Dear Friends:

Our bulletin this month is given over entirely to the itinerary of the Kingsmen Quartet and the Harmonette Trio. I am of the opinion that you will receive great blessing if you can attend the services where these young people will be singing. They have already served in a number of churches and the reports we have received have been most encouraging.

You may or may not know that the college is sending these young people out into the churches at great expense. We care for their transportation and other expenses of travel in addition to giving them their board, room and tuition. All of the offerings received from the churches will be turned into the college to defray some of the expenses incurred by these groups. We urge our readers to pray for these young people that their services may be effective in the churches and that every need shall be met as they travel throughout the summer.

As I write this letter, we are planning to begin construction of the first section of our Student Center and gymnasium. We hope to have the Student Center section ready by the time college classes open in the fall. However, much will depend upon the response to our appeals for financial aid necessary for the completion of this project. It has been estimated that the first unit will cost at least \$65,000 to complete. It is very important that this building be erected in order that we may care for the increased number of applications received by our admissions committee. Additional housing will be made available when the snack-bar, book store and lounge are moved out of a dormitory into the new center.

The summertime is always a difficult period for our school. There is, of course, no income from tuition and the gifts from the churches and individuals seem to decline during this period. We will appreciate it, therefore, if our friends will continue to pray for the college and give to its support as they are enabled. Not only do we pay faculty and staff salaries during the summer, but during this period it is also essential that we make certain repairs to our buildings and plan for improvements on the campus grounds. All of this takes money which must be available if we are to do what should be done in preparation for the next years' college program. Please pray for us.
