THIRTY-NINTH YEAR [NO. 20.

CEDARVILLE, OHIO, FRIDAY, MAY 5, 1916

PRICE, \$1.00 A YEAR

COUNCIL ORDERS WALKS, CURB AND GUTTERS

Council met Monday evening, all members being present. Reports of various committees were read and the usual monthly bills amounting to \$222.70 were ordered paid.

While council was discussing the electric light situation and ordering the clerk to take out a petition asking the Dayton Power & Light Co. to bill the lights flickered so that it was almost impossible to see. The members went into the street to view the street lights that were nothing more than flash lights. Unless there is a change and better service given council expects to hold up the entire amount this next month and make the company fulfill the terms of the franchise.

The mayor's receipts were \$27 collected from fines and licenses. President Collins and Clerk Andrew Jackson of the school board were present and presented a petition asking council for a grade for cement sidewalks, curb and gutter in front of the new school house. A resolution was passed authorizing curbs, cement walks and gutters on both the east and west sides of North Main street to the corporation line.

Gutters were also ordered on Cedar street where they have not already been put in. Council has been convinced that there is no use making street improvement until curbs and gutters are in so there will be the proper drainage.

The school board also asked that the alley north of the new building be re-located along the Ford property. This matter was referred to the solicitor.

The clerk was instructed to advertise for bids for oiling the same streets as last year with the exception of Main street from the bridge to the railroad. Several car loads of crushed stone will be used in making temporary repairs for this summer on Xenia avenue and North Main street.

Council recessed until Monday evening when the street paving comes up for consideration. It required thirty days after the resolution of necessity was passed before bonds could be authorized or bids called for.

NOTICE TO PROPERTY OWNERS

The Village Board of Health has set aside the week of May 15th for "Clean-Up" week. You are hereby notified to have all rubbish, ashes and foreign matter cleaned and carted from your premises. The duties of each property holder are defined in the Health Code that has been published and distributed in each home. Property owners alone are responsible. No other notice will be given.

*WILL REPAIR ROADS.

The township trustees have arranged for extensive road improvement this summer. The Yellow Springs pike will be improved with gravel macadam just as soon as the weather is favorable. It was thought that they could use stone but the cost was much greater than the funds permitted. The Columbus pike will be regraded and rolled from the corporation line to the Massies Creek cement road and plans are also under way for rebuilding the Jamestown pike. The county commissioners are co-operating with the trustees in this work.

BREAK INTO DEPOT.

When Agent Radabaugh went to the railroad station Wednesday morning he found that the office had been entered during the night. The ticket case was broken open but no tickets were missing. The money drawer is always left open at night and empty except with entrance was secured there. A suit box was torn open but clothes left undisturbed. A small box with stamps and less than a dollar were not noticed. The safe was not tampered with. Entrance was gained through a window that had been opened with a "jimmy." There is no clue.

W. G. T. U. NOTES.

The following seven state will vote on prohibition next November: Utah, Dakota, California, Nebraska, Montana, Michigan, Idaho and Alaska. Prohibition already prevails in nineteen states. The liquor men would like to make people believe that they were suffering from its effects, but the testimony of those in a position to know in those states is the very opposite. Newspapers which strongly opposed it during the campaign in Oregon have been courageous enough to come out publicly and confess they were mistaken.

There are certainly a good many things constantly being done which should, and doubtless do, discourage the liquor fraternity. The fact that the number of leading newspapers are constantly increasing who refuse their advertisements has led them to plan for a daily paper of their own through which they can disseminate their false teaching.

Another source of alarm is the defection a number of men from their camp. Ex-Governor Patterson was the first notable one. At first there was a question about his sincerity, but he is standing firm. Then there was Major Don Morgan Smith, a leading lawyer in the employ of the liquor interests. He owed his conversion doubtless to an interview with the state president, Mr. Richards, while delayed on his way to the state capital. J. H. Stafford and Nathan Cole, both in the employ of the liquor interests and drawing large salaries. But their conscience led them to make the sacrifice.

IN POLITICAL CIRCLES.

Those who follow the political game have been busy since the state primaries making comparisons and figuring out the vote. Senator Pomeroy, who was running for presidential delegate-at-large the same as Gov. Willis, the former on the Democratic ticket and the latter on the Republican ticket. Senator Pomeroy was the last man on the list. A glance at the vote in counties where the motorization of rural routes has been under way shows that the Democrats themselves do not like this kind of the Senator's views and so registered themselves primary day. This in itself should convince the Senator that his position on leaving up the R. F. D. mail service is not popular and indicates the way the straws will blow next November.

