</b> Introduction to internal combustion engines, fuel-air cycles, engine simulation, emissions, engine performance and alternative fuels. <i>Prerequisites:</i> EGME-2630 <i>Dynamics;</i> EGME-3110 <i>Thermodynamics.</i>	<b>3 hours</b>	<b>EGME-3920 Mechanical Engineering Internship</b> An opportunity for a mechanical engineering student to work closely with an industrial advisor. Specific attention is given to solving a particular problem(s) in that industry or firm. A faculty advisor assists in supervising and approving the internship, including assessing the number of credit hours. A final report (approximately seven pages per credit hour) describing the experience, including the problem and solution, is required. Must be arranged with faculty sponsor and work supervisor before starting, and cannot be used to satisfy elective credit requirements. <i>Prerequisites:</i> junior or senior engineering major status and faculty advisor's permission.
<b>EGME-3150 Heat Transfer–Sp</b> Introduction to conduction, convection, and radiation heat transfer in one and two dimensions; free and forced convection, analytical and computational techniques applied to Fourier's Law of conduction, Newton's Law of cooling, and Stefan-Boltzman's Law of thermal radiation. A heat exchanger design project is required. <i>Prerequisites:</i> EGME-3110 <i>Thermodynamics;</i> EGME-3210 <i>Fluid Mechanics.</i> <i>Corequisite:</i> EGME-2050 <i>Computational Methods.</i>	<b>3 hours</b>	<b>EGME-3950 Topics in Mechanical Engineering</b> Selected topics in mechanical engineering at the 3000-level that will compliment or extend present 2000- or 3000-level courses or expose students to topics not taught in other courses; may be proposed by the engineering faculty or students. <i>Prerequisite:</i> instructor's permission.
<b>EGME-3170 Thermal Systems</b> Introduction to engineering thermodynamics, properties of pure substances, work, heat, enthalpy, and first law of thermodynamics. Introduction to conduction and convection modes of heat transfer. <i>Prerequisites:</i> PHYS-2120 <i>General Physics II;</i> MATH-2710 <i>Calculus III;</i> MATH-2740 <i>Differential Equations.</i>	<b>2 hours</b>	<b>EGME-3980</b> <b>Independent Study in Mechanical Engineering</b> Opportunity to perform independent study or research in the various branches of engineering and allied fields of application. A formal proposal for study must be approved by the faculty advisor before registering for this course. Up to three credit hours of engineering electives can be satisfied by an equivalent number of hours of independent study. <i>Prerequisites:</i> junior or senior engineering major status and faculty advisor's permission.
<b>EGME-3210 Fluid Mechanics–Fa</b> Introduction to properties of fluids, fluid statics, and the concepts, definitions, and basic equations for subsonic fluid dynamics; Navier-Stokes equation, viscous and inviscid fluid flows, potential flow analysis, boundary layers, laminar and turbulent flows, analytical and computational solutions, vector fields, and finite integral control volume method. <i>Prerequisites:</i> MATH-2710 <i>Calculus III;</i> MATH-2740 <i>Differential Equations.</i>	<b>3 hours</b>	<b>EGME-3990</b> <b>Project Design in Mechanical Engineering</b> An elective course for students to get academic credit for extracurricular design work in mechanical engineering; project may be related to a design competition, ministry, industry, or personal interest. Cannot be used to satisfy engineering elective requirements. <i>Prerequisite:</i> instructor's permission.
<b>EGME-3430 Principles of Physical Metallurgy</b> Introduction to physical and mechanical properties of metals and alloys; crystal structure, phase equilibria, defects, strengthening mechanisms, and kinetics of reactions. <i>Prerequisite:</i> EGME-2410 <i>Properties of Engineering Materials.</i>	<b>3 hours</b>	<b>EGME-4050</b> <b>Finite Difference Methods In Engineering</b> Finite-difference approximations for derivatives and differential equations applied to solve engineering problems; consistency, stability, truncation error, and introduction to grid generation. <i>Prerequisites:</i> EGME-2050 <i>Computational Methods;</i> MATH-2710 <i>Calculus III.</i>
<b>EGME-3450 Plastic and Composite Materials</b> Introduction to properties and processing of plastics, resins, and adhesives; rheology, creep-deformation history, and injection molding. Fiber-reinforced, carbon-carbon, and metal-matrix composites are analyzed for strength, anisotropy, and	<b>2 hours</b>	<b>EGME-4160 Radiation and Solar Energy</b> Introduction to the fundamentals of radiation heat transfer including shape factors, wave-length dependence, and material properties. Applications to solar energy engineering and design problems. <i>Prerequisite:</i> EGME-3150 <i>Heat Transfer.</i>

**EGME-4250 Propulsion 2 hours**

Introduction to the principles of thrust production, compressible flow of gases, thermodynamics of jet propulsion systems, and parametric performance analysis of jet engines. *Prerequisites: EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics.*

**EGME-4270 Compressible Fluid Flow 2 hours**

Introduction to the compressible flow of gases in engineering systems; isentropic flow in variable-area passages, shock and expansion waves, and flow with wall friction and heat transfer. *Prerequisites: EGME-2050 Computational Methods; EGME-3110 Thermodynamics; EGME-3210 Fluid Mechanics.*

**EGME-4410 Introduction to Fracture Mechanics 3 hours**

Introduction to failure modes caused by static and dynamic loading, brittle fracture criteria, elastic behavior, stress fields around cracks, fatigue failure, stress corrosion cracking, and strain hardening mechanisms. *Prerequisite: EGME-2410 Properties of Engineering Materials.*

**EGME-4530 Advanced Mechanics of Materials–Fa 3 hours**

Advanced treatment of stress and strain including coordinate transformations, the eigenvalue problem, Mohr's circle and linear constitutive equations. Failure theories and energy methods, including Castigliano's theorems, are studied; applications to classical topics including analysis of beams with non-symmetrical sections, non-circular torsion, thin-wall beams, and beams on elastic foundations. *Prerequisite: EGME-2530 Statics and Mechanics of Materials.*

**EGME-4610 Dynamics of Machines 3 hours**

Dynamic analysis of machines and mechanisms; Newton's laws of motion, energy methods, force analysis, shaking forces, static and dynamic balancing, engine dynamics, multi-cylinder engines, and cam dynamics. *Prerequisite: EGME-3610 Kinematics and Design of Machines.*

**EGME-4660 Principles of Automatic Controls–Fa 3 hours**

Introduction to theoretical and experimental analysis of classical analog feedback control systems with emphasis on modeling, transfer function formulation, frequency response, root locus, Bode plots, stability, and compensator design. Three lecture hours and one two-hour laboratory or recitation per week; design project required. *Prerequisite: EGEE-2050 Circuits and Instrumentation.* (Fee: \$100)

**EGME-4710 Vibrations 3 hours**

Free and forced vibrations of mechanical systems having lumped mass and elasticity, single and multiple degree-of-freedom systems, matrix formulation, eigenvalues and eigenvectors, normal mode theory, Laplace Transform, dissipative systems, introduction to random, continuous, nonlinear vibrations, and engineering applications. *Prerequisite: EGME-2630 Dynamics.* (Fee: \$15)

**EGME-4720 Vibrations Lab 1 hour**

Laboratory experiments to demonstrate and support EGME-4710 Vibrations; function and calibration of instrumentation and motion detection transducers, measurement of the frequency response and impulse response function, electrodynamic shakers, instrumentation, Fast Fourier Transform, spectral analysis, and experience using a commercial FFT analyzer. One two-hour laboratory per week. *Pre- or Corequisite: EGME-4710 Vibrations.* (Fee: \$100)

**EGME-4750 3 hours**

**Random Vibrations and Signature Analysis**

Introduction to vibration analysis of discrete and continuous systems to random excitation, harmonic vibration, transient response, convolution integral, Laplace and Fourier Transform, Discrete Fourier Transform, Fast Fourier Transform, random variables, coherence, correlation, auto- and cross-correlation,

power spectral density, transfer function, and modal analysis; experience using a commercial FFT analyzer and Modal Analysis software. Design project required. *Prerequisite: EGME-4710 Vibrations.* (Fee: \$100)

**EGME-4810 3 hours**

**Mechanical Engineering Senior Design I–Fa**

This is the senior capstone design project for mechanical engineers. Student teams work independently on a design project to find a solution consistent with stated specifications using principles studied in previous courses. Work in this semester includes writing the proposal and performing background research and preliminary design. Students conduct a mid-term design review and end-of-semester oral and written presentation. Projects are advised by a faculty committee and includes weekly written progress reports and meetings with the faculty project advisor. *Prerequisites: EGME-3850 Mechanical Design; EGME-3610 Kinematics and Design of Machines; EGME-3150 Heat Transfer; EGME-3020 Mechanical Engineering Lab II; and senior status.* (Fee: \$100)

**EGME-4820 3 hours**

**Mechanical Engineering Senior Design II–Sp**

A continuation of EGME-4810 emphasizing detailed design, prototyping, troubleshooting, design modifications, project completion, reporting and oral presentation. Students submit written progress reports and attend meetings each week with the faculty project advisor, conduct an oral presentation, and prepare the final report. *Prerequisite: EGME-4810 Mechanical Engineering Senior Design I.* (Fee: \$100)

**EGME-4950 1-3 hours**

**Advanced Topics in Mechanical Engineering**

Selected topics in mechanical engineering at the 4000-level that expand the depth of existing 3000- and 4000-level courses or expose the students to advanced concepts not taught in other courses. Topics may be proposed by the engineering faculty or students. *Prerequisite: instructor's permission.*

*In 2003, engineering students had the opportunity to develop a prosthetic arm to enable a young girl, who was born without an arm, to play the violin.*

# Exercise and Sport Science

## School of Health and Human Performance

### Purpose Statement

The Department of Exercise and Sport Science seeks to:

1. Provide a program that will promote the physical, intellectual, and spiritual development of each individual through the medium of physical activity.
2. Develop an awareness of the Christian's stewardship responsibility with regard to the care and use of the body.
3. Provide experiences and instruction that will help develop Christ-like attitudes and actions in and through sports, games, self-testing activities, aquatics, and lifetime recreational pursuits.
4. Prepare students for careers in athletic training, exercise science, teaching physical education or health, sport management, coaching, recreation, health promotion, or other related fields.

### Personal Requirements

Students planning to pursue a major within the Department of Exercise and Sport Science are best prepared in high school by taking a college preparatory curriculum. Students planning to pursue a multi-age physical education major should take as many physical education courses as possible. Those considering majors in athletic training or exercise science should take biology, chemistry, physics, and mathematics courses at least through Algebra II. Business courses such as accounting and economics are good preparation for students considering a major in sport management.

### Department Requirements

Once students declare a major within the Department of Exercise and Sport Science, they are expected to maintain a high level of personal physical fitness. A semi-annual 1 1/2 mile run is used to evaluate the status of the student's fitness.

For information regarding specific program requirements, see page 97 for athletic training requirements and page 72 for the Department of Education admission and retention requirements.

### Programs of Study

The Department of Exercise and Sport Science offers the following programs of study:

#### Majors

- Athletic Training (national certification)
- Exercise Science
- Multi-Age Physical Education (certification for teaching pre-K to 12)
- Sport Management

#### Minors

- Coaching
- Health Promotion
- Multi-Age Health Education (certification for teaching pre-K to 12)

### Co-Curricular Opportunities

The Department of Exercise and Sport Science has several opportunities for students to increase their professional skills and awareness, including:

- Athletic training majors – Membership in National Athletic Trainer's Association (NATA)
- Exercise science majors – Membership in American

College of Sports Medicine (ACSM) and the Alliance of Health and Fitness Professionals membership program

- Multi-age physical education majors – Membership in American Alliance for Health, Physical Education, Recreation, and Dance (AAHPERD)
- Sport management majors – Membership in North American Society for Sport Management (NASSM)

### Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates include:

- Administrator of youth activities and youth organizations
- Athletic director
- Athletic trainer
- Coach
- College professor
- Community health opportunities
- Exercise physiologist
- Exercise specialist
- Fitness and recreation management
- Health teacher (pre-K to 12th grade)
- Personal trainer
- Professional athletic team management
- Physical education teacher (pre-K to 12th grade)
- Sport marketing and promotion
- Sport ministry organization management

### Faculty

**John McGillivray**, *Chairman*: Associate Professor of Exercise and Sport Science. Coach, women's soccer; NAIA Hall of Fame, 1993. *Education*: B.S., Cedarville University, 1970; graduate study, Wright State University, 1972-74; M.S., University of Dayton, 1976. At Cedarville since 1974.

**Benson Belleman**, Assistant Professor of Exercise and Sport Science. Coach, men's soccer. *Education*: B.A., Cedarville University, 1979; M.A., University of Akron, 1990. At Cedarville since 2001.

**Jeffrey Bolender**, Assistant Professor of Exercise and Sport Science. Coach, men's and women's track and field. *Education*: B.A., Cedarville University, 1991; M.S., Baylor University, 1996. At Cedarville since 2001.

**Donald Callan**, *Dean*, School of Health and Human Performance: Professor of Exercise and Sport Science. Founder, Missions Involvement Services (MIS); NAIA District 22 "Administrator of the Year," 1987-89; NAIA Hall of Fame, 1990. *Education*: B.S., Taylor University, 1955; M.A., Ball State Teachers College, 1960; Ph.D., The Ohio State University, 1968. At Cedarville since 1960.

**Teresa Clark**, Assistant Professor of Exercise and Sport Science. Coach, women's volleyball. NCCAA National Volleyball Chair. *Education*: B.A., Cedarville University, 1975; M.S., Indiana University, 1986. At Cedarville since 1996.

**Robert Duchardt**, Assistant Professor of Athletic Training. Head Athletic Trainer; Certified athletic trainer (NATA). *Education*: B.S., Taylor University, 1965; M.S., Union College, 1973; graduate study, West Chester State College, 1977. At Cedarville since 1989.

**Kathleen Freese**, Assistant Professor of Exercise and Sport Science. *Education*: B.S., Bowling Green State University, 1971; M.Ed., Bowling Green State University, 1981. At Cedarville since 1991.

**Evan Hellwig**, Associate Professor of Athletic Training. Certified athletic trainer (NATA); licensed physical therapist. *Education*: B.S., Mankato State University, 1984; Physical Therapy Certificate, University of Iowa School of Medicine, 1986; Ph.D., University of Virginia, 1992. At Cedarville 1986-89, 1992 to present.

**Pamela Diehl Johnson**, Professor of Exercise and Sport Science. Coach, women's tennis; member, NAIA Women's Tennis National Tournament Committee; member, Executive Committee, Greene County Special Olympics; NCCAA National Tennis Chair; coauthor, *Physical Fitness and the Christian*. *Education*: B.S., University of Dayton, 1970; M.A., The Ohio State University, 1971; Ph.D., The Ohio State University, 1974. At Cedarville since 1974.

**Elvin King**, Associate Professor of Exercise and Sport Science. Coach, women's cross country; founder, NCCAA National Track Meet; NCCAA Hall of Fame, 1993. *Education*: B.S., Kent State University, 1964; M.Ed., Bowling Green State University, 1967. At Cedarville since 1969.

**Kirk Martin**, Assistant Professor of Exercise and Sport Science. Coach, women's basketball. *Education*: B.A., Cedarville University, 1976; M.S., University of Dayton, 1981. At Cedarville since 2001.

**Paul Orchard**, Assistant Professor of Exercise and Sport Science. Coach, men's cross country; Assistant Coach, men's and women's track and field. *Education*: B.S., Taylor University, 1983; M.A., Miami University, 1986. At Cedarville since 1993.

**Jonathan Plush**, Instructor of Athletic Training. Certified athletic trainer (NATA). *Education*: B.A., Cedarville University, 1995; M.S., Georgia State University, 1997. At Cedarville since 2000.

**Elizabeth Shearer**, Instructor of Exercise and Sport Science. *Education*: B.A., Cedarville University, 1980. At Cedarville since 1979.

**W. Ray Slagle**, Assistant Professor of Exercise and Sport Science. Coach, men's basketball. *Education*: B.S., Bob Jones University, 1971; M.S., Eastern Michigan University, 1979. At Cedarville since 2000.

**William Vine**, Associate Professor of Athletic Training. Certified athletic trainer (NATA). *Education*: B.A., California State University, Chico, 1982; M.A., San Jose State University, 1989. At Cedarville since 2001.

## Athletic Training Major

The **athletic training major** prepares students for a career as a Certified Athletic Trainer with an emphasis on using athletic training as a springboard for ministry in a variety of settings. This program meets the requirements set forth by the National Athletic Trainer's Association (NATA) and the Commission of Accreditation of Allied Health Education Programs (CAAHEP). Even though the Athletic Training Education Program is not yet accredited, candidacy status has been granted by the Joint Review Committee for Athletic Training (JRC-AT). Prospective students need to be aware that beginning January 1, 2004, a degree from an accredited program is required in order to be eligible for NATA-BOC certification.

Athletic training requires a significant level of scientific and clinical preparation. Prospective athletic training students are encouraged to take college preparatory courses in high school including biology, chemistry, and physics. They also should have

successfully completed mathematics courses at least through Algebra II.

Students are encouraged to combine the athletic training major with another program of study depending upon their career objectives. Possible options include a business minor for those planning to be employed in the sports medicine clinic setting, a teaching certificate for those planning to be employed in the high school setting, and exercise science or biology for those pursuing graduate school or employment in an academic setting. Students need to be aware that preparing to be a marketable athletic trainer may require more than the traditional four years of college. The technical standards associated with the Athletic Training Education Program are available at [www.cedarville.edu/dept/es/athletictraining](http://www.cedarville.edu/dept/es/athletictraining).

### Admission and retention requirements

The Athletic Training Education Program (ATEP) will enforce a competitive admission process if necessary due to the limited availability of clinical education experiences. Space is limited to approximately 10 students per academic class, i.e. 10 seniors, 10 juniors, and 10 sophomores. There is no limit to the number of freshmen who may declare athletic training as their major, but if more than 10 students desire to continue as athletic training majors, the competitive admission process is enforced. Transfer students are considered on an individual basis and may be accepted directly into the ATEP provided that space is available in their graduating class and they have completed the necessary prerequisites. If space is not available, transfer students are welcome to re-apply the following year. Admission criteria include:

1. Cumulative grade point average of 2.5 or better
2. Completion of college-level biology and chemistry courses with a grade of "C-" or better
3. Completion of college-level first aid and basic athletic training courses with a grade of "B-" or better
4. Completion of at least 150 clinical hours under the direct supervision of a Certified Athletic Trainer (ATC)
5. Successful demonstration of designated clinical proficiencies
6. Satisfactory physical exam
7. Hepatitis B vaccine or signed declination
8. Signed acceptance of technical standards, available at [www.cedarville.edu/dept/es/athletictraining](http://www.cedarville.edu/dept/es/athletictraining)
9. Current certification in cardiopulmonary resuscitation (CPR)

Retention criteria include:

1. Earn a grade of "C-" or above in all athletic training courses
2. Maintain a cumulative GPA of 2.25
3. Maintain current CPR certification
4. Successful completion of clinical proficiencies established for each term
5. Positive recommendation by the faculty/clinical instructors of the ATEP

Graduation requirements include:

1. Earn a grade of "C-" or better in all athletic training courses
2. Member of the NATA
3. Successful completion of all clinical proficiencies
4. Apply for the NATA-BOC certification examination
5. Meet university requirements for graduation

## School of Health and Human Performance

### Clinical Requirements

The clinical experience is an integral part of the ATEP. Accreditation standards require that the clinical education component of the curriculum be at least two full years in duration. Athletic training majors need to be routinely available during typical varsity practice and game times in order to fulfill the clinical education component of the ATEP. Freshmen will need to accumulate at least 150 hours in order to be eligible for admission into the ATEP. Sophomores will be scheduled to work (approximately 8-10 hours per week) with every team each semester on a rotation basis to expose them to all aspects of collegiate athletic training services. The junior and senior years are devoted to completing extensive clinical assignments including assisting an ATC with a lower extremity sport, an upper extremity sport, an equipment intensive sport (football) and managing an athletic training facility. Upperclassmen can anticipate working between 12-18 hours per week. Therefore, students majoring in athletic training are not encouraged to participate in intercollegiate athletics.

### Minors

The **coaching** minor prepares students to work as coaches in organized athletic programs at any level. Although formal education is not currently required of coaches, this particular program combines theoretical, scientific, and practical components to provide students with the knowledge and the skills they will need to succeed in this competitive yet rewarding area of service. The course requirements of the coaching minor make it a suitable complement to any major field of study offered by the University.

Course requirements for a minor in coaching involve 18 semester hours including:

CCHG-3670 Fundamentals of Coaching .....	3
CCHG-3680 Scientific Basis of Coaching .....	2
Select one course from CCHG-3700 through CCHG-3760 Coaching .....	2

ESS-1400 First Aid and Safety Education .....	2
ESS-1550 Athletic Training Essentials .....	2
ESS-3800 Sport Psychology .....	2
ESS-3920 Biomechanics .....	2

The **health promotion** minor is a noncertificate area for those students not seeking K-12 teaching certification in health education. It is designed to prepare students for health promotion employment opportunities in educational, community, health agency, sport, and leisure settings. It complements the coursework in physical education, athletic training, business, exercise science, or psychology. Students may also qualify to take the Certified Health Education Specialist exam, depending on particular course work chosen.

Course requirements for a minor in health promotion involve 21 semester hours including:

ESS-1400 First Aid and Safety Education .....	2
ESS-3890 Human Anatomy and Physiology for the Physical Educator .....	5
MAHE-1000 Introduction to the Health Profession .....	1

Field experience at the University or a nearby high school involving actual coaching experience for a minimum of 100 hours. *Departmental approval is required.* Credit/no credit.

### **Education**

### **ESED-2900 2 hours**

#### **Health and Movement Education for the Young Child—Fa,Sp**

An investigation of current trends, methods of instruction, and curriculum design in health and physical education for early childhood classrooms, including review of appropriate Ohio models. Emphasis is given to the importance of nutrition, safety, and movement education for the young child including a look at basic nutritional, health, and safety management, especially in relationship to childhood illnesses and communicable diseases. *Prerequisite: EDUC-1000 The Education Profession.*

### **Exercise and Sport Science**

### **ESS-1350 2 hours**

#### **Foundations of Exercise and Sport Science—Sp**

Orientation to the history, philosophy, and scope of modern exercise and sport science from a theistic perspective.

### **ESS-1400 First Aid and Safety Education—Fa,Sp 2 hours**

American Red Cross Standard First Aid and C.P.R. certificate may be granted at the end of the course. (Fee: \$30)

### **ESS-1550 Athletic Training Essentials—Sp 2 hours**

Principles of prevention, recognition, management, and rehabilitation of athletic injuries are presented for the student anticipating professional employment as a supervisor of individuals engaged in recreation and sport activities. (Fee: \$35)

### **ESS-2380 Motor Learning and Development—Sp 3 hours**

A study of the stages in motor development and the factors affecting the acquisition of motor skills and learning as it relates to motor skill acquisition. The course provides cognitive and psychomotor knowledge of fundamental locomotor, non-locomotor, and manipulative motor skills.

### **ESS-3800 Sport Psychology—Sp 2 hours**

Surveys the concepts and issues related to the human psyche in the context of sport and from a biblical perspective.

*Prerequisite: PSYCH-1600 General Psychology, junior status, or permission of instructor.*

### **ESS-3890 5 hours**

#### **Human Anatomy and Physiology for the Physical Educator—Fa**

This course is designed to be a study of the structure and function of the human body from a Christian theistic perspective with particular emphasis on applications and understanding for physical educators. *Prerequisite: BIO-1000 Principles of Biology.*

# Exercise and Sport Science

## School of Health and Human Performance

### **ESS-3900 Physiology of Exercise–Sp 3 hours**

A study of the physiological processes of the body and how they are affected by and adapt to varying exercise conditions.

*Prerequisite:* BIO-2010 Human Anatomy and Physiology; or ESS-3890 Human Anatomy and Physiology for the Physical Educator.

### **ESS-3920 Biomechanics–Fa 2 hours**

Application of the facts and principles of basic physics to body movement, sports performance, and teaching of physical education skills. *Prerequisite:* GMTH-1020 College Algebra.

### **ESS-3940 Structural Kinesiology–Fa 1 hour**

Practical application of anatomy to physical education.

### **ESS-4600 2 hours**

#### **Research in Athletic Training and Exercise Science–Fa**

Designed to develop an appreciation for the importance of and need for quality research in athletic training and/or exercise science. Orientation to methods and procedures utilized, emphasizing basic principles of conducting research, and for interpreting and critically reviewing articles representative of the athletic training/exercise science domains. Capstone course for Athletic Training major.

### **ESS-4900 Physical Education Senior Seminar–Fa,Sp 1 hour each**

A study of current issues in physical education and the implications of physical education and sport on society. Students will also study sport law and methods of research and evaluation. Students register for one hour each semester of their senior year. Capstone course.

#### **Exercise and Sport Science Electives**

### **ESSE-2100 Wilderness Ministry–Su 3 hours**

Preparation for and participation in a backpacking trip provides the backdrop for addressing the purpose, benefits, and effective use of the wilderness backpacking experience for maximum spiritual impact on both individuals and groups. Credit/no credit. *If prior arrangements are made for fulfilling the activity requirement, this course can fulfill the Physical Education General Education activity course requirement.* (Fee: \$340)

### **ESSE-2300 through ESSE-2320 Sports Officiating 2 hours**

Lectures, reading, class discussions, and field experiences in officiating. Ohio High School Athletic Association certification may be earned in selected sports.

#### **ESSE-2300 Basketball Officiating**

#### **ESSE-2310 Volleyball Officiating**

#### **ESSE-2320 Track and Field Officiating**

### **ESSE-2810 Introduction to Camping–Sp 2 hours**

The development and scope of camping including philosophies of centralized and decentralized camping, standards, administration, and basic campcraft skills. Special arrangement only. *This course does not fulfill the Physical Education General Education activity course requirement or the Outdoor Leisure requirement of the physical education major.* (Fee: \$40) (even years)

### **ESSE-2830 Recreational Leadership–Sp 2 hours**

Survey of the recreational aspects of games and activities from a noncompetitive perspective. Small and large group activities are planned, such as new games and challenge initiatives to enhance individual and group development and recognize group process and dynamics. Practical work in planning, implementing, and evaluating recreational programs for all ages in schools, youth group outings, Bible clubs, and camps are provided. (odd years)

#### **Exercise Science**

### **EXSC-2000 Worksite Observation–Fa,Sp,Su 0 hours**

Students are required to arrange a field experience for five consecutive full days (minimum of 30 contact hours) in an exercise science work setting approved by their advisor where they can observe and participate in exercise science worksite

activities. *Departmental approval and a follow-up report are required.* Credit/no credit.

### **EXSC-3000 Exercise Science Practicum–Fa,Sp 1 hour**

This practicum is a minimum of 30 contact hours assisting or instructing in group aerobics, muscle strength conditioning instruction and workout supervision, muscle toning instruction and workout supervision, or person training. *Departmental approval is required.* Credit/no credit.

