**BE SURE AND VOTE.**

There is no contest for either township or municipal office this year that will have a tendency to bring out a large vote but there are issues of more vital importance than ever. It is no question but that the public has been somewhat different this year over the prohibition issue and for that reason electors are urged to come out and cast their ballot on the side of the homes and for the protection of not only the children of today but of future generations. We are facing a situation never before experienced but voters should not let this keep them away from the polls. Troubles abroad can only be settled by having peace and happiness at home and this is only possible through the abolishment of that which drags down American manhood—alcohol.

**IMPROVING OPERA HOUSE.**

The township trustees at a recent meeting ordered a number of improvements about the opera house. A new stage carpet will be purchased and new matting laid in the halls and aisle. The dressing rooms under the stage have been redecorated. When the trustees provide storm doors they will not only please the patrons but will enable the house to be better heated in cold weather.

**Drys Will Make Big Gains in Wet Counties.**

**GLIMPSE—OVER THE FIELD**

Expect Wet Majority in Cleveland, Cincinnati, Columbus and Toledo to Be Scattered Down—Cleveland and Columbus Newspapers Are Powerful Factors For the Dry Cause—Expected Wet Majority in Cincinnati Will Fall Below 40,000 and That Franklin County Will Go Dry.

Cleveland—There are some enthusiastic dry workers here who actually believe this city and county will break even on the wet and dry vote November 6th. No doubt they are over-enthusiastic. It is generally believed, however, that the wet majority of two years ago will be brought down until the wet majority will not be near so wide as in 1915.

The drys are the aggressors. They have the best organization ever put up here. In every ward they will have the assistance of formerly wet men. Business and industrial interests are assisting them and labor is more friendly than in former years. The drys of Cleveland made many friends for their cause when they cancelled the Bryan meeting because it was scheduled for the same evening booked for a monster Liberty Loan meeting. Another big assistance to the drys here is the attitude of the Plain Dealer, which until this campaign, was recognized as the advocate of license. The Plain Dealer is the only morning paper in this, the largest city in the state, and its vigorous advocacy of prohibition means thousands of dry votes.

The Outlook in Cincinnati. Cincinnati—The wet and dry campaign in this liquor stronghold is not entirely satisfactory, viewed from the wet standpoint. Of course Hamilton county will continue to vote wet but the liquor interests are not dominating public sentiment here as in former campaigns.

Many business and professional men are out in the open for the drys, and the papers, while not dry editorially, are carrying effective dry advertising, showing that the city must draw its trade from an area almost wholly dry, and that it cannot keep the good will of the people of this territory by kow-towing to beer and whisky.

It is noticeable that merchants are not permitting wet cards in their windows as in former campaigns, and in numerous ways there are indications that many voters are ready to break away and vote dry. It is believed the wet majority in Hamilton county will not exceed 40,000 this year and many keen observers do not believe it will reach this figure. Two years ago the wet majority in the county was 65,444.

Ohio's Capital City. Columbus—The capital city of Ohio, together with Franklin county, will give a dry majority November 6th. The drys claim it and the wets do not deny the claim. Two of the three English daily papers are advocating the adoption of the dry amendment, and not one of the three will accept wet campaign advertising.

While the local Democratic organization now in control of the city is noticeably wet, it is in such bad repute even with Democrats, that it is a liability to the wet cause. The drys have held scores of factory meetings and report most friendly reception from the men. Here, as elsewhere, drinking men are sore over the increased prices of all kinds of liquors, and threaten to vote dry to even up, for they realize saloonkeepers are making them pay not only the increased war tax, but also a credit on this tax. Two years ago this county, including the city, went wet by a little more than 2,000 majority.

Looks Good in Toledo. Toledo—This is a city of working men. The drys have put on a hot campaign in the factories and are pleased with results. Nearly 300 dry shop meetings have been held and leaders report the workers favorably inclined to the dry side. In fact many of the best workers in the dry organization are shop men.

The business and professional men of Toledo, as well as heads of the big industries, are giving the drys a boost. Talk about clubs, cigar stores and on the streets is to the effect that the wet majority of two years ago in Lucas county will be cut in two. That majority was 8,925.

Former Wets Now Drys. Many former wets are out in the open this year for state prohibition. Not a few of these one time liberals, are serving on dry campaign committees and are giving time and money to the cause. The economic phase of prohibition is strongly appealing to employers, while never before has labor been so inclined to vote dry. This is due in a measure, no doubt, to evidence from dry states which shows that labor is benefited.

