Whispering Cedars

"For the Word of God and the Testimony of Jesus Christ"

As part of his responsibilities, Dr. Jeremiah speaks with groups coming to Cedarville College Campus.

Sophomores Frighten Frosh

By Militant Sophomores

Have you noticed all the cute little freshmen around campus? Don't you just love the way they sing to the trees, kiss shoes and in general, bow to the superiority of the sophomore class? They look like they're having fun, but actually they're going through what may be the most grueling experience of their college careers — freshman initiation.

They were up at 4 a.m. (grueling enough?) for calisthenics and to get their pizza boards. (On each pizza board is a list of characteristics. The frosh have to find a sophomore to fit each characteristic and somehow persuade him to sign the board.)

What happens if each freshman doesn't co-operate? Kangaroo Court begins at 8 tonight in the gym. Judge

Timothy "BJ" Kaufman, assisted by a distinguished panel of jurors, will head the proceedings. Will the freshman class have enough spirit and unity to endure? Why not be there and watch the real action take place?

Afterwards, weather permitting, there will be a bonfire complete with cider and donuts to provide an opportunity to rehash the events of the day.

Station WCDR Changes Format

A summer of planning and organization will result in three changes or additions to the influence and format of the college radio station, WCDR.

Relocation of the station's antenna and transformer to its new site on the Clifton-Yellow Springs Road, four miles from the college, will increase coverage to all the Dayton and Springfield areas and will transmit a clearer signal to these locations.

A second project in the expanding influence of the radio station is the development of a Cedarville College-sponsored radio station in the Fort Wayne, Ind. area. Beginning at the suggestion and support of Fort Wayne individuals, plans are now in motion for this effort.

Adding to its format, WCDR will be airing two new programs. The first program will be centered on campus events and guest speakers and will be hosted by college president, Dr. James T. Jeremiah. As an educational radio station, WCDR will provide an in-service train-

ing program for doctors and nurses, produced by the Ohio Educational Medical Network. This latter program is a first of its kind for the campus station.

Psychologist Gains Doctor's Degree

Robert D. Abbas, assistant professor of Psychology at Cedarville College, was recently awarded his Ph.D. in Counseling and Student Personnel Administration from the University of Missouri in Columbia, Mo.

Of the three professors in the Psychology department, all have their doctorates.

Dr. Abbas received the B.M. degree in music education from Northwestern College in Minnesota, the B.A. degree in biology from Wartburg College in Iowa and the M.A. degree in Counseling and Educational Psychology from the University of Northern Colorado in 1965. He has published materials in the Educational Resources Information Center publications.

Before assuming his teaching position at Cedarville in the fall of 1971, Dr. Abbas was formerly on the administrative staff of Iowa Western Community College as admissions counselor and was the administrative assistant in the housing office of the University of Missouri.

Three Join College Faculty

The addition of three new faculty members for the coming 1972-73 school year has been announced by Cedarville College president, Dr. James T. Jeremiah.

Filling one of two positions in the music department of the college is associate professor of music, Dr. Robert Monroe. Dr. Monroe received his B.S. degree in Music Education from the Lebanon Valley College of Pennsylvania in 1958. He completed requirements for his Master's degree in Applied Music in 1960 at the University of Miami and received his Ph.D. from Florida State University in Tallahassee, Fla. in 1970. Dr. Monroe has had educational experience as brass instructor at the Junior College of Broward

Dr. Monroe

County, Fla., trombone instructor at Florida State University and director of instrumental music at Bridgewater College in Virginia.

What God doeth, it shall be forever.

Eccl. 3:14

Soccer..... page 4

Cyclists..... page 4

Mr. Lo

A native of Hong Kong, Lawrence Naai-Lei Lo comes to the music department as assistant professor of music and piano instructor. Mr. Lo attended the Canton Bible Institute in Hong Kong in 1963-64, received the Licentiate Diploma in 1968 from the University of Toronto and the Master's degree

in piano from Indiana University in 1971. He has instructed private piano in Hong Kong at Munding School of Music, Toronto, Jahn Musical Academy, Toronto, and Indiana University School of Music, Bloomington, Ind.