### **EXSC-3860 Basic Exercise Testing–Fa 3 hours**

This course will present guidelines and procedures for basic exercise and fitness testing. Students will develop knowledge and skill competencies in medical/health screening and anthropometry, as well as develop lifestyle, body composition, musculoskeletal, metabolic, and resting and exercise cardiorespiratory assessments in the apparently healthy population. *Prerequisites:* BIO-2010 Human Anatomy and Physiology; or ESS-3890 Human Anatomy and Physiology for the Physical Educator; and GMTH-1020 College Algebra. (Fee: \$15)

### **EXSC-3870 Basic Exercise Prescription–Sp 3 hours**

This course enables the student to develop the knowledge, skills, and attitudes necessary to design a regimen of physical activity in a systematic and individualized manner, using the components of frequency, duration, intensity, mode, and progression, for apparently healthy individuals. (Fee: \$15)

### **EXSC-4180 3 hours**

#### **Legal Issues in Exercise and Sport Science–Sp**

This course helps the student develop a knowledge of the legal system and the legal principles that have broad application to exercise testing, prescription, and leadership so that as exercise professionals they can develop and implement policies and procedures to help reduce legal risks and enhance the safety and efficacy of the experience of the client. *Prerequisite:* senior academic status.

### **EXSC-4810 3 hours**

#### **Organization and Administration of Exercise Science–Fa**

This course is designed to provide the knowledge and begin to develop the skills and abilities necessary to organize, administer, manage, promote, and deliver quality health/fitness programs effectively, safely, and efficiently, meeting the needs and desires of both the client and the employer. *Prerequisites:* ESS-1350 Foundations of Exercise and Sport Science; EXSC-2000 Worksite Observation; EXSC-3860 Basic Exercise Testing; and EXSC-3870 Basic Exercise Prescription.

### **EXSC-4850 Independent Study in Exercise**

#### **Science–Fa,Sp 1-3 hours**

Independent study in the area of exercise science by students pursuing the exercise science major. *Departmental approval is required.*

*Field experiences provide students an opportunity to develop skills for teaching children of all ages and abilities.*

**MAPE-4950 Methods of Teaching Physical Education–Fa** **3 hours**

This course provides the study of methods of instruction and practice and the study of planning and implementing units of instruction, as well as evaluating the effectiveness of various teaching strategies for teaching physical education at the secondary level. Also included is the study of understanding and developing assessment techniques in physical education and developing strategies for working with handicapped students.

*Prerequisite: admission to the teacher education program.*

**MAPE-4960 Field Experience–Fa** **4 hours**

An eight-week field experience taken in conjunction with MAPE-4950 Methods of Teaching Physical Education. *Prerequisite: admission to the teacher education program.* Credit/no credit.

(Fee: \$35)

**MAPE-4970 Field Experience in Physical Education–Special Populations–Fa,Sp** **2 hours**

A five-week adapted physical education teaching field experience taken in conjunction with EDSE-4900 Student Teaching and Seminar: Adolescent/Young Adult that seeks to provide the opportunity for application of adapted physical education content and theory studied in MAPE-3600 Physical Education in the Elementary School and MAPE-4950 Methods of Teaching Physical Education. *Prerequisites: admission to the teacher education program, MAPE-4950 Methods of Teaching Physical Education; and MAPE-4960 Field Experience.* (Fee: \$35)

*Prerequisites: admission to the teacher education program, MAPE-4950 Methods of Teaching Physical Education; and MAPE-4960 Field Experience.* (Fee: \$35)

**Sport Management**

**SMGT-1000 Sport Management Practicum–Fa,Sp** **1 hour**

An on-campus sport management opportunity for students in the sport management major to be involved in a variety of activities compatible with athletic and recreational sporting events and experiences. A minimum of 30 hours is required for each practicum. *Prerequisites: SMGT-1350 Introduction to Sport Management; and departmental approval.* Credit/no credit.

**SMGT-1350 Introduction to Sport Management–Sp** **3 hours**

This course is designed to introduce the student to the dynamic nature of sport management and the potential for successful and satisfying career opportunities.

**SMGT-3180 Legal Issues in the Sport Industry–Sp** **3 hours**

This course will focus on the three major areas of law that have a direct impact on the management of sport: tort liability and risk management, contract law, and constitutional law.

**SMGT-3610 Marketing in the Sport Industry–Sp** **3 hours**

This course will present the following concepts of sport marketing: definition of sport marketing and unique characteristics, the marketing management process, and identification and analysis of consumers.

**SMGT-3810 Organization and Administration of Sports and Athletics–Fa** **3 hours**

Study of current issues, management techniques, and programming concepts as utilized in the administration of athletics, intramurals, and recreational sports.

**SMGT-4660 Promotion and Public Relations in the Sport Industry–Fa** **3 hours**

A study of the various ways to promote sport to the public in a professional and ethical manner.

**SMGT-4850 Independent Study in Sport Management–Fa,Sp** **1-3 hours**

Independent study in the area of sport management by students pursuing the sport management major. *Departmental approval is required.*

**SMGT-4990 Internship in Sport Management–Fa,Sp** **12 hours**

This is an actual work experience in a sport management setting for a minimum of 40 hours per week for a minimum of twelve weeks. Capstone course for sport management major. *Departmental approval is required.* Credit/no credit. (Fee: \$35)

*Students gain experience by applying their athletic training knowledge to real-life injury.*

*Students benefit from instruction by faculty members who share practical principles from their own teaching careers.*

# Interdisciplinary Studies

## Purpose Statement

Interdisciplinary programs at the University are designed to encourage the thinking, research, and applications that help students understand the interrelationships among disciplines that are characteristic of a true liberal arts education. Drawing from several academic disciplines, these programs promote learning that broadens and deepens the student's view of knowledge and the world as a whole.

## Personal Requirements

Students who choose interdisciplinary programs typically possess a unique love for learning. They desire to know about many areas and enjoy discovering the relationships between the various academic disciplines, which comprise the body of knowledge. Though most college preparatory curricula provide a good measure of breadth through their coverage of the basic disciplines, students interested in interdisciplinary programs should choose electives that sharpen their thinking skills and expand their intellectual horizons. Advanced high school courses in writing, literature, mathematics, science, economics, world history, or social science are recommended.

Although background in foreign language is not required for admission to the programs, foreign language competency is necessary for effective international service. Consequently, two or more units of foreign language in high school is strongly recommended.

## Programs of Study

The University offers the following interdisciplinary programs:

- Honors Program
- Individualized Studies
- International Studies, with the following concentrations:
  - Global Economics and International Business
  - Missiology
  - Social Science
- Reserve Officers Training Corps (ROTC)
  - Air Force
  - Army

## Co-Curricular Opportunities

**Tau Delta Kappa** provides an opportunity for fellowship, ministry, exchange of ideas, and support of students involved in the honors program. TDK students also tutor school children in the Cedarville area.

## Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates include:

- Diplomat
- Government worker
- International relations
- Military officer
- Missionary

## College Studies Course Descriptions

### COLL-1000 Transitions

0 hours

Designed to assist students in understanding and developing skills needed for college success. Includes placement and diagnostic testing, special advising, and tutoring when necessary. (Fee: \$350)

### DEV-0900 Intermediate Algebra—Fa,Sp

2 hours

Review of algebraic principles, which are then extended to the solution of polynomial equations, systems of linear equations, rational and radical equations, functional notation, exponential functions, and logarithmic functions with emphasis on computational proficiency. This course is designed to prepare the student for GMTH-1020 College Algebra or other mathematics courses of comparable difficulty. The class time consists of two hours of lecture and two one-hour laboratories each week. May not be applied toward the 128 semester hours needed for graduation nor toward the science and mathematics General Education Requirement.

## The Honors Program

The **honors program** is designed to challenge gifted students to reach their academic potential through a specially designed course of study. The courses designated as "honors courses" are rigorous and demanding, challenging students to aspire to greater heights in their academic progress.

Admission to the program for entering freshmen is based upon ACT/SAT scores, extracurricular and work experience, and a sample of expository writing. Prospective students must complete a separate application, which is available through the Admissions Office.

A limited number of students are admitted into the program each fall. Students enrolled in the honors program are required to complete four honors courses in addition to a senior seminar or project.

Two of these courses are taken in the freshman year in a sequence entitled "The Making of the Modern Mind," which traces the development of philosophic, cultural, and artistic traditions against the background of the history of western civilization. These two courses meet General Education Requirements in humanities, philosophy, and history.

In the sophomore and junior years, honors students take two integrative seminars. Typically, each honors seminar provides an interdisciplinary perspective to the topic of study. Enrollment in honors seminars is limited to twenty students.

In the senior year, each honors student participates in the honors colloquium during the two semesters of the academic year. This senior seminar stresses the development of a Christian worldview in the midst of the contemporary pluralistic society.

Through the honors program, Cedarville University encourages superior scholarship, allows a thorough integration of the various disciplines, and provides the student an opportunity to understand better how all knowledge relates to its source in God. The honors program offers an adventure in the world of ideas, coupled with practical incentives for transcribing faith and learning into the larger culture for the glory of God and the benefit of men and women in His image.

Course requirements for the honors program involve 16 semester hours including:

### I. Freshman Colloquia:

**<sup>1</sup>The Making of the Modern Mind** ..... 10 hours

HON-1010 The Classical and Medieval Ages ..... 5

HON-1020 Renaissance, Reformation, and Revolutions .... 5

**II. Honors Integrative Seminars ..... 4 hours**  
Two seminars, typically 2 hours each, taken in the sophomore and junior years.

**III. Honors Research Project/Thesis ..... 2 hours**  
Participation in a one-hour interdisciplinary colloquium each semester (HON-4910, HON-4920) or an interdisciplinary research project (HON-4950).

<sup>1</sup>If taken together, these two courses replace the following General Education Requirements:

- HUM-1400 Introduction to the Humanities ..... 3
- Humanities Elective ..... 3  
(or 2000-level philosophy course if required for the major)
- History Elective ..... 3

If either of these two courses are taken individually, the course may be designated as 5 semester hours of credit toward either the humanities or history General Education Requirements.

## Honors Course Descriptions

**Freshman Humanities Sequence: HON-1010,1020**

***The Making of the Modern Mind* ..... 10 hours**

**HON-1010 The Classical and Medieval Ages ..... 5 hours**

Explores those historical, religious, philosophical, and artistic beginnings that have shaped the modern mind or what some are now calling the “postmodern” mind. The story begins, naturally enough, at the beginning, in the mind of God and continues through the development of classical Greek and Roman culture. Concludes with a study of the rise of Christianity and its dominance of Western culture in the Middle Ages.

**HON-1020 Renaissance, Reformation, and Revolutions 5 hours**

Explores the changing balance of power in Western culture: from church to state, from faith to reason, from religion to science, and from piety to humanism. Traces out the implications of these shifts for cultural expressions and revolutions in the arts, religion, science, and philosophy and culminates in a study of late twentieth century postmodernism.

### Honors Seminars

(Seminar offerings vary from year to year.)

**HON-3040 Women in America ..... 2 hours**

Study of the places in which American women have found themselves since 1860, the expectations made upon them, and the influences they have had upon American society.

**HON-3050 Communication in the Information Age ..... 2 hours**

Survey of the “new media” in electronic communication with an emphasis on the structures of the new media, their use in such areas as politics, education, business, and health care, the resulting changes in communication patterns in society and the social and ethical issues raised by their use.

**HON-3060 Leadership ..... 2 hours**

Leadership as a societal role is addressed through analysis of theory and observation of practitioners. A chronology of methodological approaches to the study of leadership is presented. Assigned reading and class processing of ideas and theories prepare the student for observation and evaluation of leaders in a variety of disciplines.

**HON-3080 Creativity: The Birth of a Notion ..... 2 hours**

Stimulates the participant to conscious creativity in every facet of life as an act of Christian stewardship. Creativity will be examined as one of the distinguishing marks of the image of God in man and as the essential ingredient in all artistic expression.

**HON-3100 Two Philosophies of Teaching and Learning ..... 2 hours**

Workshop in integrative thinking, exploring comparisons and contrasts between the philosophies of education implicit in Proverbs 1-9 and explicit in the writings of John Dewey.

**HON-3130 Perspectives on Friendship, Love, and Romance ..... 2 hours**

Explores friendship, love, and romance from historical, theological, and philosophical perspectives.

**HON-3180 Aesthetics ..... 2 hours**

Introduction to the study of aesthetics through an exploration of classical writings and the accounts of contemporary theorists, critics, and artists.

**HON-3190 Postmodernism ..... 2 hours**

An interdisciplinary analysis, critique, and response to postmodernism as it is reflected in contemporary culture.

**HON-3200 Romanticism and Its Offspring ..... 2 hours**

Study of the development of poetry and music from 1800 to the present postmodern pop culture.

**HON-4910 Honors Senior Colloquium ..... 1 hour**

Development of a generic understanding of the integration of faith, learning, and life.

**HON-4920 Honors Senior Colloquium ..... 1 hour**

Development of a disciplinary understanding of the integration of faith, learning, and life.

**HON-4950 Honors Senior Project ..... 1-2 hours**

The writing of an interdisciplinary research project.

*Students in the honors program are challenged by some of Cedarville's finest faculty.*

# Interdisciplinary Studies

## Individualized Studies

The **individualized studies** program serves students with specialized career aspirations that may not fit with a particular major program offered at Cedarville University or those who desire a traditional broad undergraduate program before proceeding to graduate school. The program leads to a Bachelor of Arts degree and includes the following provisions:

1. A student interested in an individualized studies program may submit a proposal after completing 20 semester hours at Cedarville University, exclusive of Advanced Placement, CLEP, and transfer credits, with a minimum 3.25 grade point average.
2. The student must define the focus of the intended individualized program on the program approval form. In addition, the student must demonstrate that the proposed program objective cannot adequately be achieved through an existing major at Cedarville University. The program approval form must be signed by a faculty sponsor and by the department chair of one of the major components of the program.
3. Each program must be approved by the standing Individualized Studies Committee appointed by the academic vice president. Decisions of this committee may be appealed to the Deans Council.
4. When the Individualized Studies Committee approves a student's proposed program, it will assign an academic advisor for the student.
5. Changes to the approved program must be approved by the faculty advisor and the Individualized Studies Committee.
6. For transcript purposes, the program will typically be called a B.A. degree with an individualized program in liberal arts.
7. The individualized program must meet all of the Cedarville University bachelor's degree requirements as detailed in the university catalog. In particular, the following items must be satisfied:
  - A grade point average in the program of at least 2.5.
  - At least one-third of the program courses must be taken at Cedarville University.
  - At least one-third of the program courses must be taken at the 3000 level or above.
  - D grades will not count as meeting the requirements of the individualized program.
  - A capstone course or experience appropriate to the individualized program and approved by the Individualized Studies Committee.

## International Studies

The **international studies major** utilizes courses from several academic disciplines to prepare students for a variety of internationally focused careers. A distinct international studies core provides the foundation for all the concentrations available in this major. Courses in anthropology, business, communications, culture, geography, history, linguistics, and political science provide students with the basic understanding they need to appreciate the diverse international community. Concentration options enable students to focus upon a particular area of interest within the international context. Three concentrations are available.

Course requirements involve 20 semester hours of core requirements and 33-53 hours of concentration requirements, depending on the selected concentration.

## Reserve Officer Training Corps (ROTC) Air Force Aerospace Studies

As a Cedarville University student, you have the opportunity to become an Air Force officer while the Air Force pays for your college. Through a cooperative agreement with Wright State University's Department of Aerospace Studies, we offer the ROTC program to full-time Cedarville University students pursuing a baccalaureate or master's degree. While all courses are taken through Cedarville University, leadership laboratories and classes for junior and senior years are taught at Wright State University, the host site of the area Air Force ROTC detachment. Cedarville University provides transportation.

The Air Force ROTC program is designed to produce Air Force officers who will be successful leaders and managers. All officers will be placed in positions of responsibility, facing challenging and rewarding career opportunities while using the most advanced technology in the world.

The Air Force ROTC program is organized in two portions: the General Military Course (GMC), typically taken during freshman and sophomore years, and the Professional Officer Course (POC), usually taken during junior and senior years or during the last two years prior to graduation. At minimum, officers will need to complete the POC portion of the program.

- The GMC is a **no-obligation** introduction to the Air Force. The course covers the development and history of air power and the organization of the contemporary United States Air Force.
- The POC curriculum covers communicative skills, Air Force management and leadership, American defense policy, and regional world studies.

Air Force ROTC students have additional opportunities to participate in challenging and rewarding activities which include skydiving, piloting a sail-plane, trips to air force bases around the world, orientation flights, official military functions and ceremonies, and one-on-one mentoring with an active duty Air Force officer.

This program is open to **all majors**. All Air Force ROTC students have the opportunity to apply for **scholarships** that pay partial or full tuition, books, and fees, plus a \$250 - \$400 monthly stipend depending on your progress in the program. These scholarships are available on a competitive basis to students who demonstrate academic and leadership potential. Scholarships with the greatest availability are in the areas of engineering, mathematics, computer science, physics, and nursing.

If you are a freshman seeking a challenge or wish to give Air Force ROTC a trial run, sign up for the Aerospace Studies 1200 course. All other students should contact the Department of Aerospace Studies, Wright State University, Dayton, Ohio, 45435, phone: 937-775-2730 or the Cedarville University Admissions Office at 1-800-CEDARVILLE.

### Air Force ROTC Course Descriptions

#### AES-1210,1220 The Air Force Today 1 hour/sem

A survey course designed to introduce students to the United States Air Force and the Air Force Reserve Officer Training Corps (ROTC). Featured topics include the mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer career opportunities, group leadership problems, and an introduction to communication skills.

#### AES-1211 0 hours

#### Leadership Laboratory (GMC): Applied Air Force ROTC Training

This lab provides an opportunity for students to apply Air Force procedures, techniques, and knowledge. Students will learn the Air Force organizational structure as well as customs and courtesies. GMC cadets will also develop their followership and teamwork skills in a cadet-led, cadre-supervised lab environment. Taken concurrently with 1000-level AES courses. Credit/no credit.

ROTC offers an excellent opportunity to learn leadership skills while also serving our country.

## **AES-2210,2220 History of the Air Force** 1 hour/sem

A survey course designed to provide students with an overview of the general aspects of air and space power through a historical perspective. It begins with the first military application of balloons through the actions in Kosovo and Afghanistan. It also shapes communication skills introduced in the freshmen year.

## **AES-2211** 0 hours

### **Leadership Laboratory (FTP): Applied Air Force ROTC Training**

This lab further develops skills and concepts introduced in the GMC Leadership Laboratory. Students are prepared mentally and physically for the demanding requirements of upcoming Field Training summer program. Training is cadet led where the students will display their ability to apply Air Force concepts and procedures. Taken concurrently with 2000-level AES courses. Credit/no credit.

## **AES-3310,3320** 3 hours/sem

### **Air Force Leadership and Management**

This course is a study of quality leadership and management fundamentals, professional military knowledge, Air Force doctrine, leadership ethics, and communication skills. Students use case studies to examine Air Force leadership and management situations.

## **AES-3311** 0 hours

### **Leadership Laboratory (ICL): Applied Air Force ROTC Training**

The (ICL) lab builds the foundation of leadership skills required as an Air Force Officer. Cadets apply leadership/management concepts learned in Field Training and previous aerospace studies classes and labs to assist in training the GMC cadets. Taken concurrently with 3000-level AES courses. Credit/no credit.

## **AES-4310,4320 Preparation for Active Duty** 3 hours/sem

This course examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Topics focus on the military as a profession, officership, military justice, civilian control of the military, and current issues. Considered the capstone ROTC course with continued refinement of communication skills.

## **AES-4311** 0 hours

### **Leadership Laboratory (SCL): Applied Air Force ROTC Training**

This lab prepares students for progression into active duty life. As in the ICL lab, students take leadership roles in execution of leadership labs for the cadet wing. Students hone leadership fundamentals learned in previous courses and labs to a level commensurate to entry into the active duty Air Force. Taken concurrently with 4000-level AES courses. Credit/no credit.

## **Army**

Reserve Officer Training Corps (ROTC) instruction leading to a commission as a second lieutenant in the United States Army is available to Cedarville University students. Freshman- and sophomore-level classes are taught at Cedarville University. Junior- and senior-level classes, as well as drills, are conducted at Central State University, which is located four miles west of Cedarville. All Army ROTC courses are taken through Cedarville University.

The objectives of the Army ROTC program are:

1. To prepare students to serve as commissioned officers in the Regular Army, the Army National Guard, or the United States Army Reserve.
2. To provide an understanding of the fundamental concepts of military art and science.
3. To provide students with leadership and managerial training, a basic understanding of military professional knowledge, a strong sense of personal integrity, honor, individual responsibility, and an appreciation of the requirements for national security.

The standard four-year ROTC program involves two phases: the basic course during the first two years and the advanced course during the final two years. One can qualify for advance placement by being a veteran, a member of the United States Army Reserve or National Guard, or by attending six weeks of paid summer training following his or her sophomore year of

college. Students enrolled in the advanced course earn \$250 per month for a maximum of ten school months per year.

Two- and three-year merit scholarships, which pay for tuition, fees, textbooks and supplies are available. Recipients of these scholarships also receive \$250 per month for 10 months of the school year each school year the scholarship is in effect.

Students interested in pursuing a dual civilian and military career should request information about the Guaranteed Reserve Forces Duty Scholarships and Reserve Duty options.

Interested individuals should contact the Professor of Military Science, Central State University, Wilberforce, Ohio, 45384, phone: 937-376-ARMY or the Cedarville University Admissions Office.

Army ROTC course requirements count as elective credits in the 128 semester hours required for graduation.

## **Army ROTC Course Descriptions**

### **MIL-1000 Leadership Lab I** 0 hours

Applied Army ROTC training. Taken concurrently with 1000-level MIL courses.

### **MIL-1010,1020 Military Science I** 2 hours/sem

Introduction to the history, role, and organization of the Army and ROTC, as well as the U.S. Army Reserve and U.S. Army National Guard, and the available career options. Introduce officership, military customs and traditions, map reading, land navigation, field training, first-aid procedures, and physical fitness training. Familiarize with rank structure, drill and ceremony, military courtesies, weapons, marksmanship, and communications equipment. Discuss styles and fundamentals of leadership and develop leadership skills.

### **MIL-2000 Leadership Lab II** 0 hours

Applied Army ROTC training. Taken concurrently with 2000-level MIL courses.

### **MIL-2010,2020 Military Science II** 2 hours/sem

Course of study includes emergency first-aid procedures, field survival practices, physical fitness, orienteering, and small unit leadership training. Explores the various career management fields within the Army. Students will begin to receive leadership assignments and responsibility within the cadet battalion. Introduction to advanced course of study.

### **MIL-3000 Leadership Lab III** 0 hours

Applied Army ROTC training. Taken concurrently with 3000-level MIL courses.

### **MIL-3010,3020 Military Science III** 3 hours/sem

The junior year of military science is completely dedicated to developing leadership skills and preparing students for the six-week Advanced Camp in the summer of the junior year. Subjects covered are drill, leadership, marksmanship training, squad and team tactics with leadership exercises and advanced navigation training on day and night courses. Students are taught how to inspect soldiers' equipment, draft and issue orders, and plan and conduct training as a small unit leader.

*Prerequisite: approval of professor of military science.*

### **MIL-4000 Leadership Lab IV** 0 hours

Applied Army ROTC training. Taken concurrently with 4000-level MIL courses.

### **MIL-4010,4020 Military Science IV** 3 hours/sem

The senior year of military science provides senior cadets with advanced managerial leadership skills. Army staff procedures and functions are taught. These staff skills are put into practice through the assignment of seniors to major leadership positions within the cadet battalion. Seniors are taught how to command, lead, manage, plan, and supervise as they prepare for commissioning as officers in the United States Army. Senior students will receive instruction on military professionalism and ethics. *Prerequisite: approval of professor of military science.*

### **MIL-4500 Military Science Summer Field Training** 3 hours

Six-week field training course stressing the practical application of leadership management with emphasis on tactical and technical military field skills. Taken after completion of 3000-level MIL courses. *Prerequisite: approval of professor of military science.*

## Purpose Statement

The Department of Language and Literature seeks to achieve the following objectives:

1. To instruct students to write effectively.
2. To encourage students to read and appreciate literature.
3. To teach students to evaluate literature intelligently.
4. To provide a general knowledge of the chronology and the social and intellectual background of English, American, and Spanish literature.
5. To prepare students for graduate work in the fields of English, Spanish, and technical communication.
6. To prepare teachers of English and Spanish.
7. To prepare students for technical communication.

## Personal Requirements

Students who choose English as a major are expected to acquire a high level of competency in the discipline of the English language. Those who wish to study foreign language will benefit from taking foreign language in high school. No previous foreign language experience is required to take elementary level foreign language.

## Department Requirements

To graduate with a major from the Department of Language and Literature, students must earn at least a 2.0 cumulative average in all courses required for their major and at least a “C-” in all courses taken to meet a specific requirement in their major.

## Programs of Study

The Department of Language and Literature offers the following programs:

### Majors

- English
- Integrated Language Arts
- Multi-Age Spanish Education
- Spanish
- Technical and Professional Communication

### Minors

- Creative Writing
- Editing and Publishing
- Literature
- Spanish
- Spanish for Professionals
- TESOL (Teaching English to Speakers of Other Languages)

## Co-Curricular Opportunities

**Cedars** – Students comprise the editorial staff of Cedarville’s semi-monthly campus newspaper.

**Miracle** – Students with writing, photography, editorial, and layout and design talent have the opportunity to compile and edit the University’s annual yearbook.

**The Society for Technical Communication Student Chapter** – Serves students in the technical and professional communication major. STC promotes communication in technical fields. Benefits of membership include job referral services, networking with professionals, and numerous social activities among faculty and students.

**Spanish Club** – Provides opportunities to practice language skills and learn about cultures through extracurricular activities.

**The Cedarville Review** – Students submit and publish fiction,

photography, creative nonfiction, and poetry, as well as select, prepare, and format manuscripts for publication in this annual literary journal.

**Sigma Tau Delta** – The International English Honor Society seeks to confer distinction for high achievement in English language and literature studies, promote interest in literature and the English language, and foster the discipline of English in all its aspects, including creative and critical writing.

### Study Abroad Opportunities

**The ISEPS Program** The Instituto Sevillano de Estudios y Practicas (ISEPS) is an independent, accredited educational and socio-cultural institute that offers a series of four unique overseas studies programs in Seville, Spain. These programs are carefully developed to address the requirements of undergraduates with particular abilities and interests leading to an international study abroad career preparation. Every ISEPS program is designed to be an educationally viable learning process that responds proportionately to the individual Spanish language level of each program participant. More information can be found at [www.SevilleStudies.com](http://www.SevilleStudies.com). Students interested in the program should contact Dr. Barbara Loach or Dr. Andrew Wiseman for additional information.

**ISS (Institute of Spanish Studies)** The Institute of Spanish Studies was established in 1950 in cooperation with the Universities of San Francisco and Valencia. In 1985 the Institute became an independent program; at present it is associated with Longwood University of Virginia. Classes in Valencia, Spain, are held at the American Institute, with its own fully equipped premises. More information can be found at [www.spanish-studies.com](http://www.spanish-studies.com). Students interested in the program should contact Dr. Barbara Loach or Dr. Andrew Wiseman for additional information.