As for Gov. Willis his friends point with pride to his finish in second place. When you say the Governor's friends, you must take into consideration that he has a lot of them. In his state, 10,000 offices being voted, and drawing state pay by his grace. Certainly this makes a great showing on election day and they were all out for the primary with a friend or so. In some sections the vote was so close that the Governor did not win. This error ran first, especially in this true in the famous Eighth District where forty per cent of the state appointees come from, the Governor has not been elected. In that district the Governor had a personal organization known as the three-in-one, three state employees or their representatives for every voting precinct. By Senator Harding, who had every other county and district in the state fell to second in the Eighth due to the Governor's friends "single-shooting." In Washington county the Governor did not even know he was running, a solid anti-Willis delegation being sent to the state convention. The Governor's friends now claim that he has been vindicated and will be nominated without opposition. This remains to be seen. As the old reliable Western Star of Lebanon put it some time ago, "If the Republicans cannot win with Willis they cannot win without him." This indicates an open split in the party, just what the anti-Willis Republicans wish to avoid by nominating some one else. You might as well take a chance on losing with Willis as to have him directly admit that there is little or no chance with Willis heading the ticket.

Newspaper men are particularly interested in the announcement of a new daily paper in Columbus. Politicians are more interested in watching this venture as the move is without question for the mere sake of the Willis administration, a newspaper that will defend what at this time looks like a dangerous case to the Governor in facing the voters this fall. Some wealthy Republican headquarters asked that the newspapers carry Willis' name in a prominent place as a delegate to the national convention. Not one of the big city dailies and but few of the weekly papers even granted this request. The fact that the Governor was turned down then probably has something to do with it. At this time the new paper will be known as the "Monitor," now a political weekly in Columbus. The Governor has for some time had the support of this paper and the Democratic weekly. It might not be out of place to state that none of these weeklies are purely political and fattened out of the state fair funds this past year at the expense of the other weeklies. Secretary Dunlap was made the goat and given the boost in an effort to square Willis with the newspapers and the public. It was no trouble to see through the move of the Governor who in his cunning failed to cover his tracks.

Congressman Fess is having a deal of a time down in Washington according to the dispatches. Every now and then our representative wants to make a speech, a real speech not one of those speeches that are read but never spoken but printed in the Congressional Record defending Peary and attacking Cook, the arctic explorer, as an impostor. The other day Fess arose to address the House but it appears that he was talking to empty seats as only 75 of the 436 members remained to hear what he said. No mention is made as to how many of the 75 present are Republicans. For that matter, our Congressman takes the membership to task but if even one apologized the dispatches failed to say so. Fess' attitude in the Cook-Peary controversy, his attack on Representative Lovewell and the coming he gave Republican Leader Mann of Illinois has caused a division in Republican ranks in Washington and his own party members never overlooking the opportunity of landing one back in a lady like manner. Mann says that Fess makes speeches on Republicanism and party pledges and deplores the future of the party if the doctrine is not adhered to and the next day votes for President Wilson's idea of government. That's nothing. Mann and some more down in Washington are just getting acquainted with the Seventh District statesman. In the state campaign two years ago Fess declared in a speech at the Grand opera house in Springfield that state-wide prohibition was not the issue. In a speech in Xenia prohibition and temperance were important factors. One was delivered in a wet county and the other a dry county. When Mann learns the art of riding double then will he be able to travel with the Doctor.

FELL ON RAILROAD.

A man giving the name of Kaufman fell on the railroad Saturday at a point west of town. It happened that H. A. Barr and Noah DeVault were near. Telephone information to town brought Dr. Stewart who took the fellow to M. C. Nagley's. For a time he was thought to be dead but it developed that he had suffered a slight stroke probably due to the heat of the sun and weakness, the man not having had either breakfast or dinner and was walking from Dayton to Columbus. He remained here until Tuesday and was given transportation to Columbus.

OUR ELECTRIC LIGHTS.

The general public as well as local consumers of electric light have had their patience tried a good many times within the past two or three months. When the Dayton Power & Light Company took over the local franchise everyone expected a much better service, knowing that the company was giving good service in the other towns they are serving. It was with some hesitancy that council made the minimum rate \$1 a month instead of fifty cents but the promise of twenty-four hour service seven days in the week fully justified this raise. The company has kept this promise but our service at night the past few months has not been satisfactory in any respect.

