Gravity

Chin, Jason

New York: Roaring Book Press, 2014

978159437173

Jason Chin combines illustrations with short sentences to create a book that explains gravity in a way that's understandable for young children. At the back of the book, he adds a more detailed explanation of gravity and mass for those who may be curious. This book is written for children who are first learning about how the world works; *Gravity* would be useful either at home or in a school setting. Additionally, the illustrations provide a visual that parallels the author's explanatory text.