**CIEE (Council on International Educational Exchange)** CIEE offers study abroad opportunities at its 60 CIEE Study Center programs in 29 countries around the world. The CIEE Study Centers provide curricula specifically designed with the U.S. undergraduate in mind and offer superior student services and activities that help students derive maximum benefit from the experience. More information can be found at [www.ciee.org](http://www.ciee.org). Students interested in the program should contact Dr. Barbara Loach or Dr. Andrew Wiseman for additional information.

## Technical Resources

Cedarville’s **Writing Center** serves the University community as a place to build skills for better writing across the disciplines. It also functions as a training ground for students who tutor there, assist in administration, or aid faculty with research projects related to writing centers.

Students also have industry-standard software available to strengthen their professional skills, including:

- Reading and writing skill builders
- Language tutorials
- Publication design

## Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates of this department include:

- Creative writing
- International business
- Internet-based communications
- Journalism
- Law
- Missions
- Publishing
- Teaching
- Technical communication
- Technical marketing

## Foreign Language

As students become acquainted with the language, lifestyles, and belief systems of another culture, they can develop greater insight into that culture. Knowledge of a second language can become a valuable support skill for careers in business, Christian ministry, education, government, and social services. The department provides a variety of language courses, which allow students to develop basic communication skills and cultural awareness.

Guidelines for satisfying the General Education Requirement for foreign language are found on page 18. Language students are also encouraged to consider the study abroad options listed under Travel Study Opportunities.

## Spanish

The **Spanish major** enables students to develop skills in reading, writing, speaking, and comprehending spoken Spanish to gain cultural understanding that will enable them to interact appropriately in a variety of social contexts. Studying the language, history, and literature of the Hispanic peoples provides students with opportunities to practice their language skills and gain appreciation for the contributions and values of the Hispanic culture. Students are encouraged to enhance their program by participating in an approved cross-cultural experience such as a study abroad program or missions outreach.

# Music and Art

## School of Humanities, Fine Arts, and Bible

---

### Purpose Statement

The purpose of the Department of Music is to help develop an appreciation and understanding of the musical arts consistent with a biblical worldview. The department seeks to help students gain an understanding of the responsibility of stewardship, service, and worship that is placed upon those to whom God has given musical talents.

The Department of Music seeks to:

1. Provide cognitive tools for developing a comprehensive and integrated understanding of music theory, history, and literature.
2. Provide preparation in the skills of conducting, arranging, composing, and musical performance.
3. Provide opportunities for the development of musical sensitivity.
4. Provide a wide spectrum of performance and ministry opportunities.
5. Provide foundational knowledge for entrance into a chosen music vocation or graduate school.

### Personal Requirements

**Auditions** Applicants who wish to major in music should follow the standard procedures for admission. Satisfactory completion of an audition is required for approval as a music major. Students should contact the Department of Music to obtain requirements and to schedule an audition.

**Scholarships** Scholarship assistance is available to music majors who qualify on the basis of audition, academic record, and references. Additional academic scholarships and other types of financial assistance are available to qualified individuals through the Cedarville University Financial Aid Office.

**Music Theory Exams** All incoming students are required to pass the Music Theory Competency Exam. This test assures that students have the minimum knowledge necessary for college-level music theory courses. The exam is scheduled during "Getting Started" week activities.

Students who have had significant music theory training prior to attending Cedarville may take the Music Theory Test-Out Exam. Contact the Department of Music for additional information regarding this test.

### Department Requirements

**Music Student Handbook** The *Music Student Handbook* is the authoritative statement on all department policy as it applies to the student. Each music student is responsible for following the policies and procedures contained in both the handbook and the university catalog.

**Private Lessons** are open to all music majors and minors with curricular need. Students are expected to take private lessons on their major instrument for each semester they are enrolled. Exceptions to this include students who are student teaching and other circumstances as deemed appropriate by the chairman.

**Semester Performance Juries** All music majors perform a jury in their primary performing area every semester. The jury is a short performance for a committee of music faculty. The grade from the jury counts for 25% of the final grade in private lessons for the semester. For performance majors, the jury counts for 33% of the final grade in private lessons.

**Freshman Review** After the second semester of study, freshmen are evaluated by a committee of music faculty to determine

whether they are making adequate progress to continue in the music program. Students who do not show satisfactory progress may be asked to change majors.

**Sophomore Check** While the primary screen for continuance in the music program occurs at the Freshman Review, student achievement is also checked at the end of the sophomore year to confirm adequate progress toward degree completion and admittance to upper-level music courses.

**Piano Proficiency** All music majors are expected to meet the minimum proficiency requirements for piano as established by the department. Piano placement is done during "Getting Started" week. Complete piano proficiency requirements are available in the music office.

**Ensemble Participation** Music majors are expected to participate in at least one ensemble every semester they are enrolled. Once the credit requirements for their majors are fulfilled, they may enroll for "zero" credit.

**Recital and Program Attendance** is required of all music majors and minors. All students must complete recital and program attendance each semester they are enrolled as a music major. Minors must take 2 consecutive semesters.

**Capstone Recital or Project** In addition to performance in general student recitals throughout the college experience, all music majors are required to exhibit a level of performance for graduation that meets the requirements and standards of the department. For all majors, the capstone requirement is a senior recital or project.

**Fees** Instrumental rental fee, per semester: \$50; practice room fee, per semester: \$100 (each hour of lesson credit). Classes that involve labs or university-provided student equipment may also have similar fees.

### Programs of Study

The Department of Music offers the following programs of study:

**Bachelor of Arts (B.A.) in:**

- Music
- Graphic Design

**Bachelor of Music (B.M.) in:**

- Church Music Ministries
- Composition
- Keyboard Pedagogy
- Performance

**Bachelor of Music Education (B.M.E) in:**

- Choral
- Instrumental

**Minors in:**

- Art
- Church Music Ministries
- Graphic Design
- Music

### Technical Resources

The Department of Music relies heavily on the use of technology to accomplish its educational objectives. Students will spend time in a state of the art music computer/synthesizer lab that allows them to practice ear training, produce printed musical scores, and complete fully orchestrated compositions.

## Co-Curricular Opportunities

All students are invited to audition for the numerous choral and instrumental ensembles which perform in many different venues throughout the academic year. Students may also participate in one of a growing number of small chamber music groups. Music education majors and other music students interested in teaching may participate in the campus chapter of the Music Educators National Conference. This award-winning chapter provides many social, professional, and ministry opportunities for its members.

## Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Careers pursued by graduates of this department include:

- Music supervisor
- Music therapist
- Performer
- Recording studio technician
- Retail music salesperson
- School teacher (elementary and secondary Christian or public schools)
- Studio teacher
- College professor
- Community arts manager

The **church music ministries major** prepares the music student for graduate studies or for ministry of music in churches that embrace evangelical traditions. Upon completing this course of study, students should be able to:

1. Demonstrate an understanding of and appreciation for the development of western civilization as it relates to life in general and to the music of the church.
2. Perform with expertise, making application to the evangelical traditions when appropriate.
3. Evaluate the musical and spiritual needs of a congregation and develop a music ministry program to meet those needs, integrating music into the *total life, mission, and purpose of the local evangelical church in its individual cultural setting.*
4. Demonstrate an understanding of and ability for developing, organizing, and administrating a church music teaching and training program for evangelical churches.

Students pursuing this major must complete the general education core.

The basic technique of the conductor's art: score reading, conducting patterns, interpreting, cueing, rehearsal procedures, and stylistic conceptualization. *Prerequisite: THMU-1210 Music Theory I; or permission of instructor.*

**CDMU-3610 Choral Conducting—Sp 2 hours**

Concentrated focus upon the choral conductor's stylistic gestures and verbal communication as they impact ensemble intonation, diction, tone, blend and balance. This course emphasizes diagnostic listening, problem solving, observation of professional conductors, the conducting of larger choral/instrumental works, and student rehearsal of various music department choral ensembles.

**CDMU-3620 Instrumental Conducting—Sp 2 hours**

Designed to take the student beyond basic conducting techniques and present the special characteristics of instrumental conducting. The student will develop skills in rehearsal technique and score analysis while learning to conceptualize musical fundamentals such as tone, intonation, balance, rhythmic ensemble, and interpretation. *Prerequisite: CDMU-2600 Introduction to Conducting.*

**CDMU-3630 Choral Methods—Fa 2 hours**

Further development of conducting skills with special emphasis placed upon the organization of a comprehensive school choral curriculum. Rehearsal strategies and vocal techniques are discussed and practiced as they apply to choirs of all levels and voicings. *Prerequisite: CDMU-2600 Introduction to Conducting; or permission of the instructor.*

**CDMU-4990 Independent Study in Conducting 1-3 hours**

Independent and intensive study in a particular area of conducting for individual students who demonstrate special interests and ability. *Prerequisite: CDMU-3620 Instrumental Conducting; CDMU-3630 Choral Methods; or equivalent.*

**Ensembles**

**PFMU-3100 Piano Ensemble—Fa,Sp 0-1 hours**

The Piano Ensemble is an organization of advanced pianists, which meets weekly to perform duet and duo piano literature. The Ensemble performs publicly on a regular basis.

**PFMU-3210 Jubilate—Fa,Sp 0-1 hours**

Ministry team of 40 select voices; open to all students by

audition. Repertoire is selected from a wide spectrum of musical styles in evangelical traditions. Numerous concerts on campus and in churches with special application to weekend music ministry workshops and "event-oriented presentations." Meets twice a week. Annual tour Spring Semester.

**PFMU-3650 Chamber Ensemble—Fa,Sp 0-1 hours**

The performance of representative literature in a variety of instrumental and vocal settings. Groups are normally student-formed and faculty-led and can be either homogenous (all strings, all brass, etc.) or heterogeneous. NOTE: An instructor must be designated for a group before any of its members register for this course. *Prerequisites: permission of instructor; approval of the chair.*

**PFMU-3800 Concert Chorale—Fa,Sp 0-1 hours**

The Concert Chorale is a group of 60 select voices. Repertoire is chosen from a wide spectrum of musical styles including choral masterpieces, sacred classics, anthems, spirituals, and tasteful contemporary works. Numerous concerts are presented each year on campus as well as in churches, schools, and other venues.

**PFMU-3820 Men's Glee Club—Fa,Sp 0-1 hours**

The Men's Glee Club has a membership of 50 voices, selected by audition. Literature includes traditional sacred and secular music from the Renaissance throughout the 20th century. Several concerts are presented each year on campus as well as in churches, schools, and other venues.

**PFMU-3830 University Jazz Singers—Fa,Sp 0-1 hours**

The University Jazz Singers is a chamber group made up of 12-14 select voices, accompanied by an auditioned rhythm section of piano, bass, drums, guitar, and percussion. Repertoire is selected from representative styles and eras of American jazz, as well as from other ethnic jazz traditions. The development of improvisational skill within the literature will be emphasized among participants. Numerous concerts and festival participation are planned each year. *Prerequisites: sophomore classification or higher; audition only.*

**PFMU-3840 Women's Choir—Fa,Sp 0-1 hours**

The Women's Choir consists of 50 treble voices, selected by audition. Repertoire embraces all historical periods and styles with performances on campus, in schools, churches, and civic meetings.

**PFMU-3880 Brass Choir—Fa,Sp 0-1 hours**

The Brass Choir of select instrumentation consists of 20 to 25 members. It serves the University and its constituency by performing concerts featuring the highest quality brass choir literature. Major concerts are performed each semester.

**PFMU-3940 University Orchestra—Fa,Sp 0-1 hours**

The Orchestra is composed of string, wind, brass, and percussion players selected by audition. The group performs challenging, high quality literature in concerts on campus and has opportunities to minister in local churches.

**PFMU-3970 Symphonic Band—Fa,Sp 0-1 hours**

The Symphonic Band is composed of approximately 80 members, selected by audition. Performing quality band literature, the band has appeared before state and national conference audiences and in concert under the baton of such guest conductors as Jim Curnow, George Strombeck, and George Wilson. Several concerts are presented each year on campus, in churches, and in schools.

**PFMU-3980 Jazz Band—Fa,Sp 0-1 hours**

The Jazz Band has a membership of approximately 16 musicians, selected by audition. The group performs Big Band music and contemporary jazz standards. The band is active in both campus and off-campus activities.

## School of Humanities, Fine Arts, and Bible

### General Music

#### **GMUS-1000 Music Philosophy and Aesthetics—Fa 1 hour**

Philosophical and scriptural foundation for the Christian concepts of musical creativity, musical worship, and stewardship. Understanding the unique teacher-student relationship in music. A first attempt at codifying a coherent, personal, Christian philosophy of music.

#### **GMUS-1030 Recital and Program Attendance—Fa,Sp 0 hours**

Music majors and minors must attend a prescribed number of programs and recitals each semester. Majors must enroll each semester. For a music minor, students must enroll for two consecutive semesters.

### Graphic Design

#### **GDES-1100 History of Graphic Design—Fa 1 hour**

Survey of graphic design from pre-history through current practice. Highlighting significant stages in its development and pivotal influences including technological advances, individual works, key movements, schools of thought, and approaches relative to their time(s) and culture(s).

#### **GDES-1210 Typography—Fa 2 hours**

An introduction to the study of typography and its role in the structuring of visual language and its relationship to the discipline of graphic design. The course will examine the history of letterforms, their sources and influences, and will provide opportunities for learning principles and guidelines for the effective use of type in visual communications for a variety of media and messages. Students will learn to structure intelligent, creative type solutions through classroom discussion, reading, research, and studio assignments including editorial, promotional, and informational applications of typography.

#### **GDES-2210 Digital Image/Photography—Fa 3 hours**

An introduction to digital imaging technology and professional techniques for image editing and photo manipulation. The course will provide opportunities to becoming proficient with the tools and techniques associated with Adobe Photoshop, the industry standard software for image editing, through classroom discussion, reading, research, and studio assignments.

#### **GDES-2220 Graphic Design I—Sp 3 hours**

An introduction to the study of graphic design with emphasis on using the principles of design to communicate information and ideas in visual form. The course will provide opportunities to learn principles of visual communication and steps in the design process necessary to produce effective design solutions. Learning will be achieved through classroom discussion, reading, research, and studio assignments that center around producing concepts for both printed and electronic forms of information design.

#### **GDES-2230 Production Design I—Sp 3 hours**

An introduction to the technical processes required for the production of graphic design solutions in a variety of media. The course will provide opportunities to gain understanding of guidelines and requirements necessary for producing design documents in both conventional and electronic media.

### History

#### **HLMU-2100 Jazz History: Music of the Multi-Culture—Fa 3 hours**

Survey of jazz as an American art form, as a representative of both Western and non-Western practices, which now make up our American multi-culture, and as the primary vehicle for the realization of improvisation within that multi-culture. ## Purpose Statement

We, the Department of Nursing at Cedarville University, are called to educate nursing students who fulfill God's purpose for their lives in local communities and throughout the world. Through the power of the Holy Spirit we are leaders in promoting the health of people in a variety of settings. We are devoted to God's service through the ministry of nursing.

The Department of Nursing seeks to produce graduates who demonstrate mastery in four primary areas: godly living, care, culture, and information management.

## Accreditation and Licensure

### National

The Department of Nursing Program is accredited by the Commission on Collegiate Nursing Education.

### State

The Cedarville University Department of Nursing has full approval by the Ohio Board of Regents and the Ohio Board of Nursing.

### Registration

Graduates are eligible for admission to the National Council Licensure Examination (NCLEX-RN) for licensure as a registered nurse in any state.

## Personal Requirements

Students who wish to apply for admission to Cedarville University and major in nursing need a strong commitment to leading a godly lifestyle and to learning ways to use nursing as a ministry for Christ. A college preparatory curriculum including four years of both mathematics and science provides the best academic preparation for the nursing major. An ACT composite score of 24 (or SAT composite of 1100) or greater is highly recommended.

## Department Requirements

### Admission to Nursing Clinical Courses

Students apply for admission to the Department of Nursing clinical courses during the *spring semester of their sophomore year*. Students who meet the following criteria are admitted:

1. Earn a cumulative grade point average of 2.5 or higher.
2. Earn a "C-" or above in all required courses.
3. Write and have approved a statement of career goals.
4. Provide a recommendation from the respective academic advisor.
5. Provide appropriate health information.
6. Pay an application fee (\$25 non-refundable).
7. Provide evidence of liability insurance (\$1 million/\$3 million limits).
8. Maintain current certification in cardiopulmonary resuscitation (CPR).
9. Demonstrate computer literacy.
10. Demonstrate a level of health consistent with safe nursing practice.
11. Achieve a passing grade on the applied mathematics exam given by the Department of Nursing.
12. Complete required prerequisite courses prior to enrollment in clinical nursing courses. (Students may leave no more than three outstanding general education or Bible courses prior to beginning nursing clinical courses.)

### Retention Requirements

1. Earn a grade of "C-" or above in all nursing courses.
2. Maintain a cumulative GPA of 2.25 or higher.
3. Maintain *current* CPR certification and professional liability insurance.
4. Attain clinical objectives.
5. Receive a positive recommendation by the faculty of the Department of Nursing.

### Graduation Requirements

1. Earn a grade of "C-" or above in all nursing courses.
2. Register for admission to the examination for state licensure as a registered nurse.
3. Earn a passing score on a national standardized nursing examination. If a passing score is not attained the student must complete an individually designed remediation program.
4. Receive a positive recommendation by the faculty of the Department of Nursing.
5. Meet university requirements for graduation.

### Financial Aid

Federal Nursing Student Loans are available to qualified students who have been admitted to the nursing program. Some additional scholarships are available through our endowments although primarily offered to upperclassmen accepted into the Department of Nursing clinical courses. Information is available in the department office, the Financial Aid Office, and on the FAO homepage.

## Programs of Study

Cedarville's nursing program leads to a Bachelor of Science in Nursing degree. Nursing students may also select a minor in cross-cultural nursing.

### Licensed Nurses Who Wish to Earn a Bachelor of Science in Nursing (B.S.N.)

The curriculum plan for the R.N. and L.P.N. is individually designed on the basis of previous coursework. Interested students should request R.N.-B.S.N. or L.P.N.-B.S.N. education information from the Department of Nursing. Specific information concerning transfer admission and the transfer of college credit is in the Admissions section of this catalog.

## Co-Curricular Opportunities

### Christian Nurses Association

The Christian Nurses Association promotes spiritual growth and professional development for nurses and service for the community. Membership is open to all nursing students.

## Technical Resources

- **Barrett Clinical Lab** Industry-standard technology for on-site learning of basic clinical skills required for nursing care
- **20-Station Multi-Media Lab** Equipped with a variety of software programs to supplement out-of-class student learning

## Career Opportunities

Graduate and professional schools welcome Cedarville graduates. Nursing graduates obtain positions in the following settings: medical centers, public health departments, home health agencies, clinics, nursing homes, schools, work sites, mental health facilities, and the mission field.

### Clinical Activity Information

#### Facilities

All clinical activity is conducted under the supervision of the Cedarville University Department of Nursing faculty. The program utilizes a number of community resources within 30 miles of the campus including public and private, large and small hospitals, health departments, mental health services, rehabilitation centers, clinics, homes for the aged, and physicians' offices.

*Students are responsible for transportation to and from clinical settings.* Car pools are encouraged to help defray transportation costs.

#### Health Information

Prior to clinical nursing courses, students must provide documentation of:

1. Complete physical examination.
2. Rubella and Rubeola immunity.
3. Negative Mantoux test. Clinical agencies may require a negative chest x-ray in the event of a positive TB skin test.
4. History of chicken pox or results of a Varicella Titer.
5. Childhood immunizations.
6. Tetanus booster (within past 5 years).
7. Hepatitis B vaccine series or signed declination.
8. Hep Vax (Hepatitis A) vaccine recommended.

#### Uniforms and Equipment

Each student must secure uniforms and photo identification prior to the first clinical experience. Students must purchase books and equipment needed in clinical settings.

### Nursing Course Requirements

In addition to completing the General Education Requirements, nursing majors must take the following courses. These requirements are divided into two segments, *support cognate requirements* and *nursing major requirements*.

*The support cognate requirements, many of which satisfy General Education Requirements, include:*

### Course Descriptions

#### **NSG-1010 Member of Nursing Profession I** 1 hour

An introduction to nursing education, practice, theory, and research. Includes discussion of professional ethics and factors that motivate and influence Christian nurses. As a member of the nursing profession, students are introduced to the use of information management skills to provide culturally-sensitive care, consistent with godly living.

#### **NSG-1020 Provider of Nursing Care I** 2 hours

An introduction to the role of the nurse as a provider of nursing care. Emphasis on supervised practice and validation of foundational nursing skills. Assessment and decision-making processes are introduced within the Cedarville University five dimensional nursing model. (Fee: \$100)

#### **NSG-2010 Member of Nursing Profession II** 1 hour

An introduction to and application of professional nursing roles within the U.S. and global health care systems. Includes a focus on ways of thinking and an introduction to analytical judgment as a member of a profession from a Christian framework. *Prerequisite:* NSG-1010 Member of Nursing Profession I.

#### **NSG-2020 Provider of Nursing Care II** 2 hours

An introduction to clinical decision-making processes with application to various pathophysiological conditions in providing nursing care. Consideration is given to development of clinical role responsibilities of the nurse as well as to the selection of appropriate nursing interventions using a case study approach. Students learn information management skills of documentation, medical terminology, and abbreviations. *Prerequisite:* NSG-1020 Provider of Nursing Care I.

#### **NSG-2150 Nutrition** 2 hours

Study of normal nutrition and food consumption patterns of individuals and families of all ages within various cultures. Metabolism of food and nutrient utilization is described in a health balance framework. The use of nutrition as a resource to promote health is discussed. *Prerequisite:* CHEM-3710 Biochemistry; or permission of instructor.

#### **NSG-2200 Cross-Cultural Interactions** 1 hour

Cross-cultural interactions are planned, purposeful experiences designed to gain information and understanding of missions and/or cross-cultural nursing. *Prerequisite:* permission of instructor.

#### **NSG-3010 Maternity and Women's Health Nursing** 7 hours

Course content and clinical experiences provide the student with the opportunity to facilitate the health balance of women and the childbearing family across the five dimensions. Students interact to support family members in their changing roles as they manage resources in response to new demands. Cultural implications for care of the childbearing family are presented. *Prerequisites:* NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; NSG-3020 Provider of Nursing Care III (or corequisite). (Fee: \$100)

#### **NSG-3020 Provider of Nursing Care III** 2 hours

Focus on development of systematic approaches to assessing the health balance of individuals. Includes elements of a health history, performing physical examination, analysis and categorizing of physical response patterns, and communicating findings in appropriate terminology. Students learn principles and develop technical skills for providing nursing care in various settings, including medication administration and providing perioperative care. *Prerequisites:* NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; admission to clinical nursing courses. (Fee: \$100)

#### **NSG-3050 Nursing in Relationships I** 2 hours

Introduces aspects of developing therapeutic relationships involving one-to-one and group interactions to achieve client-focused and professional goals. Focus is on effective communication as a member of the profession and provider of care.

Emphasis is on the biblical view of balance in communication patterns, in emotions, thinking and behaving and methods of assessing, promoting, and restoring such balance. *Prerequisites:* PSYCH-1600 General Psychology; NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II.

#### **NSG-3060 Nursing in Relationships II** 4 hours

Using a Christian worldview students analyze frameworks for promoting and restoring healthy relationships. Students participate in integration of care with other members of the interdisciplinary health care team in a variety of settings. Emphasis is on imbalances in thinking, emotions, and behaviors that interfere with individual and group processes and require external intervention to promote balance. *Prerequisite:* NSG-3050 Nursing in Relationships I. (Fee: \$100)

#### **NSG-3070 Nursing Care of Diverse Populations** 2 hours

Students develop information management skills when investigating societal structures that determine the cultural patterns of diverse populations. Issues of similarity and difference are explored as a basis for culturally sensitive practice. Concepts of health and illness direct examination of complex forces that maintain, threaten, and promote the health balance of individuals, families, and communities. *Prerequisites:* NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; admission to clinical nursing courses; or permission of instructor.

Nursing students build relationships and gain valuable experience by working with patients of all ages.

**NSG-3080 Concepts in Medical-Surgical Nursing 7 hours**

Focus on concepts of nursing necessary to provide care to adults across the five dimensions. Critical thinking, assessment, and communication skills consistent with biblical principles will be utilized to manage information and provide culturally appropriate care to individuals and family groups. Students begin to demonstrate competency in technical skills and the professional nursing role within the clinical and laboratory settings. *Prerequisites:* NSG-2010 Member of Nursing Profession II; NSG-2020 Provider of Nursing Care II; NSG-3020 Provider of Nursing Care III (or corequisite). (Fee: \$100)

**NSG-3090 Public Health Nursing 4 hours**

Students focus on theoretical models of primary health care and health promotion. Contemporary health issues are examined in light of social policy initiatives and their impact on community building and disease prevention. Students use epidemiological and community resources to analyze and apply strategies for implementing community focused nursing practice. *Prerequisite:* NSG-3070 Nursing Care of Diverse Populations; or permission of instructor. (Fee: \$100)

**NSG-3110 Pharmacology 3 hours**

Pharmacokinetics, pharmacodynamics, and pharmacotherapeutics of major drug categories are discussed as they are used to restore health balance. Special emphasis is given to the ways in which pharmacological agents may create new health demands. Nursing actions to prevent or minimize these demands are discussed. *Prerequisites:* CHEM-1010 Principles of Biochemistry; BIO-2020 Advanced Clinical Physiology; or permission of instructor.

**NSG-3200 Cross-Cultural Nursing Internship 1-3 hours**

Students actively participate in health-related activities in a facility established to provide care for persons in cultures different from theirs. The length of time involved in the internship may vary according to the student needs. *Prerequisites:* NSG-3080 Concepts in Medical-Surgical Nursing; permission of instructor.

**NSG-4010 Adult/Child Health Nursing 14 hours**

Focus is on common physiological imbalances of adults and children and the nursing care required to restore or promote health balance across five dimensions. Special emphasis is given to the application of biblical truth concerning illness, suffering, helping, and compassion, along with common moral and ethical issues encountered by nurses. Students gain increasing independence in professional nursing role development as designers and coordinators of care. *Prerequisites:* NSG-2150 Nutrition; NSG-3080 Concepts in Medical-Surgical Nursing; NSG-3090 Public Health Nursing; NSG-3110 Pharmacology. (Fee: \$100)

**NSG-4050 Leaders as Managers in Clinical Nursing 10 hours**

Focuses on the observation and development of leadership/management skills and the nursing management of individuals or groups experiencing complex multidimensional health imbalances. Special emphasis is given to the biblical view of successful leadership/management. Students assume professional nursing roles working under the supervision of faculty, RN preceptors, clinical specialists, and/or various levels of nurse managers in their clinical area of choice. Students work full-time for five weeks following the preceptor's schedule and shift including nights, weekends, and holidays. *Prerequisite:* NSG-4010 Adult/Child Health Nursing; or permission of instructor. (Fee: \$100)

**NSG-4090 Public Health Project—Fa,Sp 1 hour**

Nursing students work in a collaborative relationship with a community to assess, intervene, and evaluate the capacity to improve the health of a population. *Prerequisites:* NSG-3070 Nursing Care of Diverse Populations; NSG-3090 Public Health Nursing. (Fee: \$50)

**NSG-4200 Culture and Health 3 hours**

Situations in which cross-cultural dilemmas emerge from the interaction of culture and health are analyzed to derive models for resolution. *Prerequisite:* junior/senior standing; or permission of instructor.