It is expected that once in a while any company will have some trouble with the service. People are willing to overlook this, and things beyond the control of the management. But when the service is the same night after night people have good grounds for complaining to council.

A sample of the service last Thursday evening was but probably the fifth or sixth time of no lights within the past few months. It happens on Sabbath nights as well as other nights regardless of the fact that religious services are in progress. Last Thursday evening those at the R. P. church were disappointed, patrons at the opera house had their money refunded because there was no show due to an absence of light. The same was true of the picture show.

Every company and individual has a right to operate his or their business as he sees best but with a public service corporation it is something different. Certain requirements must be met to fulfill the purpose of the law and give people the service they are compelled to pay for. When we have trouble with an automatic electrical instrument at the plant here that ruins the service from the fact that it is not doing the work properly council must be held in check to protect our interests. The people are not going to sit in darkness while an employee is dispatched from Kenia by automobile to make repairs.

The Dayton Power & Light Company probably knows its business best but the fact must not be overlooked that the present franchise has only about two years to run and public sentiment will undergo a change between now and then if the company gets anything like the terms of the present franchise. Council has done its part by the company and been lenient in deducting for outages, the consumers have met their part of the obligation, it then is up to the company to make good or show good cause why they have not.

Women's Dream Is True at Last.

She Knows Why Multi-Millionaires Offer to Divide Fortunes.

To be a sufferer from nervous dyspepsia for ten years, and to bear all the tortures, mental and physical, that this all too common ailment brings, and then to find relief almost overnight, is like having a happy dream come true.

But this was the delightful experience of Mrs. Margaret Hunter, of 40 Eighteenth street, Newport, Ky. Mrs. Hunter, the wife of a well-known and highly successful real estate dealer in the Kentucky city, recently told of the long hoped for change in her life.

"For ten years," explained Mrs. Hunter, "I have suffered from nervous dyspepsia. When I read of the offers of multi-millionaires to divide their fortunes if they might be cured of this terribly distressful malady, I felt that in this way they most eloquently told of their sufferings, and I felt, too, that I would never be cured, because I had no millions to offer.

"I used all manner of remedies without avail. Even the strictest dieting did not help me materially. Food in any form was absolutely repellant at most times. But worst of all, of course, was the constant nerve strain. I had all of the symptoms that dyspepsia causes—headaches, backaches, and pains in the kidney regions, nausea, dizziness, sleeplessness, bad taste in the mouth, a coated tongue, forming of gas in my stomach and bloating, and I was in a generally run-down and thoroughly nervous condition.

"And then came the joyful surprise. After the first few doses of Tanlac I was benefited. Now I am back to a normal condition, nerves quieted, restful sleep, and my food digesting as it should, and, of course, I am gaining strength daily.

"My husband, who has seen the splendid effect of Tanlac on me, has also taken it. Tanlac, that inspired this intensely interesting story, big in importance to men and women everywhere, now is being introduced in Cedarville by C. M. Biggway, where it is being carefully explained daily.

Tanlac may be obtained in Yellow Springs at the Finley Drug Store; South Charleston, Claude W. Deem; Jamestown, W. F. Harper; Kenia, Sayer & Hemphill.

Fashion Notes For The Autumn

Buttons are to be largely used as dress trimmings, present indications predict.

Smocks are now made of jersey cloth and are delightfully soft and supple in spite of their fullness.

Plain felt hats, untrimmed, are worn for sports. They are made in bright yellow, green, blue and pink and also in white.

Contrasting linings in coats for day and evening wear are usual. Often figures are used for the linings, and some smart coats are lined with two colored checked silk.

Sleeves on some of the new evening frocks are no more than little ruffles, sometimes of tulle edged with beads and sometimes held out with a flexible wire at the lower edge.

Buttons seem an odd hat trimming, yet three big white pearl buttons are fastened on the twilled ribbon band that encircles the crown of a broad brimmed black velvet hat.

A hem of tulle is used on some evening frocks of taffeta for young girls. The skirts are exceedingly short and full, and the tulle hem extends about two inches below the taffeta.

Big Quaker collars are made in many materials. First of organdy or other plain sheer white fabric, they are now made of white or colored mill and even of lace or all over embroidery.