**We'll Have to Dress Warmer This Winter; Dayton Stores Prepared**

Houses won't be heated to the usual high temperature this year. There is serious shortage of fuel for the nation and the people have been called upon to be sparing in its use. They will! All must rely more on clothes for warmth indoors as well as out.

Warmer underclothing for men, women and children; or warmer suits and dresses will be the general rule. Dayton stores are stocked with great variety of garments of comfort as well as style; and offering them at low prices. Come for suits, dresses, cloaks, furs; for overcoats, suits, shoes—for any needs of yourself or home.

Pittsburg, Pa., (Special)—At the National Coal Association's convention held here a resolution was unanimously adopted pledging Dr. Garfield and his Fuel Administration the full support and co-operation not only as an association but of the members as individuals as well.

**RESOLUTION OF COAL OPERATORS.**

"Whereas, Proceeding under the war emergency act passed by Congress, known as the Lever Act, the President, on August 23rd, appointed Dr. H. A. Garfield as Fuel Administrator of the United States for the period of the war, and

Whereas the Board of Directors of this Association, immediately after his appointment, met Dr. Garfield and expressed their confidence in him and offered their assistance and co-operation in dealing with the many difficult problems arising from the serious shortage in the country's fuel supply, and

Whereas that confidence then expressed has grown and developed thru closer acquaintance and association, now

THEREFORE, BE IT RESOLVED, that we the members of the National Coal Association, assembled here together in our first full meeting do hereby reaffirm our confidence in Dr. Garfield and his Fuel Administration and pledge him both as individuals and as an Association, our fullest and most enthusiastic support."

The Pittsburg Post commenting editorially on the convention says: "The spirit exhibited at the meeting here between Dr. H. A. Garfield, the national fuel administrator, and the 1,000 delegates to the conference of the National Coal Association, gives assurance that the fuel problem will be solved. It showed the operators animated by patriotism and the Government as recognizing this."

A Coal-Car Crisis Only. There is in fact no coal crisis. But without a doubt there is and for months has been a "coal-car" crisis. Just 50 per cent of our efficiency is now being secured from many of the coal cars now in use.

Recently the Hocking Valley Railroad was ordered to take from the G. & O. road, 300 loaded coal cars daily at South Columbus. This was so manipulated by the railroads that government approval of the order was secured. Result: Every day since the day that order took effect, there could be found standing in the Nelsonville, Ohio, coal yards from 1,000 to 1,700 loaded cars of coal which could not be moved.

The 300 cars above referred to which come from West Virginia and Kentucky coal fields, several hundred miles distant, could now be delivering twice as much coal to consumers—600 cars instead of 300 cars—if they were loaded at Ohio mines which are idle part of the time on account of the above order.

Abundant Mine Capacity. There are three things necessary to a maximum production of coal at market:

- 1—Sufficient mine capacity.
- 2—Sufficient laborers.
- 3—Railway facilities for transporting coal.

The first of these has been abundantly taken care of by the coal operators. Hundreds of thousands of dollars have been spent for new mine openings and for increasing the capacity of old mines, so that the present mine capacity is more than ample for every need.

There is a labor shortage as in other industries. Lack of cars at mines so reduce the earnings of miners that they go to other industries, where they can work full time.

The railroads have failed miserably to keep pace in car supply and motive power with the vastly increased capacity of the mines.

If the country, in all its activities, public and private, is to be amply supplied with fuel we have now reached the place where the railroads must rise to the demands of the situation and perform their part of the service. The blame can no longer be shifted to the shoulders of others, for the facts reveal the truth of the situation as to railroad failure and daily both the government and the people are becoming thoroughly familiar with those facts.

### OUTLOOK IS GOOD FOR OHIO DRYS

Wet Have the Worst of the Situation.

### BEER MAKES WEAK FIGHT

Liberals Disappointed With Process of Campaign While Observers of the Centest Believe Drys Will Win the State Because of War Conditions. Newspapers Give Wets Black Eye.

Columbus (Special)—Dry managers here believe Ohio will vote out the saloons Tuesday, November 6th. Wets admit the tide is against them, while those who are watching the battle going on between the contending forces, agree that the drys have the best of the situation.

Here is the outlook as diagnosed by the men who are on the bleachers watching the battle.