Mrs. Seaman

Mrs. James Seaman, a graduate of Baptist Bible College, Clark Summit, Pa., has been appointed to the education department as assistant professor of education. She received her Master's degree in elementary education from the State University of New York and is currently continuing studies at The Ohio State University. Mrs. Seaman has been an elementary school teacher for six years, a tutor of brain-damaged children and an instructor at Central State University.

"Pass the Torch" Is Sparked

For a first in the development programs of Cedarville College, speakers on campus about col-students will have an opportunity to actively participate in the beginning formation of a scholarship project now being organized by the Development Office of the College.

"Commit thou to faithful men who shall be able to teach others," has been selected as the motivating thought behind the scholarship program, "Passing the Torch."

As outlined by the Development Office, the scholarship plan will involve the students on a person to person basis with outside individuals who participate. As an individual or a family joins the "Passing the Torch" program by committing \$10 per month to the school's general fund, a student will then be invited to correspond quarterly with the member, sharing with him college events and his college experiences.

The purpose for the organization of such a scholarship program is to reduce the percentage of cost of tuition for each student. Two major benefits to the student who

becomes a "college correspondent" are that he will be able to view how the college does work in gaining financial aid and secondly, he will have the privilege of sharing his college activities with another family

besides his own.

Kick-off date for the scholarship project is Oct. 9. Anyone wishing to participate in the growth of the college through this program should contact the Development Office.

Mr. Lee Turner explains the "Pass the Torch" program to students.

More Information Coming

What Is Characteristic?

As a service to the readers of Whispering Cedars, the following self-evaluation test has been provided and can be taken in just a few short seconds.

It is important, as the school year begins, for each student to know where he stands in relationship to his own goals and desires.

The directions are as follows:

1. Decide specific goals for the year.
2. Decide how important those goals are to you and how much work you are willing to do.
3. Check the following in relationship to yourself and use of TIME:

T askfilled	or	T.V. filled
I nvolved	or	I ncognito
M otivated	or	M otionless
E nergetic	or	E xcused

Absentee Balloting: An Out of State Must

A major responsibility lies ahead for the student voters of Cedarville College — the election of the next President of the United States.

In order for each student to fulfill his obligation, it is imperative that an application for an absentee ballot be filed

immediately at his home election board. All voting procedures at each specific board should be carefully examined so that the absentee ballot received can be returned to the home board on or before election day, November 7.

Kathy Finds Challenge at Shepherds

By Nanci Sioux

"Blessed are ye who need us for our greatest need is to be needed." Written from the viewpoint of a mentally retarded child, this beatitude expressed one of the lessons Kathy Scott learned during her four weeks at Shepherds Home for Retarded Children, Union Grove, Wisc., this summer. Kathy, one of five students sent out under M.I.S. through the sponsorship of last year's freshman class, first considered working at Shepherds as a summer aide after talking with Barb Cleckner, 1969 Cedarville graduate, in April.

Nancy Ritchie accompanied Kathy to Union Grove, where Nancy spent two weeks and Kathy stayed four weeks. They left Cedarville Aug. 21 in the Scotts' Dodge Dart and arrived at Union Grove the same day.

While there, Kathy worked in the adult men's unit, helping the housemothers in such tasks as shaving the men. Some of the Cedarville College student's time was spent in the school where she not only taught children on an individual basis but also received teaching herself through the children.

"You hear about people depending on the Lord for their needs but take it so much for granted. You never fully realize the promise of Philippians 4:19 until you experience it," expressed Kathy.

Before leaving for Shepherds, Kathy had taken two courses but she learned only book knowledge. After working at the Home, she was able to add experience with the knowledge and receive the full learning.

The Christian dedication at Shepherds was shown daily to Kathy by the staff and residents. Chapel is held every Thursday; Sunday School and morning church are Sunday events and daily devotions are incorporated every morning or evening. One boy named Earl had been extremely ornery one evening until he realized that Jesus would not be pleased with his actions.

An incident that touched Kathy's heart and showed the concern mental retarded children have for others involved Brian, a 17-year-old mongoloid orphan. A close relative of his housemother's had died early

Driver's Safety Program Offered

A driver's safety program is being offered Oct. 2, 3 and 4 for all students interested in driving any college vehicle. This course is mandatory for anyone intending to drive the vehicles and will be held from 4-5 p.m. in the Library Media room. Any questions about the course should be directed to Dick Muntis, Ext., 274, or Mr. Jim Rickard, Ext. 234.

one morning, and after school was out, she asked all the boys to go to the TV room and watch TV because she didn't feel good. Brian came back to her and said, "You feel okay; it's your heart that's hurt. I understand; my heart hurt once, too."