Beads are embroidered in a design that incrusts the ends of some of the new black silk and satin hand bags. They are mounted in silver and have strap handles of ribbon or stitched silk.

Prediction is made that for autumn wear voile and etamine in heavy, coarse weaves are to be featured. These are both desirable fabrics, for they have an element of durability that makes them economical.

Silk jersey suits are worn for sports. There are a sweater jacket and skirt, usually a cash or scarf to match, and often a jaunty little cap, made with a point on each side, one ending in a tassel, the other fastened down with a silk covered button.

Lacings appear in some of the new frocks and blouses. Sleeves are sometimes laced from the elbow to the wrist, sometimes from the shoulder to the elbow. Lacings appear down the front of blouses and at the collar. The lacings are contrasting color usually.

Fur trimmed sweater coats, too, are gaining in fashion. Made in pink and blue and pale yellow and white silk, with hems and collars and cuffs of white fox, they are admirable for wear with afternoon and even evening frocks at the seashore and in the mountains.

The idea of the Balloon. The first practical idea of the balloon originated in the latter half of the eighteenth century, when the Montgolfier brothers, nothing how smoke rose upward into the air, conceived the idea of filling a bag with smoke. The development of this idea resulted in the construction of the first hot air balloon in June, 1783. This consisted of a spherical cloth bag about thirty-five feet in diameter and inflated over a fire fed with bundles of chopped straw. The next step was the use of hydrogen gas, and the balloon was practically invented as used today. The use of this gas was the idea of M. Charles, a professor of natural philosophy at Paris. If you can't sleep for nervousness take a Dr. Miles' Anti-Pain Pills.

In Miniature--But In Exact Detail

For One Week Beginning May 8th On our Fifth Floor

This is a wonderful masterpiece of art, showing the buildings, San Francisco Bay, the Golden Gate, etc., and you will be spellbound as you listen to the lecturer's explanatory talk and watch the changes from the sunlight scenes to the electric lighting, and then the silvery moonlight.

The surrounding scenery, too, is indescribable.

We invite every man, woman and child to see it.

Chalmers C. White and wife, of Steubenville, Ohio, have been here on a visit to see relatives here and at Xenia. Mr. White came here to pay a pilgrimage to the grave of his mother, Mrs. Margaret Mitchell Kyle White, who is buried at Massies Creek cemetery. Her remains were reinterred in the place on her grave monument, which was placed by the old Greenanor cemetery at Newberry, S. C., where her ancestors, the Whites and Chalmers, were buried before the R. F. migration to the Miami Valley.

Miss Clara Mae Dodds, public health nurse of Xenia and Dr. S. I. Dodds and Miss Mary Holtz, from the Ohio Blind Commission, conducted medical examination in the schools here Wednesday. The examination was conducted under the request of the Parent Teachers' club. The eyes, teeth and tonsils were tested.

The late train will stop next Wednesday and Thursday for all who wish to attend the Ladies' Missionary Society Convention in Xenia and return that night.

The Library closed May 4, and will be closed ten days for interior decorating. Further notice will be given about the return of loaned books.

Mr. Stewart Jackson, of Columbus spent Sabbath with his father, Rev. H. P. Jackson and wife.

Revised Note. Never do anything disagreeable today that you can just as well put off until tomorrow. By that time you may not have occasion to do it.

Give Them Their Due. A great many men are blamed for idleness when they should be praised for not getting in the way.

C. C. C. REPORT.

Cedarville Community Club, Board of Governors met at the Mayor's office on Wednesday evening the different committees reported progress. W. A. Turnbull, chairman of committees on entertainment, reception and finance resigned and O. L. Smith was chosen his successor.

The following slogans have been submitted to the Club, and are here presented that they may suggest others which will be received by the secretary until 7 p. m. May 15. The contest having been extended until that date. Send in your slogan, you may be the winner, if you are you will receive a prize of one dollar. "Cedarville Comes Across" "Boast Cedarville" "Cedarville Famous" "Cedarville is Growing" "Cedarville Coming" "Come To Cedarville" "Vim Vigor Victory" "Cedars Always Growing" "A Better Town" "Cedarville First" "Morality, not money first" "Cedarville Compels Consideration" "Cincinnati Cedarville Columbus" "Cedarville not coming but has arrived"

A number of other excellent slogans have been presented that require display to bring them out as intended. It is impossible to reproduce them at this time. Word has been received here of the death of Mr. Jephtha G. Dunlap, a former well known citizen, who died last month at his home in San Jose, Cal. No particulars of the death are known at this time. Mr. Dunlap was never married and has not been back here since 1891. He was about 80 years of age and is survived by but one member of his family. Mrs. Lillie Lumerick, who picked from the grave in the old Greenanor cemetery at Newberry, S. C., where her ancestors, the Whites and Chalmers, were buried before the R. F. migration to the Miami Valley.