**NSG-4800 Independent Study in Nursing 1-3 hours**

Independent learning to secure an extensive background in a specialized area of nursing. May be repeated once. *Prerequisite:* signed contract between student and instructor in which work to be completed is described.

**NSG-4830 Theory in Nursing 2 hours**

Theories of nursing and borrowed theory are studied to demonstrate conceptual frameworks for nursing care used to restore balance of resources and demands. Students comparatively analyze a data set using Christian nursing theory and at least one other set of assumptions. *Prerequisite:* NSG-4010 Adult/Child Health Nursing; or permission of instructor.

**NSG-4930 Nursing Research 3 hours**

The research process is studied as an information management tool applied to the investigation of health balances and imbalances. Basic elements of the research process, including ethical issues, are discussed and applied to published nursing research and student proposals. *Prerequisites:* NSG-3080 Concepts in Medical-Surgical Nursing; PSYCH-2610 Statistics.

**NSG-4950 Seminar in Nursing 3 hours**

Focuses on trends in professional nursing. Students are challenged to integrate a Christian philosophy of nursing as they adopt the role of professional nurse. The political, legal, economic, social, and ethical factors that disrupt the balance of resources and demands in health care are debated. Capstone course. *Prerequisite:* NSG-4010 Adult/Child Health Nursing; or permission of instructor.

*Because nursing students view their work as a ministry, they are able to impact many lives with the love of Christ.*

# Psychology

## School of Social Sciences and Professional Studies

### Purpose Statement

The Department of Psychology seeks to:

1. Develop understanding of biblical content that has psychological impact and to investigate all psychological concepts in the light of scriptural truth.
2. Provide an analysis of the person from physical, emotional, rational, and spiritual levels.
3. Aid students in their personal adjustment to everyday life through an understanding of human behavior.
4. Prepare students for graduate study in psychology and related areas.
5. Train students desiring to use counseling in vocational ministry and in biblical counseling contexts.
6. Introduce students to the work world through internships, Christian ministries, guest lecturers, and advisement.
7. Provide courses in psychology necessary for teacher certification.

### Personal Requirements

Some students who pursue a major in psychology are interested in providing human services to populations with special needs. Other psychology majors choose to focus on graduate school preparation, including research interests.

### Department Requirements

All psychology majors must obtain a cumulative 2.0 grade point average or higher in their major for graduation.

### Programs of Study

The Department of Psychology offers a Bachelor of Arts degree in the following programs of study:

#### Majors:

- Psychology
- Applied Psychology with concentrations in:
  - Child and Family Studies
  - Counseling

#### Minor:

- Psychology

While significant flexibility exists in both the psychology and applied psychology majors, the latter program is particularly useful for students not intending to pursue graduate studies subsequent to earning the bachelor's degree. The applied psychology major provides more in-depth course work geared specifically toward human service jobs in child and family and counseling fields.

The psychology program is particularly useful to students who wish to earn a minor field of study at Cedarville, earn a double major, or take a sequence of courses in preparation for graduate school.

### Co-Curricular Opportunities

Psychology majors have the opportunity to present papers at the Mid-America Undergraduate Psychology Research Conference and the Ohio Undergraduate Psychology Conference. In addition, the department sponsors the Alpha Psi Omega (APO) Psychology Club for qualifying psychology majors.

### Technical Resources

Psychology students are able to conduct data analysis utilizing the University's SPSS software system. Counseling skill courses involve participation in simulated role-playing experiences. Personality inventories are utilized as part of courses in personality and psychological measurement.

*Dr. Michael Firmin invests his life into students by way of mentoring, discipling, and providing individual guidance in the psychology discipline.*

### Career Opportunities

The Cedarville psychology department has a strong track record in seeing alumni placed in quality graduate psychology and counseling programs. In addition, graduates of the applied psychology major find ready placements in human service agencies after graduation. Careers pursued by psychology majors include:

- Author
- Behavior specialist M/R populations
- Chaplaincy
- Child therapist
- College counselor
- College professor
- Correctional institution counselor
- Counselor in local church
- Crisis pregnancy center director
- Dean of men/women
- Forensic psychologist
- Geriatric center counselor
- Guidance counselor
- Health psychologist in a hospital
- High school psychology teacher
- Industrial psychologist
- Marriage and family therapist
- Missions agency counselor
- Private practice
- Psychologist (clinical)
- School psychologist
- Social agency counselor
- State hospital counselor
- Substance abuse counselor

*Professor of Psychology, Dr. Robert Abbas, is a licensed psychologist and experienced counselor.*

*Charles Dolph, Professor of Psychology, has faithfully taught at Cedarville since 1979.*

### Faculty

## Applied Psychology

The **applied psychology major** provides students with strong undergraduate preparation in the areas of child and family studies and counseling. Applied psychology majors complete the same core courses as do the general psychology majors.

In addition, students take courses that are useful for pursuing jobs in human service fields after completing their baccalaureate degrees. The applied psychology major may be attractive to students who do not wish to declare a formal minor (other than Bible) and instead wish to complete additional psychology courses as part of their four-year program of study.

Course requirements include 37 semester credits of core psychology courses and an additional 23 credits in their applied emphasis.

# Psychology

## School of Social Sciences and Professional Studies

### Minor

The **minor in psychology** helps students who find that additional course work in psychology will support their major field of study. In particular, understanding people, human dynamics, and applying the scientific method to problem-solving strengthens students' vocational preparation and ultimate job success. The psychology minor is constructed to allow maximum flexibility across a large cross-section of majors at Cedarville University.

Course requirements involve 16 semester hours including:

PYCH-1600 General Psychology .....	3
PYCH-2640 Abnormal Psychology .....	3
Electives in psychology .....	10

Professors such as Dr. Luke Tse prepare students for successful human service careers in secular environments as well as biblical counseling in ministry settings.

### Course Descriptions

**PYCH-1000 Orientation to Psychology**–Fa,Sp **1 hour**

Acquaints the psychology major with various areas and issues in the field of psychology. Included will be its specialties, graduate school information, vocational opportunities, and legal and ethical matters. Should be taken during the freshman year.

**PYCH-1600 General Psychology**–Fa,Sp **3 hours**

Designed to provide a survey of modern scientific psychology. The course content centers on such topics as the foundations of psychology, development over the life span, how we experience the world, learning and thinking, motivation and emotion, personality, and social behavior. (Fee: \$5)

**PYCH-1800 Cross Cultural Psychology**–Fa,Sp **3 hours**

A survey course designed to make students sensitive to the impact of culture on life.

**PYCH-2600 Human Development: Life Span**–Sp **3 hours**

An analysis of the physiological, social, and psychological development of the individual from conception through the total life span.

**PYCH-2610 Statistics**–Fa,Sp,Su **3 hours**

Designed to provide an elementary coverage of descriptive and sampling statistics commonly used in psychology. Includes problems of measurement, measures of central tendency and dispersion, linear correlation, prediction, and simple tests of significance. (Fee: \$5)

**PYCH-2640 Abnormal Psychology**–Fa,Sp **3 hours**

Focus upon etiology, symptomatology, and prognosis of psychological disturbance. *Prerequisite: PYCH-1600 General Psychology.*

**PYCH-2700 Child Development**–Fa,Sp **3 hours**

A study of the physiological, psychological, and spiritual growth of the child from conception to the preadolescent level. Developmental research on family systems theory, the dynamic of roles and relationships within families and communities, and the influence of cultural practice and beliefs on family systems is emphasized.

**PYCH-2750 The Parent and the Child**–Sp **3 hours**

Designed to explore the basic value requisites for effective family living. Basic concepts such as love, communication, and parental modeling will be stressed.

**PYCH-2800 Addictions** **3 hours**

This course examines a variety of addictions including alcohol, drugs, food, sex, gambling, computer games/internet, and codependence. The course will focus on symptoms, causes, treatments, and impact on society. Students will be challenged to develop a biblical perspective.

**PYCH-2850 Psychology of Adjustment** **3 hours**

The systematic process of applying psychological principles to everyday issues of human life. Biblical perspectives are integrated into problem-solving paradigms for the development of a psychologically healthy personality.

**PYCH-3380 Health Psychology** **3 hours**

Designed to investigate the research and theory of many disciplines to understand how psychology and health are interconnected. The focus is on the major topics and problem areas in health psychology. (Fee: \$5)

**PYCH-3610 History and Systems of Psychology**–Fa,Sp **3 hours**

Major trends in the development of psychology from its beginning to the present. Emphasis is placed upon contemporary theory. *Prerequisite: PYCH-1600 General Psychology.*

- PYCH-3630 Testing and Measurement—Fa** **3 hours**  
 Emphasis on measurement theory and its applications including concepts of validity, reliability, and test construction and selection. *Prerequisite: PYCH-2610 Statistics.* (Fee: \$20)
- PYCH-3640 Industrial/Organizational Psychology** **3 hours**  
 Psychology applied to the work world. Emphasis is on methodology and activities of industrial/organizational psychologists. *Prerequisite: PYCH-1600 General Psychology; or permission of instructor.*
- PYCH-3650 Psychology of Learning and Cognition—Fa,Sp** **3 hours**  
 Concepts and theories of learning and cognition with emphasis placed on personal applications of accepted procedures. *Prerequisite: PYCH-1600 General Psychology.*
- PYCH-3660 Fundamentals of Counseling—Fa,Sp** **3 hours**  
 An introductory course emphasizing the underlying philosophies, current theories, and accepted procedures of counseling. *Prerequisite: PYCH-1600 General Psychology.*
- PYCH-3670 Group Dynamics—Fa,Sp** **3 hours**  
 Group processes in a variety of group settings are the focus as this course explores the interaction of individuals and groups. Each student participates in a growth group as part of the course.
- PYCH-3690 Social Psychology—Fa,Sp** **3 hours**  
 The study of the behavior of individuals as it is influenced by past and/or present interactions with social factors. *Prerequisite: PYCH-1600 General Psychology.*
- PYCH-3700 Adolescent Development—Fa** **3 hours**  
 Recent research dealing with adolescents will be emphasized. Emphasis is placed on the interaction of cultural, social, and personal family variables. Spiritual variables are integrated into the developmental process. *Prerequisite: PYCH-1600 General Psychology.*
- PYCH-3710 Adult Development and Aging—Sp** **3 hours**  
 The study of physical, psychological, social, and spiritual development and experience in the adult years. *Prerequisite: PYCH-1600 General Psychology.*
- PYCH-3720 Psychology of Personality—Fa,Sp** **3 hours**  
 Contemporary theories of the development, organization, and dynamics of personality.
- PYCH-3730 Research Methods—Fa,Sp** **3 hours**  
 An introduction to methods utilized in psychological research; emphasis upon experimental methodology and research design. *Prerequisite: PYCH-2610 Statistics; or permission of instructor.* (Fee: \$5)
- PYCH-3750 Psychological Testing** **3 hours**  
 A survey of instruments frequently utilized in psychology. Assessments include intellectual, personality, and vocational interest inventories. Students have opportunities for self-assessment and are introduced to report writing and ethical principles of psychological testing. *Prerequisite: PYCH-1600 General Psychology.* (Fee: \$20)
- PYCH-3900 Physiological Psychology—Sp** **3 hours**  
 Explores the physiological, biological, and anatomical mechanisms responsible for behavior. *Prerequisite: PYCH-1600 General Psychology.*
- PYCH-4400 Counseling Skills—Fa,Sp** **3 hours**  
 Emphasis is on assisting individuals in ways of dealing with solving or transcending their problem situations. The methods and skills of helping others are investigated.
- PYCH-4640 Literature Seminar in Psychology—Fa,Su** **3 hours**  
 Reports and discussions of research literature in psychology. Required of all psychology majors during their senior year. *Prerequisite: permission of instructor.*
- PYCH-4650 Special Topics Seminar** **1-3 hours**  
 Various topics to be offered as interest demands. Available to students with special interests in psychology. *Prerequisite: permission of instructor.*
- PYCH-4700 Behavioral Problems in Children—Fa** **3 hours**  
 An in-depth analysis of the effects of genetic, family, and environmental factors on the developmental patterns of children. A special emphasis will be placed on behavioral disorders of dysfunctional families.
- PYCH-4950 Senior Research Project—Sp** **3 hours**  
 Provides opportunities for students to conduct an independent research project on a topic of interest and prepare a publishable paper under the supervision of an individual faculty advisor.
- PYCH-4960 Independent Study in Psychology** **1-3 hours**  
 Independent research carried out by the advanced psychology student in an area of interest and usefulness to the student. *Prerequisite: permission of instructor.*
- PYCH-4990 Psychology Internship—Fa,Sp,Su** **1-9 hours**  
 Junior and senior psychology majors may, with approval of the department, engage in psychological activity at a human service setting. One member of the psychology department will supervise the student's internship. The department will determine the number of credit hours that will be given for individual work experience. Repeatable to nine hours. Capstone course. *Prerequisite: permission of instructor.*

Applied psychology majors can choose an emphasis such as Child and Family Studies.

# Science and Mathematics

School of Engineering, Nursing, and Science

## Purpose Statement

The Department of Science and Mathematics offers curricula in biology, chemistry, computer science, physics, mathematics, the earth-space sciences, and secondary science and mathematics education. The department seeks to present the natural sciences and mathematics as disciplines through which students can learn to understand creation and its Creator. They will learn how to exercise stewardship of this knowledge as professionals who seek to make a difference in their vocations for the glory of God and the benefit of family, church, community, and environment.

This department seeks to:

1. Provide a meaningful learning experience in the sciences and mathematics as part of the liberal arts core curriculum.
2. Aid students in developing clear and orderly thinking processes through the use of the techniques of science and mathematics.
3. Assist students in developing a biblical perspective of the sciences, which is essential in understanding controversial issues such as origin of life, biomedical ethics, and genetic engineering.
4. Prepare students for graduate study or further professional study in the medical, environmental, or agricultural sciences.
5. Prepare secondary teachers with a biblical perspective of science.
6. Prepare students to serve in other science-related vocations.

## Personal Requirements

Students who enjoy and excel in high school mathematics and science courses possess the greatest potential for success as graduates of this department. Therefore, to prepare for the mathematics and science curricula, students should take a college preparatory curriculum which includes:

- Four units of English
- Four units of mathematics (algebra, geometry, and trigonometry)
- Four units of science (physical science, biology, chemistry, and physics)
- Three units of social science
- Three units of a single foreign language
- Electives in computers may also be helpful

Dr. Dennis Flentge, Chairman of the Department of Science and Mathematics, offers guidance and direction during a laboratory session.

## Department Requirements

### Programs of Study

The Department of Science and Mathematics offers the following programs of study:

#### Bachelor of Arts (B.A.) with majors in:

- Biology
- Chemistry
- Integrated Life Science Education
- Integrated Mathematics Education
- Integrated Physical Science Education
- Integrated Physics Education
- Integrated Science Education
- Mathematics
- Physics

#### Bachelor of Science (B.S.) with majors in:

- Biology
- Chemistry
- Computer Science
- Mathematics

#### Minors in:

- Biology
- Chemistry
- Computer Science
- Earth Science
- Mathematics
- Physics

#### Special programs:

- Environmental Biology
- Medical Technology
- Preagriculture
- Premedical (pre-health professions)
- Prepharmacy
- Prephysical Therapy

## Co-Curricular Opportunities

- Chi Theta Pi (pre-health professions organization)
- Earth Stewardship Organization
- Emergency Medical Services Squad
- Math Club
- ASME computing competition

## Technical Resources

- Molecular Modeling Software
- Laboratory simulations
- Biology and chemistry laboratory support
- Statistical Analysis Tools
- A.D.A.M. Interactive Anatomy™
- Maple 8™
- RASMOL™
- Chem Sketch™
- TeX™
- MicroCalc 7.0™
- DPGraph 2000™
- Sigma Plot™

## Career Opportunities

Graduates of this department have gained admission to outstanding graduate and professional schools around the nation. Careers pursued by graduates include:

- Agricultural consultant
- Biologist
- Botanist
- Business actuary
- Chemist
- Chiropractor
- College professor
- Computer scientist
- Environmental scientist
- Environmental toxicologist
- Health professional
- Laboratory technician
- Mathematician
- Pharmacist
- Physical therapist
- Physicist
- Physician
- Researcher
- Software engineer
- Software programmer
- Statistician
- Teacher
- Wildlife biologist

## Faculty

**Dennis Flentge**, *Chairman*: Professor of Chemistry. *Education*: B.S., Texas Lutheran College, 1969; Ph.D., Texas A&M University, 1974; Postdoctoral Research Fellow, University of Florida, 1974-75; Texas A & M University, 1976; Summer Faculty Research Fellow, Wright-Patterson Air Force Base, 1981, 1982, 1984-1988, 1990, 1996, 1997, 2001; graduate study, University of Wisconsin, summer, 1984. At Cedarville since 1980.

**Donald Baumann**, Professor of Biology and Chemistry. *Education*: B.S., Iowa State University, 1960; M.S., Iowa State University, 1962; Ph.D., Iowa State University, 1964. At Cedarville since 1964.

**Edwin Braithwaite**, Professor of Mathematics. *Education*: B.A., Western Washington University, 1966; M.A., Western Washington University, 1968; Ph.D., University of Illinois, 1975. At Cedarville since 1976.

**Xidong Chen**, Assistant Professor of Physics. *Education*: B.S., Shandong University, China, 1989; M.S., Institute of Physics, Chinese Academy of Sciences, 1992; Ph.D., University of Illinois, Urbana-Champaign, 1997; Postdoctoral Research Scientist, Argonne National Laboratory, 1997-2001. At Cedarville since 2001.

**Leroy Eimers**, Professor of Physics and Mathematics. *Education*: B.S., Hobart College, 1963; M.S., Syracuse University, 1966; Ph.D., Syracuse University, 1970. At Cedarville since 1981.

**Darrin Frey**, Associate Professor of Mathematics. *Education*: B.S., University of Nebraska, 1989; Ph.D., University of Michigan, 1995. At Cedarville since 1997.

**David M. Gallagher**, Associate Professor of Computer Science. *Education*: B.S., Electrical Engineering, United States Air Force Academy, 1978; M.S., Electrical Engineering, Air Force Institute of Technology, 1987; Ph.D., Electrical Engineering, University of Illinois, 1995. At Cedarville since 2000.

**Steven Gollmer**, Associate Professor of Physics. *Education*: B.S., Pillsbury Baptist Bible College, 1982; B.S., Northern Illinois University, 1985; M.S., University of Illinois, 1986; Ph.D., Purdue University, 1994. At Cedarville since 1994.

**Larry Helmick**, Professor of Chemistry. *Education*: B.S., Cedarville University, 1963; Ph.D., Ohio University, 1968; postdoctoral research, University of Florida, 1974-75 and summers of 1969, 1970, 1971; University of Illinois, summers of 1972, 1973, 1974; Summer Faculty Research Fellow, NASA-Lewis Research Center, 1980-1987 and 1990-1993, 1998; National Research Council Senior Research Fellow, 1988-1989; Wright Laboratory, Wright-Patterson Air Force Base, 1994-1997. At Cedarville since 1968.

**Andrew Heyd**, Instructor of Mathematics. *Education*: B.S., Cedarville University, 1999; M.S., Rensselaer Polytechnic Institute, 2001. At Cedarville University since 2002.

**William Jones**, Assistant Professor of Biology. *Education*: B.A., Cedarville University, 1981; M.A., University of Akron, 1999. At Cedarville since 1999.

**Heather Kuruvilla**, Associate Professor of Biology. *Education*: B.S., Houghton College, 1992; Ph.D., State University of New York at Buffalo, 1997. At Cedarville since 1997.

**Dali Luo**, Assistant Professor of Mathematics. *Education*: B.S., South China Institute of Technology, 1982; M.S., Claremont Graduate School, 1988; Ph.D., Washington State University, 1992; M.A., Grand Rapids Baptist Seminary, 2001; Th.M., Calvin Theological Seminary, 2003. At Cedarville, 1992-1998, 2001.

**Mark McClain**, Associate Professor of Chemistry. *Education*: B.A., Cedarville University, 1989; Ph.D., University of Michigan, 1994; Postdoctoral Fellow, Sandia National Laboratories, 1994-96; Summer Faculty Research Fellow, Air Force Research Laboratory, 1997, 1999, 2000, 2001, 2002. National Research

Council Senior Research Associate, 2003-2004. At Cedarville since 1996.

**Douglas Miller**, Professor of Chemistry. *Education*: B.S., University of Rochester, 1977; Ph.D., University of Colorado, 1981; postdoctoral research, University of Iowa, 1982; City University of New York, 1982-1984; Summer Faculty Research Fellow, NASA-Lewis Research Center, 1986-1990, 1992. At Cedarville since 1984.

**Brandy Cowing Phipps**, Assistant Professor of Biology. *Education*: B.S., University of Florida, 1998; M.S., Virginia Polytechnic Institute and State University, 2003; Ph.D., Virginia Polytechnic Institute and State University, 2003. At Cedarville since 2003.

**Terry Phipps**, Professor of Biology. *Education*: B.S., Cedarville University, 1970; M.S., Wright State University, 1974; Ph.D., The Ohio State University, 1987. At Cedarville since 1978.

**Kevin Roper**, Assistant Professor of Mathematics. *Education*: B.S., Southampton University, England, 1979; M.Ed., University of South Carolina, 1988; M.A., University of Kentucky, 1992; Ph.D., University of Kentucky, 1995. At Cedarville 1995-97, since 2000.

**Alicia Schaffner**, Assistant Professor of Biology. *Education*: B.S., Purdue University, 1992; Ph.D., The Ohio State University, 2000. At Cedarville since 2000.

**Robert Schumacher**, Assistant Professor of Mathematics. *Education*: B.S., Computer Science, United States Air Force Academy, 1970; M.S., Operations Research, Air Force Institute of Technology, 1979. At Cedarville since 1993.

**Keith Shomper**, Associate Professor of Computer Science. *Education*: B.A., University of Northern Colorado, 1983; M.S., Air Force Institute of Technology, 1984. Ph.D., The Ohio State University, 1993. At Cedarville since 2003.

**John Silvius**, Professor of Biology. *Education*: B.A., Malone College, 1969; graduate study, Western Michigan University, 1970; Ph.D., West Virginia University, 1974; postdoctoral study, University of Illinois, 1974-76. At Cedarville since 1979.

**Dennis Sullivan**, Professor of Biology. *Education*: B.S., Youngstown State University, 1974; M.D., Case Western Reserve University, 1978; Diplomate, American Board of Surgery, 1985; Fellow, American College of Surgeons, 1996. At Cedarville since 1996.

**John Whitmore**, Assistant Professor of Geology. *Education*: B.S., Kent State University, 1985; M.S., Institute for Creation Research, 1991; Ph.D., Loma Linda University, 2003. At Cedarville since 1991.

**Otis Wright**, Associate Professor of Mathematics. *Education*: B.Sc. (Hons.), The University of Sydney, Australia, 1987; M.A., Princeton University, 1989; Ph.D., Princeton University, 1991. Postdoctoral research, University of North Carolina at Chapel Hill, 1998-1999. At Cedarville since 2002.

**Daniel Wetzel**, Professor Emeritus of Physics and Mathematics. *Education*: B.S., Morehead State College, 1955; M.S., University of Cincinnati, 1963; Ph.D., The Ohio State University, 1971. At Cedarville since 1963.

### Technical Support Staff

**Gordon Dingeldein**, Science Laboratory Technician. *Education*: B.S., Southern Illinois University, 1964. At Cedarville since 1996.

**Christina Schut**, Biology Laboratory Instructor. *Education*: B.A., Cedarville University, 2003. At Cedarville since 2003.

## Adolescent and Young Adult Licensure Programs

The Department of Science and Mathematics joins with the Department of Education to offer adolescent/young adult licensure programs in the following areas:

- Integrated Life Science
- Integrated Mathematics
- Integrated Physical Science
- Integrated Physics
- Integrated Science (comprehensive)

The course requirements for each licensure field are outlined under each major. However, the following courses are common to all adolescent/young adult majors in this department:

<i>Teacher Education</i> .....	39
COM-2300 Voices of Diversity .....	3
EDSE-4000 Reading in the Content Area: AYA .....	3
EDSE-4100 Principles of Teaching .....	5
EDSE-4450 Adol/Young Adult Clinical Experience .....	3

### Mathematics–Bachelor of Arts

The **Bachelor of Arts degree with a major in mathematics** provides coursework and training in advanced mathematics. Because of the general nature of this curriculum and opportunity to complement the major with electives from other fields of study, this curriculum provides excellent preparation for graduate study in areas that require good quantitative and/or analytical skills such as philosophy, business, and theology. This liberal arts major also prepares students for a wide variety of career opportunities that require a general Bachelor of Arts degree. The flexibility of this major enables students to select their mathematics and other electives to meet educational or career goals.

Students should include courses in astronomy, chemistry, and physics as general electives.

Course requirements involve 43 semester hours including:

<i>Mathematics Core Requirements</i> .....	<b>31</b>
MATH-1710, 1720, 2710 Calculus I, II, III .....	13
MATH-2210 Logic and Methods of Proof .....	3

## Minors

The minors in the Department of Science and Mathematics are designed to provide non-majors with additional background in the biological sciences, mathematics, and physical sciences.

Course requirements for the **biology minor** involve 19 semester hours including:

BIO-1110 Introduction to Cell Biology .....	5
BIO-1120 General Zoology and Population Dynamics .....	5
BIO-2130 General Botany and Ecology .....	5
Biology Electives .....	4

Course requirements for the **chemistry minor** involve 19 semester hours including:

CHEM-1110,1120 General Chemistry I, II .....	8
CHEM-2210 Analytical Chemistry I .....	3
CHEM-3510 Organic Chemistry I .....	5
Chemistry Electives .....	3

Course requirements for the **earth science minor** involve 20 semester hours including:

ESCI-1110 Introduction to Physical Geology .....	4
ESCI-1120 Historical Geology .....	4
ESCI-2310 Introduction to Oceanography .....	4
ESCI-2410 General Meteorology .....	4
ESCI-2510 Introductory Astronomy .....	4

Course requirements for the **mathematics minor** involve 19 semester hours including:

MATH-1710, 1720 Calculus I, II .....	10
Mathematics Electives selected from the following: .....	9
MATH-2210 Logic and Methods of Proof .....	3
MATH-2710 Calculus III .....	3
MATH-2740 Differential Equations .....	3
Any 3000- or 4000-level mathematics course	

Course requirements for the **physics minor** involve 16 semester hours including:

PHYS-2110, 2120, 2130 General Physics I, II, III .....	10
PHYS-3510 Modern Physics I .....	3
Physics Electives .....	3

Course requirements for the **computer science minor** involve 27 semester hours including:

CS-1210 C++ Programming .....	2
CS-1220 Object-Oriented Design Using C++ .....	3
CS-2210 Data Structures Using Java .....	3
CS-3410 Algorithms .....	3
EGCP-1010 Digital Logic Design .....	3

MATH-3110 Probability and Statistics I .....	3
EGEE-3370 Probability and Random Processes .....	3

## Special Programs

The **environmental biology curriculum** within the biology major provides undergraduate preparation for students who are pursuing careers in such fields as conservation biology, wildlife biology, environmental toxicology, and environmental health. In addition to formal courses in biology, chemistry, and mathematics, employment criteria for these professions include prior experience (e.g. as a summer employee or intern), field biology skills (i.e., plant/animal taxonomy, habitat assessment and improvement), interpersonal skills, mathematical and communication skills, and the ability to reason critically and integrate across disciplines.

