### New Idea Spreader Is Best

Since we began telling in the public press about the New Idea Manure Spreader, our store has been a central point of interest with farmers for miles around.

And to a man, they all agree that the "New Idea" is the most practical spreader they ever saw. Even men who have used other spreaders for years, quickly concede the superiority of the "New Idea."

Now, this is very gratifying to us because we took the New Idea Agency only after personal investigation, and this unanimity of approval confirms our good judgment. There isn't a doubt that the

**NEW IDEA**  
Registered U.S. Patent  
**Manure Spreader**

will handle manure—fresh or stored—easily, economically and efficiently. A chain conveyor carries the manure to two cylinders, revolving one over the other, where it is thoroughly mixed and pulverized. Then, swiftly revolving steel paddles distribute this fine manure over a strip wider than the wheel base of the machine itself—actually across three corn rows. The "New Idea" will spread 3, 6, 9, 12, 15, 18 loads per acre according as the feed lever is set and do it evenly. It is built low, mounted on wide tire wheels, and strong enough from kingbolt to drive wheels to stand steady hard service for a lifetime. Never clogs nor struts a team unduly.

**First Wide-Spreading Spreader Ever Built**  
Laid now as it did when first invented 17 years ago. Called "New Idea" because wide-spreading was a new idea at the time.

**We've An Interesting Book To Give You**  
"Helping Mother Nature." This book is valuable. Tells facility facts you never dreamed of. Gives suggestions about the care and use of manure that will pay you to follow out. Don't take your copy—ask when you come in—it's waiting.

More residence in the United States does not automatically signify citizenship in the true sense of the word even for the American born. There is a whole lot more back of citizenship than the mere accident of birth. For citizenship in the full sense is based upon far more than birth place, length of residence, or declaration of allegiance.

All of us know men whom it would tax to the utmost to specify just wherein they had ever been of any particular value to the community. THAT CLASS OF FELLOWS ISN'T A CITIZEN IN THE REAL SENSE OF THE WORD.

There are folks among us now who have protested every restriction the government has found necessary to impose to further our interests in this war.

There are those who have dodged every duty the government has stipulated as essential to strengthening our war machinery.

And above all there are others who have refused to buy liberty bonds, or to contribute financially to any of the war aids that have been before us the last year and a half. MORE THAN ALL OTHERS THESE ARE NOT TRUE CITIZENS.

They not only evade personal service but individual sacrifices. They not only fail in loyalty, they slack in duty. They live upon but give nothing to the country. They are citizens in name only.

Germany is working on her ninth loan, so we can meet the Fourth with good grace.

Von Hertling, a chief mogul in the German government, refers to Americans as "intoxicated with victory" in a recent speech. This Hun official may yet change his opinion of a drunken nation when he meets the "Sammys" in Berlin.

The big siege guns are blasting away at many a town in Europe, by the American forces. This means they will be well shaken before taken.

The Germans are collecting old door knobs for munitions. The Yanks care not whether there is a door strong or not, for it is going to be a case of breaking the door in.

Politics was to be adjourned, according to President Wilson, but Judson Harmon and the Democratic brethren opened the campaign at Greenville last Thursday evening on the eve of the Fourth Liberty Loan campaign.

Postmaster Burleson has said that half of the newspapers in this country should be put out of business. No doubt this high official would sanction such a course, but those by the political faith supporting the administration would escape the execution. Burleson is not the first politician to wish such a penalty on newspapers.

This adjournment of politics has caused Director General McAdoo to divorce all railroad employees from holding municipal offices. All employees serving in this capacity have resigned. As for the political end McAdoo will care for that himself as a presidential possibility in case father-in-law declines the third term.

The way Postmaster General Burleson has shot up the telephone charges since the lines were placed under his control means that we will not have government ownership of public utilities very soon. With government control of the railroads, higher freight rates and increased revenue, the government has been called up to make up a deficit of several millions.

## WALL PAPER

You who are in need of Wall Paper and would buy at the old price have here an opportunity that is not often given you.

The Wall Paper buyer has just returned from the markets. He found that there had been a decided advance in price and a considerable shortage.

The 1919 stock of Wall Paper has been bought and a great deal of it is now on the way. To make room for it, every 1918 pattern is to be closed out.

This will give all clean new 1919 patterns for the coming season.

That is the reason for the most decided reductions that are here quoted on every 1918 pattern in stock.

Look at these prices—compare them with others—then make your selections. You will be saving money.

It was discovered that the ankles were not as badly injured as thought and that no bones in his body were broken. He has been improving as rapidly as could be expected.

