BLUE AND BLACK FORCES IN SHAM BATTLE

This has been an exciting night—"constructively speaking," as the United States navy, called the Blue forces, in this mimic warfare, has been in close battle array with the Black forces, meaning the land and naval forces of the Hawaiian island.

We use the words "constructively speaking" as meaning in imitation as the whole affair is of course only a sham battle.

As a result of this battle, which began already on Saturday, when the battleship Wyoming under heavy fire landed marines on Molokai island, many casualties will be reported, ships will be sunk, flyers destroyed and land forces will suffer heavy losses—all on paper—only blank shells being used in all of the operations.

"Constructively speaking" has a still further meaning, and it is being used so much in this mimic warfare that it is becoming somewhat of a by-word among both the officers and men.

It means that when we land in actual numbers 200 marines, "constructively speaking" there are 4,000. When we fire one of the big 16-inch guns every five minutes, "constructively speaking" we are firing 60 seconds, until the coast which we have been bombarding has literally been torn to pieces.

But it has been a wonderful night, and the newspaper men who have remained on the West Virginia have entered the spirit of it and continued on the scene of action throughout it all.

Lights on Shore
All day Sunday we were watching the horizon for the first sight of land. After a period of twelve days on the water there was a natural longing to see land once more, but we were not to have that pleasure on account of low clouds obscuring the horizon.

But after dark the clouds lifted and we could gradually see lights on shore, while still later search lights began playing on the horizon.

SENIOR OF C. H. S. '25

It is the duty of the senior of the class of '25 to be a leader and a true one. He is the one who is always active and who is always doing his best to do the best for the school.

Our High School days are now over and the seniors have been chosen. But for some of our noble classmates, education has just begun.

Some may travel to distant lands, and some may enter college. While others may be working.

To make use of their knowledge. For who can tell what the future of our noble classmates will be? We may have a great future.

SUNDAY CLOSING CASES IN HANDS OF PROSECUTOR

Frank L. Johnson, attorney, turned over to Prosecutor J. C. Marshall, Saturday a list of six Xenia business places and two Jamestown places, that had been open the Sunday previous in violation of the Sunday laws.

The violation had been secured by a state detective, W. B. Matthews of Columbus. It is not expected that the Prosecutor will even present the evidence to the Grand Jury.

Friends of the Prosecutor have argued against the Sunday law and closing of business houses over the county. What at one time looked like a great crusade for law enforcement in the county has gone up like a bursted toy balloon.

It has cost the county considerable in the Prosecutor's campaign and the fifty charges he was supposed to have as the result of detectives he had employed at the expense of the taxpayers are held in cold storage.

To have gone into these cases would have wrecked the Prosecutor's political household and he let the crusade die to avert threatened exposures that would not only have been embarrassing but startling.

Prof. John Orr Stewart, director of music at Richmond college, Richmond, Ky., was given the honorary degree of master of arts from his alma mater, Cedarville College, at Commencement last Friday morning.

Richmond College is the largest state teachers' college in Kentucky. Prof. Stewart is a son of Dr. and Mrs. J. O. Stewart of this place.

RULING AFFECTS SCHOOLS
FOLLOWING the philosophy of the supreme court of the United States in the Oregon private and sectarian schools case, in which hostile legislation was held to violate of constitutional guarantees, Attorney General Charles C. Crabbe gave a legal opinion, the effect of which is to place a check upon the practice of Ohio Boards of Education assuming complete charge of the persons of pupils under their control.

Crabbe held that a "board of education" may not advise, counsel, direct or order minor child to submit to an examination by any person other than the school physician, or his duly employed assistant physician, unless an examination by said school physician discloses an underlying pathological condition requiring treatment by a physician.

Crabbe also held that a "board of education" may not give to Dr. E. C. O'Brien, of Ohio State Board of Optometry, a ruling which was called forth by a condition existing in Lima. Dr. Harris charged the school board with discrimination between oculists and optometrists in the examination of eyes of children.

WHEELER AIRS VIEWS
THE dirt is being moved and real progress is being made in enforcement of prohibition laws, Wayne B. Wheeler, general counsel for the anti-Saloon League, declared upon his arrival here from Washington to attend the quarterly meeting of the executive committee of the National League.

"Public officials," Mr. Wheeler said, "who were doing just what they used to do, now are trying to explain it to the judge. Philadelphia policemen learn that times have changed, Cincinnati office holders move in a long line to the prison cell. Gary furnishes a carnival of convicts chosen from political and financial circles. Pennsylvania and California add their quota of corrupt and depraved officials who now know that liquor is no longer king."