Students in the environmental biology program must complete the requirements for the B.S. in biology, including 16 hours of electives chosen from the list below:

<i>*Electives selected from the following:</i> .....	16
BIO-2210 Microbiology .....	4
BIO-3410 Invertebrate Zoology .....	3
BIO-3420 Vertebrate Zoology .....	3
BIO-3510 Plant Physiology .....	3
BIO-3520 Plant Taxonomy .....	3
BIO-3610 Environmental Physiology and Ecology .....	4
BIOA-3600 Topics in Environmental Biology (Au Sable Institute Courses) .....	4-12
BIO-4910 Environmental Biology Internship .....	4
*12 of the 16 elective hours must be 3000-4000 level courses.	

Students pursuing *environmental education* (e.g. interpretive naturalist) may also elect to complete requirements for state teacher licensure through the university Department of Education. The environmental biology curriculum can also serve as a useful component for students who plan to serve in missions ministries through programs related to soil, water, and plant/animal resource management.

*Cedarville professors strive to integrate a biblical perspective in every classroom.*

The **preagriculture curriculum** is designed to satisfy the technical and nontechnical requirements of the first two years of a typical agriculture program. Students should research agricultural schools to which they wish to transfer at the junior level so that application materials can be completed in advance of deadlines. The preagriculture students should confer with their advisor to select electives based upon the following criteria:

- the requirements of the school to which they will transfer after leaving Cedarville University.
- the specific agricultural program they wish to enter.

Course requirements include core requirements and an emphasis in either agriculture business or agriculture science.

Core requirements include:

BEGE-1710 Christian Life and Thought .....	3
BEGE-1720 Spiritual Formation .....	3
BIO-1110 Introduction to Cell Biology .....	5
CHEM-1110 General Chemistry I .....	4
ENG-1400 Composition .....	3
GMTH-1030 Precalculus .....	4
(or MATH-1710 Calculus I .....	5)
GSS-1000 Foundations of Social Science .....	3
HUM-1400 Introduction to the Humanities .....	3

The *agriculture business emphasis* prepares students for careers in the industry and business phases of agriculture.

Course requirements include:

<i>Two courses (selected from):</i> .....	10
ACCT-2110 Principles of Accounting .....	3
BIO-1120 General Zoology and Population Dynamics .....	5
BIO-2130 Botany and Ecology .....	5
BIO-2210 Microbiology .....	4
BIO-3300 Genetics .....	4
BUS-2150 Statistics .....	3
ECON-2330, 2340 Micro and Macroeconomics .....	6
MGMT-3500 Principles of Organization and Management .....	3
MIS-1100 Introduction to Computers .....	1
Humanities Electives .....	6
Social Science Elective .....	3

The *agriculture science emphasis* prepares students for careers including agronomy, animal science, food science, and horticulture.

Course requirements include:

BIO-1120 General Zoology and Population Dynamics .....	5
BIO-2130 General Botany and Ecology .....	5
CHEM-3510, 3520 Organic Chemistry I, II .....	10
MATH-1720 Calculus II .....	5
MATH-3110 Probability and Statistics I .....	3
Biological Science Elective .....	4
(or CHEM-3710 Biochemistry .....	4)
Humanities Elective .....	3
Social Science Elective .....	3

A **medical technology** option is available within the biology major. The student must spend one year in a hospital internship program to become a certified medical technologist. Prerequisites to the hospital internship include: 16 hours of biology, 16 hours of chemistry, one mathematics course, and completion of all General Education Requirements.

Students may do an internship during their senior year with 32 hours of transfer credit applied to the biology major upon

successful completion of the internship. Many students complete the requirements for a biology major first and then take the internship after graduation from Cedarville University.

### Predental, Premedical, Preoptometric, Preosteopathic, and Preveterinary Medicine

Cedarville University students have been successful in gaining admission to medical and professional schools. For many of these schools, no specific major is required; however, students typically choose majors in biology or chemistry. In addition to general degree requirements, the following courses are recommended for admission:

*Biology courses:*

BIO-1110 Introduction to Cell Biology .....	5
BIO-1120 General Zoology and Population Dynamics .....	5
BIO-2210 Microbiology .....	4
BIO-3300 Genetics .....	4
BIO-3420 Vertebrate Zoology .....	3
(or BIO-4410 Vertebrate Embryology .....	3)
BIO-3450, 3460 Human Structure and Function I, II .....	7
BIO-4710 Principles of Bioethics .....	3
(or BIO-3770 Pathophysiology .....	3)

*Chemistry courses:*

CHEM-1110, 1120 General Chemistry I, II .....	8
CHEM-3510, 3520 Organic Chemistry I, II .....	10
CHEM-3710 Biochemistry .....	4

*Additional courses:*

MATH-1710, 1720 Calculus I, II .....	10
PHYS-1010, 1020 College Physics I, II .....	10
(or PHYS-2110, 2120 General Physics I, II .....	8)

*Note: Students who desire admission to physician assistant programs will also need to have 1000 hours or more of direct health care experience. Specific requirements vary from one program to another.*

### Prepharmacy

The **prepharmacy curriculum** enables a student to obtain the first three or four years of the six- or seven-year Pharm.D. program at Cedarville University. To ensure that specific course requirements may be met through Cedarville courses, the student should select the pharmacy college he or she plans to attend as early as possible and obtain a catalog describing the specific course requirements.

Generally the following courses should be included in the three or four years the prepharmacy student attends Cedarville:

BIO-1110 Introduction to Cell Biology .....	5
BIO-1120 General Zoology and Population Dynamics .....	5

### Prephysical Therapy

Most Cedarville students who successfully apply to graduate programs in physical therapy have completed the B.A. in biology. Students should contact the specific schools they wish to attend to determine the exact prerequisites. Physical therapy schools usually require 40 to 100 hours of experience assisting a licensed physical therapist prior to application. In addition to general degree requirements, the following courses are recommended for admission to most physical therapy schools:

#### Biology courses:

BIO-1110 Introduction to Cell Biology .....	5
BIO-1120 General Zoology and Population Dynamics .....	5
BIO-2800 Introduction to Research Methods .....	2
BIO-3300 Genetics .....	4
BIO-3450, 3460 Human Structure and Function I, II .....	7
BIO-3770 Pathophysiology .....	3

#### Chemistry courses:

CHEM-1110, 1120 General Chemistry I, II .....	8
CHEM-3510 Organic Chemistry I .....	5
CHEM-3710 Biochemistry .....	4

#### Additional mathematics and science courses:

GMTH-1030 Precalculus .....	4
PHYS-1010, 1020 College Physics I, II .....	10

#### Psychology:

PYCH-1600 General Psychology .....	3
PYCH-2600 Human Development: Lifespan .....	3
PYCH-2610 Statistics .....	3
PYCH-2640 Psychology of Abnormal Behavior .....	3

#### Other highly recommended electives:

ATRN-2650 Therapeutic Exercise for Athletic Injuries .....	2
ATRN-3660 Modalities in Athletic Training .....	3
BIO-4710 Principles of Bioethics .....	3
ESS-3920 Biomechanics .....	3

## Course Descriptions

### General Education

Except where noted, general education courses are designed to meet the General Education Requirements for graduation. These courses will not count toward graduation requirements for majors found in the Department of Science and Mathematics unless they are specifically listed in the curriculum requirements for a major. A student majoring in science or mathematics may take these courses only as electives. However, any course listed for science or mathematics major or minor may also count toward fulfilling General Education Requirements.

#### **BIO-1000 Principles of Biology**—Fa,Sp,Su **3.5 hours**

Emphasizes basic life processes and the principles by which these processes operate at the ecological, organismic, and cellular levels of organization with emphasis on human responsibility toward life at all levels. Three lectures each week and one two-hour laboratory which meets every two weeks. (Fee: \$75)

#### **BIO-2010 Human Anatomy and Physiology**—Fa **4 hours**

Survey of the principal systems of the human body with emphasis on both structure and function. Includes the skeletal, muscular, nervous, endocrine, cardiovascular, and respiratory systems. Three lectures and one two-hour laboratory per week. *Prerequisite:* BIO-1000 *Principles of Biology*; or CHEM-1000 *Principles of Chemistry*. (Fee: \$100)

#### **BIO-2020 Advanced Clinical Physiology**—Sp **4 hours**

Advanced study in human structure and function, including the digestive, urinary, and reproductive systems, as well as

metabolism and acid-base balance. The pathophysiology of disease is presented using a case-study format. Three lectures and one two-hour laboratory per week. *Prerequisite:* BIO-2010 *Human Anatomy and Physiology*. (Fee: \$100)

#### **CHEM-1000 Principles of Chemistry**—Fa **5 hours**

For non-science majors, an introduction to atomic structure, ionic and covalent bonding, stoichiometry, kinetic theory, solutions and equilibria, nuclear chemistry, nomenclature, structure, and reactions of organic compounds. Four lectures and one two-hour laboratory per week. (Fee: \$100)

#### **CHEM-1010 Principles of Biochemistry**—Sp **5 hours**

For non-science majors, an introduction to organic compounds not covered in CHEM-1000, and a study of the nomenclature and metabolism of proteins, carbohydrates, lipids, and nucleic acids. Four lectures and one two-hour laboratory per week.

*Prerequisite:* CHEM-1000 *Principles of Chemistry*. (Fee: \$100)

#### **CHEM-1050 Chemistry for Engineers**—Fa **3.5 hours**

Fundamental concepts of chemistry are developed with applications of chemistry to engineering disciplines. Students are introduced to measurement, number handling, the Periodic Table, descriptive properties of atoms, elements, molecules, and ions, chemical reactions, stoichiometry, chemical bonding, equilibrium, thermodynamics, gas laws, and the nature of solids and liquids. Laboratory emphasizes quantitative skills. Three lectures per week, one biweekly two-hour laboratory. (Fee: \$75)

#### **ESCI-1110 Principles of Physical Geology**—Fa **4 hours**

An introductory study of the earth and its geological processes. Major lecture topics include minerals, rocks, fossils, weathering, plate tectonics, earth history, dating, streams, groundwater, glaciers, and various internal and surface features of the earth. Time will be spent in the discussion of various alternative interpretations of earth history. Laboratory exercises will complement the lecture material and will include field trips to various areas of local geological interest. Three weekly lectures and one weekly laboratory experience. This course satisfies the physical science requirement of the General Education Requirements. *No prerequisites*. (Fee: \$100)

#### **ESCI-1120 Historical Geology**—Sp **4 hours**

The earth's geological history from its beginning to the present will be reviewed from both conventional and non-conventional perspectives. Discussion will occur on the evidence and merits of conflicting viewpoints. Major lecture topics include a survey of the various eras of geological time, plate tectonics, biological evolution, the meaning of the fossil record, dating methods and correlation of rocks. Field trips will focus on local paleontology. Three lectures and one laboratory per week. This course satisfies the physical science requirement of the General Education Requirements. *Prerequisites:* GSCI-1030 *Principles of Earth Science*; ESCI-1110 *Principles of Physical Geology*; or *permission of instructor*. (Fee: \$100)

#### **ESCI-2310 Introduction to Oceanography**—Fa **4 hours**

An introductory survey of the oceans and the processes that occur in and around them. Major topics of discussion will include ocean currents, coastlines, plate tectonics, marine sediments, waves, tides, composition of sea water, interaction of the ocean with the atmosphere, marine life forms and their habitats. A field trip will visit a local aquarium. Lecture 3 times per week, one laboratory per week. This course satisfies the physical science requirement of the General Education Requirements. *No prerequisites*. (Fee: \$100) (odd years)

#### **ESCI-2410 General Meteorology**—Sp **4 hours**

A survey of basic meteorological principles and weather systems. Topics covered will include the vertical structure of the atmosphere, cloud development and precipitation, optical effects of the atmosphere, wind systems, air masses, fronts and severe weather. Labs will be used to develop basic meteorological skills such as observation of local weather, decoding and

# Science and Mathematics

## School of Engineering, Nursing, and Science

interpretation of meteorological data, and introductory weather forecasting. Three lectures and one two-hour laboratory per week. This course satisfies the physical science requirement of the General Education Requirements. *Prerequisite: high school physics; GMTH-1030 Precalculus or equivalent; or permission of instructor.* (Fee: \$100) (odd years)

### **ESCI-2510 Introduction to Astronomy—Sp 4 hours**

An introduction to the structure and composition of the universe. Topics covered will include measurement of celestial objects, structure of the solar system and galaxy, composition and history of the universe. Time will be spent in the discussion of various cosmological models and their implications. Three weekly lectures and one two-hour laboratory per week. Variations in the laboratory schedule will be made to accommodate field observations. This course satisfies the physical science requirement of the General Education Requirements.

*Prerequisite: GMTH-1030 Precalculus or equivalent; or permission of instructor.* (Fee: \$100) (even years)

### **GMTH-1010 Introduction to Mathematics—Fa,Sp 3 hours**

Introduction to mathematical concepts including voting theory, apportionment and fair division, models of population growth, and graph theory. *Prerequisite: proficiency in mathematics.*

### **GMTH-1020 College Algebra—Fa 3 hours**

Introduction to methods of algebraic analysis. Includes, but may not be limited to, many topics of intermediate algebra: the field axioms, linear functions, inequalities, systems of equations, determinants, and quadratic functions. This course, in conjunction with GMTH-1030 Precalculus, is designed to prepare the student for calculus. *Prerequisite: proficiency in mathematics; two years of high school mathematics; or permission of instructor.*

### **GMTH-1030 Precalculus—Fa,Sp 4 hours**

Introduction to the principles of trigonometry and possibly some advanced topics in algebra. Coverage includes, but may not be limited to, exponential, logarithmic, trigonometric and circular functions, triangle problems, and vectors. This course, in conjunction with GMTH-1020 College Algebra, is designed to help prepare the student for calculus. *Prerequisites: proficiency in mathematics and GMTH-1020 College Algebra or equivalent; or permission of instructor.*

### **GMTH-1040 Calculus for Business—Fa,Sp 3 hours**

Introduction to the concepts of differential and integral calculus for students of business. Numerous applications from these areas will be considered. Does not apply toward major in mathematics. *Prerequisite: proficiency in mathematics*

### **GMTH-3010 Proof and Mathematical Modeling—Sp 3 hours**

Proof by contradiction, contrapositive, and induction will be explored along with direct proof in the verification of conjectures and other mathematical propositions. Additionally, the formulation of discrete, statistical and algebraic mathematical models, along with their use in solving problems, will be studied. Appropriate educational technology, including graphing calculators, spreadsheets, and geometric manipulation software, will be used throughout. Does not count towards the B.A. or B.S. majors in mathematics or the B.A. in integrated mathematics education. *Prerequisites: EDUC-1800 Principles of Mathematics I; EDUC-2800 Principles of Mathematics II; GMTH-1020 College Algebra; MATH-1710 Calculus I.*

### **GSCI-1010 Principles of Earth Science—Fa,Sp 3.5 hours**

A survey of the sciences of geology, oceanography and meteorology. Major lecture topics include discussion of earth's geological history, minerals, rocks, dating, plate tectonics, glaciers, volcanoes, ocean currents, marine life, waves, the atmosphere, and weather systems. When appropriate, contrasting views of these subjects will be examined. Laboratory experiences will include field trips to areas of local geological interest. Lecture three times per week, laboratory on alternate

weeks. This course satisfies the physical science requirement of the General Education Requirements. (Fee: \$75)

### **GSCI-1020 Principles of Physical Science—Fa,Sp 3.5 hours**

A survey of the sciences of physics, chemistry and astronomy. Major lecture topics include motion, force, energy, heat, waves, electricity, optics, quantum effects, periodic table, chemical bonds, chemical reactions, astronomical measurements, and the origin of the universe. Content of this course will be related to social and philosophical issues to emphasize a Christian's responsibility in a technological society. Lecture three times per week, laboratory on alternate weeks. This course satisfies the physical science requirement of the General Education Requirements. (Fee: \$75)

### **GSCI-2010 Physical Science for Teachers—Fa,Sp 4 hours**

Introduction to a selection of core concepts of physics and chemistry for preservice elementary education teachers. Students will develop methods of learning science, with emphasis on inquiry, scientific method, and integrating common everyday objects and experiences with a view toward cultivating the excitement of studying the Creator's creation. Three lectures with one weekly one-hour lab. Does not satisfy the physical science General Education Requirement. (Fee: \$75)

### **GSCI-2710 Ethics of Human Reproduction—Fa 3 hours**

A study of topics pertaining to human sexuality: biology of human reproduction, conception control, infanticide, abortion, sexually transmitted diseases, biblical standards of sexuality, and teaching biblical sexuality to children and teens.

*Prerequisites: BIO-1000 Principles of Biology; GSS-1000 Foundations of Social Science.*

### **GSCI-3010 Concepts in Middle School Science—Sp 4 hours**

This lab course highlights key concepts in middle school science by reviewing and extending concepts from previous science courses with an emphasis on the integration of earth sciences, physical sciences, and life sciences. Concepts addressed include the scientific process, theory of evolution, cell theory, and the concept of disease. *Prerequisites: BIO-1000 Principles of Biology; CHEM-1000 Principles of Chemistry; GSCI-1010 Principles of Earth Science; GSCI-2010 Physical Science for Teachers.* (Fee: \$75)

### **GSCI-3060 4 hours**

#### **Environmental Science for Middle School Educators—Sp**

Introduction to the study of the dynamic relationships that exist between the earth's organisms and their environment, and how man affects these relationships. This course will include laboratory investigations, field trips, group work, review of environmental news, lecture-discussions, videos, small projects and pertinent ideas for teaching the environment in a middle school setting. There will be an emphasis on the intricate design and resilience of God's creation. Three lectures and one laboratory session per week. This course does not satisfy the general education requirement for biology. *Prerequisites: BIO-1000 Principles of Biology; middle childhood education major; or permission of instructor.* (Fee: \$100)

### **GSCI-4800 Seminar—Sp (2003 only) 1 hour**

Students present a paper from library or laboratory research. Each student must obtain approval of the topic from his/her advisor and seminar instructor before enrolling in the course. The students must attend a minimum of 10 seminars during the senior year. Guest lecturers and faculty members may present papers at the invitation of the instructor. Capstone course. *Prerequisite: senior status; attendance of a minimum of 10 seminars during the sophomore and junior years.*

### **MTED-3110 Clinical Teaching in Mathematics—Fa,Sp 1 hour**

Students are assigned to assist a college instructor in classroom and laboratory teaching, evaluation, and related responsibilities. The student must complete 40 clock hours of clinical involvement in each teaching field for which licensure is desired.

# Science and Mathematics

## School of Engineering, Nursing, and Science

**MTED-3120 Teaching Mathematics–Fa** **1 hour**

Designed to introduce prospective secondary school science teachers to the curriculum, materials, and methods of classroom teaching. *Prerequisite: admission to the teacher education program.*

**PHYS-1010 College Physics I–Fa** **5 hours**

Basic concepts of mechanics and thermodynamics. Topics include kinematics, motion in two dimensions, force and motion, work and energy, momentum, circular motion, gravitation, waves, phases of matter, heat, and the laws of thermodynamics. Four lectures and one two-hour laboratory per week. *Prerequisite: high school trigonometry; or GMTH-1030 Precalculus or equivalent.* (Fee: \$100)

**PHYS-1020 College Physics II–Sp** **5 hours**

Basic concepts of electricity and modern physics. Topics include electricity, magnetism, AC circuits, geometrical and physical optics, relativity theory, quantum theory and other modern physics topics. Four lectures and one two-hour laboratory per week. *Prerequisite: PHYS-1010 College Physics I or equivalent.* (Fee: \$100)

**SCED-3110 Clinical Teaching in Science–Fa,Sp** **1 hour**

Students are assigned to assist a college instructor in classroom and laboratory teaching, evaluation, and related responsibilities. The student must complete 40 clock hours of clinical involvement in each teaching field for which licensure is desired.

**SCED-3120 Teaching Science–Fa** **2 hours**

Designed to introduce prospective secondary school science teachers to the curriculum, materials, and methods of classroom and laboratory science teaching. Attention will be given to the philosophy and education psychology theories that are currently influencing science education and the methods of instruction that arise from these theories. Teacher education students participate in activities and complete assignments designed to provide experience in science lesson planning, acquisition of classroom and laboratory resources, and strategies of maintaining science laboratory safety. *Prerequisite: admission to the teacher education program.*

**Biology**

**BIO-1110 Introduction to Cell Biology–Fa** **5 hours**

Foundational knowledge of cell biology including basic mechanisms of prokaryotic and eukaryotic metabolism, division, and physiology. Four lectures and one two-hour laboratory per week. (Fee \$100)

**BIO-1120** **5 hours**

**General Zoology and Population Dynamics–Sp**

This course will provide an integrative study of the diversity of organisms that make up the animal kingdom. Morphology, physiology and ecology of the major phyla will be integrated with principles of population dynamics to study the continuities and discontinuities among the animal taxa. *Prerequisite: BIO-1110 Introduction to Cell Biology.* (Fee: \$100)

**BIO-2130 General Botany and Ecology–Fa** **5 hours**

A study of the autotrophs, their fundamental role in aquatic and terrestrial ecosystems, and their anatomy and physiology with emphasis on the vascular plants. Investigations of ecosystem level processes and field botany will be conducted in early autumn, followed by the anatomy and physiology of autotrophs after mid-semester. Four lectures and one 3-hour laboratory per week. *Prerequisites: BIO-1110 Introduction to Cell Biology; BIO-1120 General Zoology and Population Dynamics.* (Fee: \$100)

**BIO-2210 Microbiology–Fa** **4 hours**

A study of the characteristics, culture, and control of bacteria, viruses, and fungi. A major emphasis is placed on microorganisms and disease, with some coverage of industrial and environmental topics. Laboratory techniques are emphasized in the laboratory.

Two lectures and two two-hour laboratories per week. *Prerequisite: CHEM-1000 Principles of Chemistry; CHEM-1010 Principles of Biochemistry, or equivalent.* (Fee: \$100)

**BIO-2800 Introduction to Research Methods–Fa,Sp** **2 hours**

This course will provide guidance and experience in writing the components of a research proposal. The final assignment will consist of a short research proposal on a topic of the student's choosing. In addition, there will be an attendance requirement of 5 biology seminars during the semester in which the student registers for this course. *Prerequisites: permission of instructor; BIO-1110 Introduction to Cell Biology; BIO-1120 General Zoology and Population Dynamics.*

**BIO-3300 Genetics–Sp** **4 hours**

This is an integrative course of the areas of genetics: classical and molecular. Focus will be on the principles of heredity in prokaryotic and eukaryotic organisms, which includes the understanding of transmission genetics on a molecular level. There will be emphasis on the molecular nature of genes, including gene expression, mutations and manipulation of DNA. Three lectures and one 3-hour laboratory per week. *Prerequisite: BIO-1110 Introduction to Cell Biology.* (Fee: \$100)

**BIO-3410 Invertebrate Zoology–Fa** **3 hours**

This course will provide an overview of the diversity of invertebrates. It will take an integrative approach to learning about invertebrate taxonomy, ecology, morphology and physiology. Field collections of local fauna will be used to learn the principles of invertebrate classification and to study local biological diversity. *Prerequisite: BIO-1120 General Zoology and Population Dynamics.* (Fee: \$100) (even years)

**BIO-3420 Vertebrate Zoology–Fa** **3 hours**

This course is a study of the diversity among the vertebrate classes with an emphasis on continuity and discontinuity of morphological form and physiological function of vertebrate systems. *Prerequisite: BIO-1120 General Zoology and Population Dynamics.* (Fee: \$100)

**BIO-3450 Human Structure and Function I–Fa** **4 hours**

Study of the structure and function of the human body with an emphasis on body systems. Includes human tissues, skeletal, muscular, nervous, and endocrine systems. Two lectures and one three-hour laboratory per week. *Prerequisite: BIO-1120 General Zoology and Population Dynamics.* (Fee: \$100)

**BIO-3460 Human Structure and Function II–Sp** **3 hours**

Study of the structure and function of the human body with an emphasis on body systems. Includes cardiovascular, respiratory, gastrointestinal, and renal systems. Three lectures per week. *Prerequisite: BIO-3450 Human Structure and Function I.*

**BIO-3510 Plant Physiology–Sp** **3 hours**

A study of the physiological aspects of vascular plants with emphasis upon plant-soil water relationships, mineral nutrition, photosynthesis and plant growth and development. Two lectures and one 3-hour laboratory per week. *Prerequisite: BIO-2130 General Botany and Ecology.* (Fee: \$100) (odd years)

**BIO-3520 Plant Taxonomy–Sp** **3 hours**

A study of the naming and classification of common vascular plants with emphasis upon field identification in the context of plant community and taxonomic family, plant collecting and herbarium techniques, and the importance of plants in global stewardship and missions. Two lectures and one 3-hour laboratory per week. Includes a travel study opportunity during Spring break. *Prerequisite: BIO-2130 General Botany and Ecology.* (Fee: \$100) (even years)

**BIOA-3600 Topics in Environmental Biology–Sp,Su** **4 hours**

Enrollment in this course signifies that the student has chosen to enroll in two or more Au Sable Institute courses in an upcoming term taught by faculty of various evangelical Christian colleges and universities. Course descriptions of the more than twenty Cedarville-approved Au Sable courses are available in

# Science and Mathematics

## School of Engineering, Nursing, and Science

the Au Sable Institute Bulletin available from the department Au Sable representative or at the Au Sable website. Enrollment begins when the student contacts the departmental Au Sable representative. Appropriate course titles will appear in the student's transcript with letter grades when the studies are completed. More information on Au Sable Institute is printed in the university catalog. *Prerequisite: acceptance to attend Au Sable Institute.*

### **BIO-3610 Environmental Physiology and Ecology–Sp 4 hours**

A study of both physiological ecology and field ecology. The course begins with field and laboratory studies of adaptations to winter at the organismic and cellular levels and includes a travel study experience in the "North Woods." Spring emphasis shifts to field ecology with emphasis on aquatic, forest, and prairie ecosystems. Three lectures and one 3-hour laboratory per week. *Prerequisites: BIO-1120 General Zoology and Population Dynamics; BIO-2130 General Botany and Ecology.* (Fee: \$100)

### **BIO-3710 Biochemistry–Fa 4 hours**

A study of the chemical and physical properties of living organisms' macromolecules such as proteins, carbohydrates, lipids and nucleic acids and integration of metabolic pathways. Three lectures and one 3-hour laboratory per week. *Prerequisites: BIO-1110 Introduction to Cell Biology; CHEM-3510 Organic Chemistry I.* (Fee: \$100)

### **BIO-3770 Pathophysiology–Sp 3 hours**

Study of the abnormal functions of the human body during disease. Includes case study discussions and research writing. Three lectures per week. *Prerequisite: BIO-3460 Human Structure and Function II (may be taken concurrently).*

### **BIO-3800 Biological Research I–Fa,Sp 2 hours**

Student will undertake an original research project under the direction of a departmental faculty mentor, an approved mentor within a summer research program, or within an approved academic internship experience, geared toward completion of

the capstone experience. *Prerequisites: junior status; permission of instructor; BIO-2800 Introduction to Research Methods.* (Fee: \$150)

### **BIO-4210 Advanced Cell Biology–Sp 4 hours**

In-depth study of the cell will include the following topics: normal cell physiology and division, differentiation, basic signaling pathways and programmed cell death. Some study of cell pathogenesis, aberrant signaling mechanisms, and other elective topics of current agricultural or biomedical interest may be included. Three lectures and one (3-hour) laboratory per week. *Prerequisites: BIO-1100 Introduction to Cell Biology; BIO-1120 General Zoology and Population Dynamics; BIO-2130 General Botany and Ecology; and BIO-3300 Genetics.* (Fee \$100) (odd years)

### **BIO-4220 Signal Transduction–Sp 3 hours**

Study of major cellular signaling pathways in normal function and in disease. Original research will emphasize signaling pathways, and data collected will further advance the field. Two lectures and one (3 hour) laboratory per week. *Prerequisites: BIO-1100 Introduction to Cell Biology; BIO-1120 General Zoology and Population Dynamics; BIO-2130 General Botany and Ecology; BIO-3330 Genetics.* (Fee: \$100) (even years)

### **BIO-4300 Molecular Biology of the Cell–Fa 4 hours**

Study of the molecules which make up the living cell with emphasis on nucleic acid biology and protein biology. Other topics include origin of life, abiogenesis, and a historical analysis of the discovery of DNA and proteins. *Prerequisites: BIO-1110 Introduction to Cell Biology; CHEM-3510 Organic Chemistry.* (Fee: \$100)

### **BIO-4350 Immunology–Sp 3 hours**

Study of the human immune system, including descriptions of basic immunological phenomena, biochemistry of antibodies and antigens, the cellular and genetic components of the immune response, and immunopathology. Two lectures and one lab per week. *Prerequisite: BIO-1110 Introduction to Cell Biology.* (Fee: \$100)

### **BIO-4410 Vertebrate Embryology–Fa 3 hours**

This course is a systematic study of the mechanisms that guide vertebrate development from a single cell to a multicellular organism. Morphological studies emphasize embryonic stages in selected vertebrates including: amphibians, birds, and mammals. *Prerequisite: BIO-1120 General Zoology and Population Dynamics.* (Fee: \$100) (odd years)

### **BIO-4710 Principles of Bioethics–Fa 3 hours**

Christian principles of bioethics, with an emphasis on personhood and the sanctity of human life. Three lectures per week. *Prerequisites: completion of core biology curriculum; junior status.*

### **BIO-4800 Senior Seminar–Biology–Fa,Sp 1 hour**

In this capstone course required of all senior biology majors, students compile data from laboratory, field study, or extensive literature research and give an oral presentation. Approval of the topic must be given by the student's academic advisor. The student must also attend a minimum of 10 seminars during the senior year. *Prerequisites: BIO-1110 Introduction to Cell Biology; BIO-1120 General Zoology and Population Dynamics; BIO-2130 General Botany and Ecology; BIO-3300 Genetics; BIO-2800 Introduction to Research Methods; senior status; attendance of a minimum of 10 seminars prior to the senior year.*

### **BIO-4880 Topics in Biology 1-3 hours**

Topics of special interest by the biology faculty from the areas of modern biology. *Prerequisites: BIO-1110 Introduction to Cell Biology; BIO-1120 General Zoology and Population Dynamics; BIO-2130 General Botany and Ecology; BIO-3300 Genetics.*

Full-time professors, rather than teaching assistants, work closely with students during laboratory sessions.

