November-December 1874 journal paints a beautifully intricate picture of who Martha McMillian was. During these two months, Martha shows readers she is more than just a farmer’s wife to James McMillian. She is a sister, a mother, a friend, a neighbor, an employer, and a writer. All the while, she delves into different aspects of humanity which we, in today’s world, experience in mundane life. Martha’s ability to navigate daily, mundane life and find the beauty in everything around her is an attribute everyone should master.

Different themes which Martha gravitates to during her early years of journals include, but are not limited to: farm life, change and transitions, death, and sickness; however, during November and December of 1874, Martha writes with a strong focus on sickness. From the end of November until the end of 1874, James McMillian, lovingly called Jamie by Martha, is found in and around the farm more than recorded in the month of November. When he suddenly falls ill in early December, family and friends are surprised and worried. During this illness, James was plagued with restlessness and many visions all around him, which scared Martha; additionally, Fannie, Martha and James’s eldest, fell sick during the second half of December. Throughout the fog of sickness, Martha still found the beauty of nature which God brought to each day, one time even stating, “The Sun came out beautifully for a very little while this morning” (16 Dec 1874). Even through the struggle of watching her husband hallucinating and having her little daughter Fannie sick, Martha never lost sight of the little things in life, like the weather, which brought beauty and joy to her otherwise clouded days.

Within the pages of her life writing journal, Martha records the many struggles in life trying to find the good, heavenly pieces of the world – one such struggle was the sickness of her
husband and daughter. Similarly, people today are still plagued with sicknesses of many kinds, or they are taking care of loved ones who are sick. There are those today which are extremely ill like James McMillian was, and others are mildly sick like Fannie McMillian. Either way, every one of us need to find the beauty and the joy in the everyday struggles just as Martha does in her November-December 1874 journal.

Jesus blood

“If all the sins which man have done. In thought or will, in word or deed, Since worlds were made, or time begun, Were laid on one poor sinner’s head, The stream of Jesus precious blood Could wash away the dreadful load.”

How glad I would be if every man woman and child, in this world had these lines printed upon their hearts.

As a general thing those with whom we associate and love in this would will be our companions through eternity - These words implies a belief in the immortality of the Soul. It is the body which dies and the soul passes to the eternal world with all its powers which it possesses only greatly increased. Every individual however poor possesses a treasure of more importance and value than all of this world. The Soul is not only immortal but Soon must find an abiding place in the eternal world - for these bodies must Soon return to dust - we must all be gathered to the grave - And again there will be a gathering day in the day of judgement. Here the tares and the wheat grows together. Then then the harvest will have come. And Oh in that great harvest day there will be many painful separations There will be Separations in families in church and between beloved friends 0 the horror of that hour when a husband shall be on one Side and the wife upon another - or when the parents shall be gather upon one side and the children upon the other - But 0 the glory and everlasting blessedness of that family which shall be gather as unbroken band upon God’s right hand to dwell forever in the glorious home in heaven. O the blessed light which illuminates the way to that home of eternal blessedness beyond deaths dark inner - O That blessed light which that babe of Beth-leham brought to a lost world - for he is light - in him there is no dark-ness at all. It is now after midnight while I write - how very sad and lonely I feel - O how much I wish he was well again - If he could only sleep - It is now after three O'clock in the morning - Since I wrote the other page I laid down on the bed a few minutes when Sister Matt told me to come to Jamie. He had been sleeping for near two hours - the first sleep he had since he has taken sick - and when he woke he seemed transformed into another being - in his sleep he had been carried through fields of light and across rivers and over mountains for thousands & thousands of miles from home. And never stopped till he came to the gates of the heavenly world. And the glory and brightness with which he was surrounded was indescribable. In his journey to that city all along those numberless miles over which he passed the way was strewn thick with temptations but he would not stop for any of these but pressed straight forward. In his course he passed through beautiful scenery and by beautiful buildings and if any of these were in his way they parted and let him pass through. When he awakened he seemed transformed into another being. He seemed wonderfully impressed with the glasses of heaven and with the love of Jesus - And felt disappointed to know that he was still here. He said if that was what heaven was he was willing to all and go he said he saw it all plain now - And was willing to trust all to God his soul business and everything and he knew all would be well.