The Men's Bible Class of the M. E. church gave a social in the church last Friday evening in honor of their wives and lady friends. Ice cream and cake were served.

Xenia colored people have started a movement for a hospital for the treatment of patients of their own race.

Petitions are still being circulated in Xenia for paved streets, a number of new ones being started this week. The Jamestown council has started the advertisement for the sale of \$25,000 in bonds for street improvement, brick being used in the center of town. The notice also appears to contractors for bids on this work.

CLIFTON U. P. CHURCH CHIMES.

—Christianity is built on an empty grave.
—I shall be I wonder. We do not lose our personality in heaven.
—Let us continue to remember in our prayers the homes recently bereft of loved ones.
—Merle Rife is leader of the Mission study class Sabbath evening.
—The National Meeting of the Missionary Societies of the U. P. Church will be held in Xenia May 9-11. Women especially, but also many men will desire to attend. Mrs. J. M. Bull of Springfield represents Xenia Presbytery.

—A letter from one of our invalid members recently with the referendum vote, brought more cheer to the pastor's heart than anything has done for a long time. The Chimes columns reaches a much larger audience than the pulpit discourses, it seems.
—Real churches aren't made by men afraid

—Lest somebody else goes ahead; when everyone works and nobody shirks
You can raise a church from the dead.

—Whether or not the minister has something to say to you at church you have something to say to God and He has something to say to you.

—Presbytery meets at Xenia Seminary Chapel Tuesday, May 8, at 2 p. m. Mr. A. L. Ferguson is our delegate.

—Walter McClure will supply the Colorado Mesa congregation during the summer vacation. This congregation is located near Olathe, Colorado, and is where the widow and sons of Rev. H. B. Turner reside.

—The devil has little to fear from the spirit of activity generated in a poor ventilated church, and I am not so sure but that he makes it his business to overcome any efforts towards better ventilation. Efforts towards better ventilation always stir up the devil. During the singing, some brother who believes in life, liberty and the pursuit of happiness, for each one of which a bountiful supply of fresh air is necessary, will pull down a window. Sister Jones will immediately begin a dry coughing, and some other fur bedecked sister will shiver. There are strong signs of indignation and mystery about the scene at the open window.

—The same anaemic brother with blood in his eye will jam that window down hard with a look that challenges the fresh air cranks to mortal combat. Then for sixty minutes, if not more, the audience breathes one another's breath, and becomes stupefied, and dreamily half carried to the skies on flower beds of ease, surrounded by clouds of carbon dioxide. They would object to washing one another's feet, but do not object to breathing one another's breath, which certainly has much more need of being washed, and even fumigated.

—It may be that your friend has done something that has hurt your heart. It is a little hard to bear, but have a good talk with him. Possibly the fault may not be all his. If you have not lived just as you should, live better, so that no one will ever think of saying mean things about you.

—When some man is making a hard fight against any bad habit, give him a little bit of a lift. Don't hit him when everybody is running him down. Find his good side and incline to share him, tell him that it is not the best way to help him to get on the right track.

—Messrs. Walter and Cameron McClure visited with their uncle and aunt, Dr. and Mrs. C. M. Ritchie, Wednesday and Thursday.

—Mr. Carey Ritchie resumed his work in Cedarville College last Monday. He will finish the term and attend the Summer School.

—Robert Harris, after a week's visit with home folks, returned to his place in the Navy. He is on the New Hampshire battleship.

—Dr. C. M. Ritchie has been appointed by Xenia Presbytery as a delegate to the General Committee of Missions at Detroit and to the General Assembly at Cleveland which will require his absence May 16-31 inclusive in the interests of the Presbytery.

—Every Sabbath ought to be an Everybody go to Church Sabbath. Audiences are improving and to make up for absences last winter let us all resolve to be in our place in the sanctuary every Sabbath.

Serious—Looking Heavenward. May 7. Differences among Redeemed.
