NAIA tournament improves with age

The 44th NAIA National Championship Basketball Tournament has added a new feature - an NAIA National Championship Women's Tournament. The 32-team, 32-game men's tournament, the world's oldest and largest collegiate sports championship, has been expanded to include eight area women's champions. The addition of the women's championship is another pioneering effort by the NAIA.

The NAIA is proud of its long association with Kansas City. The NAIA's National Office has always been in Kansas City and the six day basketball marathon has become a 44 year old American sports classic through the generous support and urging of the people of this community. The Kansas City Sports Commission has given outstanding guidance and support in maintaining sports at all levels in Kansas City.

In 1980, 21 of the 32 tournament games were decided by 10 or fewer points. In 1979, the winning margin in 19 games was 10 points or less, with five overtime games. The quality of play has never been better and the addition of a women's championship should heighten the fans' enjoyment.

The NAIA is comprised of colleges and universities that have elected to compete in intercollegiate athletics as an integral part of the total educational program, subject to the same aims, policies and objectives as other departments and programs. Intercollegiate athletics programs in NAIA institutions are not administered through a corporate structure, or as an entertainment or public relations entity. Public-oriented and privately endowed NAIA institutions have particular needs and aspirations relative to the conduct of their sports programs. By continuing to meet these needs the National Association of Intercollegiate Athletics (NAIA) has remained a viable strong voice for the nation's smaller, fully accredited four-year colleges for four decades. The NAIA has experienced a modest membership growth in each of the past three years with 520 institutions and 38 affiliated conferences currently holding active member status.

The Kansas City, Missouri Junior Chamber of Commerce, one of the most energetic and effective Jaycee chapters in the country, has spearheaded the ticket sales and promotion of the NAIA National Basketball Championship Tournament since 1940. The Jaycees assist the NAIA in publicizing this tournament throughout the Kansas City area and had the foresight to organize the highly successful and widely emulated Honorary Coaches program in 1948. The Honorary Coaches are key representatives of some of Kansas City's leading business establishments and continue to be a unique and vital part of the tournament. The Honorary Coaches are civic leaders in this community and their close association with the NAIA tournament enhances the event.

DR. J. STAYS ON TOP WITH CONVERSE ALL STARS.[®]

Two things are true about Julius Erving. One, he's just about as good as you can get at playing basketball. Two, he's been playing the sport in Converse All Stars[®] since he was a kid.

No other basketball shoes have the unique combination of support, traction and bounce that Converse All Stars[®] have.

Now, we aren't saying that our Converse All Stars[®] are the sole reason Dr. J. plays as good as he plays. But you don't see him taking any chances by not wearing them, do you?

And if you want to look a little more like him when you run out on the court, the one thing you could duplicate without practice at all, is his Converse All Stars.[®]

A hand is shown holding a single, upright Budweiser can. The can is condensation-covered and features the classic Budweiser label with the 'BIB' logo and the text 'Budweiser LAGER BEER'. The can is surrounded by a vast field of crushed, flattened cans, creating a stark contrast between the one intact can and the sea of waste. The lighting is dramatic, highlighting the textures of the metal and the condensation on the can.

 GOVERNOR

WELCOME TO MISSOURI!

On behalf of all Missourians, it is my pleasure to welcome you to the "Show-Me" State. Once again, we are proud to be the host of the 44th Annual NAIA Basketball Tournament.

It is an honor that this remarkable tournament is being held in Missouri. This is an historic occasion because both the men and women champions will be crowned in this one tournament.

The players and coaches from the 40 teams participating are to be congratulated for their records coming into the tournament. Many good players, coaches and teams were not fortunate enough to make it this far. The individuals and teams here are among the best college players and coaches in the entire country. You will surely be treated to a fine exhibition of exciting basketball.

I wish each team the best of luck and congratulate the two winners. I am sure that the tournament and the championships will long be remembered and cherished by the players, coaches, fans, officials, and others that participate in this historic occasion.

Sincerely,

Whose steak is best ?

Bill: I know and, believe me, I think Gojo's is great but Kansas City steaks broiled over red hot charcoal is about as perfect eating as you can get.

Maybe we can think of a way to get everybody to try both and **they** can find out which of us is right.

And in this case, I don't think they can go wrong.