"Uncle Sam is cleaning house. During house-cleaning time, some members of the family may be inconvenienced, may have to eat soup and may and life is not a picnic, but house-cleaning means cleaner and better living. Uncle Sam cleans houses, the good citizen watches the dirt move, and is satisfied that he will have a cleaner inn."

NAPHTHA SUBJECT TO TAX
In administering the gasoline tax law, the Ohio tax commission adopted resolutions defining naphtha as a product subject to the gasoline tax. It is held to be a motor vehicle fuel within the meaning of the act, under the definition of a "volatile, inflammable liquid derived from petroleum."

Only limited amounts of naphtha are used as motor fuel and only in the summer months. It will not burn in motor cars in the winter months. Largest uses of naphtha are in dry cleaning and in the sciences and arts. As such they are not subject to the tax, but the tax must be paid under the commission's interpretation and then is to be repaid by way of refund.

An attack was made on the management of the Home which is under Sylvia Garver, present superintendent. He has resigned to leave next month. The investigation was brought about on representation of conditions reported by Senator L. T. Marshall. WHY TWO STANDARDS?

It appears that two well defined standards of law observance are being erected in this country in these days while certain elements are endeavoring to enforce restrictions, reformation and regulation.

From the viewpoint of the public there seems to be a determined effort to enforce restrictions and demand enforcement of laws among a class of citizens that have different personal ideas of what constitutes a violation of a law; of what is labor on the Sabbath; of what is amusement and what is religious observance of the first day of the week commonly called "Sunday".

The class of citizens that finds recreation and amusement around the pool room, the cigar stores and other popular loafing places in every town or city, and we might say this class is represented in almost every walk of life, is looked down upon today by another element of society.

When it comes to stage reformation campaigns it is this class that is usually sought out first. This naturally brings resentment in many forms. It tightens the line of distinction between the classes that differ on what constitutes Sunday observance. It is this class that resents being governed or denied privileges that suits their own fancy or idea of standard as being law abiding citizens.

The other class may observe the Sabbath, or at least a part of the day in conformity to the demands of the community. By such he merits the endorsement of leaders who insist on a strict observance of the day. As to the remainder of the day he observes that in whatever manner he sees fit.

There are many communities where church attendance is all that can be expected if the general rule of attendance is followed. This same community thinks it perfectly proper to attend church services in the morning and spend the afternoon on the golf course, witness a base ball game and attend theatre that night.

It is an undisputed fact that little will ever be accomplished as long as the two standards exist. One element will never be governed and denied what it thinks is right or what it demands for pleasure as long as nothing is said or no action taken to bring the other element in line also.

BUSINESS CONDITIONS SOUND

An encouraging report on basic business conditions has been made by members of the American Bankers' Association.

Without attempting to overlook retarded activity in some lines, the bankers point out that no reason or prospect exists for any serious impairment of industry.

"The wave of optimism which swept over the country has been followed by a more conservative outlook," says the

Indianapolis Bank, which should ultimately be better for all concerned. Political uncertainty, but to fear that radical bloc in Congress might interfere with the President's program to tax and railroad legislation, may have caused some lameness of industrial activity. The nation's financial leaders are a unit, however, in predicting that the condition of fundamental soundness must react in the form of quickened business.

COUNTRY DEMANDS PAYMENT

Every American regardless of religion, origin or religion, will back the President in demanding that foreign countries pay back to this country the money loaned them during and after the war.

France alone owes us between four and five billion dollars, every cent of which was taken from the pockets of American taxpayers. Millions of this debt was lent to Italy. Not one cent of this debt has been paid. Not a penny of interest has been paid. Either France must pay this debt or American citizens will repay it in continuing the present high government tax levied in various forms.

During the war France thanked God for America when her back was to the wall. Now she makes no move to pay her honest debts.

President Coolidge and Treasurer Mellon are insisting on these countries paying their debts. They should be forced to pay them under threat to take charge of their ports. No nation, in fact no decent individual, can have the respect of others when refusal is made to pay an honest debt.

THAT HOUND TOOTH STORY

Convicted this week in the Federal court at Cleveland of former Prohibition Commissioner, J. E. Russell, Merle E. Copeland, his chief clerk, and Warren E. Barnett, Columbus attorney, each on two counts under a conspiracy charge in connection with the wrecking of the Harry Daugherty political machine.

During the trial, frequently the name of Jesse Smith, deceased, a former confidant of Daugherty, was brot into the trial relative to handling the illegal permits.

