118 STUDENTS REGISTER

INTRAMURAL FOOTBALL

Enrollment figures show that 118 students have registered for this school year. In the sixty-fourth year of operation, while only the fifth year under the present administration, students have come to us from thirteen states and three foreign countries.

Ohio naturally leads this group as it lays claim on 52 students; 11 have permanent residence in Cedarville. New York and Michigan are tied for second place with a low 13 apiece, while Indiana holds third place with 10.

The other states represented are Calif. 3, Colo. 1, Idaho 4, Ill. 8, Ia. 5, Me. 1, Mo. 1, Penna. 6, and Wis. 2.

The foreign countries are Nova Scotia, Canada; Alaska; and British Guiana. These three claim one student each.

Intramural football competition got off to a flying start, yesterday when the Freshmen outclassed the handicapped Seniors 25-7. Both teams (using 6-man touch rules) took to the air and made the afternoon game a passing duel.

The Freshmen, after choosing to receive the kickoff, moved swiftly down the field to within a few yards of the goal but lost the ball on a fumble. Shortly after that however they connected on a long pass and scored; following with a second TD a few minutes later. They opened the second quarter with their third six-points.

The determined but short-handed Seniors were not out yet. They hit for seven points midway in the second period and came close to scoring

The first issue of a school paper is eruptive---and that of the volcanic type. It goes through the same successive steps as a convulsive volcano. There are internal workings, groanings and moanings; moanings and groanings, even bubblings. It continues to work itself into a frenzy, and on into a condition that upheaves its constitution upon everything in sight, spreading its goods everywhere.

As I said, that first issues of school papers are eruptive, ours is no exception. We've had our groanings and moanings and bubblings; and have worked ourselves into a frenzy until the time when we burst forth upon you, spreading what news and gossip we have.

That should only apply to first issues, yet many times in a small college such as ours, it happens more than once. With your help and cooperation we may prevent further occurrences of such an eruption, maintaining only a steady flow of material for you to devour.

Sir Francis Bacon said, "old wood is best to burr; old friends best to trust; and old books best to read." This short list is sufficient to reveal the worth of things that have stood the test of time.

Many things arrive on the stage of this life but only a few remain for more than a generation. Time has swallowed within its consuming system nearly all things and those that escape stand forth as pillars of strength and durability.

Although burning wood, trusting friends, and reading books does not compose a complete life, we can apply F. Bacon's principle to all of the aspects of our lives with great profit.

If we agree that one can, in most cases, measure the value of an article by its age how precious to the child of God must be the Lord Jesus Christ who is "The Lamb slain before the foundation of the world" and the author of salvation for those who were "chosen in Christ, Jesus before the foundation of the world."

One of the new faces we see on our faculty this year belongs to Mr. Sherwin Bowser. We heard that... Absence makes the heart grow fonder, but judging from the past summer it is "out of sight, out of mind."

Mr. Bowser, the youngest of four children, was born in New Kensington, Pennsylvania. A member of a Christian family he saved at the age of 13. A certain Sophomore thinks a certain Freshman is tops. That right, Larry?

At New Kensington High School, where he was active in basketball, he came to realize the need of Christian teachers, and his interest in sports prompted his desire to become a coach. The faculty all went to dramatic school this summer. True? We have a girl on campus whose name is "Frank" and a boy whose name is "Geraldine." All the Freshman are going to hibernate during Initiation Week.

After high school he entered Kings College, where he was active in basketball, baseball, and soccer.

While attending school he met his future wife, Pat, who was also a Physical Education Major. They were married on August 27, 1955, and have one son, Gary, who is fourteen months old. FOOTBALL (cont. from page 1) again but time ran out. In the third period the Freshmen scored again this time also getting the extra-point. The fourth-period was scoreless.

Upon his graduation from Kings College in Mid-Term 1956, he attended Columbia for a year and a half where he worked on his Masters Degree. (Cont from page 1)

Mr. Bowsers plans for the future of Cedarville's Athletic Program include a coordinated program of Intercollegiate and Intermural Athletics for both men and women. It will be our aim to please, so keep us informed as to how we are doing. No doubt some toes will be trampled, but we shouldn't do so with too many at one time