For sophomore Kathy Scott, four weeks at Shepherds Home for Retarded Children brought

many new insights into the field of teaching mental retards and also insight into the Lord's will for her own life. Kathy felt a tug in her heart when Sept. 15 came and she had to leave Union Grove, for through her experiences at Shepherds, Kathy learned the meaning of the word dedication applied both to work and to the Lord.

One of Kathy's many responsibilities was helping at breakfast time.

President Encourages Students

"Pray, study the Word and dedicate yourself to a good year of hard work," advises President James T. Jeremiah to all new students at Cedarville College. "Do it early and do your best for the Lord," he continues.

When asked about giving counsel to returning students, Dr. Jeremiah replied, "When anyone is in trouble spiritually or academically, talk to someone who can help, but don't wait until it will be too difficult to talk about."

President Jeremiah will be heading Wednesday's chapel sessions this year. He plans to speak to the Cedarville family many times throughout the year and will schedule speakers for

the days he is away. "On Campus" is the President's interview program on WCDR. He will talk with students, staff and special speakers, on campus about college activities.

Why does President Jeremiah offer advise to students, set aside his Wednesdays as "President's Chapel" and host the radio program "On Campus"? He is concerned about every student and staff member at Cedarville College and firmly applies II Timothy 2:2: "And the things that thou hast heard of me among many witnesses, the same commit thou to faithful men who shall be able to teach others also."

Extend Off Campus Library Service

For Cedarville College students, the problem of locating difficult research material will no longer be theirs. No useless trips will be taken to search out a book at a neighboring college. The Cedarville library, under the guidance of head of library service, Mrs. Alberta Chaffe, became a member of the Ohio College Library Center (OCLC), located in Columbus.

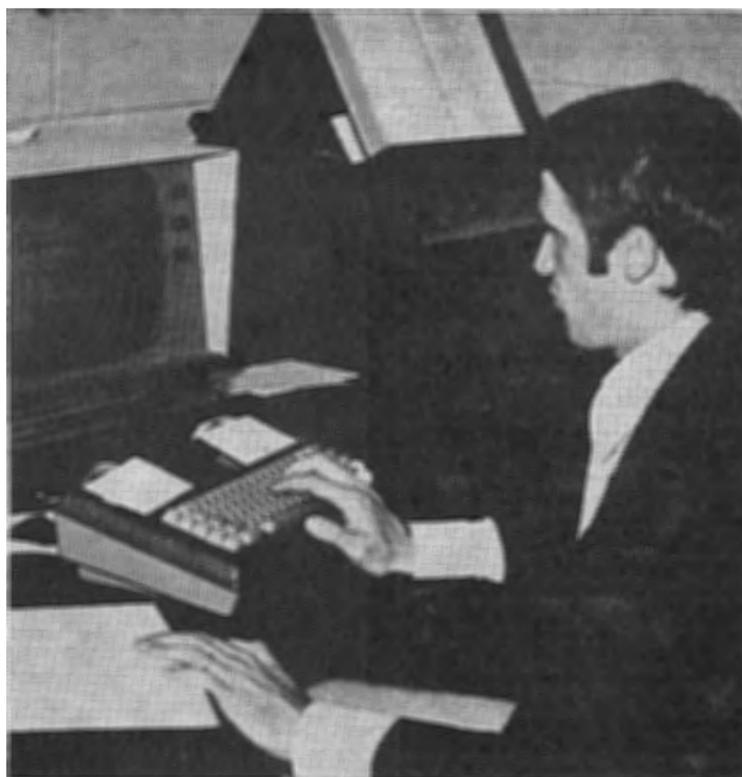

A computer and an operator can put a student or faculty member in immediate contact

with over 75 libraries in Ohio. Cedarville students can have access to over 14 million volumes from such schools as The Ohio State University, Kent State, Bowling Green and other schools within or without Ohio.

The Ohio College Library Center service was adopted in the Cedarville library in the fall of 1971 and now is in complete operation. The main objective of the OCLC is to increase resources for research and educational programs in Ohio

colleges and universities by providing a regional shared cataloging system.

