# TABLE OF CONTENTS

<i>Foreword</i>	iv
<b>OPPORTUNITIES WITH ARTIFICIAL INTELLIGENCE</b>	
<i>Exploring Generative AI in Christian Engineering Education, Xiaowei Chen, Yuan Meng, Haisong Ye, and Robert McDole</i>	1
<i>Large Language Models and Worldview – An Opportunity for Christian Computer Scientists, Timothy Darr and Kenneth Oversby</i>	13
<i>Faith meets Innovation: AI Tools Reshaping Christian Engineering Higher Education, Justus Selwyn and Tim Gilmour</i>	26
<b>THE ENGINEERING DESIGN NORMS</b>	
<i>Queries for the Design Norms, Mike Foster, Luann Foster, and Kayt Frisch</i>	35
<i>Holy Transistors: Applying Biblically Informed, Normative Principles to Pedagogy and Faith Integration in an Electronics Course, Kimberly Cornett and Daehee Lee</i>	54
<i>Applying the Normative Design Approach to Civil Engineering, Justin Vander Werff</i>	65
<b>CHRISTIAN ENGINEERING EDUCATION I</b>	
<i>Educating for Shalom in Engineering, Julie Wildschut</i>	79
<i>Developing the Engineer from the Perspective of Calling - Providing a Means to Overcome Anxiety through Discipleship, Timothy Shenk and Elizabeth Shenk</i>	93
<i>Engineering, Meaning and Faith: Professional Formation of Engineers with Magnitude and Direction, Michael McGinnis and Jonathan Lett</i>	98
<b>MISSIONS &amp; GLOBAL WORK</b>	
<i>Inspiring and Equipping Students to Become Service-Focused Engineers, Brian McKenna and Benjamin McPheron</i>	113
<i>NNU Engineering Student Mission Projects from Peru to PNG to Kenya, Stephen Parke, Duke Bulanon, Autumn Pratt</i>	124
<i>Engineering Opportunities in International Development Ministry, Bruce Rydbeck</i>	140
<i>Engineering Education in Developing Nations: Status Update on the School of Engineering at Northrise University in Ndola, Zambia, Jeff Gladstone, Samuel Hodges, John Tixier, and Nolan Van Gaalen</i>	154
<b>SOCIAL &amp; CULTURAL IMPACTS</b>	
<i>Incorporating ABET Student Outcomes 2 and 4 into Christian Engineering Curricula, Camilo Giraldo, Philip Graybill, Philip Tan, and Brian Swartz</i>	167
<i>Equipping Engineering Students to Reach the Nations—Undergraduate Course in Intercultural Problem Solving, Myunghee Michelle Kim and Juan Carlos Rodriguez</i>	192
<i>The Sustainability as Stewardship Framework: A Biblical Model for Addressing Environmental and Social Issues in Engineering Education, David Dittenber and Mackenzie Booth</i>	207
<i>DEI can be Consistent with Catholicism, but it Promotes a Culture that Excludes Faithful Christians, Derek Doroski</i>	224
<i>Training Students to Hunger and Thirst for Righteousness in Engineering, Jonathan Gingrich</i>	244

ENGINEERING PRACTICE I	
<i>Design in Nature: Observing and Voicing God's Glory within an Engineering Vocation</i> , Laurel Dovich	256
<i>Design Analysis in Light of the Seven Deadly Sins</i> , Philip Tan	267
<i>Reflections on Thomas Tredgold's Definition of Engineering</i> , Randal Schwindt	274
<i>Sustainability and The Engineer – Control vs. Sympathetic Citizenship in the Kingdom of God</i> , Ben Giudice	282
ENGINEERING PRACTICE II	
<i>A Framework for Engineering Analysis and Worship</i> , Timothy Wood	298
<i>Redeeming and Sanctifying Engineering Imperfections</i> , Markus Ong	310
<i>What Engineers Can Learn from Wendell Berry</i> , Danielle Wyenberg	322
<i>Domus Dei et Porta Caeli: House of God and Gate of Heaven</i> , Justin Greenly	332
CHRISTIAN ENGINEERING EDUCATION II	
<i>100+ Years of Faithful Engineering in a History of 175 Years</i> , Murat Tanyel	349
<i>Reflections on Christ-Centered Engineering Education</i> , David Che	356
<i>Christian Stewardship During Transitions in Engineering Academic Leadership</i> , Matthew Green and Michael McGinnis	368
<i>Retreats for Christian and Engineering Virtue Formation</i> , Stephen Frezza and Valerie Plaus	379
Engineering Practice III	
<i>Next Generation Computing and the Quest for Artificial General Intelligence (AGI): A Critical Examination from a Theological Perspective</i> , Kenneth Oversby	392
<i>Shalom Seeking: Contours for Flourishing</i> , Kevin Timmer	410
<i>The Calling of the Christian Engineer</i> , Peter Staritz	425
<i>Humans Were Created To Engineer With Humility</i> , Melani Plett, Dennis Vickers, et al.	432
Pedagogical Applications	
<i>Augmenting Entrepreneurially Minded Learning with Christian Thought and Action</i> , Benjamin McPheron	445
<i>Pedagogical "Seasoning" for Engineering Class using Analogy, Message, and Theme in the Story</i> , Hoo Kim, Paul Leiffer, and Craig Olson	456
<i>Collaborative Learning and Differentiated Instruction: Applying 1 Thessalonians 5:14 in the Classroom</i> , Shannon Capps	474
<i>Integrating a Biblical Narrative into a First-Year Engineering Design Project</i> , Matthew Kuester	485