All of the draftees who were required to register on September 12 will be interested in the outcome of the drawing at Washington Tuesday when each registrant will be given a social number. These numbers will determine the order in which the 19-36 men will be called for service as well as those up to 45.

An automobile accident caused by carelessness happened on Saturday evening at the intersection of Main and Chillicothe streets. A man named Stewart from Columbus failed to turn as directed by the semi-pho and ran into a machine driven by a man named Smith. Both front wheels of the Smith machine were broken down but no one hurt. Stewart paid a fine of \$5 and costs for violation of traffic rules, repairs of the broken machine and took Smith and wife on to their destination in Yellow Springs.

Word was received here Tuesday of the death of Roy Franks at the officers training camp at Norfolk, Va., on Sabbath. His mother, Mrs. John Franks, and daughter, Mrs. James Hopkins, of Springfield, left for Norfolk not knowing of the boy's death. A telegram reached them at Lynchburg, and they returned from there. The body will be shipped here for burial. There are seven children in the family and this is the first break, Roy having died from an attack of influenza followed by pneumonia. Besides the parents the deceased is survived by James, near Selma; Will, of Clinton; Amos, of Gladstone. Tom at home and Mildred in service in France; sister Gertrude at home and Mrs. Hopkins, of Springfield.

**German Soldiers' Hard Lot.** A German soldier's pay is roughly equivalent to 4 1/2¢ a day. But out of this he must contribute 1 cent 1/2 a day toward the cost of his dinner. Apart from the dinner, generally some kind of Irish stew, he gets nothing but black bread and alleged coffee, so most of the remaining threepence must be expended on additional food. Even the meager balance is not at his disposal. It is carefully kept in a small bag opened periodically for the inspection of the soldiers' officers, and if he can be convicted of the least extravagance he will be severely punished.—London Chronicle.

**Establish Bone Libraries.** Certain of the medical schools of the American universities have "reading libraries" in which bones take the place of books on the shelves, and are let out on exactly the same system as in a circulating library. The student, on paying the required fee, may borrow any bone in the collection, and, by reserving the loan every week, keep it for a month. Some of the libraries are valued as highly as \$25,000. A complete skeleton is worth from \$30 to \$100, according to its condition. A skull brings from \$2.50 to \$5, and a perfect specimen as much as \$50. Leg, arm and collar bones command a ready market.

**Cook Feed Thoroughly.** Bacillus is not a new disease. The bacillus was discovered and named by Van Ermengen years ago, when a German orgy of half-raw foods had caused an outbreak of sausage poisoning. Ermengen found whole colonies of the bacilli in a ham which as yet had not decomposed. The bacillus he proved, is dangerous whether admitted by way of the alimentary canal or subcutaneously. Kampner prepared an effective antitoxin, but the grand preventive is thorough cooking of food. Germany stayed her horrible plague of trichinosis when she began to cook smoked ham before eating it.

## French Sugar Mills Destroyed

France must import sugar today, because of this side of the ocean. Thanks to the French rationing system the annual consumption has been sugar beet land is in German hands. As a result, the French people have been pinched on a sugar ration of about 18 pounds a year for domestic use; had an average sugar crop of about a pound and a half a month. This 750,000 tons of sugar had some left over for export.

SEPTEMBER 28

## Do It the First Day

By Wilbur D. Nesbit

You know you are going to buy Liberty Bonds. You wouldn't be square with yourself if you didn't. You couldn't take off your hat to the flag with half the sense of ownership if you didn't. You couldn't cheer the marching line of troops with half the thrill if you didn't. You couldn't watch the Jackies go by with half the pride if you didn't. You couldn't glimpse a battleship off the coast with half the joy if you didn't. You couldn't read the war news with half the eager faith if you didn't. You couldn't be 100% American if you didn't.

You know the Fourth Liberty Loan starts September 28th. You know that buying a Liberty Bond isn't making a gift. You know you are simply lending your money to your Government—to the best friend you and your mother and wife and sister and daughter have. You know what security is back of your loan—security that means good interest and that your money will be paid back to you. You know all of that—you know the business side as well as the patriotic side of it.

Then, buy your Liberty Bonds the very first day of the Loan. Don't wait. Do your thinking beforehand. You don't need to consider it; you don't have to be argued into it—you know you will buy Liberty Bonds. Be one of the first to get the badge of honor—the Liberty Bond button. Get yours on the first day—September 28th. You know what an example that will set.

Make September 28th your Liberty Bond day. Could you do a better thing right now?