One of the advantages for both the library staff and for the students and faculty is that much time is saved in cataloging material and in travel time spent in attempting to locate resource materials. According to Mrs. Chaffe, the OCLC terminal will lower certain library expenses involved in cataloging, and personnel time.

Mr. Brown demonstrates new OCLC computer service.

\$40,494 Walkathon Funds Disbursed

\$40,494 was the final total raised through the 1972 Walkathon last school year. A breakdown of the income shows that the general Student Body Project netted \$35,089 while alumni brought in \$3,903; individuals, \$502 and a church \$1000 making the present total. The last three groups put their money directly into the Science Center.

A list of expenditures compiled by Jim Rickard, accountant, shows that \$4,000, ten per cent, was given to the Campus Fellowship and turned over to M. I. S. The Student Loan Fund was initiated with \$1,000 and the dodge van, costing \$4,223, was purchased. \$2,500 was invested at 6% interest for the campus

mall, a future construction.

Outside portable bleachers cost \$1738 while inside bleachers for the gymnasium cost \$2,963. The scholarships won by walkers totaled \$2,750. Miscellaneous expenses ran to \$1,131.

The \$1500 designated for a new scoreboard has been held back while experiments with the intramural scoreboard are tested. Should the present scoreboard prove usable, this money will possibly be put with the \$1000 set aside for a new sound system, not yet purchased because the cost will be four-five times more than anticipated.

The Science Center received \$13,816.12. The general student lounge

has been carpeted and equipped with a new used color TV. These improvements in the GSC were \$872.88. After meeting with a library consultant, the library committee decided to carpet the study rooms, curriculum room and seminar room for \$1500. The remainder of the money was placed in a fund for future carpet purchases.

Plans originally allowed for carpeting the main study area and aisle now and carpeting the rest later. Because of a color match problem, this was not advisable.

With the \$40,494 raised during the Walkathon, many changes have been made for the comfort and enjoyment of the College.

Professors Advance Scientific Research

Dr. Larry Helmick and Mr. Bert Frye, two professors in the science division of Cedarville College, have spent parts of their summer in research work.

While working on chemical research at the University of Illinois, Dr. Helmick and his associates accidentally discovered what appears to be a new chemical reaction. This reaction involves a loss of oxygen from sulphur in a sulphoxide compound. They had begun the summer research

doing hydrogen-deterum exchange work but abandoned it to search for answers to basic questions about the new reaction.

During this school year, students will have the opportunity of working with Dr. Helmick in independent studies to further research on this reaction.

Dr. Helmick, professor of advanced chemistry courses, except bio-chemistry, plans to return to the University of Illinois next summer and continue his work, taking with him any compounds found this year that might simplify the chemical reaction.

Mr. Frye's summer research had two phases, the first in Tucson, Ariz., and the second near Sedilia, Mo. In Tucson, from June 15-July 6, Mr. Frye worked on further development of instrumentation in the field of astronomic polarimetry. This is a study of polarized light received from planets, the moon or space between the stars. The polarimeter, to be installed in

the Science Center in the summer of 1973, will be used in the new observatory with a 16" cassegrain telescope.

The second phase of Mr. Frye's studies lasted from Aug. 30-Sept. 16 when he researched spectral studies of the sun involving photographic recordings of solar spectra of all wave lengths of visible spectrum.

The equipment used for this study included a modified spectrophotometer used in chemistry. It incorporated a 16mm movie camera, which was used to take approximately 2100 pictures, mounted at the exit pupil of the instrument. The spectrograph was attached to a telescope mounting designed and set up in the summer of 1971.

In addition to the solar spectrum studies, Mr. Frye made a short photographic record of progressive movement of sun spot groups on the sun during a the course of three days while in Missouri. This he did with the 4 1/4" refracting telescope owned by Cedarville College.

This photographic record and the results of the solar spectrum study will be utilized in the Astronomy course and possibly the Physical Science courses taught by Mr. Frye at Cedarville.

Visible Campus Improvements Stimulate Student Motivation

"The goals of the Student Body Project for 1972-73," according to SBP chairman Jeff Kistler, "are first and foremost to glorify God and then to break last year's record." Jeff and the club advisor Ron Grosh have been considering ideas to accomplish these aims and are willing to listen to any idea on ways to raise money for the students' projects.

