## Prominent Xenian Suicide Victim Wednesday

J. Harry Whitmer, 60, prominent Xenia funeral director, committed suicide by shooting himself through the head at his home in that city, sometime Wednesday forenoon. He is said to have been despondent for some time owing to ill health.

The act was committed in an upstairs bedroom. His wife being away from home at the time but returned about 11 o'clock and found his body across a bed in a spare bedroom. He had used a .38 caliber pistol and had shot himself through the right temple.

So far as known he left no note as to why he committed the act and illness is supposed to have worked on his mind.

Dr. A. D. DeHaven was called and said Mr. Whitmer had been dead for about an hour. Coroner Haines had Sheriff John Baughn make a preliminary examination. Coroner Haines later rendered a verdict of suicide.

The deceased was the son of Rev. and Mrs. David Whitmer, a former minister in the M. E. Church. When a young man he became associated with S. B. LeSourd & Co. in the insurance business. Later he took over the undertaking business of Charles Johnson.

He was prominent in church and lodge affairs in his city and was a Scottish Rite Mason in Dayton.

## Greene County Out \$75.880 by Court Decision

The Supreme Court has rendered a decision holding the distributive portion of the classification tax law unconstitutional. When the law was passed two years ago and question was brought up but the law was passed just the same. The section held unconstitutional provided that all counties in the state collecting more than the amount formerly collected on personal property under the uniform law must remit the difference to the state to be distributed among the counties not coming up to their quota.

Assembly shall provide for raising revenue sufficient to defray expenses of the State for each year, and also a sufficient sum to pay interest on the state debt. The new tax law is not for raising funds for the state but for the counties and subdivisions and the state has no power to levy on such taxes collected for redistribution. In principal the law was wrong and as unjust as had rural counties been taxed to support the urban counties. In view that Greene county expected to share in the distributive share and had arranged her tax budget the way, the loss is placed at \$75,880 by County Auditor Curlett. The legislature will attempt to correct the law and several bills have been introduced all of which seek to tax the city counties for the benefit of rural counties. Cuyahoga county refused to collect the tax and did not even reach the quota under the uniform law.

## COUNTY DAIRYMEN GET AWARDS

Ten Greene County Dairymen were recently awarded diplomas by the National Dairy Association and their names added to the National Honor Roll of 1932 in recognition of their achievement of developing their herd of dairy cows to a high state of production.

Three of these herds averaged more than 400 pounds of butterfat per cow for the year. The herd of nine Holstein cows of Raymond Wolf averaged 428 lbs; L. H. Hartley's herd of 10 Guernsey cows averaged 416 pounds; and the Holstein herd of 17 cows of W. H. Ankeny averaged 404 pounds. These men are also members of the Ohio Honor Dairy Herd Club which this year held their annual meeting at Columbus during Farmers' Week.

Seven dairymen received the award for developing a herd that produced an average of more than 300 pounds of butter fat for the year and are as follows: Clark Meredith 360 pounds; J. O. St. John 355 pounds; Carl Bano 359 pounds; Miami Farms 350 pounds; Frank Wilson 337 pounds; Horace Ankeny 320 pounds; Mrs. E. E. Finney & Sons 317 pounds. All of these herds were in the Greene County Dairy Improvement Association and the milk of each cow was tested and weighed and a record kept of all feed fed.

## FORD COUPE STOLEN RECOVERED MONDAY

A model 1930 Ford coupe owned by Paul Orr, coach at the High School was stolen from Main street near the Gym Saturday night while he was in attendance at the College Home Coming dinner. He had left his key in the ignition socket and the thief had no trouble in getting away. The car was tracked in the snow towards the center of town. Neighboring towns were notified of the theft and Monday the Columbus police reported the car had been abandoned on a side street in that city. Apparently no damage was done. Mr. Orr had no insurance at the time but since then he secured insurance and has a new rule about leaving the key so handy.

## CARDINAL TO BE OHIO OFFICIAL BIRD SOON

By action of the lower branch of the legislature the cardinal will be the official Ohio bird. The Senate is expected to pass the bill when it goes to that body.

The cardinal is a year around bird and does not change its location with the seasons. Rich in color with the tufted head he is admired by all. He is noted for his disposition, yet is one that will stand his ground even when the jaybird is about. His voice is one of the sweetest in the bird world and no better choice could be made. The bill was offered by Samuel Dickerson, former newspaper publisher.

## FARM RETURNS ARE AUDITED

Records kept by a number of Greene County farmers and which were summarized many showed that on the average the total gross cash receipts for the year 1932 were 21 per cent less than the year 1931 and 50 per cent less than the year 1930 according to County Agent E. A. Drake.