Right. And for that very reason the Hereford House has been growing for 21 years - we take care of our customers! Great steaks and seafood demand great service.

Let's go eat.

Famous For Great Kansas City Steaks

Jo san: We make steak-Japanese secret sauce. Steak prepared ancient Japanese method.

Ah, so. Hereford House is most famous American Steak House but Gojo difference is worthy temptation.

Maybe both are right. After all, in life, more than one path can lead to right way.

But more than perfect eating is perfect service and the art of dinner at Gojo's. As we say in Japan, "レンス間隔を補正"

NAIA honorary coaches

The Honorary coach program at the NAIA National Basketball Tournament is in its 34th successful year of operation.

Traditionally, the 64 honorary coaches (two for each of the 32 teams) representing many Kansas City business firms, look forward to the 32-team, six-day championship classic.

The 1981 tournament added eight honorary coaches for teams playing in the first NAIA National Women's Basketball Tournament.

The Honorary Coach program originated in 1948 and was the workmanship of three men—Frank Hesselroth and Charlie Stevenson, both of Kansas City, and the late Emil S. Liston, Athletic Director at Baker University, Baldwin, Kansas, who founded the NAIA and the NAIA National Basketball Tournament in 1937.

Their purpose is to assure the tournament field of a memorable gathering that will impress them during their stay in Kansas City. Hesselroth felt that in some of the formative years of the tournament that a team eliminated in the early rounds went home without enough recognition.

The honorary coaches volunteer their time, and each subscribes to a share of the sponsorship of the NAIA Tournament's Tip-Off Banquet held for all the teams and officials on the eve of the first round of tournament action.

Honorary Coaches are assigned to a team at a special drawing three days before the tournament opens. The drawing has become one of the pre-tournament highlights as the coaches drawn for a team, then often try to trade for a team they have been associated with in previous tournaments.

During tournament week, the Honorary Coaches sit on the bench with their respective teams, offering words of encouragement and living the same moments of excitement or disappointment that is experienced by their team.

In the past years each Honorary Coach was presented with a special jacket which he would wear while with his team. The Honorary Coaches also sit with their teams during the Tip-Off Banquet and march onto the court with their team during the Parade of Champions, held each year on the opening night of the tournament.

Dozens of young men who have participated in one of the previous 43 NAIA Tournaments have been so impressed with the warmth and fine welcome given them by the people of Kansas City, that they have returned here after graduation to visit with their "Coach" and stay in touch for years by correspondence to let the "Coach" know what they are now doing.

Basketball tournaments and other sports events throughout the country have adopted the Honorary Coach idea, but the play was originated in Kansas City:

Those who have served as Honorary Coaches often correspond with coaches and players and many have visited the campuses of the teams with whom they have been associated.

As Frank Hesselroth so aptly put it: "The Honorary Coaches of the NAIA Basketball Tournament have established a solid tradition and the Tip-Off Banquet, which they sponsor each year for the entire tournament field, is a heart-warming event."

1980 national tournament

The No. 3-seeded team in this year's NAIA National Championship Basketball Tournament might want to have its trophy case already cleaned and waiting for March 14, the night the champion is crowned. That is, if history repeats itself.

For the second straight year the number three seeded team emerged as champions in this six day, 32-team National championship tournament, aptly described as the world's finest, largest and oldest intercollegiate basketball championship event.

Cameron University of Oklahoma claimed the 1980 national title (the 43rd annual) with an 84-77 victory over top-seeded Alabama State. The Hornets, making their first ever national tournament appearance, entered the tournament with the best record (28-1) and rolled into the championship game with 46 and 25-point victories in the first two rounds and won by 14 points in the quarterfinals and semifinals.

Cameron, top-seeded in the 1979 tournament but a quarterfinal round loser that year, squeezed by Saginaw Valley MI in the opening round, before disposing of St. Augustine's NC, LeMoyn-Owen TN and Wisconsin-Eau Claire to earn the championship game.

In the championship game, Cameron enjoyed leads of 19 points in the first half and saw a 15-point halftime advantage melt away in the final 20 minutes. Alabama State was able to pull to within three points with 38 seconds left.

Twenty-one of the 32 games in the 1980 tournament were settled by 10 points or less with five games being decided by five points or fewer.