The Daugherty appointees have about all been dropped from the government service which caused Senator Frank Willis to protest some months ago that Ohio was being discriminated against in the way of patronage.

It was Willis who remarked during the Daugherty investigation that "Harry was as clean as a hound's tooth." The Senator of late has not been using the expression on behalf of his political associate.

COURT HITS COMMISSION

The Supreme Court struck a fatal blow this week to the Ohio Public Utilities Commission in reference to decisions rendered by the commission. Six of seven decisions were upset by the Ohio Supreme Court.

The Utilities Commission as it is administered in this state is nothing more than a board to legalize highway robbery in reference to rates as asked for by certain utility interests.

The public has no protection whatever. The ordinary city cannot afford to employ the high priced legal talent to defend consumers. Companies are being granted increases in rates after paying 100 per cent dividends.

THINK WE NEED ANYMORE?

It is estimated that there are something like 2,000,000 laws and ordinances in effect throughout this country. E. V. Wilcox, writing in the Harvard Graduate magazine, adds together, legislators and councilmen and obtains a net total of 100,000 persons or more engaged in the ceaseless brewing of laws. Is it any wonder taxes climb?

Sunday School Lesson

Lesson for June 14

THE CHURCH AT ANTIOCH

LESSON TEXT—Acts 11:19-30.
GOLDEN TEXT—The disciples were called Christians first in Antioch. Acts 11:26.
PRIMARY TOPIC—Some People Who Received a New Name.
JUNIOR TOPIC—Barnabas in Antioch.
INTERMEDIATE AND SENIOR TOPIC—Lesson From the Church in Antioch.
YOUNG PEOPLE AND ADULT TOPIC—The Secret of a Growing Church.

Saul, the new missionary, who was to lead in the evangelization of the heathen, having been miraculously called to this work, it was necessary that a new religious center be established. Antioch became that center.

1. Preaching the Word of God at Antioch (vv. 19-21).
Persecution at Jerusalem scattered the disciples abroad. Some went among the Jews only with the gospel message, while those from Africa and Cyprus courageously crossed the line and preached to the Greeks also. The Lord blessed their work in granting many conversions. So great was the stir that the news reached Jerusalem, the mother church. Persecution worked for good in this case as well as in many since, these humble people, with hearts touched with the Spirit went out with the glad message of life to others.

2. Work Done by Barnabas (vv. 22-24).
He was a good man. It is important in reading a man to follow up the work of the Spirit that his character be good. He must not only have an unblemished character, but his sympathy must be broad. He must be capable of entering in full appreciation of the things about him. Barnabas was full of the Holy Spirit. This is an essential qualification for pastoral work. Only a Spirit-filled man can discern the workings of the Spirit of God. He was likewise a man of great faith. Only a man of faith should instruct young Christians.

3. He heartily endorsed the work and earnestly exhorted them to continue steadfastly in the faith, and to cleave unto the Lord. There are many allurements to tempt young Christians.
(b) He rejoiced over the work which had been done. This shows that Barnabas could rejoice over the successful work done by others.
(c) He brought Saul from Tarsus (v. 25).
He did more than merely inspect the work. Doubtless he preached also for many people were added unto the Lord. The work grew to such an extent that he brought Saul to help him. They labored together for a year with great success, and carefully taught the people. Believers, after they have confessed Christ, need careful teaching. Barnabas had the good judgment to seek Saul for this important work. It is the duty of church officials to seek out men and women who are qualified for the Lord's work, bringing them from their places of obscurity and setting them to work in the Lord's vineyard. Saul was a more important man than Barnabas. There are many men in obscurity who require a Barnabas to bring them forth.

4. The Disciples First Called Christians (v. 26).
They were not called by this name in derision as often asserted. Stiffer well says, "What Luke intends to convey is that Saul and Barnabas taught in the church for a year and the disciples were first called Christians. The name was a consequence of the teaching." Green renders the passage thus: "And it came to pass with them that they were combined even for a whole year in the church, and taught much people, and that the disciples were first called Christians at Antioch." This distinctive title came through Divine guidance. It was owing to the teaching of Saul and Barnabas that this body called the church was given its unique standing and place. Let it be remembered that it was not given as a term of reproach but because of the close resemblance of the body to its head, Christ.

5. Benevolence of the Church at Antioch (vv. 27-30).
They made up money for the poor saints at Jerusalem and sent it by the hands of Barnabas and Saul. The genuineness of the work at Antioch is proven by their good deeds. It was further emphasized in that there was no division between Jew and Gentile Christians. The Gentiles ministered to the Jews.