**BIO-4900 Independent Study: Biology—Fa,Sp 1-3 hours**

Supervised independent study of a particular biological phenomenon. Submission and approval of a research proposal must precede registration. *Prerequisites: major in biology; permission of advisor.*

**BIO-4910 Environmental Biology Internship—Fa,Sp 4 hours**

An opportunity to participate in an internship experience involving research projects with field biologists, ecologists, environmental health scientists, or environmental educators depending upon the student's vocational preference. Involves department faculty or faculty in conjunction with local or state agencies or private institutions. Provides practical experience in field biology and ecology techniques related to habitat characterization, monitoring, management, and restoration. *Prerequisites: BIO-1120 General Zoology and Population Dynamics; BIO 2130 General Botany and Ecology; BIO-2800 Introduction to Research Methods; permission of instructor.* (Fee: \$25)

**Chemistry**

**CHEM-1110 General Chemistry I—Fa 4 hours**

Fundamental concepts of physical, inorganic, and analytical chemistry are developed. Students are introduced to the physical chemistry concepts of atomic theory, chemical bonding, molecular structure, intermolecular forces, states of matter, and thermodynamics. Inorganic concepts of reaction types and stoichiometry are included. Lab stresses analytical techniques including quantitation, separation, titration, and statistical analysis of data. Many of the lab reports require use of spreadsheets or other computer software. Three lectures and one three-hour lab per week. *Prerequisite: satisfactory performance on the chemistry placement exam.* (Fee: \$100)

**CHEM-1120 General Chemistry II—Sp 4 hours**

A continuation of General Chemistry I including the physical chemistry concepts of kinetics and equilibrium. Inorganic topics include acids & bases, oxidation-reduction reactions, nuclear chemistry, and the descriptive chemistry of the main group and transition metal elements. Lab exercises stress quantitative analytical techniques and include application of visible light spectroscopy. Many of the lab reports require use of spreadsheets or other computer software and statistical analysis of data. Three lectures and one three-hour lab per week. *Prerequisite: CHEM-1110 General Chemistry I.* (Fee: \$100)

**CHEM-2210 Analytical Chemistry I—Fa 3 hours**

A study of the fundamental concepts and skills of analytical chemistry including measurement, statistical treatment of data, equilibrium constant calculations, acid-base equilibria, electrochemistry, and volumetric analysis. The laboratory sessions focus on volumetric methods such as precipitation titrations, acid-base titrations, complexation titrations, and redox titrations in which accurate measurement of volume is essential. Two lectures and one three-hour laboratory per week. *Prerequisite: CHEM-1120 General Chemistry II.* (Fee: \$100)

**CHEM-2220 Analytical Chemistry II—Sp 3 hours**

Detailed study of analytical instrumentation including electro-analytical methods such as potentiometry, coulometry, voltammetry, spectrochemical analysis, and analytical separations, including various types of chromatography. Two lectures and one three-hour laboratory per week. *Prerequisite: CHEM-2710 Analytical Chemistry I.* (Fee: \$100)

*Well-equipped chemistry labs enhance the student's ability to interpret laboratory findings and data.*

**CHEM-2800 Introduction to Research in Chemistry—Fa 1 hour**

An introduction to the purpose and methodology of research in chemistry including keeping a laboratory notebook, retrieving information, using the chemical literature, and writing research reports. One lecture per week. *Prerequisite: CHEM-1120 General Chemistry II.* (Fee: \$100)

**CHEM-3410 Inorganic Chemistry—Fa 3 hours**

Detailed study of inorganic compounds including atomic structure, the structure of solids, molecular structure and bonding, molecular symmetry and its applications, acids and bases, and oxidation and reduction. Lab stresses synthesis and characterization using instrumental methods. Two lectures and one three-hour lab per week. *Prerequisite: CHEM-2710 Analytical Chemistry I.* (Fee: \$100)

**CHEM-3510 Organic Chemistry I—Fa 5 hours**

Detailed study of the structure, nomenclature, stereochemistry, physical properties, spectra, syntheses, reactions, and reaction mechanisms of alkanes, alkenes, alkynes, alkyl halides, alcohols, and ethers. Biological and medical applications are included. Lab includes basic techniques, procedures, and instruments, as well as syntheses and reactions. Four lectures and one three-hour lab per week. *Prerequisite: CHEM-1120 General Chemistry II.* (Fee: \$100)

# Science and Mathematics

## School of Engineering, Nursing, and Science

### **CHEM-3520 Organic Chemistry II–Sp 5 hours**

Continuation of Organic Chemistry I including the detailed study of conjugated aliphatics, aromatics, aldehydes, ketones, carboxylic acids, anhydrides, esters, acyl halides, amines, phenols, and aryl halides. Lab includes systematic qualitative organic analyses using modern instrumental methods (H-NMR, C-NMR, FTIR, GC/MS). Three lectures and two three-hour labs per week. *Prerequisite:* CHEM-3510 Organic Chemistry I. (Fee: \$100)

### **CHEM-3710 Biochemistry–Fa 4 Hours**

A study of the chemical and physical properties of living organisms' macromolecules such as proteins, carbohydrates, lipids and nucleic acids and integration of metabolic pathways. Three lectures and one three-hour laboratory per week. *Prerequisites:* BIO-1110 Introduction to Cellular Biology; CHEM-3510 Organic Chemistry I. (Fee: \$100)

### **CHEM-4210 Advanced Chemistry Lab–Sp 2 hours**

This laboratory course will integrate organic and inorganic synthetic methodology along with the application of various characterization techniques. Analytical, physical, and instrumental analysis techniques will be utilized. One three-hour lab per week. *Prerequisite:* CHEM-4320 Physical Chemistry II. (Fee: \$100)

### **CHEM-4310 Physical Chemistry I–Fa 4 hours**

A study of the laws of thermodynamics, chemical equilibrium, solutions and kinetics. Three lectures and one three-hour lab per week. *Prerequisites:* CHEM-2210 Analytical Chemistry I, PHYS-2120 General Physics II. (Fee: \$100)

### **CHEM-4320 Physical Chemistry II–Sp 4 hours**

A study of the states of matter, surface phenomena, quantum mechanics, bonding, and spectroscopy. Three lectures and one three-hour lab per week. *Prerequisite:* CHEM-4310 Physical Chemistry I. (Fee: \$100)

### **CHEM-4410 Advanced Inorganic Chemistry–Sp 3 hours**

Study of d-metal complexes, the systematic chemistry of the elements and advanced topics in inorganic chemistry. Topics may include main group organometallics, d- and f-block elements, catalysis, and bioinorganic chemistry. Three lectures per week. *Prerequisite:* CHEM-3410 Inorganic Chemistry.

### **CHEM-4800 Senior Seminar–Chemistry–Sp 1 hour**

Capstone course for majors in chemistry. Students present a paper from library or laboratory research. Before enrollment, each student must obtain approval of the topic from his or her advisor and the seminar instructor and set the date of presentation. The students must also attend a minimum of 10 seminars during the senior year. Guest lecturers or faculty members may present papers at the invitation of the instructor. *Prerequisites:* senior status; attendance of a minimum of 10 seminars during the sophomore and junior years.

### **CHEM-4830 Research in Chemistry–Sp 3 hours**

Investigation of a chemical research project and its culmination in a scholarly research report. Submission and approval of a research proposal must precede registration. May be repeated once for credit. *Prerequisites:* CHEM-2800 Introduction to Research in Chemistry; CHEM-4310 Physical Chemistry I. (Fee: \$150)

### **CHEM-4880 Topics in Chemistry 1-3 hours**

Topics of special interest are selected by the chemistry faculty from the areas of modern chemistry. *Prerequisites:* CHEM-2210 Analytical Chemistry I; junior status; permission of instructor.

### **CHEM-4900 Independent Study in Chemistry 1-3 hours**

Supervised independent study of some chemical phenomenon. Submission and approval of a research proposal must precede registration. *Prerequisites:* CHEM-2210 Analytical Chemistry I; CHEM-3510 Organic Chemistry I; CHEM-4310 Physical Chemistry I.

### **Computer Science**

### **CS-1210 C++ Programming–Fa,Sp 2 hours**

This course will introduce students to computer programming using the C++ programming language. The course will introduce software engineering principles, structured program design and implementation, and object-oriented design. Students will become familiar with compiling programs in both the Unix and Windows operating systems. (Fee: \$50)

### **CS-1220 Object-Oriented Design Using C++–Fa,Sp 3 hours**

Builds upon the C++ programming skills developed in CS-1210, introducing students to the object paradigm and the basics of software engineering. Students will apply the principles of object-oriented design on programming tasks in both the Unix and Windows environments. Intended as the second programming course for CS majors. *Prerequisite:* CS-1210 C++ Programming. (Fee: \$50)

### **CS-2210 Data Structures Using Java–Fa,Sp 3 hours**

This course will introduce students to the proper use of data structures for developing efficient software. Data structures will include stacks, queues, priority queues, trees, and graphs. Students will also develop skill in object-oriented design and Java programming. *Prerequisite:* CS-1220 Object-Oriented Design Using C++. (Fee: \$50)

### **CS-3210 Programming Language Survey–Sp 3 hours**

Systematic study of the principles, concepts, and mechanisms of computer programming languages: their syntax, semantics, and pragmatics; the processing and interpretations of computer programs; programming paradigms; and language design. Illustrative examples will be selected from a variety of programming language paradigms. *Prerequisite:* CS-2210 Data Structures Using Java. (Fee: \$50)

### **CS-3310 Operating Systems–Fa 3 hours**

A state of the art survey of operating system principles. Covers fundamental technology as well as contemporary design issues, such as threads, real-time systems, multiprocessor scheduling, distributed systems, security, and object-oriented design. Course content is developed through the use of lectures, student research of the relevant literature, presentations, and programming projects using both C++ and Java. *Prerequisite:* CS-2210 Data Structures Using Java. (Fee: \$50)

### **CS-3410 Algorithms–Fa 3 hours**

This course will introduce students to classic algorithms which have been developed and shown to have broad application in solving computer science problems. The course will begin with a look at the analysis of algorithms and then survey numerous useful algorithms and advanced data structures. The course will also cover special topics such as numeric methods and NP-completeness. *Prerequisite:* CS-2210 Data Structures Using Java. (Fee: \$50)

### **CS-3510 Compiler Theory and Practice–Sp 3 hours**

This course will introduce students to the technology underlying modern compilers. The course will emphasize both the theory upon which compilers are based and a practical understanding of how to actually implement a compiler. This course will provide an excellent application for the object-oriented design and data structures skills learned in earlier courses. The course will typically require a major project involving the development of an actual compiler. *Prerequisite:* CS-3410 Algorithms. (Fee: \$50) (even years)

### **CS-3610 Database Organization and Design–Sp 3 hours**

Addresses the analysis, design, and implementation of relational database applications. The Structured Query Language (SQL) is covered in depth along with standard problem domain and data modeling techniques. Implementation techniques and considerations are discussed and practiced extensively. Key concepts include analysis and design using a standard notation such as Unified Modeling

# Science and Mathematics

## School of Engineering, Nursing, and Science

Language (UML), data model to logical schema conversion techniques, normalization, client-server architectures, and web-based access to database systems. Additional advanced topics include system security transaction processing and data recovery techniques. Design projects focus on implementing key course concepts using state-of-the-art multi-user database software. *Prerequisites: CS-2210 Data Structures Using Java; MATH-2510 Discrete Mathematics for Computer Science.* (Fee: \$50)

### **CS-4220 Web Applications–Sp** **3 hours**

This course will introduce students to the design and development of web-based applications. Students will use tools such as PERL, javascript, JSP, and java servlets. Applications will be developed using both the IIS and Apache servers.

*Prerequisite: CS-2210 Data Structures Using Java.* (Fee: \$50)

### **CS-4320 Network Security–Fa** **3 hours**

Practical topics in network security, including policy, malicious code, intrusion detection, prevention, response, and cryptographic protocols for privacy and integrity. An emphasis will be on the tradeoffs between risk of misuse, cost of prevention, and societal issues. Course topics will be reinforced through programming assignments. *Prerequisite: CS-3310 Operating Systems.* (Fee: \$50)

### **CS-4810 Software Engineering I–Fa** **3 hours**

Introduction to software engineering principles focusing on software management concepts, software project scheduling, software quality assurance, and software project planning.

Students will work in teams to analyze and design a large senior project, which will be completed in CS-4820. *Prerequisite: CS-3410 Algorithms.* (Fee: \$50)

### **CS-4820 Software Engineering II–Sp** **4 hours**

Builds upon the software analysis and design skills learned in Software Engineering I. Focuses on detailed design, implementation, testing, and maintenance of software projects. Students will complete the senior design project they started in CS-4810. *Prerequisite: CS-4810 Software Engineering.* (Fee: \$50)

### **CS-4880 Topics in Computer Science** **1-3 hours**

Study of topics of interest from the field of computer science, such as compiler theory, artificial intelligence, parallel computing, robotics, advanced algorithms, and numeric methods. *Prerequisite: permission of instructor.* (Fee: \$20/hour)

### **CS-4900 Independent Study in Computer Science** **1-3 hours**

Independent research in the various branches of computer science and allied fields of application. Submission and approval of a research proposal must precede registration. *Prerequisites: major in computer science; permission of the research instructor.* (Fee: \$5/hour)

### **Mathematics**

#### **MATH-1710 Calculus I–Fa,Sp** **5 hours**

First course of a two-course sequence covering basic concepts of analytic geometry and single variable calculus. Includes limits, transcendental functions, derivatives, applications of the derivative, single variable integration with introduction to numeric integration techniques, applications of integration including some solutions of differential equations, and additional integration techniques. *Prerequisite: GMTH-1030 Precalculus or equivalent; or permission of instructor.*

#### **MATH-1720 Calculus II–Fa,Sp** **5 hours**

The second course of a two-course sequence covering the basic concepts of analytic geometry and single variable calculus. Includes sequences, series, expansion of functions into Taylor and power series, conic sections, plane curves, parametric equations, polar coordinates, vectors and geometry in three-space, vectors, and vector calculus. *Prerequisite: MATH-1710 Calculus I or equivalent; or permission of instructor.*

#### **MATH-2210 Logic and Methods of Proof–Fa,Sp** **3 hours**

Introduction to formal mathematical logic; emphasis on preparing students for the abstraction of upper-division courses. Special attention is given to the development of students' skills with a variety of methods of proof, using examples from numerous areas. *Prerequisites: MATH-1720 Calculus II; or permission of instructor.*

#### **MATH-2510 Discrete Math for Computer Science–Sp** **3 hours**

An introduction to mathematical foundations of computer science, including propositional and predicate calculus, methods of proof, sets and relations, recurrences, graphs and trees, and program correctness and proofs. This course does not satisfy any requirements for the B.A. or B.S. in mathematics or the B.A. in integrated mathematics education. *Prerequisite: MATH-1710 Calculus I.*

#### **MATH-2710 Calculus III–Sp** **3 hours**

Introduction to differential and integral calculus of several variables, multiple integrals, vector analysis, line integrals, and surface integrals. *Prerequisite: MATH-1720 Calculus II or equivalent; or permission of instructor.*

#### **MATH-2740 Differential Equations–Fa** **3 hours**

Study of the standard techniques employed in the solution of differential equations with emphasis on those arising from physical problems. *Prerequisite: MATH-1720 Calculus II or equivalent.*

#### **MATH-3050** **3 hours**

#### **Algebraic Structures for Secondary Education Majors–Fa**

An introduction to the basic ideas of number theory, abstract algebra and linear algebra. Factorization of integers, congruence modulo  $m$ , Fermat's Theorem, groups, rings, integral domains,

Students spend time in the classroom, performing experiments and recording applicable data.

# Science and Mathematics

## School of Engineering, Nursing, and Science

fields, vector spaces, systems of linear equations, determinants and inverses, linear transformations, eigenvalues and eigenvectors. **Does not count towards B.A. or B.S. majors in mathematics.** *Prerequisites:* MATH-2210 Logic and Methods of Proof; MATH-1720 Calculus II.

**MATH-3110 Probability & Statistics I–Fa** 3 hours

Probability models, random variables, probability distributions, estimation and hypothesis tests are studied from theoretical and practical viewpoints. *Prerequisite:* MATH-1720 Calculus II.

**MATH-3500 Number Theory–Fa** 3 hours

Introduction to most of the topics of elementary number theory such as modular arithmetic, prime factorizations, linear diophantine equations, the Chinese remainder theorem, quadratic reciprocity, Pythagorean triples, number theoretic functions, and related topics. Concrete examples will illustrate the concepts and abstract reasoning will develop the theories considered in the course. *Prerequisite:* MATH-2210 Logic and Methods of Proof. (odd years)

**MATH-3550 Discrete Math: Graph Theory–Fa** 3 hours

Introduction to the basic concepts of graph theory and discrete mathematics problem-solving. Topics covered include elements of graph theory, covering circuits, graph coloring, trees and searching, and network algorithms. *Prerequisite:* MATH-2210 Logic and Methods of Proof.

**MATH-3560 Discrete Math: Combinatorics–Sp** 3 hours

Study of combinatorial reasoning, focusing on enumeration. Intended to develop a proficiency in methods of enumerative problem solving. Topics chosen from areas such as counting methods for arrangements and selections, permutations and combinations, generating functions, partitions and recurrence relations. *Prerequisite:* MATH-2210 Logic and Methods of Proof. (odd years)

**MATH-3610 Linear Algebra–Sp** 3 hours

Introduction to the algebra of linear equations, including determinants, matrices, vector spaces, eigenvalues, eigenvectors, and linear mappings. *Prerequisite:* MATH-1720 Calculus II or equivalent.

**MATH-3710 Advanced Calculus–Sp** 3 hours

Topics in function theory, vector analysis, differential calculus of several variables, vector differential calculus of several variables, integral calculus of several variables, vector integral calculus of several variables, and infinite series. *Prerequisite:* MATH-2710 Calculus III or equivalent; or permission of instructor. (even years)

**MATH-3740 Complex Variables–Sp** 3 hours

Introduction to complex arithmetic, differentiation: analytic functions, Cauchy-Riemann equations, harmonic functions, elementary functions and their mapping properties, integration: Cauchy's Theorem, Cauchy's Integral Formula, Taylor and Laurent series, poles, residues and the residue theorem. *Prerequisite:* MATH-1720 Calculus II. (odd years)

**MATH-3800 Research Methods–Sp** 1 hour

This course will introduce the mathematics major to the various resources and methods available for researching topics in mathematics. This could include the use of library resources at Cedarville University, use of Internet resources, WWW searches, and a tour of the library at a larger university, where journals and indices of importance can be referenced. *Prerequisites:* MATH-2210 Logic and Methods of Proof; ENG-1400 English Composition. (Fee: \$50)

**MATH-4110 Probability and Statistics II–Sp** 3 hours

Second course of a two-course sequence covering basic concepts of statistics. Topics chosen from the following: hypothesis tests, regression analysis, quality control, and non-parametric statistics. *Prerequisites:* MATH-3110 Probability and Statistics I.

**MATH-4210 Mathematical Methods for Physicists–Fa** 3 hours

Advanced mathematical methods used in the solution of physics problems. Topics include curvilinear coordinates, vector analysis, and solutions to partial differential equations using Fourier, Bessel and Legendre functions. *Prerequisites:* MATH-2710 Calculus III; MATH-2740 Differential Equations. (even years)

**MATH-4410** 3 hours

**Euclidean and Non-Euclidean Geometry–Sp**

Rigorous treatment of the foundations of Euclidean geometry; an introduction to hyperbolic geometry with emphasis on its Euclidean models. *Prerequisites:* MATH-2210 Logic and Methods of Proof. (even years)

**MATH-4450 Topology–Fa** 3 hours

An introduction to elementary point set topology with emphasis on illustrating how the familiar concepts of closed and open intervals, continuity of functions, distances, and various geometrical properties have been generalized from classical mathematics. Topics include: metric spaces, topological space theory, separation axioms, covering properties, compactness, connectedness, metrizable, and complete metric spaces. *Prerequisite:* MATH-2210 Logic and Methods of Proof. (even years)

**MATH-4610, 4620 Abstract Algebra I, II–Fa,Sp** 3 hr/sem

Introduction to and development of the basic ideas of algebraic systems, groups, rings, integral domains, fields and other advanced topics. *Prerequisite:* MATH-2210 Logic and Methods of Proof. (even years)

**MATH-4710, 4720 Real Variables I, II–Fa,Sp** 3 hr/sem

Introduction to the real number system's algebraic, order, completeness, and cardinality properties, the topology of Cartesian spaces  $\mathbb{R}^n$  and functions including continuity and uniform continuity, connectedness, convexity, compactness, various types of convergence, limits, differentiability, and Riemann integration, measurability, and  $L_n$ . *Prerequisites:* MATH-1720 Calculus II; MATH-2210 Logic and Methods of Proof.

**MATH-4800** 1 hour

**Capstone Experience in Mathematics–Fa,Sp**

The course will allow students to deeply research an important topic in mathematics, both individually and collectively, and to present their findings from library research as well as personal work. *Prerequisites:* MATH-3800 Research Methods in Mathematics; 15 hours of courses beyond MATH-1720 Calculus II; permission of instructor. (Fee: \$20)

**MATH-4880 Topics in Mathematics–Fa,Sp** 1-3 hours

Some typical topics are linear programming, numerical analysis, stochastic calculus, non-parametric statistics, partial differential equations, or mathematical modeling. This course is intended to be a topic, not in the current curriculum, that is a logical extension and development of the student's academic plan. *Prerequisite:* permission of instructor.

**MATH-4900** 1-3 hours

**Independent Study in Mathematics–Fa,Sp**

Independent research in the various branches of mathematics and allied fields of application. Submission and approval of a research proposal must precede registration. *Prerequisite:* major in mathematics; or permission of research advisor.

### Physics

**PHYS- 2110 General Physics I–Fa,Sp** 4 hours

Basic concepts of linear and rotational motion in three dimensions, oscillatory motion, gravitation, fluid mechanics, and basic concepts of wave motion. Three lectures and one two-hour laboratory per week. *Prerequisite:* MATH-1710 Calculus I; MATH-1720 Calculus II; MATH-1720 may be co-enrolled with permission of instructor. (Fee: \$100)

# Science and Mathematics

## School of Engineering, Nursing, and Science

### **PHYS- 2120 General Physics II–Fa,Sp** 4 hours

Basic concepts of electricity and magnetism, light, and optics. Three lectures and one two-hour laboratory per week.

*Prerequisites:* MATH-1720 Calculus II; PHYS-2110 General Physics I. (Fee: \$100)

### **PHYS- 2130 General Physics III–Sp** 2 hours

Basic concepts of heat and thermodynamics, and a basic introduction to modern physics, including introductory concepts of relativity and quantum theory. *Prerequisites:* MATH-1720 Calculus II; PHYS-2120 General Physics II; PHYS-2120 may be co-enrolled with permission of instructor.