IT ALL HAPPENS HERE! KANSAS CITY

Downtown Kansas City

Kansas City, the "Heart of America," is located within two hundred miles of the geographic and population centers of the continental United States. Kansas City has something to offer visitors from anywhere.

To begin with, Kansas City shines as one of the most accessible and affordable cities in the country. Over 50 million people live within one day's drive of Kansas City. Once you get to town, one of the most pleasant surprises of the trip is the low cost of food, lodging and entertainment.

Kansas City is becoming increasingly popular as a destination site. Since 1972 it has grown from the twenty-third most popular convention city in the United States to number eight. In addition, it is one of the four fastest growing convention sites in the country.

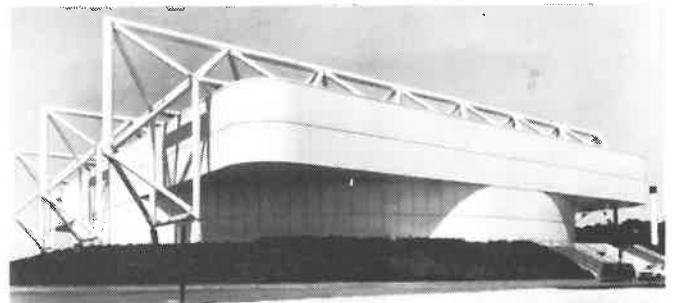

One of the major reasons is the period of major expansion in the last decade. Major construction projects completed in the 1970's include the H. Roe Bartle Hall at the Convention Center, Kansas City International Airport, Kemper Arena, and the Harry S. Truman Sports Complex.

Variety is the key word on your list of things to do in Kansas City. Professional baseball, football and basketball keep sports' fans entertained year-around. Professional and amateur theater are available at two downtown theaters and on the campuses of area colleges. Other attractions include Starlight Theater; the Nelson Gallery of Art; Worlds of Fun Theme Park; and the annual American Royal Livestock, Horse Show, and the Rodeo in November.

Whether your visit is for business or recreation, take the time to discover the variety that is Kansas City. Discover why we say, "It all happens here!"

the NAIA in perspective

The National Association of Intercollegiate Athletics (NAIA) is a completely autonomous association, currently administering programs of intercollegiate athletics in 515 fully accredited four-year colleges and universities. The fundamental tenet of the NAIA is that intercollegiate athletics is an integral part of the total educational program of the institution. This belief is strongly reflected in the governing documents, activities and organizational structure of the Association.

PURPOSE AND HISTORY

Established in 1940 as the National Association of Intercollegiate Basketball, the NAIA (the name change coming in 1952) emanated from a "National Small College Basketball Tournament" inaugurated in 1937 in Kansas City Missouri. The conversion of the NAIB to the NAIA in 1952 included the expansion of the program to include national championships in golf, outdoor track and field and tennis. Football (two divisions), cross country, baseball and swimming were added to the ledger in 1956 and wrestling (1958), soccer (1959), bowling (1962-1978), gymnastics (1964), indoor track and field (1966), ice hockey (1968) and volleyball (1969) are the most recent additions. The initial purpose of the NAIA — to provide national championship opportunities to colleges and universities competing below the so-called "major" level — has indeed been well served.

NAIA organizes and administers all areas of intercollegiate athletics at the national level, including rules and standards, and district and national sports competition.

The NAIA clearly outlines its own responsibilities and those of its members: a sound athletics program, administered and controlled by those responsible for the administration of the college. In short, the basic premise is that the athletics program must be a basic component of the overall general educational process within the institution, and not an entity apart.

Eligibility rules in the NAIA govern all play in all sports recognized by the Association, not just post-season tournaments, and must be

adhered to by all members, including members holding dual affiliation with other associations.