If the drys get out their vote, they will win.

Thousands of former wets will vote dry this year.

The drys have put up a more effective campaign than the wets.

The war is influencing many former wet men to vote dry.

Now that soldiers are prohibited from drinking, the same prohibition should apply to civilians.

If drink affects the efficiency of the soldier, it should not be permitted to affect the efficiency of the men back of the soldier.

Beer wastes more food stuff than whisky. Now that the making of whisky is stopped, there is no reason why beer should be made.

The license law has proved a failure and now it is time to apply the remedy of Prohibition.

Many of the brewers are pro-German, and Ohio has no patience with traitors.

These are a few of the reasons why Ohio will vote dry as viewed by the onlooker.

That the war has given impetus to the dry cause in Ohio is the general belief. The necessity of conserving man power and food stuffs is universally recognized, and that the liquor traffic wastes both is as universally admitted. Then too, the disloyalty of the German-American Alliance and its close relationship with the pro-German brewers has convinced many voters that a ballot cast for a dry state is a vote against a German ally.

That the liquor interests have put up a weak campaign is acknowledged even by the liberals. There has been no effort to defend the saloon, and even the license law has not been referred to. The old revenue and personal liberty arguments are regarded as moth-eaten. No reasons worth while have been advanced to cause thinking men to determine to vote for the retention of the saloon.

The worst blow given the wets is by the newspapers. With few exceptions, the press of the state is advocating the adoption of the dry amendment. A swift punch was administered by the Cleveland Plain Dealer, once the champion of license, but now asserting that license is a failure, that paper commends Prohibition as the only remedy.

Then the Columbus Dispatch and the Ohio State Journal brought consternation to the wet camp by declaring for state-wide Prohibition, while the Toledo Blade, Youngstown Telegram and scores of smaller papers are urging the adoption of the dry amendment.

These are a few of the reasons why the drys expect victory Tuesday, November 6th, why the wets are panicky, and why a dry triumph is predicted if farmers will go to the polls. A big vote means Ohio dry, and the Ohio Dry Federation is working day and night to insure a big vote.

#### Will Watch Record.

Columbus—State leaders of the drys are taking every precaution to insure an honest count of the votes on the night of November 6th. Many deputy sheriffs will be sworn in throughout the state and they will be instructed to exercise their authority if any move is made to tamper with the ballots.

#### Two Counties in Contest.

Warren (Special)—Two years ago Trumbull county gave the state-wide Prohibition amendment 3,084 majority, the largest dry majority given by any county in the state. The dry majority in Ashtabula county in 1915 was 2,841. Now Ashtabula county has challenged Trumbull for the champion dry majority on the 6th of November. The challenge has been accepted and the fight is on.

#### How It Looks in Mahoning.

Youngstown (Special)—In 1914 Mahoning county gave the dry amendment a majority of 198, but at the election two years ago, the wets carried the county by 126 majority. This year Youngstown says the county will go dry by a bigger majority than in 1914.

#### Arrests On Increase.

Youngstown—At the present rate of arrests in this city, the total for 1917 will reach 20,000, breaking all records. Of these, 14,000 will be due directly or indirectly to drink, according to the Telegram of this city.

# LEAD US NOT INTO TEMPTATION

## Would You Vote to Make Your Son a Drunkard?

Would you vote to continue the saloon in Ohio, certain that thousands of young men will not be able to withstand the lure and temptation of the saloon and will become drunkards?

Would you vote to hang a cursing, blighting handicap, on the future men and women of Ohio?

Would you vote a hundred million dollars to the saloons of Ohio?

Would you vote boys and girls, young men and young women worth many times a hundred million dollars to the saloons of Ohio?

### "MEN OF OHIO

### Lead Us Not Into Temptation"

"Deliver us from the lure and temptation of the saloon. We, the boys and girls of Ohio living in the Saloon Shadow, implore you to Help us have sober fathers and mothers.

Help us get two, sometimes three, nourishing meals a day.

Help us have comfortable clothing.

Help us have shoes for winter.

Help us go to school.

Help us grow up without hearing cursing, screaming, fighting, when father comes home drunk.

Help us, protect us, from Fear that lurks behind every opening door.

Help us to healthy bodies and clean minds.

Help us to love and laughter and sunshine and happiness.

Help us for the sake of Ohio's Future.

Help us for your own sake and for the sake of your boy and girl.