### **PHYS-3110 Intermediate Physics Laboratory–Sp** 2 hours

Designed to reinforce concepts of the advanced physics courses and develop critical research and analysis skills. This course provides laboratory experience in such topics as oscillatory motion and waves, mechanics, electricity and magnetism, thermodynamics and quantum mechanics. During this semester the student will develop his/her prospectus for his/her advanced laboratory project. Laboratory skills for planning, setup, documentation, and analysis using the scientific method will be emphasized. *Prerequisite:* 3 hours of a 3000- or 4000- level physics course. (Fee: \$100)

### **PHYS-3310 Theoretical Mechanics–Sp** 3 hours

Derivation of the motion of a point object through three-dimensional space. Topics include an advanced treatment of Newtonian mechanics in three dimensions, oscillatory motion, accelerated frames of reference, central forces, and an introduction to Lagrangian mechanics. *Prerequisites:* PHYS-2120 General Physics II; MATH-2740 Differential Equations; MATH-2740 may be co-enrolled with permission of instructor. (even years)

### **PHYS-3350 Thermal Physics–Fa** 3 hours

Study of the relationship between energy and matter through the use of thermodynamics and statistical mechanics. Topics include the laws of thermodynamics, heat, work, entropy, phase transformations, statistical distributions, and kinetic theory. *Prerequisite:* PHYS-2130 General Physics III. (odd years)

### **PHYS-3410 Electromagnetic Theory I–Fa** 3 hours

Electricity and magnetism from an advanced viewpoint using the methods of vector calculus. Includes electrostatics, Gauss' Law, Poisson's equation, Laplace's equation, dielectric media, electric currents, and magnetostatics. *Prerequisites:* PHYS-2120 General Physics II; MATH-2710 Calculus III. (odd years)

### **PHYS-3510 Modern Physics I–Fa** 3 hours

Introduction to relativity theory, quantum theory including Schrodinger's Equation and its basic applications, and atomic structure. *Prerequisite:* PHYS-2130 General Physics III. (even years)

### **PHYS-3800 Research Methods in Physics–Fa** 1 hour

Designed to reinforce concepts of the advanced physics courses and develop critical research and analysis skills. This course will focus on basic library, research, and laboratory skills for planning, setup, documentation, and analysis using the scientific method. Selected software will be introduced and used to collect data, analyze results, and document findings. There will be several laboratory sessions with experiments selected from oscillatory motion and waves, intermediate mechanics, intermediate electricity, intermediate magnetism, thermodynamics, or quantum mechanics. *Prerequisite:* PHYS-2130 General Physics III. (Fee: \$50)

### **PHYS-4110 Advanced Physics Laboratory–Fa** 2 hours

The advanced laboratory experience is designed to reinforce concepts of the advanced physics courses and to develop critical

research design, documentation, analysis, and presentation skills. The advanced laboratory provides additional experience in optical, radiation, wave, advanced mechanics, advanced electromagnetism, advanced thermodynamics, and quantum mechanics. During this semester the students will be conducting their advanced laboratory project, collecting data, and documenting results. Laboratory skills for planning, setup, documentation, analysis, and briefing using the scientific method will be emphasized. *Prerequisite:* PHYS-3110 Intermediate Physics Lab. (Fee: \$100)

### **PHYS-4210 Mathematical Methods for Physicists–Fa** 3 hours

Advanced mathematical methods used in the solution of physics problems. Topics include curvilinear coordinates, vector analysis, and solutions to partial differential equations using Fourier, Bessel and Legendre functions. *Prerequisites:* MATH-2710 Calculus III; MATH-2740 Differential Equations; 3 hours of a 3000 or 4000 level physics course. (even years)

### **PHYS-4410 Electromagnetic Theory II–Sp** 3 hours

Continuation of PHYS-3410. Includes magnetic properties of matter, electromagnetic induction, magnetic energy, slowly varying currents, Maxwell's equations and their applications, and introductory electrodynamics. *Prerequisite:* PHYS-3410 Electromagnetic Theory I. (odd years)

### **PHYS-4450 Optics–Sp** 3 hours

Introduction to the study of classical and modern optics, including geometric optics, wave optics, and quantum optics. Topics include thin lenses, thick lenses and systems of lenses, mirrors, aberrations, lens design, interference, coherence, diffraction, polarization, and holography. *Prerequisites:* PHYS-2120 General Physics II; MATH-2710 Calculus III. (odd years)

### **PHYS-4510 Modern Physics II–Sp** 3 hours

Introduction to statistical physics, solid state, superconductivity, nuclear structure, kinetic theory, nuclear physics applications and particle physics. *Prerequisite:* PHYS-3510 Modern Physics I. (even years)

### **PHYS-4800 Senior Seminar–Physics–Sp** 1 hour

A presentation of the basic principles of the major disciplines of the sciences with a focus on the inter-relationships of the science disciplines to each other. Students present a paper from library or laboratory research in their area of physics with a focus on integration. Each student must obtain approval of the topic from his/her advisor and seminar instructor and must set the date of presentation before enrolling in the course. Material for this course is an outgrowth of a topic chosen by the student in PHYS-4110 Advanced Physics Lab. A paper and oral presentation are required, which include the background, setup, data collection, analysis, and conclusions from his/her research. Guest lecturers and faculty members may present papers at the invitation of the instructor. *Prerequisite:* PHYS-4110 Advanced Physics Lab; permission of instructor.

### **PHYS-4880 Topics in Physics** 1-3 hours

Study of topics of interest from modern and classical physics such as quantum theory, relativity, statistical mechanics, lasers, solid state physics, advanced classical mechanics, and atmospheric physics. *Prerequisites:* PHYS-2130 General Physics III; MATH-2710 Calculus III.

### **PHYS-4900 Independent Study in Physics** 1-3 hours

Independent research in the various branches of physics and allied fields of application. Submission and approval of a research proposal must precede registration. *Prerequisite:* permission of instructor. (Fee: \$25/hour)

# Social Sciences and History

## School of Social Sciences and Professional Studies

---

### Purpose Statement

The curriculum of the Department of Social Sciences and History is composed of criminal justice, geography, history, political science, public administration, social work, and sociology.

This department seeks to:

1. Present to the student the origin and development of ideas and institutions.
2. Aid students in gaining a better understanding of the world, one which includes a historical and philosophical perspective, spatial awareness, comprehension of political systems, knowledge of man in a socio-cultural context, and study of the nature of an increasingly urban society.
3. Provide students with the prerequisites for responsible civic participation.
4. Expose students to the complexities of the public sector in modern life and the possibilities of careers in local, state, and national government.
5. Acquaint students with a practical appreciation of the methods and tools of original research.
6. Provide students with an opportunity to formulate and express the results of investigation and study.
7. Aid students in developing a refined Christian world and life view through the integration of biblical principles with the subject matter of the academic disciplines.
8. Prepare students to practice as caring believers in a human service profession, such as social work, criminal justice, and public administration with a focus upon diverse socio-cultural settings.
9. Prepare students academically and personally to participate in graduate study.

### Personal Requirements

A solid high school college-preparatory program provides an excellent background for students entering the various majors in the department.

### Department Requirements

Most majors in the department do not stipulate entrance requirements that differ from the admission requirements. The exception is the social work program. Admissions requirements and procedure for that program are listed on page 192 in the catalog.

### Programs of Study

#### Majors

##### Bachelor of Arts (B.A.) with majors in:

- American Studies
- Criminal Justice
- History
- History and Political Science
- Integrated Social Studies Education
- International Studies
- Political Science
- Prelaw
- Public Administration
- Sociology

##### Bachelor of Science (B.S.) with a major in:

- Social Work

#### Minors

- Criminal Justice
- History
- Political Science
- Public Administration
- Sociology

### Co-Curricular Opportunities

Each major has several professional organizations in which the student may participate. Students can broaden their understanding and knowledge through a variety of travel opportunities and internships.

### Technical Resources

A large number of computer software programs are available to students, including:

- Word processing programs
- Database programs
- Statistical analysis programs
- Spreadsheet programs
- Web and HTML programs
- A variety of presentation programs
- Various search engines

Several of the department programs prepare students for careers directly following graduation (e.g. criminal justice, public administration and social work). Through a variety of modalities (including field work and class presentation by practitioners) students are able to network with actual career representatives and on occasion be exposed to the technologies being utilized by a career area (e.g. law enforcement and cybercrime, social work, and specialized fieldwork).

### Career Opportunities

Graduates of the department have attended some of the nation's outstanding graduate and professional schools. Careers pursued by graduates include:

- Administrator
- Archaeologist
- Archivist
- Attorney
- Child protection service worker
- College professor
- Community developer
- Federal law enforcer
- Government worker
- Historical researcher
- Medical social worker
- Minister
- Parole agent
- Politician
- Police officer
- Prison caseworker
- Prison manager (warden)
- Probation officer
- Public administrator
- Senior citizen center outreach worker
- Social worker
- Teacher

## Faculty

**Murray Murdoch**, *Chairman*: Professor of History. *Education*: B.Th., Baptist Bible Seminary, 1960; M.A., Northwestern University, 1962; History Faculty Fellow, Northwestern University, 1963; Ph.D., Northwestern University, 1971. At Cedarville since 1965.

**Marc Clauson**, Associate Professor of History. *Education*: B.S., Marshall University, 1978; M.A., Marshall University, 1979; J.D., West Virginia University, 1982; M.Th., Liberty University, 1993; M.A. Liberty University, 1993; Ph.D., University of the Orange Free State, South Africa, 2001. At Cedarville since 2002.

**Donald Hanna**, Associate Professor of Criminal Justice. *Education*: B.A., Indiana University, 1959; M.A., University of Illinois, 1969; Senior Police Management Institute, 1988. At Cedarville since 1995.

**Nelson Henning**, Associate Professor of Social Work. *Education*: B.S.W., Southern Illinois University, 1976; M.S.W., University of Illinois, 1977; Ph.D., University of Pittsburgh, 1986. At Cedarville since 1994.

**George Huff**, Assistant Professor of Social Work. *Education*: B.A., Ashland University, 1973; M.S.S.A., Case Western Reserve University, 1977. At Cedarville since 2000.

**Frank Jenista**, Professor of International Studies. *Education*: B.A., Cedarville University, 1968; M.A., University of Dayton, 1970; Ph.D., University of Michigan, 1978. At Cedarville since 2000.

**Thomas Mach**, Associate Professor of History. *Education*: B.A., Cedarville University, 1988; M.A., Cleveland State University, 1989; Ph.D., University of Akron, 1996. At Cedarville since 2000.

**David Meyer**, Assistant Professor of Political Science. *Education*: B.A., Drew University, 1990; M.A., Columbia University, 1992; M.Phil., Columbia University, 1996. At Cedarville since 2002.

**Gerson Moreno-Riaño**, Assistant Professor of Political Science. *Education*: B.A., Cedarville University, 1994; M.A., University of Cincinnati, 1998; Ph.D., University of Cincinnati, 1999. At Cedarville since 1999.

**Robert Parr**, Professor of Sociology. *Education*: B.R.E., Grand Rapids Baptist College, 1967; M.R.E., Grand Rapids Baptist Seminary, 1970; M.A., Michigan State University, 1982; M.S.W., The Ohio State University, 1990; Ph.D., The Ohio State University, 1987. At Cedarville since 1980.

**David Rich**, Assistant Professor of Public Administration and Political Science. *Education*: B.A., Cedarville University, 1983; M.P.A., University of Dayton, 1988; D.P.A. A.B.D., Western Michigan University. At Cedarville since 2000.

**Kevin Sims**, Associate Professor of Political Science. *Education*: B.A., Cedarville University, 1974; M.A., University of Northern Iowa, 1978; Ph.D., The Claremont Graduate School, 1991. At Cedarville since 1990.

**Susan Warner**, Assistant Professor of Sociology. *Education*: B.A., Baldwin-Wallace College, 1994; M.A., University of Akron, 1996; Ph.D., University of Akron, 2000. At Cedarville since 1999.

**Robert Wiggins**, Professor of Criminal Justice and Public Administration. *Education*: B.Th., Baptist Bible College and Seminary, 1964; B.A., Olivet Nazarene University, 1966; graduate study, Temple University, 1966-68; M.S., The American University, 1970; Ph.D., The University of Texas at Arlington, 1987; postdoctoral study, The University of Texas at Dallas, 1987-88. At Cedarville since 1992.

**Joseph Halsey**, Professor Emeritus of Political Science. *Education*: B.A., Morehead State University, 1965; M.Ed., Xavier University, 1969; Ph.D., University of Cincinnati, 1990. At Cedarville from 1970 to 2000.

### Social Work

The **social work major** prepares students for future ministries/careers in professional social work, professional church and church-related specializations, and informal assistance. The wide range of opportunities within the social work field provides graduates with numerous ways of investing in the lives of individuals, families, groups, and communities.

The social work program is accredited by the Council of Social Work Education. Social work graduates are eligible for licensure.

#### Mission Statement

The mission of the social work program is to prepare and equip, from a biblical world and life view, social work students who are committed to the core values and purpose of social work, so that these students might obtain entry-level social work positions as generalist practitioners, improving the holistic quality of life of diverse populations in a variety of work settings, and pursuing graduate level education.

#### Goals

The goal of the social work program is ultimately to enable students to integrate the knowledge, values, and skills of the social work profession into competent practice by:

1. Providing content about social work practice from a generalist perspective with client systems of various sizes and types.
2. Preparing students with the skills, values, and knowledge to practice with diverse populations at risk.
3. Providing content about social contexts, the changing nature of those contexts, the behavior of organizations, and the dynamics of change.
4. Preparing students who are aware of their responsibility to continue their professional growth and development.
5. Preparing students to practice with populations at risk with unique discrimination and oppressive histories (with a special focus on poverty).
6. Integrating biblical principles throughout the curriculum so that students can appropriately integrate their faith and that of their clients into the helping relationship.
7. Laying a foundation of core skills essential to a high caliber of social work practice (i.e., problem solving, listening, verbal and written communication, and critical thinking).
8. Creating an appreciation for the profession as well as an understanding of the history, personalities, and issues and events which helped to shape it.
9. Infusing throughout the curriculum the values and ethics that guide professional social workers in their practice.

#### Objectives

Graduates of the Cedarville University social work program will be able to:

1. Apply critical thinking skills within the context of professional social work practice.
2. Practice within the values and ethics of the social work profession and with an understanding of and respect for the positive value of diversity.
3. Demonstrate the professional use of self.
4. Understand the forms and mechanisms of oppression and discrimination and the strategies of change that advance social and economic justice.

5. Understand the history of the social work profession and its current structures and issues.
6. Apply the knowledge and skills of generalist social work to practice with systems of all sizes.
7. Apply knowledge of bio-psycho-social-spiritual variables that affect individual development and behavior, and use theoretical frameworks to understand the interactions among individuals and between individuals and social systems (i.e., families, groups, organizations, and communities).
8. Analyze the impact of social policies on client systems, workers, and agencies.
9. Evaluate research studies and apply findings to practice and, under supervision, to evaluate their own practice interventions and those of other relevant systems.
10. Use communication skills differentially with a variety of client populations, colleagues, and members of the community.
11. Use supervision appropriate to generalist practice.
12. Function within the structure of organizations and service delivery systems and, under supervision, seek necessary organizational change.
13. Apply the knowledge, values, and skills of the profession to social work practice within the context of the local church and missions organizations.
14. Analyze and apply the knowledge, values, and skills of social work practice from a biblical world and life view.
15. Demonstrate an understanding, sensitivity, and commitment to issues related to poverty.

*Students in the social work program have the opportunity to apply their classroom knowledge of Social Work theory, methods, and principles to actual situations of human need in a Field Experience placement.*

### Admission to the Social Work Program

Admission to the social work program occurs during the sophomore year. Freshmen and sophomores interested in social work should declare their intent to major in social work and meet with an appropriate advisor to ensure that courses are taken in the proper sequence.

### Admission Requirements and Procedures

1. Complete at least 22.5 hours of the General Education Requirements including the necessary social work course prerequisites. (Submit a *Summary of Prerequisites*.)
2. Complete SWK-2330 Introduction to Social Work with a "C" or better by Spring Semester of the sophomore year.
3. Complete and submit an *Application for Admission* to the social work program director, including an *Autobiographical Statement* detailing your interest in social work and a *Significant Life Experience Inventory* describing your experience with the listed issues.
4. Submit *Letters of Recommendation* from your pastor, an employer or volunteer supervisor, and a teacher or adult friend.
5. Be interviewed by a minimum of two social work faculty.
6. Earn a cumulative GPA of 2.5 or above. Submit a copy of your current *Unofficial Grade Transcript* from the Academic Services Office.
7. Complete and document 40 hours of volunteer experience in a social service/community setting.
8. Complete and submit Total Immersion Experience (T.I.E.) paperwork.
9. Submit *Social Work Program Handbook Sign Off Sheet*.

The final decision as to whether all requirements are adequately met for admission to and progression in the social work program will be made by the social work faculty.

#### Financial Registration Policy

To enable the University to be responsible in meeting its financial responsibilities, students must make provision for the payment of their bill on the due dates established by the University each semester. A student's registration for classes indicates a commitment to pay for related charges as stated in the university catalog.

The following payment plan schedule was established to help students care for this responsibility:

	Fall 2003	Spring 2004
First Payment Due:	August 1, 2003	January 1, 2004
Second Payment Due:	September 1, 2003	February 1, 2004
Third Payment Due:	October 1, 2003	March 1, 2004
Fourth Payment Due:	November 1, 2003	April 1, 2004

A student is not considered financially registered until at least the first one-fourth payment has been received by the Cashier's Office. Students who do not make financial arrangements for the first payment due on their university bill will not be permitted to attend the University. Failure to make subsequent payments could result in the loss of cafeteria and library privileges and the withholding of grades and on-line registration.

#### Payment Plans

Students may take advantage of one of two payment plans:

- Payment in Full** involves paying the full amount due as indicated on the Student Invoice by the first payment due date indicated above.
- Four-Pay Plan** makes it possible for students to pay their university bill in four payments spread over three months. An interest charge of 1.083% per month is made on the unpaid balance. Payment envelopes, available on campus, enable students to send checks through intracampus mail and avoid standing in lines.

*First Payment:* At least one-fourth of the amount the student is required to pay is due according to the above payment schedule. *This is the amount of the student's bill remaining after federal loans, financial aid grants, and scholarships are deducted.* When this payment is made, the student has completed financial registration. A late payment charge of \$20 is assessed if the first payment is not made by the due date.

*Second Payment:* The student is required to pay the second payment within four weeks of financial registration. A late payment charge of \$20 is assessed to all accounts that do not meet this criteria. An interest charge of 1.083% per month is made on the unpaid balance.

*Third Payment:* The student is required to pay the third payment within eight weeks of financial registration. A late payment charge of \$20 is assessed to all accounts that do not meet this criteria. An interest charge of 1.083% per month is made on the unpaid balance.

*Fourth (final) Payment:* The remaining balance owed by the student is due within three months of financial registration. A late payment charge of \$20 is assessed on all student accounts with a balance remaining after this deadline. An interest charge of 1.083% per month is made on the unpaid balance.

*Please note: The use of the Four-Pay Plan constitutes a debt obligation of the student to the University and is payable in terms as stated. Each parent and each student must consider and understand the full cost and obligation of the commitment being made.*

#### Notification of the University Bill

Students who register early for classes will receive an invoice based on their course schedule 15 to 20 days before the semester begins. A statement of the student account is generated each month that the account has activity. Invoices and account statements are directed to students at their current university residence. Students may request to have statements and invoices sent to their home address; however, they are still addressed to the student. Forms are available in the Cashier's Office to request that invoices and statements be sent to the home address.

#### Invoices and Statements Online

Students may view their student account, payment plan, most recent invoice, and most recent transactions online using the campus network. Students may also assign their parents a password giving them access

to their student account, invoices, and payment plan. Parents can view this information by logging onto the campus homepage through their own Internet service provider.

## Forms of Payment

Students may pay their university bills using cash, money orders, personal checks, certified checks, or checks drawn on a major credit card. Students can make payments at the Cashier's Office or send their payment by mail. Payments received after 4 p.m. each day in the cashiers' depository box will be credited the next business day.

## Payment Penalties

Students who fail to make acceptable payment arrangements within a reasonable period of time will be denied access to the cafeteria and library until such arrangements are made.

Students who do not make payments according to the due date will be charged a \$20 late payment charge.

Students with unpaid balances at the end of a semester could be denied grade reports, transcripts, university diploma, and/or enrollment in the next semester. They will also be responsible for any fees incurred in the collection of their past due account.

## Interest Rates

An annual interest rate of 13% (1.083% per month) will be charged from the beginning of Fall Semester to the end of Spring Semester on accounts of students enrolled in the current semester.

An annual interest rate of 15% (1.25% per month) will be charged during the academic year on accounts of students no longer enrolled and on all student accounts during the summer months.

## Prepayment Incentive Credit Plan (PIC-Plan)

This plan enables students to earn interest on student accounts that have a credit balance of \$500 or more. Interest earned is credited monthly. This plan operates automatically as soon as the student has a credit balance of \$500 or more on the first day of a calendar month. Prepayments can be made anytime. All payments are credited immediately to the student's account. The University reserves the right to limit the amounts deposited under the PIC-Plan. Interest rates are established on a quarterly basis beginning January 1, April 1, July 1, and October 1. Please call 937-766-7665 for the current rate. For more details please request a current PIC-Plan brochure from the Cashier's Office.

## Withdrawals from a Student Account (Credit Balance)

Students may withdraw funds from their account if the account has a credit balance. Cash withdrawals totalling \$50 maximum may be made on a weekly basis. No more than two cash withdrawals may be made in a week. No withdrawals are allowed during the 1st week of classes. Withdrawals of amounts greater than \$50 are issued by check upon request in person, by e-mail, or by telephone from the Cashier's Office. Check processing normally requires one or two full business days.

## Student Health Insurance

Due to increasing complexities in dealing with Health Maintenance Organizations (HMOs) and the many and varied Preferred Provider Plans (PPPs), medical insurance is provided for all students taking 6 or more credits at no additional cost. Students taking less than 6 credit hours may purchase the Student Health Insurance Plan. Married students may also purchase the Student Health Insurance Plan for their spouse and dependants. For more details, please contact the student health insurance coordinator at (973)766-7864, or visit online at [www.cedarville.edu/dept/pc](http://www.cedarville.edu/dept/pc).

## New Student Reservation Deposit Refund

A reservation deposit must be submitted by new students as an indication of the intention to enroll. The amount of the deposit is \$250. This money will be credited to the student's account and used to cover first semester expenses. A student must submit a reservation deposit in order to be registered for courses.

The reservation deposit is fully refundable if the request for refund is received in writing before the reservation deposit deadline. Requests for refunds received after the reservation deposit deadline are partially

refundable (\$150 of the \$250 deposit) until the refund date. No refunds are available after the refund date.

Reservation deposit submission deadlines and refund dates are as follows:

Term	Deadline	Refund Date
	Full Refund	Partial
Fall Semester	May 1	July 1
Spring Semester	Nov. 1	Dec. 1
Summer Session I	April 15	May 1
Summer Session II	May 15	June 1
Summer Session III	June 15	July 1

## Continuing Student Reservation Deposit Refund

Full (100%) refunds will be made to continuing students who notify the University by June 1 of their cancellation. If a continuing student notifies the University between June 2 and July 1 of his/her intention not to return fall semester, \$150 of his/her deposit will be refunded. No refunds will be made after July 1.

## Withdrawal Refunds

### Tuition and Science Laboratory Fees

Students withdrawing from the University before the end of a semester may request a refund from the Cashier's Office. Refunds may be requested anytime after the beginning of a semester. The effective date of the withdrawal from the University is the last day of class attendance as determined by the Academic Services Office.

Processing of refunds will begin the third week of the semester. Tuition and science laboratory fee refunds for withdrawal are granted on this schedule:

Refund	Fall 2003	Spring 2004
100%	thru Aug. 29	thru Jan. 16
75 %	thru Sept. 5	thru Jan. 23
50%	thru Sept. 12	thru Jan. 30
25%	thru Sept. 19	thru Feb. 6
No Refund	after Sept. 19	after Feb. 6

Course offerings changed or deleted by the University entitle a student to a full refund of tuition and related course fees. Students withdrawing from a course or courses will be granted a full tuition refund to apply toward courses added. If the new total hours are fewer than the original total, the above refund schedule will apply.

### Board

Board charges will be refunded on a prorated weekly basis. Board weeks begin on Sunday and end on Saturday. Board refunds are computed based on the last day of residency. Board contracts are required for all students living in the residence halls. Students may choose either a 14 or 21 meal plan per week.

### Room

Rooms are reserved for each student for an entire semester. No refund of room rent is made except in cases of severe illness or incapacity. Written confirmation of the illness or incapacity must be provided by the director of Patterson Clinic or a physician. Room rent will then be refunded on a prorated basis.

### Other Fees

No other fees are refundable except for withdrawal within the first calendar week of the semester.

## Federal Refund Policy

Programs which are included:

1. Federal Pell Grant
2. Federal SEOG Grant
3. Federal Perkins Loan
4. Federal Stafford Loans
5. Federal Parents PLUS Loan

A portion of Title IV grant or loan funds, but not FWS funds, must be returned to the Title IV programs upon a Title IV recipient's withdrawal from the school.

# Financial Information

## *Withdrawal date*

The day the student withdraws is the date (determined by the school):

- The student began the withdrawal process prescribed by the school;
- The student otherwise provided the school with official notification of the intent to withdraw; or
- For the student who does not begin the school's withdrawal process or notify the school of the intent to withdraw, the mid-point of the period of enrollment for which Title IV assistance was disbursed (unless the institution can document a later date).

If the school determines the student did not begin the withdrawal process or notify the school of the intent to withdraw due to illness, accident, grievous personal loss or other such circumstances beyond the student's control, then the school may determine the appropriate withdrawal date.

## *Percentage of the payment period or period of enrollment completed*

The percentage of the period of enrollment for which assistance was awarded that was completed is determined by dividing the total number of calendar days comprising the period of enrollment for which assistance is awarded into the number of calendar days completed in that period as of the day the student withdrew.

## *Calculation of Title IV assistance earned*

To calculate the amount of Title IV assistance earned by a student, the school must first determine the percentage of Title IV assistance the student earned. Up through the 60 percent point of time, the percentage of assistance earned is equal to the percentage of the period of enrollment for which it was awarded that was completed as of the day the student withdrew. If the student withdrawal occurs after the 60 percent point, then the amount is 100 percent.

## *Calculation of Title IV assistance not earned*

The amount of the Title IV grant and loan assistance not earned by the student is calculated by determining the complement of the percentage of assistance the student earned and applying it to the total amount of grant and loan assistance that was disbursed (or that could have been disbursed) to the student, or on the student's behalf, for the period of enrollment as of the day the student withdrew.

## *Difference between amounts earned and amounts received*

The school will follow the regulations for late disbursement if the student received less grant or loan assistance than the amount earned. If the student has received more grant or loan assistance than the amount earned, then the unearned funds shall be returned by the school, or the student, or both.

## *Responsibility of the school*

The school shall return the lesser of the unearned amount of Title IV assistance or an amount equal to the total institutional charges the student incurs for the period of enrollment of which the assistance was awarded, multiplied by the unearned percentage of awarded Title IV grant and loan assistance.

## *Responsibility of the student*

Students shall return unearned Title IV assistance minus the amount the school returns.

## *Order of return of Title IV funds*

Excess funds returned by the school or student are credited to outstanding Title IV loan balances for the student or made on the student's behalf for which a return of funds is required. Excess funds must be credited to outstanding balances in the following order:

1. Unsubsidized Stafford loans
2. Subsidized Stafford loans
3. Federal Perkins loans
4. FFEL PLUS loans
5. Federal Pell grant
6. Federal SEOG grant

## **Veterans Training Benefits and Dependents Educational Assistance**

Cedarville University is approved under Title 38, Chapters 30, 31, 32, 35, and 106 U.S. Code for Education of Veterans and their Dependents. Students under Chapters 30, 32, 35, and 106 are required to pay the school for all charges. The Veterans Administration in turn pays them a monthly allowance based upon their training load. Veterans under Chapter 31 are paid a monthly allowance and the Veterans Administration pays the school for tuition, fees, books, and supplies.

