Cedarville Highly Ranked in Educate-to-Career Index

CEDARVILLE, OHIO – The Educate to Career (ETC) national ranking, released in November, placed Cedarville University as the highest ranked university in the Miami Valley. Among the 1,224 universities in the nation with an enrollment of 1,000 or higher, Cedarville is ranked number 400.

Cedarville University is ranked ahead of Wilmington (429), Wright State (464), University of Dayton (771), Miami University (856), and Wittenberg (874). Only Xavier University in Cincinnati (371) is ranked higher than Cedarville.

The ETC index analyzes the quality of students that enter a particular college, the total cost of attending the college and the percentage of students employed after graduation among the universities in the ranking. Schools classified within this index are seen to have a high percentage of graduates employed in their field of study, relatively high earnings and a majority of students graduating in four years with very low loan defaults. The index only evaluates four-year institutions with an annual enrollment of 1,000 or more. The index provides reliable information that helps students determine the real cost of a particular school and what recent graduates in their intended major are doing.

The scoring value represents the average annual income and employability of the graduates measured against the financial cost of their education. Cedarville’s first destination rate (career placement) is 95 percent, indicating the percentage of students employed or in graduate school within six months of graduation.
Located in southwest Ohio, Cedarville University is an accredited, Christ-centered, Baptist institution with an enrollment of 3,620 undergraduate, graduate and online students in more than 100 areas of study. Founded in 1887, Cedarville is recognized nationally for its authentic Christian community, rigorous academic programs, strong graduation and retention rates, accredited professional and health science offerings and leading student satisfaction ratings.