The average cash expenses on these farms were 14 per cent less than in 1931 and 41 per cent less than 1930. It will be noted that while expenditures had been reduced, the reduction was not in line with receipts. This is due to the fact that overhead costs have remained fairly constant and that communities which farmers buy have not declined as fast as the products which he sells.

The average size of the farms were 104 acres of which 85 acres were in crops. Dairy sales per cow were \$59.50, egg sales for hen \$1.69 and an average of slightly more than 11 pigs per sow raised during the year. On an average \$1108 worth of feed was fed so productive livestock which when sold returned \$128 for each dollar's worth of feed fed.

The records which these men kept consists of a record of receipts and expenditures plus an inventory at the beginning and end of the year on the farm business. It does not include the food used in the home or any of the other household expenses.

## COLLEGE BOARD HOLDS MEETING

The semi-annual meeting of the Board of Trustees of Cedarville College was held Friday afternoon. Reports indicate the college will not increase the \$4,000 deficit which was carried over from last year. This is in marked contrast to what many other colleges and universities are facing this year.

The budget for next year was under discussion and will be completed at the annual meeting in June. The present members of the faculty were offered renewals of their contracts for another year. Appointment of an additional faculty member, as an assistant to Prof. A. J. Hostetler, in the educational department, was authorized. The largest enrollment is that department.

President W. R. McChesney and Prof. F. A. Jurkic, the latter treasurer of the college, submitted their reports. The enrollment shows an increase as compared with last year while many colleges report a decrease this year. The treasurer reported an increase in the endowment fund.

The names of two persons were submitted for honorary degrees at commencement in June. The question of continuing football was discussed from all angles but no definite decision was taken to discontinue the sport at this time.

All members of the board were in attendance except three. The out of town members present were Rev. W. J. Tilford, Xenia, secretary of the board, Rev. W. P. Harriman, Dayton, Rev. W. R. Graham, Lafayette, Ind., president of the board; Rev. James L. Chesnut, Richmond, Ind., and William Collins, Columbus.

Rev. Falkenberg from WAU, Columbus, will speak in the Presbyterian Church, Sabbath evening, March 19.

Rev. Ralph Simison of Trinity M. E. Church, Xenia, will address the Y. W. and Y. M. Wednesday morning.

## Penny Sale Plans Did Not Materialize

Cedarville has received much unfavorable more or less word of mouth publicity within the past two weeks over what was to be a "penny sale" as a result of judgment on the owner by the State Banking Department, liquidating The Exchange Bank. Several meetings have been held in a more or less secret manner at the Pennsylvania Stockyards planning for a "penny sale" when certain farm stock and equipment went on the block under orders of court.

The interests of the bank were in the hands of the state and the court and those responsible are said to have taken precaution and had arrangements made for definite action had those sponsoring the movement attempted to carry out their threat. The sale was held Thursday but something must have happened. Many of those that attended the first meeting did so not knowing the motives and the reason for such action. When properly informed they washed their hands of it and had no more interest in the movement. Those that continued gained nothing more than land on the black list as "bad credit" in more than one place. The sale was orderly and even the former owner made no attempt or display to check the sale.

What's happened has happened and when a bank goes into liquidation all property falling under state control by court decree is then the property of the depositors and not the creditors of the institution. When a set of men attempt such underhand tactics they are not only subjecting themselves to certain legal redress but are injuring the cause to realize for the depositors. When the financial interests of the different taxing districts in this and neighboring counties; the college, building and loan, churches, Sunday Schools, clubs and individual depositors are at stake those who would add more loss to what has already happened, were attempting to fill a large sized order.

It is not likely that such a move will be started soon in this vicinity. If so the next step will be to organize a "Depositors Committee" to work with the state authorities and this committee will hold no meetings under cover of night in a secluded spot. The sooner the incident is forgotten the better it is going to be for those who attempted to pull Klu Klux Klan stuff in a Scotch-Irish Presbyterian community.

HIT DOG ALWAYS HOWLS LOUDEST

The United States Senate has been insulted and a seventy-three year old employee has been discharged to aid in healing the wounds and sooth the imaginary pain, all as the result of a story published in an Eastern monthly magazine that cast some reflection on that august body, without mentioning names.

The public holds its nose when it thinks of how the Senate could be insulted, individually or as a body, after what has taken place the past few days. It is now a body that evidently belonged to that form of amusement that the late Barnum once sponsored.

The incident in connection with the magazine article has a humorous side as well as serious. Members of the Senate have time and again made serious charges against each other and nothing was done about it. Only a few weeks ago a Senator made the charge that members he could name were on the payroll of Wall Street bankers to foster or defeat legislation as they demanded.