Inquiries concerning eligibility should be directed to the Contact Office of a Veterans Administration Regional Office. Students planning to study under one of the education laws should receive approval prior to enrolling. A Veterans Administration training officer will contact the University in the disabled cases to accomplish this requirement for the student.

Cedarville University students eligible for veterans benefits should contact the veterans benefits counselor in the Academic Services Office.

## **Deferred Payment Plan for Veterans**

For Option Deferred Payment Plan for Veterans (under chapters 30, 31, 32, and 35) receiving the Educational Assistance Allowances, consult the Academic Services Office.

Payments by veterans receiving their Educational Assistance Allowance checks one month behind will be as follows:

Fall Semester:	1st payment by 10/1
	2nd payment by 11/1
	3rd payment by 12/1
	Final payment by 1/1
Spring Semester:	1st payment by 2/1
	2nd payment by 3/1
	3rd payment by 4/1
	Final payment by 5/1

Interest of 1.083% per month will be charged on unpaid balances. A late payment charge of \$20 is applicable for accounts unpaid after the payment due date.

Veterans receive eight monthly VA checks, which must pay for eight deferred payments on the semester system.

## **Financial Aid**

*When completing the FAFSA, the Title IV Code for Cedarville University is 003025*

### **General Information**

Cedarville University offers a variety of financial aid programs to assist students with education-related expenses. Although Cedarville University supports the premise that the primary responsibility for financing a college education rests with the student and family, aid programs are available to supplement personal resources.

Most of the financial aid available at the University is considered to be *need-based aid*. Students are asked to complete the Free Application for Federal Student Aid (FAFSA) and submit the form to the Central Processing Center. The FAFSA should be submitted to the central processor by February 10, but not before January 1 preceding the academic year for which aid is being requested. It is not necessary to have filed your Federal taxes before completing your FAFSA. Estimated data can be used. An analysis of the family's financial data is performed and the results are used to determine the eligibility for *need-based* assistance. New aid applicants may obtain the FAFSA from their high school guidance counselor or from the Cedarville University Financial Aid Office. For filing online obtain a PIN number for **both** the parent and student at [www.pin.ed.gov](http://www.pin.ed.gov) and complete the FAFSA at [www.fafsa.ed.gov](http://www.fafsa.ed.gov).

In addition to *need-based aid*, the University also offers *merit-based aid* to students who demonstrate recognized achievement or talent. Merit scholarship categories include academic, leadership, athletic, music, and forensics.

The Financial Aid Office serves as a resource center to assist students and their families in exploring alternative sources of educational funding.

The Financial Aid home page has direct links to several scholarship databases. Students are encouraged to investigate privately-funded scholarships through the use of the World Wide Web and accessing [www.cedarville.edu/dept/fa](http://www.cedarville.edu/dept/fa).

Students should advise the Financial Aid Office when they receive additional assistance from sources other than Cedarville University. This assistance will be considered when preparing award packages and at times may result in the revision of a previously prepared package.

A financial aid award notification will be provided to students after reviewing completed application data and after a student is accepted for admission to Cedarville University. Financial aid is applied for and awarded on a yearly basis. Aid applicants must continue to meet program qualifications in order to retain eligibility.

All questions may be directed to the Financial Aid Office at 937-766-7866 or 1-800-444-2433. Visit Cedarville's financial aid website at <http://www.cedarville.edu/dept/fa> and the FAFSA website at <http://www.FAFSA.ed.gov>.

## State Grant Programs

### Ohio Student Choice Grant

Students who are residents of Ohio and attending Cedarville University on a full-time basis may be eligible for an Ohio Student Choice Grant. Recipients must be undergraduate students enrolled in a bachelor's degree program. Students who have a prior bachelor's degree or have attended college full-time prior to July 1, 1984, do not qualify. Demonstration of financial need is not required. Students must complete a residency form provided by the University.

### Ohio Instructional Grants

Students who are residents of Ohio and have total family incomes of less than \$39,000 may be eligible for an Ohio Instructional Grant. Application may be made through the completion of the FAFSA. Filing deadline is November 1.

### The Ohio Academic Scholarship Program

A \$2,005 scholarship is awarded to the top graduating senior in each accredited Ohio high school. The student is chosen according to GPA and scores on the ACT. The recipient must attend an eligible Ohio college or university. The scholarship is renewable each year providing the student remains full time and is making satisfactory academic progress. For more information, contact your high school counselor.

### The Ohio Air National Guard Tuition Assistance Program

This program assists Ohio National Guard members who are full time students, at least 17 years old, and enlisted for a period of six years. Up to 8 semesters of instructional and general fees will be paid for the student. After basic and specialty training, guardsmen meet one weekend a month and two weeks during each summer. In addition to the tuition assistance, the time spent on duty is paid according to rank. Both men and women are accepted into this program, and proof of financial need is not a requirement. For more information call collect 937-323-6704 or write to: Ohio National Guard, Educational Opportunities, 2825 West Granville Rd., Worthington, OH 43085.

### The Ohio War Orphans Scholarship

This scholarship is awarded to students who are children of deceased or disabled veterans. The student must be enrolled full-time and be making satisfactory academic progress. For more information, contact the Ohio Board of Regents, Student Assistance Office, Ohio War Orphans Scholarship, 3600 State Office Tower, 30 East Broad Street, Columbus, OH 43215.

### State Grant Refund Policy

Students who qualify for state grant funds must be registered for at least 12 credit hours per semester in order to receive benefits. Students withdrawing or dropping below full-time status during the semester will have their grant payments adjusted according to grant refund policy. Questions pertaining to refund policy should be directed to the Financial Aid Office.

### Other State Grants

## Special Institutional Grant and Scholarship Funds

Alumni and other people who have a special interest in the growth and progress of Cedarville University have generously donated funds to help defray educational expenses of students who have special and exceptional financial needs. These funds, which are listed below, are for the most part under the control of the director of financial aid, who determines who is eligible and the award that will be provided according to specific guidelines for each fund. The minimum cumulative GPA necessary to obtain assistance from these funds is 2.0 unless otherwise stipulated by the donor.

Most of our institutional grant and scholarship agreements require students to be full-time (12 hours) in order to receive an award from the endowment funds. If attendance status is not addressed in the endowment document, the following adjustments will be made:

<b>12 hours or more</b>	<b>=</b>	<b>Full award</b>
<b>9-11 hours</b>	<b>=</b>	<b>3/4 award</b>
<b>6-8 hours</b>	<b>=</b>	<b>1/2 award</b>
<b>less than 6 hours</b>	<b>=</b>	<b>No award</b>

The award is given to students pursuing an academic program in biological sciences, and preference is given to children and other descendants of Cedarville University graduates.

*The Spiritual Leadership Music Award* This award was established by John and Jean LeBlanc in memorial to his father, John D. LeBlanc, to assist music majors. The recipient must be a full-time junior or senior student pursuing an academic major in music. The recipient must also have a minimum GPA of 3.3 and must demonstrate increasing spiritual maturity as a musician.

*The Taylor Scholarship Award* Established in honor of Ruel B. and M. Ethel Taylor by their children and grandchildren, this endowed scholarship award is granted to a full-time junior nursing student in the top ten percent of the nursing class. The recipient demonstrates financial need, is committed to honoring and serving the Lord and Savior Jesus Christ, and is an excellent prospect for a career in nursing.

*The Undergraduate Award for Achievement in Organic Chemistry* Given to the student with the highest GPA in organic chemistry.

*The Kristi Lynn Walborn Memorial Scholarship* Given to a sophomore or junior music major with an emphasis in voice or in music education with vocal emphasis. Established in memory of Kristi Lynn Walborn.

*C. Eugene Walker, Ph.D. Psychology Award* Given to a junior or senior pursuing a degree in psychology. The student must have a GPA of 3.3 or above, have plans for graduate education in psychology, be involved in a Christian ministry, and participate in research in Department of Psychology activities. Established by C. Eugene Walker, Ph.D.

*The Wall Street Journal Award* Presented to an outstanding graduate in business administration.

*The J. D. "Jack" Willetts Scholarship Award* Given to a sophomore or junior who excels in preparation for a career in education. Given in memory of the former president of the Cedarville Alumni Association and member of the Class of 1958.

*The Dr. and Mrs. Duane R. Wood Family Award* Granted to a full-time student who will be at least a sophomore with a 3.25 or higher GPA who has evidenced Christian character, leadership on campus, academic achievement, and varsity athletic performance.

*The Zondervan Greek Award* Given to the student having the highest grade average in elementary Greek.

## Institutional Loan Funds

Detailed information concerning the application and repayment process is available from the Financial Aid Office. There are several types of short and long-term loans available for situations where funding is

delayed. A co-signer is required unless payment is guaranteed through another source of financial aid in the given academic year. The annual limit for an institutional loan is \$2400.

## Federal Family Education Loan Programs

**Federal Stafford Student Loan** funds are available to dependent and independent undergraduate students. Requests for loan assistance from this program may be made through the FAFSA. Cedarville University processes applications electronically through the Great Lakes Higher Education Corporation and its participating lenders. Applications will be mailed directly to the student from Great Lakes. The federal government will subsidize (pay) the interest on loans while the student is in school and during a six month grace period following withdrawal or graduation if the student has demonstrated financial need as determined by the FAFSA calculations. The interest rate, as of July 1, 1994, is a variable rate not to exceed 8.25%. Freshmen can borrow a maximum of \$2,625, sophomores-\$3,500, and juniors and seniors-\$5,500. Loan origination and insurance fees totaling 3% of the loan amount will be deducted by the lender.

**Federal Unsubsidized Stafford Student Loan** funds are available to students who do not qualify for all or part of the need-based subsidized Stafford Loan. The annual loan limits are the same, as stated above, for the subsidized, unsubsidized, or any combination of the two programs. In this program, all the terms are the same as the subsidized Stafford; however, the federal government does not cover the interest expenses while the student is in school or during the six-month grace period. The student does have the option to defer payments during in-school and grace periods; however, the interest continues to accrue. **Independent students** are eligible to borrow additional funds through the Unsubsidized Stafford. Freshmen and sophomores may borrow an additional \$4,000 and juniors and seniors can borrow an additional \$5,000 per year.

**Federal Parent Loan to Undergraduate Students (PLUS)** funds are available for creditworthy parents to borrow on behalf of their students. This loan program is not based on financial need and may be used to replace all or part of the expected family contribution. Parents may borrow any amount up to the cost of education less any financial aid the student is receiving. The interest rate is a variable rate and will not exceed 9%. The lender will deduct 3% of the loan amount to cover the origination and insurance fee. Repayment does begin within 60 days following full disbursement of the loan proceeds. Further information and applications for this program may be obtained by contacting the Financial Aid Office.

Students should be aware that funds awarded from these programs are considered to be awarded for the entire loan period requested by the borrower. Should the student withdraw before the end of the loan period, a proportionate refund of the loan proceeds may be returned to the lender. In addition, if a student is enrolled for less than a full academic year immediately preceding graduation, the annual loan limit may be prorated based on the number of credits remaining to complete the program of study. Specific questions relating to the federal regulations outlined above may be directed to the Financial Aid Office.

## Federal Perkins Loans

Federal Perkins Loans are available through the University to students who are citizens of the United States and who demonstrate exceptional financial need. Funds are awarded to Federal Pell Grant recipients first. Other applicants are awarded pending availability of funds.

The Federal Perkins Loan Fund was established to help students pursue their courses of study at their chosen institutions of higher education. Students are eligible if they are: (1) a national of the United States, in the United States for other than a temporary purpose and intend to become a permanent resident thereof, a permanent resident of the Trust Territory of the Pacific Islands, or the Northern Mariana Islands; (2) in need of the amount of the loan to pursue a course of study at an eligible institution; (3) capable, in the opinion of the institution, of maintaining good standing in such course of study; and (4) accepted for enrollment as at least a half-time undergraduate student. Continuing students must be in good standing and enrolled as at least a half-time undergraduate.

The standard Perkins Loan amount is \$1,500. However, the annual amount may be increased as funding allows, to the maximum amount of \$20,000 for the undergraduate student.

Repayment begins nine months after graduation or when a student leaves school for other reasons. One may have up to 10 years to pay back the loan, depending upon the aggregate amount borrowed. During the repayment period, the borrower will be assessed 5% interest on the unpaid balance of the loan principle.

Exit interviews will be conducted for graduates and withdraws to explain loan deferment and cancellation provisions for borrowers who continue their education or go into certain fields of teaching or specified military duty.

## Student Employment

### Federal Work Study

This federally-funded program is designed to provide work opportunities for university students. Students in this program may qualify for up to 20 hours a week during the academic year, providing they show a demonstrated need from their federal need analysis (i.e., the FAFSA). All work assignments are made by the Financial Aid Office. Actual hiring is done by the department supervisors who will employ the students. As with campus employment, actual job placement, number of hours worked, and total dollar amount earned cannot be guaranteed by the Financial Aid Office. Community service positions are also available in this program. For more information, visit

[www.cedarville.edu/dept/fa/studentemployment.htm](http://www.cedarville.edu/dept/fa/studentemployment.htm)

### Campus Employment

Although unable to guarantee actual job placement, the number of hours worked, or total dollar amount earned, Cedarville University assists needy students by recommending them for part-time employment. Students are employed in various part-time jobs on campus such as maintenance, cafeteria, housekeeping, and others.

Part-time student employment is not restricted to upperclassmen and is encouraged at all levels.

### Off-Campus Employment

Because of the University's reputation for attracting quality students, many area employers contact the Career Services Office to employ students on a part-time basis. Though no formal restrictions pertain to this employment, students are encouraged to limit their working hours to approximately 20 hours per week to ensure sufficient time to study.

## Standards of Satisfactory Academic Progress for Recipients of Financial Aid

### Policy

Financial aid recipients at Cedarville University are required to achieve satisfactory academic progress to be eligible to continue to receive federal financial assistance. The purpose of this policy is to define the requirements for satisfactory academic progress as it pertains to recipients of Title IV federal aid programs.

The University recognizes that conditions which create the need for financial assistance may also create other educational needs which require extra time and slower progress in achieving educational goals. Students who, because of exceptional educational needs, must make slower progress than outlined in the policy or who find themselves victims of unusual circumstances, are encouraged to discuss their situations with their academic advisors and the Financial Aid Office. Where legally possible, because of mitigating circumstances, exceptions to this policy can be considered.

When the Congress of the United States enacted the Higher Education Amendments of 1976, eligible institutions were directed to define and enforce standards of progress for students receiving federal financial assistance. The programs directly involved at Cedarville University are: (1) Federal Pell Grant, (2) The Federal Perkins Loan, (3) The Federal Supplemental Educational Opportunity Grant-FSEOG, (4) Federal Work Study-FWS, and (5) Stafford/PLUS Loans.

### Full-Time Students

To be eligible for full benefits of Federal Title IV funds, undergraduate recipients of financial aid must enroll for a minimum of 12 credit hours of classes during each semester that aid is received.

All students are required to have a cumulative grade point average of 2.0 "C" in order to graduate from Cedarville University. The following academic requirements would be appropriate in achieving this goal and fulfilling the term "carrying to completion" the required credit hours. To meet academic progress standards, students must complete a minimum number of credit hours based on a percentage of work to be completed and maintain a minimum cumulative grade point consistent with graduation requirements. The following illustrates the academic progress policy:

Hours attempted	1-32	33-64	65-96	97-192
Completed (percent)	65%	70%	75%	80%
Minimum cumulative GPA	1.7	1.9	2.0	2.0

Satisfactory academic progress means that first-time students must, after a reasonable probationary period not to exceed two semesters except in cases of mitigating circumstances, have registered the minimum cumulative grade point average each semester thereafter above. In addition, these students must complete 65% the first academic year, 70% the second year, 75% the third year, and 80% the fourth year.

NOTE: Cumulative grade point average is measured each semester; percentage of work or credit hours completed is measured once each academic year. It is assumed that the majority of students will graduate in the normal time frame. However, no student may continue more than six years to complete his/her academic program. Regardless of the credit hours full-time students attempt, which cannot exceed 192, they must complete the percentage of work (credit hours) and have the appropriate cumulative grade point as stipulated.

Aid recipients who fail to complete the required number of credit hours listed above during the applicable academic year and who do not meet the minimum grade point requirements each semester will be considered as not making satisfactory academic progress. These students will be subject to having their federal aid discontinued, unless there are mitigating circumstances involved that may affect a student's academic progress. Students who withdraw from all courses during any semester will be required to confer with the Financial Aid Office and other appropriate offices. If permitted to continue, students who withdraw from all courses during each semester for two consecutive semesters will be considered as not making satisfactory academic progress and will be discontinued from receiving federal financial aid.

In conjunction with school policy, the grading marks "F", "I", and "WF" will not be considered as successful completion of courses attempted. Incomplete "I" grades can be considered when completed according to the provisions in the university catalog. Courses that are repeated will count in the calculation of hours attempted and completed hours earned if the student receives a passing grade; however, all grades received for the course will be included in the grade point calculation.

Credit hours in which a "CR" has been earned count toward total graduation requirements but are not used in the computation of grade point averages. Noncredit hours for which an "NC" has been earned are not used in the computation of grade point averages.

Repeat course credits earned are averaged into the cumulative grade point averages; however, credit hours are counted only once. "AU" Audit, "W" Withdrawal, "WP" Withdrawal Passing do not constitute hours attempted or completed.

Summer school credit hours earned will be included in the academic year to which summer sessions are assigned. They will be evaluated the same as hours earned in regular semester sessions.

### Part-time Students

Students who enroll for less than a full-time basis (12 credit hours per semester) will receive proportionately less financial aid than a full-time student as dictated by lower school costs and federal regulations. Similar academic progress requirements for full-time apply to part-time enrollment on a proportional basis. Most financial aid is not available to students who enroll for fewer than six hours of credit per semester (half time).

### Transfer Students

Transfer students who have never attended Cedarville University will be treated as new students. After completion of the probationary period, the transfer credits plus the credits received at the University and the cumulative grade point earned will be the evaluating factors to determine if progress is evident, based on the current satisfactory academic progress policy.

### Method for Appeal

Students who have been discontinued from financial aid have a right to appeal and can do so by written notification to the associate director of student financial aid. All appeals must include substantive reasons for failure to comply with the provisions of this policy, and all extenuating circumstances must be supported by documentation.

The financial aid committee meets and decides on each appeal and notifies the student of the decision. If a student is dissatisfied with the decision, he/she can appeal to the vice president of enrollment management.

### Student Rights

1. You have the right to know what financial aid programs are available at your school.
2. You have the right to know the deadlines for submitting applications for each of the financial aid programs available.
3. You have the right to know how financial aid will be distributed, how decisions on that distribution are made, and the basis for these decisions.
4. You have the right to know how your financial need was determined. This includes how costs for tuition and fees, room and board, travel, books and supplies, personal, and miscellaneous expenses, etc., are considered in your budget.
5. You have the right to know what resources (such as parental contribution, other financial aid, your assets, etc.) were considered in the calculation of your need.
6. You have the right to know how much of your financial need as determined by the institution has been met.
7. You have the right to request an explanation of the various programs in your student aid package.
8. You have the right to know your school's refund policy.

### Student Responsibilities

1. You must complete all application forms accurately and submit them on time to the right place.
2. You must provide correct information. In most instances, misreporting information on financial aid application forms is a violation of law and may be considered a criminal offense which could result in indictment under the U.S. Criminal Code.
3. You must return all additional documentation, verification, corrections, and/or new information requested by either the Financial Aid Office or the agency to which you submitted your application.
4. You are responsible for reading and understanding all forms that you are asked to sign and for keeping copies of them.
5. You must accept responsibility for all agreements that you sign.
6. You must perform the work agreed upon in accepting a university employment award.
7. You must be aware of and comply with the deadlines for application or reapplication for aid.
8. You should be aware of your school's refund procedures.

All schools must provide information to prospective students about the school's programs and performance. You should consider this information carefully before deciding to attend a school.

## Board of Trustees

Cedarville University is governed by an autonomous, self-perpetuating board of trustees. Board members are selected for three-year terms. One-third of the board members are eligible for reelection each year. The executive committee of the board consists of the chairman, vice chairman, secretary, treasurer, chairmen of the standing committees, and the president of the University. The board meets quarterly in January, May and October.

# Doctrinal Statement

## Standards of Conduct

---

### Doctrinal Statement

*All trustees, administrators, full-time faculty, and staff support and adhere to the doctrinal statement and lifestyle commitment of Cedarville University.*

We believe in the Scriptures of the Old and New Testaments as verbally inspired by God and inerrant in the original writings, embracing all matters which the biblical authors address, and believe that they are of supreme and final authority in faith and life. II Timothy 3:16,17; II Peter 1:19-21.

We believe in one God—eternal, omnipotent, omniscient, and omnipresent existing as three Persons—Father, Son, and Holy Spirit, one in nature, attributes, power, and glory. Genesis 1:1,26; Proverbs 30:4; Mark 12:29; Matthew 28:19; II Corinthians 13:14; John 1:1-4, 14,18; Acts 5:3,4.

We believe that the Lord Jesus Christ was begotten by the Holy Spirit, born of the virgin Mary, and that He is both true God and true man. Matthew 1:18-25; Luke 1:26-35; Philippians 2:6-11; Isaiah 7:14; John 1:14.

We believe in the literal six-day account of creation, that the creation of man lies in the special, immediate, and formative acts of God and not from previously existing forms of life. Genesis 1:26,27; 2:7-9,16,17; 3:1-19.

We believe that man was created perfect in the image of God, that he sinned and thereby incurred not only physical death, but also that spiritual and eternal death, which is separation from God, and that all human beings are born with a sinful nature and are sinners in thought, word, and deed. Genesis 3:1-6; Romans 1:18,32; 3:10-19; 5:12,19.

We believe that the Lord Jesus Christ died for our sins according to the Scriptures as a representative and substitutionary sacrifice and rose again for our justification; and that all who believe in Him are justified on the grounds of His shed blood and are saved by grace through faith wholly apart from human merit and works. Acts 13:39; 16:31; Romans 3:21-28; Ephesians 2:8-10; Titus 3:3-8.

We believe that all who receive by faith the Lord Jesus are born again by the Holy Spirit through the Word of God and thereby become the children of God forever and are eternally secure. John 1:12,13; 3:3-16; 5:24; 10:28,29; I Peter 1:23; II Peter 1:4-11.

We believe that the Holy Spirit is a divine Person, equal with God the Father and God the Son; that He was active in creation; that He convicts of sin, righteousness, and judgment; that He is the Agent in the new birth; that He baptizes all believers into the body of Christ at conversion; that He indwells, seals, endues, guides, teaches, witnesses, sanctifies, and helps the believer. Psalm 139:7-12; John 14:16,17; 16:13,14; Romans 8:9; I Corinthians 6:19.

We believe that the sign gifts of the Holy Spirit are completed and are not applicable to the work of the Holy Spirit today. I Corinthians 12:8-10, 28-30; 14:1-40.

We believe in the imminent “Blessed Hope,” the Rapture of the church before the tribulation, when the “Lord shall descend from heaven” to catch up His bride to meet Him in the air and “so shall we ever be with the Lord.” John 14:1-3; I Thessalonians 4:13-18; I Corinthians 15:15-58.

We believe in the literal, bodily resurrection of the crucified Lord, His ascension into Heaven, His present life there as our High Priest and Advocate, and His personal, bodily, visible return to the earth at the end of the tribulation to establish His millennial Kingdom on earth, and to reign as the only Potentate, the King of

Kings, and Lord of Lords. Luke 24:36-43; John 20:24-29; Acts 1:9-11; I Corinthians 15:25; Revelation 1:5-7; 19:11-16; 20:6.

We believe in the bodily resurrection of all the dead: the saved to a life of eternal glory and bliss in Heaven with God; the unsaved to eternal judgment of conscious suffering and woe in the lake of fire. John 5:28,29; Revelation 20:6,11-15; 21:1-8; Matthew 10:28; 18:8,9; 25:41,46; Mark 9:43-49; II Thessalonians 1:6-9.

We believe in personal separation from all practices and influences of the world which hinder a spirit-filled life. We believe in biblical separation from all forms of ecclesiastical apostasy. Romans 12:1; James 4:4; I John 2:15-17; II Corinthians 6:14; 7:1; Colossians 3:1-17; Romans 6:1-14; Galatians 5:16-25.

We believe that it is the privilege and responsibility of every believer to be a personal soul winner and to do his utmost to give the gospel of Christ to the whole world. Mark 16:15; Acts 1:8; John 17:18; 20:21; II Corinthians 5:20.

We believe that the local Church is an organized congregation of immersed believers, associated by covenant, observing the ordinances of Christ, having the offices of pastor and deacon, exercising the gifts, rights, privileges, and responsibilities given them by His Word, and that it has the absolute right of self-government. We believe that the Church which is His Body includes all New Testament believers. Matthew 18:15-17; I Corinthians 1:2; 7:17; 11:16; I Timothy 3:1-15; I Corinthians 12:28; Ephesians 1:22,23; 2:14,15; 5:23-32.

We believe that the Scriptural ordinances of the local church are Baptism and the Lord’s Supper; that Baptism, by immersion, should be administered to believers only, as an identifying symbol of their belief in the death, burial, and resurrection of our Lord and Savior Jesus Christ, and our death to sin and resurrection to a new walk in life, and that it is a prerequisite to local church membership; that the Lord’s Supper is a commemoration of His death and should be preceded by believer’s baptism and solemn self-examination. Matthew 28:19,20; Acts 8:36-39; 18:8; Romans 6:3-5; Colossians 2:12; I Corinthians 11:23-32.

### Standards of Conduct

We believe that the Scriptures clearly delineate principles which govern Christian conduct. Our behavior should not hinder the faith of other believers; we should do only those things which will glorify God and which will edify both the individual and the group. We recognize that we have a responsibility to maintain an appropriate testimony before unbelievers.

We believe that to aid personal spiritual growth, for the sake of Christian testimony and the achievement of college purposes, we must abstain from the use of alcoholic beverages, tobacco, and the nonmedical use of narcotic drugs; and not participate in social dancing, gambling, the use of unwholesome media materials, and membership in secret societies. We also believe that Christians have an obligation to dress appropriately and to have sincere respect for the Lord’s Day. We prayerfully seek to serve Christ in an atmosphere free from personal attitudes of distrust, dishonesty, selfishness, damaging criticism, racism, disrespect, unethical conduct, and irreverence.

# Be our guest at CEDARVILLE UNIVERSITY

Prospective students find that a visit to our campus is of great value in finalizing their decisions about college. Therefore, make plans now to spend a day with us. While you're here, you may:

- Join us for chapel at 10 a.m.
- Tour our campus
- Visit a class or two
- Talk with a professor
- Discuss financial aid opportunities
- Attend an admissions presentation
- Speak with a coach in your sport
- Eat in our dining hall
- Participate in one of the evening activities
- Spend a night in one of our residence halls

Let us know when you are coming, and we'll make arrangements. We're open Monday through Friday 8 a.m. - 5 p.m. and by appointment on Saturday.