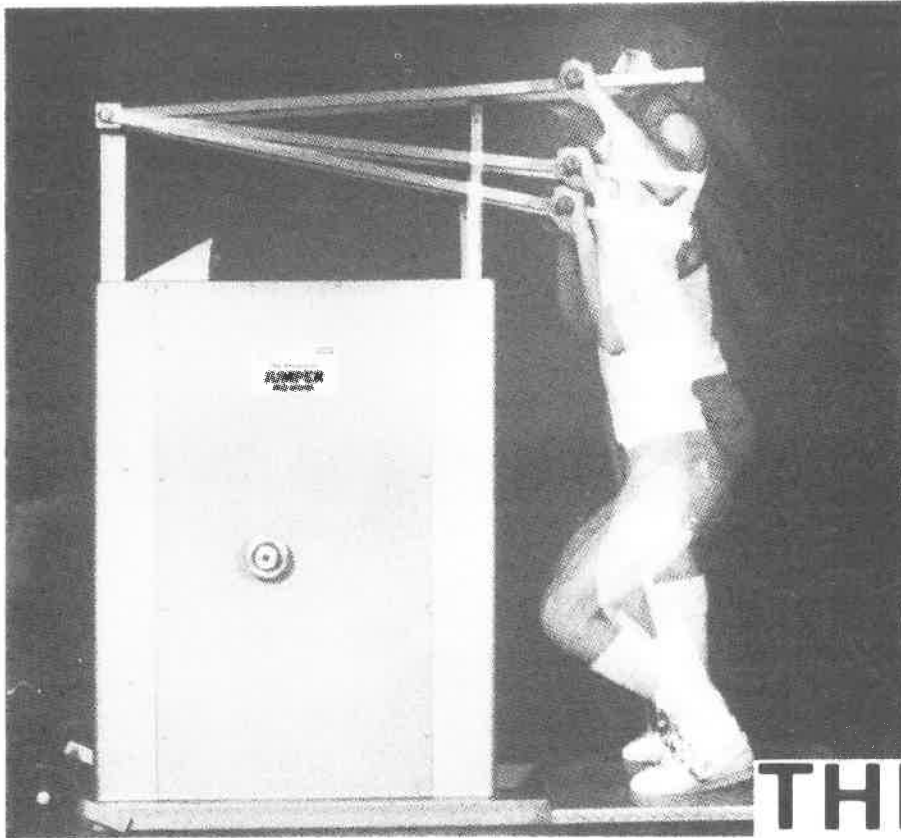

HOW ADMINISTERED

The principal governance body of the NAIA is the Executive Committee, composed of 11 persons elected by the membership, and the Executive Director (ex-officio). This committee is responsible for establishing policies and determining the overall direction of the Association.

The NAIA is organized into 31 geographic districts spread over the 50 states and including one Canadian member. Each district is governed by a District Executive Committee, the chief officer of which is the District Chairman. Representation on the District Executive Committee includes one committeeman for each three active member schools, or major fraction thereof, in the district. The District Chairman is elected for a three-year term by a vote of the active membership within the District.

The District is the basic unit of the NAIA. The District Executive Committee establishes a program of District championship events in the various sports. Individual and team District champions are certified to compete in Area and/or National championship competitions by virtue of winning the District event or by meeting qualifying standards established within the particular sport.

Women's Division—Effective August, 1980, the NAIA initiated championships and programs for women through its newly-established Women's Division. Ten championships for women will be offered in the initial year with planning and administration under the aegis of the ad hoc Committee on the Implementation of Women's Programs in the NAIA, chaired by Dr. Joan Warrington of Pittsburg State University KS, a member of the NAIA Executive Committee. The NAIA decision to offer competitive opportunities and championships for women followed two years of consideration by the membership and proposals developed by a committee on women's athletics.

THE JUMPER

JUMPEROO

...The JUMPEROO! Year 'round exercise made easy! You can walk, jog, run, dance for improved blood and lymph circulation and muscle tone — in the privacy and comfort of your home.

For young and old, children, parents and grandparents, the JUMPEROO is a sensible approach to fitness, cardiovascular exercise, improved circulation.

BODYMATE

The Bodymate is today's ultimate in isokinetic exercise equipment. The user can develop his or her own desired degree of strength and endurance faster and easier with a Bodymate Exerciser Program.

The principle is simple. When you increase the speed of the scissor-like exerciser you increase the resistance in proportion to your exerted effort. It responds to as little or as much push or pull force *you* apply.

A photograph of four men dressed as referees in a shoe store. Three men stand in the back row with their arms crossed, and one man sits on a stool in the front row. They are all wearing black and white striped referee shirts and black pants. The store background features shelves of white sneakers, a rack of clothing, and green lockers with numbers 342 and 341. A red number 4 is visible on a display stand in the foreground.