The general public still has its own opinion of the Senate as a body regardless of what the membership does to wash its own linen. The public is more concerned in accomplishments and it cannot be boasted that the upper house has often stood for the interest of the greatest number of citizens.

Why members should get excited when no names were mentioned we do not believe anyone knows. It will be recalled that senate members under the Harding and Coolidge administrations defended many of those responsible for the plundering of the treasury and selfish appropriation of valuable resources that belonged to the government.

OHIO SUPREME COURT COMES TO THE RESCUE

The Ohio Supreme Court handed down one of the most important decisions Tuesday in recent years. It tore a dangerous hole in that monstrous classification tax law that was sold to the public as a means of leading us to that modern utopia of no more taxes.

At the time the bill was under discussion there were many that did not like to see any limitation of rates on real estate. The law was finally fixed so that land would be protected but those sponsoring the bill gave certain interests to understand that improvements in town, city or country could always be increased in value to raise more tax money.

One feature of the freak law provided that to make up for loss of revenue collected or uncollected under the old uniform law, counties that collected more than a certain percent of tax revenue from their citizens, this would be distributed to counties that did not come up to a certain percent.

In as much as municipalities, schools and counties have been working under the law and arranged tax rates in view of the distributive feature, will now find themselves in a greater financial turmoil than ever.

BANK TAX MAY YET FALL ON STOCKHOLDERS

Ohio tax spenders the past few years have let little escape and to heap the treasury pile higher a tax was placed on all the national banks in the state.

Two years or more ago the State Tax Commission ordered county auditors to assess the tax on holders of all national bank stock in Ohio. This was done and such holders were to be held for the tax the banks had refused to pay, which was not the same as levied on other financial institutions.

Gov. George White had fairly easy sailing during his first term, even with a Republican legislature on his hands. For his second term he has one branch with him while in the other the membership is divided equally.

GOVERNOR WHITE HAVING HIS TROUBLES

Gov. George White had fairly easy sailing during his first term, even with a Republican legislature on his hands. For his second term he has one branch with him while in the other the membership is divided equally. Democratic members do not seem to agree with the Governor on many issues.

Ohio adopted the initiative and referendum back in 1912 and it was the intention of the constitutional convention, and the way was paved, to make it possible for a referendum on all legislation.

What looked like a ruckus in county Democratic circles turned out to be a love feast last Saturday from all reports we get. It seems the Xenia post office was the prize but this is not the first time a post office has injected trouble in political ranks.

The village council after the experience when the fire department, was called to the recent Bringer fire which was out of the corporation, brought action at the Monday evening meeting when a resolution was passed to forbid the apparatus to be taken out of the corporation for any fire.

Some idea of how the post office department has been operated can be gained from reports of what it costs the nation to keep up the air mail service. Railroads and steamship companies get a fat haul also and the deficit runs into many millions.

**W. C. T. U. NOTES**

Sponsored by Cedarville W. C. T. U.  
A wet newspaper says: "The Congressman who succeeds in making a 'non-intoxicating' beer with a 'kick' should be promoted to the diplomatic service." We would suggest that he be sent back home to learn that a congressman's chief duty is not to represent the brewers.  
Since the wets did not get their beer by Christmas they might use a new slogan and say, "Beer by All Fools' Day."

In the Volstead law the liquor men's own definition of intoxicating liquor was used, or one half of 1 per cent. They then demanded that all dealers and liquor of over one-half of one per cent of alcohol be licensed to prevent bootleggers handling intoxicating drink. Now they tell us that a per cent beer is not intoxicating.

Dr. Haven Emerson, head of the College of Physicians and Surgeons at Columbia University recently said in an address that the essential value of prohibition from the medical viewpoint had been borne out by intensive study on the part of scientists and medical physicians.

"All my life I have lived in the presence of fine and beautiful men going to their death because of alcohol. I call it the greatest trap that life has set for the feet of genius; and I record my opinion that the Prohibition Amendment is the greatest step in progress taken by America since the freeing of the slaves."—Upton Sinclair.

No profounder disaster could befall this nation than the surrender of an ideal, an ideal embodied in its basic law, proclaimed to all the world and demonstrated to be just.

Let the movement for repeal be resisted by every element in America that would preserve the essence of our freedom, the meaning of our history, the basis of our advancement, and the character of our most sacred obligations to humanity.

The Macon, Ga., Evening News says: "The militant utterances of the delegates from 43 counties who met to organize the Consolidated Forces or Prohibition made it clear that the carriers against the legalized sale of liquor in that state will not be let down without a tremendous struggle."