"Motivation is the key factor," stated Jeff. He feels

that if the students have the proper motivation to raise money, such as visible improvements around the Cedarville campus, they will work harder or any goal.

Committee members who are willing to work hard throughout the year are needed. There are no limitations on the number of students joining the SBP committee. Any interested student should contact Jeff Kistler through inter-campus mail immediately.

Dr. Wagner to Speak Here

The week of October 2-6 has been set as the annual Fall Bible Conference at Cedarville College. Featured speaker for the week long series of meetings, is Dr. Charles Wagner, pastor of the Temple Baptist Church of Tacoma, Washington.

Receiving his undergraduate degree from Detroit Bible College, Dr. Wagner has been active in pastoral work for over 22 years. He has pastored churches in Dearborn, Mich., Trenton, Richland and Everett, Wash., and his present position.

In 1970, he received his Doctor of Divinity degree from the Los Angeles Baptist College and is a member of the Board of Trustees of that institution.

In recent years, Dr. Wagner has written approximately 45 articles for the Regular Baptist Press Sunday School papers. He

has also written and published in the Biblical Evangelist, a six month's series of articles on the subject of Visitation Evangelism.

Dr. Wagner will be speaking at two morning sessions throughout the week, one at 9 a.m. followed by a 10 a.m. meeting. One evening session will be held in the College's Alford Auditorium at 7 p.m.

Soccer Lineup Posted

The 1972 Cedarville Yellow Jackets, winners of the Mid-Ohio Conference and NAIA District 22 titles, look forward to the coming season with guarded optimism. The Jackets will retain the majority of their offense led by Larry Bollback, but will have a young, inexperienced defense. The Jackets lost three starting fullbacks and the number one fullback replacement and their goalie off last year's team which compiled a 10-4 record, scoring 55 goals and giving up but 25 goals. Cedarville set three school records in 1971, most wins (10), longest win streak (5), and lowest defense average (1.79 goals per game).

Returning Lettermen

Larry Bollback — Co-Captain. An NAIA District 22 performer at forward, Larry led the team in scoring with 24 goals and 8 assists for 32 points. Larry's tremendous passing ability and elusiveness throttled teams who tried to double-team him.

Don Schill — Co-Captain. Don, a halfback, was a steady performer last season and made very few mistakes. His knowledge of soccer makes him a natural for directing both the offense and defense.

Terry Holley. Terry saw limited action in the goal last year, but in his only varsity start, he shut out a fine Malone team 3-0. Terry will be counted on heavily to bolster the Jacket defense.

Steve Spink. Steve saw action at fullback and halfback. His outstanding speed, stamina, and powerful kick will aid the defense.

Phil McMillen. Phil has great ability to use both feet, is an exciting player to watch, and is constantly on the go.

Jim Cavey. Jim has as fine soccer skills as anyone ever at Cedarville. Tremendous ball control and will score.

Tom Farlow. Tom improves with each game. Halfback last

Soccer players are getting ready for Saturday's game.

year; may be moved to fullback in an effort to strengthen the defense.

Bill Bacheller. Bill is a very aggressive and energetic player, plays fullback and halfback.

Newcomers

A fine group of first-year men headed by high school All-American Henry Diaz will greatly enhance the 1972 fortunes of Cedarville.

Diaz, a fullback from Cincinnati, New York, comes to Cedarville with outstanding credentials.

Six players moved up from the Junior Varsity squad to help build the 1972 team: Linemen John Battaglia and Dan Estes will give the front line plenty of hustle. Dave Romaine and Yontz Miller will be shooting for a halfback spot. Tom Kovacik's fine

speed and aggressiveness will find him a spot in the Jacket defense, and Ernie Benson will also add strength to the defense.

Three new faces who have been impressive are Dave Delancy, who has a powerful kick and great speed; Tom Cook, a talented freshman who will see a lot of action, and speedster Barrett Luketic who shows improvement every day.

The Jackets will bank heavily on "the rookies" and they may be the key to the 1972 season and many seasons to come.