You can Help us in all these things by voting Dry on November 6th."

Ex-Governor Frank Hinley of Indiana spoke in Xenia Monday afternoon in the interest of the drvs. Voters were urged to make it a matter of importance to go to the polls Tuesday and take their friends along with them.

The war situation comes home close to all when some member of the family is called away. Men may have their millions but in most cases influence has counted for little. Henry Ford has been a prominent factor in offering his great manufacturing institutions to the government but when his son, Edsel, aged 23, vice president of the Ford company was called, legal proceedings were started to have the young man exempted and the case is still in court, though the exemption board refused to take action.

The many friends of Mr. Fred Clemans were glad to see him about the streets Saturday after a long illness. Mr. Clemans was confined in the McChubb hospital several weeks and although still weak looks much better than his friends expected at this time.

A big time is in store for Dayton, Saturday, November 10, when 600 boys from Camp Sherman will drill on the Fairgrounds in that city. Two Dayton football teams will meet a picked team from the big camp and the proceeds will be used to provide the necessities of the boys in camp. The admission is \$1.

Mrs. Margaret Andrews, known to many here died last Wednesday at the home of her son, Carl Paul of Dayton, where she had made her home for several years. The deceased died of heart trouble and leaves two sons, Carl and Roy, of Dayton and one step-daughter, Mrs. Wallace Barnes, of Loveland, Colorado. The funeral was held Saturday. Burial taking place in Xenia.

The Chevrolet touring car now has the one man top and demountable rims. For the price it is the best proposition on the market.

Owens & Son, Agents.

Mr. G. A. Shroades and Mr. Charles Turner and wife drove over to Woodstock, Sabbath, to visit their sister Mrs. Ella Shroades Hardman. On their return trip while passing a bad place in the road where a grade had been recently filled the machine slid against a guard fence that took off one lamp and the fenders on one side. The fence also kept the machine from turning over. Word has been received since that Mrs. Hardman died Monday night of paralysis. She was 69 years of age and is survived by her husband and two daughters, Mrs. Raper Hicks of Dayton and Mrs. J. W. Cochran, of Toledo. The funeral was held Thursday at Woodstock.

Miss Harriet Eleanor Turner, only daughter of Mr. and Mrs. David Turner was married Thursday evening to Mr. Frank E. Spahr the ceremony being performed by Rev. M. G. McElben of the Clifton U. P. church. There were no attendants, the bride and groom taking their places before the officiating minister. The bride's table was decorated in green and white and the following were seated with the bride and groom: Misses Bertha Creswell, Mae Corry, Jessie Shaw, Carrie Rife, Maud Shaw, Mr. and Mrs. Morton Dallas, Messrs. Frank Turner, Earl Spahr and Samuel Wright. After a short wedding trip the bride and groom will be at home on the Turner farm.

The Rev. Herbert Bigelow, of Cincinnati, Socialist speaker, who addressed the farmers' institute here several years ago, was taken by a band of night riders from in front of the I. O. O. F. hall in Newport, Kentucky, Sabbath evening to a point in the Kentucky hills and there given a horse whipping after being stripped of part of his clothes. His hair was cut in patches and crude oil turned on his head. After being released by the band that traveled in about twenty autos he was turned loose and wandered in the night until he reached Florence, Kentucky, where he was taken into the home of a physician and given treatment and clothing. The leaders were all masked in white and the lash was applied in the name of the outraged women and children of Belgium. Bigelow has been making public addresses for peace.

The girls of the college entertained the boys this year at the annual Halloween party which was held at the home of Miss Alberta Casewell. The boys had been asked to mask and have their autos at the college at seven o'clock where they would get orders. They were directed to Mr. J. R. Orr's, Richards Drug store and then to J. H. Creswell's where they received separate instructions finally reaching Mr. J. H. Creswell's. Ghosts met them at the door and after the guests all arrived Prof. Schneider told a ghost story while that which represented part of a man's body was passed through the house. Then came the ghost wedding and other games with a Halloween supper. Ghost stories were told by Dr. McChesney, Prof. Allen and Prof. Sloan.

Hastings. Many victories have come through prayer. Let us not neglect this means of assisting in the fight for prohibition.