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for February 12 JESUS TEACHING BY PARABLES -FOUR KINDS OF HEARERS

LESSON TEXT—Mark 4:1-20. GOLDEN TEXT—Hear ye my Father glorified, that ye bear much fruit; so shall ye be my disciples. John 15:8.

TOLE JUNIOR TOPIC—The Right Way to Hear. INTERMEDIATE AND SENIOR TOPIC—How to Hear. YOUNG PEOPLE AND ADULT TOPIC—Fruitful Christian Living.

In order to understand why Christ at this time began teaching in parables, we must consider the nature of the hour in his ministry. Opposition to him was becoming more definite and hostile.

The rulers had set their hearts against him. When in the light of his wonderful works they turned against him and attributed his works to the devil (Mark 3:22), he denounced them in scathing terms and began to teach in parables in fulfillment of Isaiah 6:10.

A great multitude gathered to hear him at the seaside (v. 1), so that in order to escape the pressure of the crowd he was obliged to enter a boat. From the boat as a pulpit, he taught many things in parables. In the parable now under consideration, the sower and the seed are the same in all instances, but the results are entirely different. The difference lies in the condition of the soil. The central purpose of the teaching of this parable is to show that the results of preaching the Word of God depend upon the condition of the human heart.

I. The Wayside (vv. 4-15). The wayside means not the road but the tract between the fields beaten down by the hoofs of animals and the feet of men. Because the soil was unbroken and uncultivated the seed could not get underneath the surface, and therefore was devoured by the fowls that came along (v. 4). The great truth taught here is that the heart unbroken and hard is not fit soil for the gospel. Such a heart it penetrates not, but lies loosely upon its surface. The gospel is not given recognition by such hearts as God's means for restoring them unto himself. Because of this condition the evil one finds some way to snatch away the truth (v. 15).

II. The Stony Ground (vv. 5, 6, 10, 17). This means not stones mixed with soil, but stones with a thin layer of soil on top of them. With such condition the seed springs up quickly and likewise scorches quickly because it has not depth of earth. The great lesson is that, choke the word and it becometh unfruitful (v. 19). The thorny ground hearers of this world are those:

1. Who are so immersed in worldliness, business and anxious cares that the good seed cannot come to fruition.

2. Who are rich. Anxious care in business brings riches and the effect of riches is to blunt the spiritual perception of men and women, thereby rendering them unsusceptible to God's call to higher things in life.

3. Who are running after the pleasures of life. Many of the enjoyments of the world may be innocent in themselves but they attract so much attention and consume so much energy and time that Bible reading, meditation, and prayer are crowded out. All these things choke the Word.

IV. The Good Ground (vv. 8, 20). This ground is different from all the rest. It is soft and mellow, and deep and moist. Therefore, it is capable of bringing forth fruit—some one hundred, some sixty, and some thirtyfold. This indicates that even the good ground, the honest hearers, gives forth different degrees of fruitfulness. In the measure that the heart is kept free from worldliness, riches, and pleasure, the good seed matures.

Continuing Love One cannot think that any holy earthly love will cease, when we shall be like the angels of God in heaven. Love here must endure our love there, deeper because spiritual.

Trust in God God will not take away our immortality, because we have so little enjoyed the hope of it. Rest your head, childlike, on the one visible arm of the Paternal Deity, though you cannot see distinctly where the other and outstretched arm is pointing. That leads not, wrong.—W. Smith.

The Sabbath I feel as if God had, by giving the Sabbath, given fifty-two springs in every year.—S. T. Coleridge.

ACCESSORIES ARE HIGHLY IMPORTANT

There is just one rule for fashion this year and that is 'buy fewer things, but the best quality your money can buy'.

Asked for the season's ten commandments by which the well-dressed woman must abide, Miss Helen Cornelius, associate editor of Harper's Bazar, made it emphatic that the above, single commandment held for every woman, be her income what it may.

According to Miss Cornelius, this year of grace will see the buying tendency one of getting the best for your money—quality will be spelt in capitals.

Sending a message to the young woman whose salaries are small, the stylist begs that one heed the importance and elasticity of accessories. She suggests that the wardrobe fund be well-nigh exhausted in a few tailored gowns and the surplus be invested in new all-important collar and cuff ensembles.

No Quiet Place

Talkies in the home are now possible, we are told. With player-piano, phonograph, radio and talkies all going full blast at the same time, with cats howling, dogs barking, babies crying, older children yelling and parents arguing, the modern home should be a peaceful refuge.—Worcester Telegram.