To Freshmen & New Students

I would like to take this opportunity to personally welcome each of you to Cedarville College. I hope you are looking forward to the year as much as I am and that you are planning to get into the swing of things right away. May I encourage you to get involved — as much as your schedules permit — in campus activities such as clubs, athletics, prayer groups, Christian Service and a little studying now and then! Let me also encourage you to get to know your class and organization representatives to Student Council and to use them whenever you can to send your personal ideas to Council. Support your class and the school and I'm sure you will enjoy your stay at the 'ville. The Lord has richly blessed Cedarville College as He will bless you as you remain faithful to Him here at school.

Working for Christ and Cedarville College,

Steve Shank
Student Council President

Players Return For Soccer Camp

The men of the Cedarville College soccer team met Sept. 17 at the college for the beginning of soccer camp. Their first practice was Monday night with practices twice a day beginning Tuesday. The main stress was on defense. Their first scrimmage was Saturday.

The strong positions are line and half-back. The team has a good offense. Among the 25 players, nine will be returning to the soccer field this fall.

The Jackets will host Kenyon Saturday. Last year Kenyon, ranked 13 in the state, defeated Cedarville, ranked 16, with a score of 1-0. The Jackets will face the Wittenberg team Oct. 4.

Dear Freshmen And New Students:

The Student Personnel staff wants to take this opportunity to extend a warm welcome to new and returning students.

Several personnel changes have taken place since the 1971-72 school year. Mrs. Beatrice Priny, resident advisor of Harriman and South Halls, has graciously agreed to serve as Dean of Women during the current school year. Mrs. Priny will be in her office in the Administrative Building from 8 a.m.-3 p.m. Monday-Friday. She replaces Mrs. Virginia Ertle who is with her husband in Fairborn.

Martin Cossins replaces Fred Stickle as resident advisor in Williams Hall. He and his wife have a 17-month-old son.

Physical changes in the residence halls include relocation of entrances at Maddox Hall Lounge and improvement of lounge and restroom facilities at Williams Hall.

Tom Loper, Dean of Men, attended a six-week summer workshop on the development of a reading skill program. The expanding reading skill program at Cedarville will provide assistance to students at various reading levels. Although particular students will be invited to participate in the program, any student desiring to improve reading skills is encouraged to contact Mr. Loper regarding this service. Students are encouraged to take advantage of our study skill program, also coordinated by Mr. Loper.

We hope that every student is here because of God's leading and that each student will work diligently to accomplish His purpose in his life. College personnel stand ready to assist students in any way that we can.

Donald W. Rickard
Dean of Students

Cyclists Roar West

By Julie Moon

Miles and miles of road . . . cornfields . . . a desert . . . an ocean.

Miss June Kearney and Miss Maryalyce Jeremiah spent part of their summer touring the country. Their mode of transportation — a Honda 350.

Physical education professors at Cedarville College, Miss Kearney and Miss Jeremiah decided upon the trip last spring. It would be a challenge to say the least. Their purpose was sight seeing. Relating their plans to family and friends, they met much scepticism, but they also spoke with others who shared their enthusiasm.

In three and a half weeks, the two women, accompanied by two friends with a car and camper, traveled 6,016 miles from Xenia to San Francisco, Calif. and back. Traveling west they rode through the cornfields of Iowa, the Badlands of South Dakota and the Rocky Mountains of Wyoming. They spent six days in California and returned through the southern states.

Their day began with breakfast at 8:30 a.m. They traveled approximately 100 miles then stopped for lunch. After another 100 miles, they found a campground where they could spend the night. The evenings were filled with a rodeo, a baseball game and sight seeing.

Although most days consisted of 200 miles on the road, the longest day was a 500 mile trip from Salt Lake City to Reno, Nev.

Of the interesting places visited, they especially enjoyed Temple Square in Salt Lake City, and Chinatown and Fisherman's Wharf in San Francisco. While in Salt Lake City, Miss Jeremiah wanted to enter the Mormon temple, open only to members who tithed, did not drink tea, coffee or alcoholic beverages, were baptized, in good standing and lived by the golden rule. She felt that she

qualified, but Miss Kearney thought that she was lacking in the last point.

Traveling on, the two travelers awoke one morning after a rain on the Mohavi Desert to view a spectacular sight, a rainbow painted above the desert.

"Quite an adventure," is how Miss Jeremiah describes the experience. Her only displeasure was the cold weather they encountered.

Miss Kearney called the trip "exciting, but there are too many people in California."

There were no serious mechanical problems and asked if they would like to do it again, both answered "Yes" with enthusiasm.