An all day meeting for prayer will be held on election day at the R. F. church on Main Street, beginning at 8:30 and continuing until the poles close. The following are the leaders chosen and the hours assigned each: Ralph Elder, 8:30; Rev. Patton, 9:30; Mr. Elwood, 7:00; Rev. Fulton, 7:30; Miss Jennie Ervin, 8:00; Mrs. W. W. Trout, 8:30; Mrs. Eveleth, 9; Mrs. Patton, 9:30; Mrs. McMichael, 10; Miss Lounejo Sterrett, 4:30; Mary Cooper, 11; Alberta Creswell, 11:30; Rev. M. Michael, 12; Mrs. W. W. Wilson, 12:30; Mrs. Stewart Townsley, 1:00; Miss Schneider, 1:30; Freda Trumbull, 2; Millie Parker, 3:30; Mrs. James Creswell, 4; Mrs. J. E. Kyle, 5:30; Mrs. Elizabeth Sterrett, 4; Miss Elizabeth Blair, 4:30; Miss Rosa Stormont, 5; Dr. McChesney.

Colors of France. The cockades of the French revolutionists were composed of the red of the Paris commune and the blue of the ancient monarchy. In the troubled times just before the deposition and execution of Louis XVI, Lafayette, to signify the desire of the people for a reconciliation with their king, added the Bourbon white to the cockade. The tricolor as a national emblem was adopted by the convention in 1794.

Voice Quality. You cannot classify a voice by the degree of height or depth the singer may be able to reach. The class to which a voice belongs is determined by its quality, or timbre, as the French say. Some baritones can sing tenor parts, just as sopranos can sing the alto parts, but that does not affect the principle at all. It is the timbre of the voice that decides its class.—Exchange.

A Secret Defined. A secret is a thing which you communicate to one whom you can trust. He in turn tells it to somebody that he can trust, and that somebody reveals it to another somebody whom he can trust. And so it goes the rounds, but it is still a secret, although everybody knows it.

MAIN STREET, XENIA, O.

**By Midnight Wednesday Sept. 12th**

Up to midnight, September 12th, during a period of 8 1/2 months, we sold and delivered to tire dealers more United States Tires than we sold to dealers during the entire 12 months of 1916.

This phenomenal sales increase was made notwithstanding our epoch-making sales increases of 1916 over 1915.

These record-breaking sales increases of 1917 over 1916 and our record-breaking sales increases of 1916 over 1915 definitely and finally prove three facts:

1. The supremacy of United States Tires.
2. The fact that the vast army of automobile owners who used United States Tires in 1916 are using them in 1917 on the sheer merit of their experience.
3. The fact that another vast army of automobile owners have been won over to the use of United States Tires in 1917 on the sheer superiority of our tires over other tires that they have tried.

**BIG COAL CONFERENCE**

The Pittsburgh Press commenting editorially on the Coal Operators' Convention, says: "It is a highly important conference that is in progress in Pittsburgh today between National Fuel Administrator Garfield and 1,300 or more coal operators representing the principal bituminous producing interests of the country. Dr. Garfield is here presumably for a double purpose. He comes not only to talk, but to listen. On his own behalf and that of the government, he will set forth the government's requirements of the coal industry; and on the other hand he will hear from the operators, if he gives them proper opportunity, just what they think the government must still do in order to make it possible for the industry to maintain output at the desired high level.

Co-operation Means Promising Than Coercion.

"There are two difficult problems that government and operators alike must deal with, and there is little promise of success unless the government is brought to realize fully all the obstacles that even the most patriotic operator has to overcome. Let his loyalty be as unquestioning as it may, he must keep expenses somewhere below income if he is to avoid insolvency, and the 'trade' is very eager to know to what extent the power of the government is to be employed co-oper-

**UPHOLDS DRY CLAIMS.**

Is There Ever a Fair Election in Cincinnati.

Columbus, O.—(Special).—In the state-wide prohibition election of 1914 the wets polled 588,325 votes and the dries 604,177. The wet majority was 84,152. In 1915 the wets polled 510,377 votes and the dries 484,969. The wet majority in 1915 was 55,408. There was a slump in the wet vote of 47,952 in 1915 as compared with 1914 and a slump in the dry vote of 19,208.

The temperance forces assert that the recent evidence upholds their contention that the dries did not have a fair count in either the 1914 or 1915 state-wide prohibition campaigns. Cincinnati has had election troubles, whether Republicans or Democrats were in control. Both parties in that city are dominated by wet interests and the dries declare a fair election is difficult until the liquor traffic is driven from the state.
